Council fires lighted at 7 o'clock.

H. HOWE, S. echem.

### A. REYNOLDS, Chief of Records.

Gold at 1 p. m. 112 1/2

The party given for the benefit of Mr. G. W. Wilson, last evening, was a grand success in every particular. Early in the evening a large company assembled, and the dancing was kept up to a late hour in the morning, when the party separated satisfied that a better time could not have been had under any circumstances.

Mr. Wilson derived from the proceeds of the party upwards of \$200, over and above the expenses.

We cannot refrain from mentioning, in this connection, the liberality of our former townman, Mr. Harry Derouane, who gave towards the general object upwards of \$50. Mr. Derouane is certainly entitled to the thanks of Mr. Wilson and his many friends, for his liberality in this case.

We cannot, in this connection, refrain from mentioning the name of Mr. Joe. Chesnut, of Columbia Farm. Mr. C. was the main worker in the enterprise and sold upwards of \$100 worth of tickets. He is certainly entitled to a large share of public praise for the part taken by him in a worthy object.

We received a call, this afternoon, from Miss Lizette Fries. Miss F. states that a certain "low" reported in the Record a few days since as occurring at the "free and easy," did not occur there but at the place of one Turner. We have no desire to injure Miss Fries and therefore make the correction.

We notice our old friend, Mr. Harry Derouane, of St. Petersburg, formerly of this place, is town today. Mr. D. we are pleased to hear is doing well in the lower country and is not hard up since his well run "dry." Good enough!

The Standard Oil Company, of Cleveland, telegraphed this morning to their agent at this city not to receive any more oil. Of the 14,000 barrels allotted to this district, to be received by the above company, but 8000 have been shipped, leaving a balance of 6,000 barrels. The amount of oil assigned to this company was between 53,000 and 54,000 barrels, and they have taken some 30,000. We are also informed that less than one-fourth of the 200,000 barrel contract had gone out of the country. A gentleman from up the creek says that telegrams have been received up there not to load any more cars with oil.—[Oil City Telegraph.]

Another oil well, called the Preston, has been struck at Greece City and is flowing two hundred and fifty barrels per day.— This being the third well struck in succession, and successfully, the announcement may be expected at any time. "Another well struck—five hundred barrels a day." Butler county is now undoubtedly the oil field. Oil is now conveyed by a new pipe line, which has lately and prudently been completed to this place, and oil is exported in great quantities. The rumor of this new development will undoubtedly cause an intense excitement.—[Commercial.]

People who have any taste for cigars will rejoice to learn that Connecticut agriculturists talk of giving up their tobacco crop and go to raising beets instead.

A nephew of Napoleon Bonaparte is said to be practicing medicine at Marine City, Michigan, and boasts that he can kill people faster than his uncle ever could.

A Georgia negro was overpaid \$100 on a check by a bank, and he returned the money. The local paper says this is another evidence that the race can never be civilized.

New Hampshire has a minister too poor to own a B.B., and who has to borrow one to preach from.

The ladies of Titusville get together in crowds and go out to hunt rabbits. The rabbit crops hasn't thinned out any, however.

A lady's hat, with all its trimmings and a bandbox, was lately sent from California to Maine for eleven cents postage.

No man is admitted to a Georgia prayer meeting until the presiding elder seizes him for concealed shot guns and carving knives.

### PLUMER ITEMS.

The Plumer youths have been perusing (at the solicitations of pater familias) the Derrick and Tidbits Journal and thereby hangs a tale. Mr. T. M. Foley, formerly a resident of this classical village, now of Franklin, being a noted coxswain, and having an inordinate desire to indulge in the exhilarating sport come to Plumer to satisfy his boyhood propensity. Upon being interrogated as to the reason why our county seat lacked the facilities necessary to gratify his loving "boys," he replied curtly, "not satirically 'you see when you get up to the fence upon the hill you come down so fast that you endanger your life by running into the fence below." The boys here watched our sciences coxswain, "Grand Duke Alexie," against Foley. The race came off yesterday and resulted as follows: first heat Foley; second heat Grand Duke. Third heat was the most interesting and exciting and resulted as follows: Foley ahead Grand Duke swimming around in the pellucid waters of Cherry Run very much to his discomfort and enjoyment of spectators. His excellency was seriously injured, to say nothing of broken sleigh, soiled linen, &c. Pin money was lost and won freely on the race. Doc Mease rendered the decision in favor of the "stone pavement entry."

Quite a large delegation of Pitohole-Terpichorean artists had a social dance at the Plumer House where they were cared for by the friend host. Among those present were N. H. Perkins, Col. Isaac Doonitz, and R. R. Friesland. They had good music, good supper, and good talk and all were well satisfied veritably around their intention of coming again.

A gentlemen in Richmond attended a theatrical performance on Saturday afternoon, and when going out with the crowd at the close, discovered that he had lost a valuable watch and chain. The natural conclusion was that the property had been taken by a pickpocket. It appears, however, that in the crush to get out of the theater, the chain of the watch became entangled in the fringe of a lady's sequin, and thus both the watch and chain were drawn from the owner, and hung to the lady's garment without her knowledge. The time piece was promptly restored.

