Petroleum Centre Lodge, No. 715, I. O. of O. F.

Regular meeting nights Friday, at 7 o'clock. Signed, W. B. MONTGOMERY, N. G. C. H. BALKY, A Sec'y. Place of meeting, Main St., opposite McClintock House.

A. O. of U. W. Liberty Lodge No. 7, A. O. of U. W., meets every Monday evening at 7 1/2 o'clock, in Odd Fellow's Hall, Petroleum Centre, Penn'a.

JAMES WILSON, M. W. JAMES S. WHITE, R.

I. O. of R. M. Minnekaunee Tribe No. 183, I. O. R. M. of Petroleum Centre, meets every Thursday evening in Good Templar's Hall. Council fires lighted at 7 o'clock. H. HOWE, Sachem. C. L. JUKES, Chief of Records.

Gold at 1 p. m. 112 1/2

Jewish Festivals.—To-day the Jewish portion of our population will celebrate Tishri, the Feast of Ingathering, or Tabernacles, and on Monday, the 28th inst., will be celebrated the Jewish New Year, in the month of Tishri Heb Rosh Hashanan, the first of the year, 5634, September 22d, 1873. It is also called Yom Hazikaron, "The Day of Remembrance" signifying that we would call to mind our actions of the past year, and pray to the Greater to pardon our sins. It is also the day of blowing the trumpets, Heb Yom Teruah. As we read in the Bible: "The first day of the seventh month shall be unto you a Sabbath, a memorial of blowing of trumpets, an holy convocation" Lev. xxiii. 24.

The temperance party in Wisconsin is elated by a recent decision of the Supreme Court of that State. A case was brought up to test the legality of the new law, which is similar to the Ohio law, requiring liquor dealers to give bonds to pay all damages arising from the sale of intoxicating drinks. The court decided that the State is empowered to prohibit liquor selling or to permit it according to its pleasure, and if it permits it, it may qualify the permission in such a manner as the Legislature may deem proper. The law was, therefore, pronounced constitutional.

The two orders of Odd Fellows at Parker City seem to be composed of the right sort of material. In the Second ward a contract for a new Odd Fellows building has been let. It is to be two stories high, and twenty-five by seventy-five feet in diameter. The upper part will be used exclusively by the order, and the lower floor is intended for a public hall. At the Landing, First ward, the Order is building a handsome brick building, and it is already enclosed.

About seventeen years ago a young boy residing in Wood county, took a black cat skin from which the original tail of the cat had been removed and a mink's tail nicely sewed on instead, and sold it to a certain buyer of furs, not many miles from Grand Rapids for \$1.25. It was only done as a practical joke, but the boy kept the money, grew to be a prosperous business man, joined the church, but his conscience upbraided him so much that a few days ago the ex-fur dealer received a note inclosing \$3.70 principal and interest. The joke was not on the fur dealer, as he put the cat skin among a lot of mink skins and sold it for \$3. As he cannot find the purchaser, he proposes to contribute the money to some benevolent purpose.

Quick Work.

The Warren Mall has the following: A week ago last Friday there was to be a dance at Sheffield, in one of the four new stores recently erected there. The day came but it was found that the floor had not been laid. In order to have a dance there must be a floor, so some thing had to be done.—All hands turned in and went to the woods and out the tree, took it to the mill and had it sawed into flooring, matched and planed, and laid by six o'clock. commenced to dance at nine and kept it up till daylight. How is that for "business."

The A. V. R. R., is shortly to receive twelve new locomotives.

A gentleman who attended divine service, last evening, asks us the following conundrum: "Why is it that a young fellow and his girl can sit in the parlor until midnight without making noise enough for the old folks to hear them through a thin board partition, but can't sit in church five minutes without annoying the whole congregation with their giggling and whispering?" The names of two or three couples are given in full with the above conundrum. A proper respect is due God's house, so these young people should beware.

