S. REYNOLDS, Chief of Records.

Sold at 1 p. m. 114 3/4

**ACCIDENT.**—On Saturday evening quite a serious accident occurred near Plumer village. It appears that John Sutton, a resident of Plumer, left this place that evening on route home. When near that village he met a horseman, who is at present unknown, and in trying to get out of the way was run down by the horseman and seriously if not fatally injured. After riding over the man it seems the party rode along for some distance without stopping, and then probably having a tweak of conscience, returned to the house of Isaac Akin, and informed him of the fact that the man had been injured, and asked help to remove him home. A grand son of Mr. Akin started for Plumer at once, and by the help of Mr. Black and others the unfortunate man was removed to his home where he now lies in a precarious condition.

Our informant states that Mr. George Stevens, our old friend, was the party who ran over the man. Mr. Stevens informs us that he was not the party; that he has not been in Plumer for over seven years; that he was at work at the refinery on the evening in question, and that he was not drunk at the time stated and does not get drunk. We have known Mr. S. for several years, and know the above to be untrue in every respect as far as Mr. Stevens is concerned.

In the meantime the injured man lies at that village the chances being that he will not recover.

There has been a change in the time of the Oil Creek and Allegheny River Railroad. Due notice will appear to-morrow.

St. Louis supports eighty-nine destitute families.

They burn lime with corn-fuel in Iowa.

**CHANGE.**—Our old friends, Messrs. Cross & McOmber, for several years back proprietors of the Central House, have disposed of their interest in that house to Mr. W. E. Davis, long proprietor of the Petroleum Centre House, who took possession this forenoon. We cannot refrain in this connection from complimentary mentioning Messrs. C. & M. in connection with the house. They have run the house for nearly seven years and in that time have secured hosts of friends the country over. It has been conducted in first-class style as every one can bear testimony to. Wherever their lot may be cast the best wishes of a host of friends will go with them.

In the meantime we take pleasure in recommending Mr. Davis to the public as being a thorough hotel keeper in every respect and we trust will receive a liberal share of public patronage.

The Oilman's Journal says: So many persons have inquired of us the distance from Parker's Landing to various points in this oil region, that we herewith append a table of distances:

From Parker's Landing to Foxburg, by rail, 3 miles; to St. Petersburg, by rail and back 6 miles; to Emlenton, by rail, 7 miles; to East Brady, by rail, 18 miles; to Martinsburg, by back, 5 miles; to Petrolia City and Argyle, by back, 8 miles; to Karns City, by back, 10 miles; to Fairview, by back 8 miles to Peachville, by back; 11 miles; to Greece City, by back, 17 miles; to Butler, by back, 21 miles

An engine house on the Lake farm, Cherytree Run, was destroyed by fire, this forenoon. Loss slight.

The loss falls on W. St. Clair who owned the well.

An English immigrant is reported to have 'swapped' her baby for a dozen of porter on the passage hither by the Cuba. As the child was sickly, she probably thought that her getting stout would save it from small pox.

Indians still live in Vermont.

Ohio is importing Norwegians for domestic purposes.

The Rhode Island Legislature proposes to abolish turnpike roads.

The Portland Board of Trade are talking of building a new hall.

The pipe line of Payne & Coapman, on the Boyd farm, sprung a leak on Saturday and upwards of sixty barrels of oil was lost. The oil being run from their tank on the Boyd farm, to Messrs. Fairfield & Co.'s refinery.

The Massachusetts farmers are just marketing their tobacco crop.

The Burlington, Vermont, sulphur spring is pronounced a failure.

The agricultural products of Colorado nearly equal the mining profits of that territory.

New Haven, Connecticut, wants to annex Westfield, and Westfield don't want to be annexed.

A fatal cattle disease is raging in Texas.

