It appears nothing can be done further at present lowards perfecting the plan of the Producer's Agency, until it has been legalized by se act of the State Legislature. To enable the members of the Legislature who reside at a distance from the oil region, and probably de not understand the merite of the questions at issue, we are informed the tation to a large number of said members to meet them at Oil City on or about the 10th of the present month, to confer together in the matter. A large number of the mem-bers have signified their intention of being present at the meeting. The movement is a good one and we hope will be carried out

The question is frequently asked us bow it comes that toll is yet charged on the Egbert farm bridge, when it was reported for a fact some months ago that the County Commissioners had purchased said bridge, under instructions from the Court, either to buy the bridge or build a new one, the in/ tention being to make tt free. Will the honorable County Commissioners explain to what "drawer the red tape lies," or where the "kink" is. The traveling public hereaboute would very much like to know.

George W. Winsor, Esq., the well known denier in hardware and oil well supplies, is the agent for several styles of the finest out burning stoves, with the very latest improvements, for both parlor and kitcher, that we ever saw in this region. Especie ally so is the large elegant store now in see in their store. It's really worth taking a lock at if nothing more.

On account of the heavy storm of Satur day, no meeting of the Producer's Associa-

Mr. T. J. Tropp, of Williamsport, bes inested a boom which floats upon the surface of the water, for the collection of the waste oil floating upon the streams in the oil reg. ions. The top part consists of wood, and attached is a rack to prevent floating substauces from mixing with the oil. This rack also creates a diversion of the carrent, and forces the oil to one corner of the boun, where it passes out through tubing into the vessel lateaded for its reception. winter it can be placed under the los, so constructed as to prevent the oil from mixing with the ice. By this invention clean water can be afforded, and the oil that is now wasted all gathered. Judging from the motor, it will prove a grand

In the U. S. Court, held at Erie, last week, the following suit was tried:

In a collision at Rouseville, August 15th 1868, between a construction and a freight train on the Oli Creek & Alleghony River R. R. Michael, son of Oatharine McElligott, was killed. The mother brought suit for \$5,000 damages. Verdict for defendant.

Speaking of our neighboring village of Kase City, a down creek exchange says:

This "city" has two hotels, three general stores, two groceries, a good hardware store, a newsroom in the post office building, a two-story school bouse for one hundred and thirty pupils, on unknown number of dwelling bouses, and a social, kind bearted class of residents who never "raise Cain."

There are about forty producing wells on the Brown farm and several new ones drilling; there are also about forty on Kane

The Parker City Transcript is the nam of a new paper published daily at Parker's Landing, by Johns & Jackson. A looks well and we wish it well.

The large amount of snow that has fallen for the past day or two, from present appearances to go off about as feet as it came on. Raining and thawing fact.

We bear it rumored that the Agency are to commence buying oil this week, paying therefor \$3 in each, and certificates for the balance of the \$5. This will be good news to our oil men and business men generally.

Our friend Harper, of Kane City, completed a well on the Morrison tract, adjeinlog the Brown tarm, Cherrytree Run, on Saturday, which proves to be a dry hole .-Not even snough oil to "greate a bull wheel in good shape." Never mind, old boy, we hope the next one will turn out better.

Monre-ville, Beaver township, is des 1 nd to become quite a town. Over twenty building lots bave been bought with the past month and buildings will be put up in the spring. The oil developments are doing wonders for Beaver.

A new well was struck last week on the Eli Ritts farm, in Beaver township, and bas been doing 15 or 20 barrels. Several other wells are going down in the same vicinity, which would have been finished had sot the horse disease retarded the work.

The East Brady Independent says: The approach of winter seems to have little or no effect upon operations in the lower oil reglone. A falling off in drilling neually comes with the winter but this season seems to offer an exception to the general rule. New rige are being erected on every farm in this neighborhood, and new wells are starting daily, notwithstanding 'the difficulties encountered drilling in the winter months.— The unprecedented number of large wells struck in the lower Oil Regions in the past Producers have unbounded faith in this ter/ ritory in the entire Oil Regions. There is none so great in extent, and at the same time some so rich as the territory in Butter Armstrong and Clarion counties.

OFF FOR BARBADORS -- Mesers. H. H. Agels and Frank Murray left here on the three o'clock train Wednesday afternoon for Boston, from whence they will sail to-day (Saturday) for one of the West india Islands called Barbadors. Mr. Adail, who has been to Barbadoss before, returned to this place a few weeks since as the agent of an English company that purposes putting down one of more of wells on that island, and takes back with him a complete well rig which he purchased from Mesers. Theyer and Jamison Mr. Murray, who has long been known as one of the best drillers in the ell region, accompanies bim as an employee. - [Rouse/ ville Pennsylvanian.

The town of Sterling, Illinote, bee "bit upon sa excellent temperance measure. has passed an ordinance providing that the doors or windows of drinking extoons shall surplus gas in Johnstown last Saturday be obscured by means of screens, paint, or other devices to cooceal what is going on within. The proprietors shall be liable to a fine of from \$5 to \$20. To fight darkness with light is wise generalship, and the idea to one which, if it can be earried out, will serve an excellent purpose.