Several young men made a holy show of themselves, yesterday, while in an intoxicated condition by riding through the streets at a rapid pace, disgusting decent people by their vile language and obscene actions. They should have been arrested and punished.

Several drunken individuals indulged in a bottle throwing match, Saturday night, at a house in the upper end of town. During the melee a woman—Dutch Rose—was struck in the head with a bottle and severely cut about the head. Bottle throwing is a far pleasanter pastime than croquet playing.—No arrests were made, the parties having skeddaddled at once.

The East Brady Independent denies the existence of a fourth sand in the down river territory, and claims the report to have been gotten up in the interest of the bears. We are sorry to differ with the Independent, but have it from good authority—operators who own the wells—that a fourth sand does exist near Karns City. They have the best proof possible judging from the amount of oil the wells are yielding, increasing from nothing to 300 and 300 barrels per day.

Signs of a late fall—When a man goes out in the evening with his "little brown jug"

Saturday being somewhat windy, ladies who wore their bustles just under their overskirts didn't do much shopping.

Yesterday (Sunday) afternoon, two gentlemen arrived from Oil City in search of a young boy named Tim—we could not learn his last name—who resides on Elm street, and who had run away from home. They informed officer Burgess, and a short search revealed the whereabouts of the truant at the house of a man named Griffin, on the Boyd farm. An inquiry revealed the fact that this precocious youngster, who is hardly seven years of age, had left his mother's house Saturday morning, got on board the 10 o'clock train unobserved and rode to this place, where he got off and made his way to Mr. Griffin's house. Not coming home at night his mother became alarmed and sent several men out to search for him with the above result. The boy allowed he had as good a right to see the world as any other person, and at first refused to go home, but after a little persuasion was induced to do so.

Mr. Seeley, Col. Roberts' attorney, is at the Central House, to-day, taking testimony in an alleged infringement of the Roberts patent on the part of the agent of the Dickey torpedo in this district, Mr. A. G. Harper, of Kane City. Of the relative merits of the case we know nothing about. A large number of witnesses from the vicinity of Cherrytree Run were summoned.

Po-it-rye.

I'll think of thee when tad-poles shake Their little tails down in the water And when the frogs the neighbors wake I'll think of thee. (Your Father's daughter.)

When the moon the old embraces, And mink's seek roost to steal chickens Be I in dark or torch-lit places, I'll think of—well I guess I'll go to Taylor's, Washington St., and get my picture, and then you'll think of me, you'll think of me!

IMPROVED ORDER OF RED MEN.—The report of the grand chief of records made to the grand council Independent Order of Red Men in session at Wilmington, Del., last week, states that there are now under its jurisdiction 459 tribes, with a membership of 34,759. During the past year their receipts amounted to \$2,901,053.24, of which \$268,375.01 was paid out for the relief of members. The order is in a very flourishing condition.

There are now over three hundred and fifty men employed on the Parker and Karns City Railroad. The largest force is at work on the Parker City end of the road, and the work is being pushed forward very rapidly.

A giddy English girl of fifty-five has just rung \$2,500 from a callow youth of sixty-three who trifled with her affections.

Twenty-five thousand volumes, about eighty tons, of annuals and debates of Congress were sold in Washington for \$3,000.

It is said that the principal dishes at an Adirondack hotel are deer meat, dried and toasted, bear steaks, woodcock stew and speckled trout.

A Boston firm sends three thousand boxes of chewing gum, equivalent to 450,000 "quids," to Ohio, Indiana, Wisconsin, and Missouri. The jaws which work on the stuff are mostly feminine.

A moth flew into the ear of a young woman residing at Middleport, Niagara county, and could not be dislodged for several hours. Finally a surgeon succeeded in removing it alive.

The Republicans of Wilmington, Del., have achieved a brilliant victory by electing their Mayor at the recent election.

General Babcock, private secretary to President Grant, and his wife Mrs. Babcock sailed for Europe on Saturday.

