evening in Good Templar's Hall.

Council fires lighted at 7 o'clock.

H. HOWE, Sachem.

S. REYNOLDS, Chief of Records.

Gold at 1 p. m. 114½

On and after February 1st, 1873, all rates
which are at present higher than \$2.50 (ex-
cept those on messages received collect from
the Pacific Coast), will be reduced to \$2.50
for ten words, and 17 cents for each addi-
tional word on prepaid messages. The tar-
iff on messages received collect from the
Pacific Coast, will be \$2.75 for ten words,
and 18 cents for each additional word. This
reduction is between all Western Union Of-
fices in the United States, British Provin-
ces and British Columbia. The importance
of this reduction will be understood, when
it is known that the tariff heretofore has
been over \$5.00 in gold, the reduction is
therefore about \$3 in gold.

Charles, alias "Charley the Barber,"
committed a bold brave act, Saturday night
last. With the assistance of a carcass full
of whiskey, he picked up courage enough to
commit an aggravated assault upon one
Nellie French, who, barring her calling, is
a quiet, well behaved and peaceable girl,
and for one calling themselves a man,
to commit such an act, would seem to indi-
cate him to be without much humanity.—
To mangle a weak woman with fist and heel
is an outrage that the officers should look
into. The first thing this fellow knows he
will land in the Bastille at Franklin.

A corn-decorer gave a Luzerne county ho-
tel keeper this prescription: "Wash yuro
foot and wen wipt Dry Crape the Korn a
Round the tops intell yu sea propper. Then
spley amony an watter mixt half onz sprit,
amony and sam es watur and Pat in The
marke av the Pin."

Delaware and Maryland basket/makers
readily actively at work, anticipating a
demand when the peach season opens.

On Sasurday evening, the Democratic
precinct caucus met at the Petroleum Pro-
ducer's Rooms. After the meeting came to
order, on motion J. M. Kepler was elected
Chairman, and M. T. Connor, Secretary.

The object of the meeting was stated to
be the appointment of eight delegates to
attend the Township Convention to meet at
this place on Monday next.

On motion the following delegates were
chosen:

Wm. J. McCray, A. S. Smith, John Mc-
Omber, Dr. T. S. Stewart, J. Waddell, Wm
Kale, M. T. Connor, Ben. Bove.

On motion the delegates to the Conven-
tion go uninstrued.

On motion adjourned.

M. T. CONNOR, Sec.

On Thursday evening next, Miss Amy
Stone, supported by a full dramatic com-
pany, will appear at the Opera House, for
one night only. An exchange says of her:

Amy Stone the sprightly and popular ac-
tress appeared at the Academy of Music, last
night, supported by a fine dramatic com-
pany and an excellent orchestra. The audi-
ence was a large one, considering the diffi-
culty of getting out through the deep snow,
and the performance amply repaid those
who came, notwithstanding.

Amy, as "Wild Meg" who was supposed
to have a heart of stone, becomes exceed-
ingly tender, as the play progresses, and
though she trifles with Jasper Pidgeon
(played by H. F. Stone) the retaliation of
Jasper's rattling brother (Ferris) develops
a depth of feeling immensurable, and Amy
shows her fine talent in acting it.

"The Irish Diamond," Andy Blake, was
happily represented by Amy, and enlisted
the full sympathy of all. We feel assured
that if Amy returns with a full troupe at
any future time, she will have a cordial
welcome by a large audience.

To a disciple of Esculapius, judging from
the writing at least, we are entitled for a
"valentine"—the same old stereotyped edi-
tion has been received annually for ten
years. The following is the verse attach-
ed. The artistic beauty of the verse will be
readily appreciated by lovers of poesy:

"Inky Printer, blue Monday is too much in
your line,
For me to be your Valentine;
You'll have to get a sub instead of me,
I'd never be a stick for such as thee."

The Re—corn is obliged for the valen-
tine. The devil has it posted up for the in-
spection of the curious

There was an important arrival in town
Saturday afternoon. The Hon. Dutch
Henry arrived by the late train. During
the evening he landed on the porch in front
of Adam Wyma's barber shop, and insisted
on taking up his lodging there, contending
he had a right to stop just where the train
left him. It took some time to convince
him that the depot was located elsewhere.

The Military Commission of Calais,
France, has just made trials with a new
gunpowder whose explosive force and ini-
tial velocity are, it is said, of a nature to
modify existing principles of gunnery.

The effect of the late cold weather upon
the country's fruit crop now agitates the
mind of the anxious farmer. In Central
Illinois it is the opinion of horticulturists
that not a single peach tree will escape,
and that apple and other hardy fruit trees,
and blackberry, raspberry, and other of
the small fruits, are seriously injured by the
intense cold, and, for that region unparalleled
cold.

The New York Herald is responsible for
the statement that the pastor of a most fash-
ionable up-town church astonished his con-
gregation last Sunday by announcing that
there were nine couples married by him
during the year 1872 who neglected to pay
the customary fees.

The Boston Times protest against the em-
ployment of female teachers in the public
schools in Massachusetts, except in the pri-
mary schools.

It is proposed to teach Spanish, in the
public schools of San Francisco, and the
Alta thinks it certainly of more importance
than music and callisthenics.

Jamestown, New York, has applied to
the Legislature for authority to issue bonds,
not for railroad building but to help the es-
tablishment of manufactures, in the village.
The idea is not absolutely new, we believe,
but it is incomparably more sensible than
the railroad mania which has run riot so
extensively.

In the northern portion of New York per-
sons are going about with baskets, and
picking up the partridges, which, nearly
starved for want of food, are too weak to fly
or to run away. Farmers are feeding these
birds and other kind in their barns and a-
bout their barn-yards, and the poor crea-
tures, usually so timid and shy, have be-
come quite tamed by cold and hunger.