Several young ones have been taken in the Sacramento river, and are considered products of the spawn taken to California by Seth Green in July, 1871

Jennings & Evans' well on the Dougherty farm, between Fairview and Petrolia has been completed within a few days, when our reporter visited the well it had filled up about twelve hundred feet. The tubing was on the ground ready to be put down.— It will be a good well.

The Karns well, at Greece City, was tubed Monday. It was an oily undertaking and was accomplished with much difficulty. Its production is said to have increased since the pump was started.

Vausudall, Mawhinney & Co's. "Mary Ann" well is a wonder in its way. The owners would like to "shut her down" if they could, but she refuses to be shut.— When the pump is stopped the wells flows all the same. Their tank capacity is about all occupied, they having near two thousand barrels of oil on hand, and more coming.

Shidemantle No. 1, on the Griswell Bro's. lease, near Petrolia, has produced 7,000 barrels of oil since the latter part of August. The well is still producing forty barrels a day.

Milchamp Brothers have the timbers on the ground, and will soon commence a new well at Buena Vista.—[Fairview Reporter.]

The largest oil well ever obtained in this section, owned by McCleary Bros., of Island Run, and located on J. & F. McLaughlin's farm, Ohio township, about a mile south east of the celebrated Mason well, on the east of Dry Run, which empties into the Ohio at Smith's Ferry, was struck last Friday, tubed and partially exhausted on Saturday, flowed through casing on Sunday an hour or so, ten barrels, when the gas which was abundant, taking fire, the further testing of the well was suspended. We are informed by oil men of good judgment that the show and partial test indicate, for the Smith's Ferry region, that the well will be from twenty to forty barrels, while others claim one hundred. The strike has created unusual excitement from the fact that it opens a new field for oil operations and demonstrates that the oil belt is more extensive than was before believed.

[Beaver Radical.]

Ned Buntline, Buffalo Bill and Texas Jack, will be the next sensation at the Opera House, Meadville.

Much fault is found with the manner in which business is transacted by the Chicago Custom House officials, whose tardiness often results in great inconvenience and loss to merchants.

What shall be done about Chinese slavery in Montana? The Virginia City Moonshiner says that nearly all the Chinamen who come to the territory are owned by California speculators, who buy and sell their countrymen like cattle.

A seemingly practical suggestion is made that a fire alarm communicating with the office could be placed in each room of a hotel, by which the guests could be simultaneously aroused. The plan is worthy of a trial at least.

At the burial of a female spiritualist in Baltimore, last week, a nephew of the deceased delivered an address, contending that although now lying in her coffin, she was still hovering over the audience.— He argued that his aunt was dead, but was encamped between earth and eternity. He ridiculed the idea of death, and contended that all who died in the faith of spiritualism only left the earthly tenement of clay to confer benefits on those left behind.

Minnesota papers complain that the army clothing give insufficient protection against cold. The allowance and kind of clothing for soldiers in Dakota is the same they would receive if stationed in Florida.

The following is a Philadelphia dispatch: The news from Ninth and Chesnut is, We learn from Mr. Gardner, That Lister Smith returns to biz, And Geary is his partner.

A new paper in Texas starts out with the announcement that "in religion we are conservative, and we intend to adhere to the cash system."

In a recent disastrous inundations in Italy, about \$33,287 acres of land were under water, besides much other land being covered with mud and sand.

According to the reports of the proceedings of the Petroleum Producer's Council, which appeared in this morning's Titusville and Oil City papers, the Combination is virtually dead. This is what a majority of the producers in the Eleventh District always supposed the affair would amount to. In the meantime oil remains at \$32.20 per barrel with a downward tendency.

Let 'er rip!

### STORWARD,

Will be paid for POSITIVE information as to who took a letter belonging to me from the Petroleum Centre Post office on about the 8th of this month. WM. GARDNER, Pioneer, Pa. Jan 15 '81.

The small producers of Clarion County met in council recently and passed the following resolution.

Resolved, That in consideration of the position taken by the "large producers" in the matter of the combination that the "small producers" of Clarion county, do hereby resolve that we the said "small producers" don't care a d—n, for the combination or for the "large producers" or for anybody else, and that's what's the matter with Hannan!

A part of the Pioneer ice went out this afternoon.

Trouble is expected when the Columbia ice gorge goes out.

Travelers visiting this place would do well to call at the McClintock House. Uncle John Halbert will always treat them well.

They have smart thieves out in Milwaukee. One of them adroitly despoiled a lady's cloak of \$150 worth of lace while she was in church recently.

The Comptroller of New York city paid out during the four months ending October 28, 1872, \$22,494 as council fees, etc., in the suits against the Tammany thieves, none of whom have been convicted.

Magazines. All the magazines for September, now ready.