Hash is said to be a connecting link between the animal and vegetable kingdom.

FROM THE FRONT!

MILLERSTOWN, September 21.

The Wyatt well, on the Randolph Barnz hart farm, is producing 1,400 barrels. Dr. Jenkin's new well at Modoc is estimated at 600 barrels. A new well on the Widow Daubenspeck farm, is reported at 400 barrels.

The Boyer well, struck on Friday night, not yet reported, is doing 400 barrels per day. The Chaffee well, struck on the Sutton farm on Saturday, flowing 350. The production of the entire producing district, south of Oil City during the month of August was 22,000 barrels per day, and the total stock of oil on hand in the same territory of September 1st was 615,000 barrels.

Modoc Cr., September 20.

Two new strikes to-day and large ones. Meadow Well No. 2, Starr farm, owned by S. P. Boyer of Titusville, struck the sand at noon to-day. She is flowing at the rate of 400 barrels.

The Darragh well on the Sutton farm, owned by Darragh & Chaffee, was also struck about noon. She is good for 500 barrels per day.

The latter well is situated right in the town. Messrs. Darragh and Chaffee well deserve their good luck, as they have had several mishaps with their well.

The great sensation of the hour is the discovery of the fourth sand on the McAleer farm. There are a variety of opinions in relation to it. The main belt is known to exist, and has been defined by a strip of land about a mile and a half wide, extending from the valley of the Clarion on the northeast, to about two miles southwest of Millerstown. There is a supposed spur or fork which branches off towards Greece City and Modoc, in an almost easterly direction. The southern boundary of this belt may be defined by drawing an air line on the map between the Hoeton farm, Buena Vista and Greece City, and the northern boundary by starting a few rods south of Fairview and drawing a line to the McConnell farm, where the map indicates a crossing of two roads. This will take in the whole of Modoc and Greece City. The McFadden & Hasson well, on the Campbell farm north of this, is looking forward to with much interest by speculators. Another theory is that the Modoc and Greece City belt is simply an extension of the belt discovered at Brady's Bend, and which created some excitement about a year and a half ago by some wells being struck there. These wells spouted largely at first, but ran down very rapidly, owing to the sand rock being so thin. If this is the same belt, it would form a line running nearly east and west, and crossing the main belt where the fourth sand has been discovered. According to this theory, therefore, the fourth sand only exists at the crossing of the two belts and is entirely local. This supposed cross belt is about to be surveyed for the purpose of determining by a dip of the rock whether it has any connection east and west or not. Meanwhile extensive preparations are being made to drill many of the small wells in the vicinity of this fourth sand deeper, and although some of them have already reached the fourth sand, there is, so far, little indication of an increase of production.

AN INCIDENT.—In the court last Monday, was a funny incident. It seems that two neighbors had trouble about a line fence.—One had put it up, the other had knocked it down. This play and ill feeling had been going on for a long time. At last it got before the court. Hearing the statement of one of the parties, Judge Whitmore consulted a moment with his Associate, and then leaned over the bench and said to one of them: Mr. —, we have heard enough of this case. The sentence of the court is that you pay one half of the expense of this prosecution, and that you will be in the custody of the Sheriff until the cost is paid. Then, turning to the other party, he made the same statement. It is needless to add, the money was paid over before the Judge had fully concluded his remarks, and the two neighbors were not in the hands of the Sheriff at all. They both laughed and undoubtedly went home concluding they had better compromise their little difficulty and keep out of court.

About one week ago the quiet little hamlet of Lake Pleasant, near Union City, was in an uproar of excitement. James Estes has left the country, taking with him the wife of Hiram Perry. Both leave children behind. Estes had been in the employ of Mr. Perry, running a thrashing machine.—The Times suggests that men owning thrashing machines employ none but single men.

On the recent occasion of the unveiling of the Column of Victory in Berlin, the Emperor issued an order giving the forts of Metz and Strassburg the names of the various German Generals.