The proceedings of the Democratic Con-
vention here have not been banded in as yet.

OIL NEWS—The Company well, No. 2,
on the Riddle farm, near Karns City, has
reached the depth of thirteen hundred feet.

The McGill well, on the McClymonds
farm, is a new strike. It is reported as a
125 barrel well. The owners are McGill
and Hatch.

Millerstown is expecting another strike
in a short time. The well is owned by A.
Shreve and others. It is about thirteen
hundred feet deep.

Angell & Co., well No. 1, is doing about
50 barrels a day; No. 2 doing about the
same; No. 3 is down 1,300 feet; No. 4
about 1,200.

Tuesday the new strike near Millerstown
owned by C. D. Angell & Co., was not yet
tubed, but there is no doubt of its being a
large well. Operators believe this to be a
separate and distinct belt from either that
at Greece City, or Petrolia.

The late strike on the Mayville tract,
owned by C. D. Angell & Co., brings de-
velopments still nearer Fairview. This
well is within the limits of the borough,
but a considerable distance from the town
proper.

Lupber & Cleminger well, lease No. 2, on
Dougherty farm, is drilling in the sand and
flowing periodically, at times over the top
of the derrick. The bit is fifteen feet in
the sand. The well will be tubed this week
and from present indications will be as
large as any in the valley.

Angell & Co., well No. 5 on the Mayville
tract, near Fairview, was tubed Tuesday
afternoon and commenced to pump at the
rate of about one hundred and fifty barrels
a day. The well flowed two hundred bar-
rels while being drilled in the sand. She
will probably settle down to a hundred
barrel well.

The Clark & Timblin well No 3, on their
thirty acre lease, on the Wilson farm,
struck the sand last Monday. Tuesday at
noon it had filled up 1,850 feet with oil.—
We were shown some of the sand which
was of superior quality. The well will be
tubed this week, but not early enough for
us to get the exact production. It will not
be less than a hundred barrel well.

Perhaps the best well found on the west-
ern side of the belt is C. D. Angell & Co.'s
No. 5, which was struck Wednesday of last
week. The well flowed so soon as the sand
was penetrated, and continued to flow at in-
tervals of about two hours until tubed,
Monday morning. It is but a short dis-
tance east of Fairview, on the Mayville
tract.—Fairview Reporter.

OIL NEWS.—We have no later news in
regard to oil developments than given last
week, except such items as appear in our
correspondence in this paper. The follow-
ing from the Petersburg Progress of last Friday
refers to affairs in that section of the coun-
ty:

Numerous rigs are going up on the Fox
estate, south of Clarion.

R. A. Blair has started two new rigs on
the Louisa farm south of the Clarion river.

The Willoughby well, on the Logan farm
is pumping very heavily, and promises to
be a very large well.

A new well started on Turkey Run, last
Monday evening. The name of which we
have not ascertained, but understand that
it is doing 60 bar reis.

The Young farm well, on Beaver, it is
asserted, is now doing 19 barrels.

The Van Vleck well, on the Weller farm,
owned by Van Vleck, McConnell & Co., is
being pushed down, and will doubtless be
completed in a week or two.

New derricks are springing up throug-
out the entire district as if oil was selling
at \$5 per barrel.

Graham No. 2, Heeter farm, Turkey run,
is about ready to drill. They are grading
on this lease for a 5,000 barrel iron tank,
owned by Graham, Nicholson & Co.

Harrington Bros., struck a new well on
Little Turkey this week, which is now pro-
ducing 35 barrels per day.

The Maine Oil Co., is the name of a com-
pany now operating on the Lorah farm, be-
yond Center City (Downtown.) This com-
pany has very considerable land, which,
we believe, they own in fee, and which
they intend to develop thoroughly.

[Clarion Democrat.]

The transportation of crude petroleum,
and particularly of the lighter portions of it
such as benzine, gasoline, &c., is attended
with heavy loss from evaporation, in or-
dinary packages, and a substitute for bar-
rels has long been looked for by the trade.
It is now proposed to make barrels of glass,
sufficiently thick to stand transportation.

Lebanon has a regularly organized Do-
nation Party, who rally forth nightly with
well filled baskets, surprising some needy
family, and dispensing blessings of a most
tangible kind.

One of the most successful mercantile char-
acters in Memphis is a newsboy three and
a half years old.

NOTICE !

Go to **W. A. LOZIER,**
4th Street, near R. R. track,
for your **BENZINE,** deliv-
ered at the wells for \$2.00
per Barrel.

Petroleum Centre, Feb. 6th—11.

A great industrial exhibition or fair is to
be held in Kioto, the ancient capital of
Japan. It will commence on the 13th of
March next and continue for sixty days.—
It will be the second of the kind ever held
in Japan, and will probably be attended by
millions of people.

The power of State Court of Criminal
Correction to issue a writ of habeas corpus
against the commandant of the Federal
arsenal is in issue at St. Louis and the gov-
ernment has sent a representative to defend
the case.

In a new well, in Jewell county, Kansas,
at the depth of forty feet, the diggers recent-
ly threw out some rare petrified specimens,
consisting of three grubs, an oyster, a lizard
of some strange species, and a crocodile's
foot.

The Eau Claire, Wis. Free Press says
that a day or two since the men in the pin-
eries at work upon the big windfall, caused
by the October tornado, discovered a live
ox buried under the crossed trees, where he
evidently lived and browsed ever since.

The raffle for the house owned by Mrs.
Magrane, came off Saturday night, at the
McClintock House. Our friend McCrea, of
Kane City, held the winning card.

If you
Want a Salesman,
Want a Servant Girl,
Want to Sell a Horse,
Want to Sell a Patent,