**TERRIBLE BURNING AFFAIR.**—Last Monday afternoon a frightful burning affair occurred at the Armstrong well, on the Dougherty farm, in the hollow, between Petrolia and Fairview. The third sand had been struck in the well on the day above mentioned, and as it was gasing and flowing an attempt was being made to make a connection with the tank when the oil and gas flowed in such quantities as to take fire from the furnace. The entire rig was enveloped in flames and before the four men, who were at the well, had time to escape they were severely burned, two of whom will hardly survive. The names of the persons burned are Robert and Porter Addleman, brothers, Frank Frautz and Harry Scott, of the firm of Scott & Anderson. The two Addlemans are the worst burned. Dr. Hopkins, of Fairview, and Dr. Johnston, of Petrolia, have the patients in charge and are doing all that is possible to be done in the several cases.—[Oilman's Journal.]

There are eight hundred and fifty academic institutions in the United States, with three thousand professors and sixty-two thousand students.

The Wisconsin Legislature has before it a proposition declaring it a misdemeanor for a State officer or member of the Legislature to accept a free railroad pass.

Ben. Hogan settled the questions as to whether a certain citizen of Petrolia had a right to vote at the election held there on the 1st inst. Benjamin stepped up to the window and said "this gentleman is a citizen and entitled to a vote. I can testify to his having been here six months, as he has been visiting my house during that time."

It is proposed to transport silver ore from Colorado to Illinois for reduction, instead of transporting coal in the opposite direction.

## HOPE.

In the quiet garden of my life  
There growth a red-rose tree;  
A little bird sits on the topmost bough,  
And merrily singeth he.

The sun may shine in the happy sky  
Through the long and golden days,  
And the sweet spring blossoms veil the trees  
In a fragrant pearly haze.

Or the pelting rains of autumn come,  
And the weary, wintry weather,  
And we're naught to watch but the leaden clouds—  
My rose and I together.

Come rain, come shine, so that bonny bird  
But warble his cheery tune;  
For while he sings to my rose and me,  
To us it is always June.

And Death and Sorrow shall vainly sit  
The portals of life beside,  
For we float upborne on that soaring song  
Through the gates of heaven flung wide!  
HARPER'S MAGAZINE.

Felks have gone to work again on Indian Hill, near Middletown, Ct., in the belief that if they get down deep enough they will find anthracite coal. There is a tradition that coal was found there about a century ago, and every now and then comes on a sort of intermittent coal fever, and they go to digging feverishly for the "black diamonds." Geologists and a "seventh son of a seventh son" have been consulted, who are sure there is "a vast deposit of coal" down there—and we guess there is, if it is not too far down—but they are working for it.

You don't hear Michigan making much fuss about the matter, but nevertheless, she has sixty murderers in her State prison under life sentences.

The most extraordinary instance of contraction from the cold weather that we have noticed this winter is that of the St. Paul daily Press and Pioneer, which succumbed to the rigors of winter by the loss of one column in width and two inches in length.

A well dressed man went to a Boston theater Monday evening, and being under the influence of liquor, became drowsy. In his efforts to obtain a nap, he disturbed those sitting near him, and a police officer was called to remove him. The officer carried the man out without waking him, and deposited him in a doorway. An hour later the man was found there, sound asleep and almost frozen to death.

In Norfolk an old record has just been published, showing that in 1749 the preachers of Virginia were paid in tobacco.

Nearly all the prominent lumber manufacturers in Maine have signed a call for a mass Lumbermen's Convention to be held in Bangor on the 19th inst. This is a preliminary step toward an organization to advance the lumber interests of the State.

The Rhode Island courts dissolved 171 matrimonial partnerships in 1872.

A will was presented for probate at Tiverton, R. I., the other day, which had been locked up for thirty-nine years, all the subscribing witnesses being dead.

Large quantities of burned grain are now being shipped over the New York, New Haven and Hartford road to points in Connecticut north of Hartford. It is used for manure by tobacco cultivators.

The London Enterprise, rehabbing the natural advantages of Virginia, makes an earnest plea for the establishment of manufacturers of every kind.