A Wisconsin Crongressman is taken to task by the press of that State for sending out under his frank over five bundred wedding carde for a relative.

ARRESTED. - Mathew Lucas, a colored man, was arrested by officer Schenfpocker. in this city yesterday, on the arrival of the Franklia train, upon information received by Chief of Police Boyd that He bad shot and probably mortally wounded a man in an alterestion in St. Petersburg, where he Lucas) resides. An officer came on last night and took the prisoner in custody, and returned with him to Clarion county. The wounds inflicted were in the his and shoulder, and it is not thought will prove fatal.

According to Lucas' story, this man was following him up with a butcher's cleaver, threstening to kill him, and that he, Lucas, was endeavoring to get away from blm, and fired several shots. That he fled from the the place fearing the mob might do him injury. The wounded man is a stranger in St. Petersburg.—[Mendville Republican.

S. N. Leisp and others, have just made a good strike at Petrolia City. One hundred barrel wells are as good for him to have as well as others, and all is well that ends in se good an oil well.

G. Wallace Delamater has been equally fortunate, yet more so. We learn he has made a big hit in the chape of a 250 bbi.

Both these wells are on the Grabam farm, Petfolla City .- [Parkers Landing Transcript.

We hear of a daily paper being started in Frankin by Bloss & Cogswell of the Titusville Herald. We have not yet learned the name of the paper, but expect soon to see it. We auticipate for them a large circulation. We wish them success .- [Emlenten

WINTER.

BY H. W. LONGFRLIDW.

O, the longland dreary winter! O. the sold and ergel winter! Ever tolcker, thicker, thicker, Froze the lee in lake river, Ever deeper, deeper, deeper, Fell the snow e'er the landscape Fell the covering snow, and drifted Through the forest, round the village.

Hardly from ble buried wigwam Could the hunter force a passage; With his mittens and his snow shore Vainly walked be through the forest, Sought for bird or beast, and found noue; Saw so track of deer or rabbit, In the snow behold no footprinte; In the ghastly, gleaming forest Fell, and could not rise from weakness. Perished there from cold and hunger.

O, the femine and the fever!

U, the westing of the famine!

O, the blesting of the fever!

O, the waiting of the children! O, the anguish of the women!

All the earth was sick and famished, Hungry was the air around them, Hungry was thucky above them, And the hungry stars in heaven Like the eyes of welves glared at them,

On. Naws .- The Bell and McDonald well, on McClymord's farm was tubed res cently, with a good show.

Wm. Saughton has purchased Mr. Reep's interest in the Major well, on the Adams farm, near Karne City. The well is pumping 75 barrels a day.

In a late issue we said the Angell No. 1 since being torpedoed, was good for 75 barreis a day. We have seen her pumping more recently and believe she is a 100 bar/ el well. C. D. Angell & Co., owners.

Ivanboe No. 2, in Argylye, owned by the Jamison farm Co., was tubed on Wednes-day of last week. The well made a good show, and will probably produce 50 barrels

The valley between Argyle and Petrolia and the hill side on the eastern side of the stream, presents a stirring appearance .-Derricks seem to be the natural product of the soil.

C. D. Angell & Co., own three hundred seres of land adjoining the McClymonds farm, which will be developed at once .-Two wells are drilling jat the present time. They poschared the property last spring for \$50,000; and torday it would bring twice that amount.

In another place we state that W. G. Stoughton had bought cut A. J. Resp in the Major well, on the Adams farm. Since that time be has also purchased the interests of Mr. Sanderson and Turner, and new owns the controlling interests of the well.

The proprietors the Scudder and Camp, bel No. 1, are disposed to crow over the time made in drilling that well, and with good reason, we think. The hole was drilled 1405 feet in the upprecedented time of forty seven day s, with four fishing jobs .-The Baidy boys and "Canada Jim," dressers and drillers. If anybody in this region has benten that time we should b glad to hear from them.

Another good strike on the McClymond. farm. Last week we visited the Boyer, No. 2, on this farm, and found her making a splendld show. Drilling was not yet fine ished and the weil was flowing, periodically, at the rate of about seventy five bar, reis a day. In consequence of the frequent is the well in which the heavy vein of gas was struck in the second sand, as reported in this paper a few weeks ago .- [Eastbrady Independent.

The State of Kentucky, which assumes to be civilized, has enjoyed another whippingpost exhibition. The county of Caldwell has this time done itself honor to haul a baman being up and last bim.

Two Baltimore girls bad a quarrel reoeatly, and taking seconds and a male referes, went outside the city to settle It .-They stripped to the waist and pounded sway for ten rounds, when, as neither could see to pound any longer, they called it a

The discovery of oil at Sheboygan, Michie gan, is reported, and in Georgia, on the line of the Mason railroad, the water is said to be so impregnated with oil that it cannot be used in locomotive boilers.

The value of lands in the oil territory of Washington county, Onio, is reported by the Marietta Register to be rapidly advancing, and it is believed that Petroleum abounds there in great quantities.

The foundation of the oll business is laid in sand-third sand.

No excuse for not reading the Bible now It is printed to Esquimeux.