The postage on letters to Germany is now six cents.

OIL NEWS.

The test well three miles from Miller, is dry. This is the best oil item we have had for a month.

Drilling has been stopped on the Green well, on the Johnson farm, in consequence of the tools being lost.

A well owned by George W. Foreman, of Oil City, was struck near Angelica, this week. It is reported at 300 barrels.

B. D. Angell & Co. struck a flowing well on the Dungan farm, the early part of this week. We did not ascertain its production.

Stoughton & Co., finished their well, No. 2, on the Hempbill farm, this week. Tuesday it was flowing at the rate of 150 barrels a day.

Ground is being broken in the vicinity of Millerstown for several iron tanks. Iron tanks are being erected all through the lower oil regions.

Asa W. Say, of Oil City, struck a good well on the McCready farm, four miles southwest of Millerstown, Thursday last.—The well is in entirely new territory.

During the last week the crew on the Ballist & Rugh well, on the Best farm, near Edenburg, under contract of Marion Henshaw, drilled 415 feet, and put in 200 feet of casing. This, we are informed, is the greatest number of feet drilled upon any well on record, in the oil regions, in one week. The workmen are Charles Henshaw, Wm. Henshaw, D. F. Thomas and Ben McPerson.

Dr. J. W. James, of Brady's Bend, owns a half interest in one of the largest wells in Butler county. Friday last the bit penetrated the sand, and the well commenced flowing at the rate of 300 barrels. Since then drilling was resumed. The first bit in the sand increased the production to 800 barrels. Thursday morning the Doctor received a dispatch that the well was actually doing 1,200 barrels a day. The well is located on the R. Barnhart farm near Millerstown, and is known as No. 2. We should certainly call it Number One.—[East Brady Independent.]

Wild geese are on the move, and the Democracy have commenced to hold convention.

It is a mistake to suppose that Caesarism is the New York Herald's nightmare. It is only its hobby horse.

The Sultan of Turkey has sent to Prince Bismarck the collar of the Osmanlie and the star of that order set in brilliants.

"A man who can marry and does not ought to be damned," is what the Rev. J. E. Wicks of San Diego, Cal., is reported to have said in a sermon on marriage.

ANOTHER ARTICLE OF COMMON HOUSEHOLD USE SUPERSEDED.

Associated with the earlier recollection of a great many men and women is the memory of the Bath brick and emery stone wherewith the knives and forks, and pans and kettles, and other kitchen articles were at stated times "scoured up." That primitive mode prevails to-day in thousands of families who have never used Sapollo. But once let Sapollo be used for this purpose and that housewife never wants Bath brick or emery Stone any more. Sapollo not only scours off all rust and dirt, but brightens, bestows a polish as brilliant as new, and does it in one tenth the time required by any other substance. Sold everywhere.—Housekeepers try it. 1w

CHANGE OF FIRM.

Having disposed of my interest in the boot and shoe store, next door to Simon's Drug Store, to my brother, Lawrence Zedewich, all parties knowing themselves indebted to me will please call and settle at once, and all persons having bills against me will present them. I shall superintend the business for a time and can be found at the store.

EMIL ZEDWICH,

Pet. Centre, Sept 22. Little Joe.

DIPLOMA. American Institute. TO J. W. MCKEE. FOR

Embroidering & Fluting Machines.

"It is ingenious and will meet the wants of every matron in the land."

Exhibition of 1872 John E. Gavit, Secy. F. A. Barnard, Presq Samuel D. Tillman, Corresponding Secy.

This simple and ingenious Machine is as useful as the Sewing Machine and is fast becoming popular with ladies, in the place of expensive Needle-work, its work being much more handsome, requiring less time and not one tenth part the expense. No lady's toilet is now complete without it. A Machine with illustrated circular and full instructions sent on receipt of \$2. or finished in silver plate for \$25.

Address, The McKee Manufacturing Co., 309 Broadway, New York.