The National Lifeboat Institution of Great Britain saved 648 lives by their lifeboats during 1872, and rescued 25 ships from destruction. Rewards were also granted to fishermen and others for saving lives to the number of 107. Since its formation, the institution saved in all 21,465 lives, and have expended in awards £38,000, and granted 923 gold and silver medals.

A well known Hartford merchant, who paid a dollar for a stand-up seat in the top gallery at the opera the other night, was very much edified by seeing several young men who had owed him many months occupying four dollar seats in the parquette, with fashionably attired young ladies at their side. He thinks a few years hence they won't be able to buy even gallery tickets.

The robins have begun to chirp in Kentucky.

Three hundred moccasin makers in Bangor, Me., have struck for higher wages.—We suppose it was the only thing they could do to let the world know there were so many moccasin makers in existence.

According to Wall street reports Horace F. Clark is said to have given his father in law, Commodore Vanderbilt, an affectionate bug, which left him a million lighter after the operation, the other day.

# NOTICE!

Go to **W. A. LOZIER,**  
4th Street, near R. R. track,  
for your **BENZINE,** delivered at the wells for **\$2.25** per Barrel.

Petroleum Centre, Feb. 14-17

The Halifax Express is accountable for a story of a precocious horse, who, having learned to love liquor during the epizootic treatment, put his head into a sleigh near where he was hitched the other day, took the cork out of a whisky bottle, upset the bottle, and then lapped up the liquor from the bottom of the sleigh.

The several roads now under the control, owned and in course of construction by the Allegheny Valley Railroad Company, are the Allegheny Valley, from Pittsburgh to Oil City; the Oil Creek, from Oil City to Corry; the Allegheny River, from Oil City to Irvinton; the Buffalo, Corry & Pittsburgh, from Corry to Brocton, and the Benoit Branch from the mouth of Redbank to Driftwood. To these are to be added the Pine Creek Branch ten miles this side of Pittsburgh and in complete running order, and the completed branch from Brady's Bend to the coal and oil fields of Butler county.

The well owned by the Columbia Oil Company, struck several weeks ago, on what was formerly the John B. Redick farm, two and a half miles northwest of Lawrenceburg, is doing 45 barrels per day.

The tools have been stuck in a well on the J. B. Jamison farm, near Petrolia, for more than two weeks. The well was nearly down when the accident occurred. Wm. E. Krosskop and Wm. Dalley have interests in the well. We are sorry that these gentlemen have had such bad luck, and hope success will yet crown their efforts.

A well owned by S. D. Karns about 40 rods east of Karns City, on the Riddle farm, has been pumping for about three weeks, and is now doing 140 barrels per day.—When this well was being sunk it was thought by knowing ones to be too far east.

The well owned by J. W. McFarland, H. C. Adams, Capt. A. M. Spurr and others, on the J. B. Campbell farm, near Karns City, which started up last week at the rate of 150 barrels has settled down to 100.

The Spider well, is a new strike on the McCleery farm, between Petrolia and Fairview. It was tubed on Monday last and commenced to pump the afternoon of that day at the rate of 150 barrels per day. It will in all probability settle down to a 75 barrel well. The oil was pumped on the ground for a short time on account of not having any tank. The well is about five rods from the Jennings well, on the same farm, which is only good for five barrels.—The owners are Israel Conwath, C. S. Ahner, Miller & Son, L. Sander, Mr. Musselman and Mr. Lupper.—[Oilman's Journal.]

**NOTICE.**—Mr. James S. McCray having removed to Franklin, parties having communication with him on business or otherwise, are requested hereafter to address their letters to that point. 31.

Whips, at Marshall & Richards opposite Record Office, Main Street, Petroleum Centre, Pa.

### SEE HERE.

H. H. WARNER, has just received from home twenty cases more of that cider, that was never beat for quality. Also, apples, eggs, butter, &c. The best butter ever brought into this town, which he will sell for cash, but will not treat any more goods after the first of January, 1873.

All these indebted to him are requested to call and settle without delay and save costs.

H. H. WARNER.
