C. L. JUKES, Chief of Records.

Gold at 1 1/2 p. m. 110 1/2

We understand that so far \$214,000 has been subscribed to the stock of the new pipe line, which is to run from Modoc City to Titusville. The contract has already been let for laying the line. Petroleum Centre is to be a common point, and the line will run less than a mile from town. It is understood the work of laying the pipe will be commenced at once.

A large sign in front of Smith's restaurant, fell with a crash, yesterday afternoon. Several panes of glass were broken in consequence. Had any person been passing at the time, and the sign happened to hit him, no doubt his head would have been broken.

Taylor, the photograph man, is doing a good business at present. We notice the pictures of a large number of our citizens which he has taken since opening. They are true to life in every instance. Gallery over Christie's drug store.

Dutch Henry was placed in the lock-up last evening for safe keeping. By some means he made his escape during the night and has not been seen since. It is to be hoped he will stay away the balance of his natural existence for the good of the town.

New wells continue to be struck in the lower district every day. The price of oil continues to go down.

Attention is called to the advertisement of Sherry's New York Theatre, to be found in another column. He has the strongest company ever brought to this region, and we hope our citizens will patronize them as they deserve.

A special train passed over the Oil Creek Railroad, this noon. It contained the railroad officials of the Valley Road.

The Titusville Courier was three years old this morning. It congratulates itself on the success attained during its publication. The Courier is a live representative of the interests of Titusville, and we are glad to learn is bound to succeed. May its shadow never grow less.

Friend Warner has recently been repairing his sidewalk. Mine host Hulbert cannot see how Mr. Warner can afford to pay \$18 per thousand for lumber to repair sidewalk with in these dull times.

We understand all the Titusville banks with one exception suspended this forenoon. Also, that the banking house of May, Park & Co., at Tionesta, suspended yesterday. We hear of no other suspensions.

Those nice fresh Shell Oysters arrived at the Petroleum Exchange Hotel, this morning. They are the nicest lot yet. We might add that the lightning oyster opener, Tom. Soowden, is always on hand ready to open oysters by the dozen or thousand.

The water in Oil Creek is quite low at present.

Now is the time to commence the fall advertising. The Record is a good medium to announce your business interests in, and tell the people what you have got on sale in the line of new goods.

There were several accidents on British railways yesterday, and several persons were killed or injured.

The relics of Sir John Franklin brought to New Bedford Friday by the whaling bark Glacier, consist of heavy silver spoons and forks, having upon them the armorial bearings of the family of Sir John Franklin and of other English families. They were procured at Repulse Bay from some Esquimaux who had come from King William's Land, near the spot where Sir John Franklin's vessels were abandoned, in 1848. The natives say that both vessels (the Erebus and Terror) had gone to pieces. All traces of the ill-fated expedition are fast being obliterated.

To-day occurs, the Jewish festival of Jom Kipurim, or Day of Atonement, the greatest day of the year in the Hebrew Church. The festival began about six o'clock last evening and until six o'clock to-night none of the faithful partakes of food or drink, abstaining from luxuries and not even allowing themselves to smoke cigars. Services were held at both churches last evening in German. To-day there will be services from 9 a. m. until six o'clock without interruption. The morning address will be delivered in English and that in the afternoon given in German. All stores of their denomination will be closed.—Herald.

We find the following Petroleum Centre items in the Titusville Courier of this morning:

Petroleum Centre is not dead yet, and many branches of industry are still carried on in this vicinity.

The refineries are all doing a good business. The sidewalks along Washington street need looking after before winter, as they are dangerous for pedestrians.

Sobel's Opera House is in excellent condition.

The merchants here are getting in their fall and winter stocks.

Mr. Sobonblom, one of the old residents of this place, is still running his model grocery store, and is doing a first rate business. He feeds the hungry in spite of the great financial panic.

Many of the buildings on the Boyd Farm have been undergoing repairs, and the village presents quite a neat appearance.

The old bridge has done good service in times past, and is still a public convenience. A great deal of toll has been collected in good times.

A correspondent of the Newcastle (England) Courant writes to the Journal suggesting that there may be a property in water which has not been utilized. He says: "While standing near a new steam boiler, which was being tested under water pressure, and when the load was near its maximum, a small and (except when the sun shone upon it so that the light was decomposed) imperceptible jet appeared. The writer was about to pass his finger across it when the workman said, 'Don't do that, sir; a boy had his finger cut off with one of those jets' Might not a jet of water be used as a saw?"

Bloomington, Ill., is enjoying a lively contest between the city authorities and the gas company. The dispute arose about the settlement of a bill due the company, when the latter declared the contract forfeited, ordered their men to remove the burners from the street lamps and seal up the orifices. The men were arrested and fined for interfering with the lamps, which belong to the city, and the whole matter has now to go before the courts for settlement.

Absolutely pure iron is said to have been produced by a Russian chemist by means of the galvanic battery. During the process a large quantity of hydrogen was disengaged from the ordinary iron used. The pure iron is a silver-white metal, very malleable and ductile, and so soft as to be readily cut with a pair of scissors. It oxidizes very rapidly.

One hundred and twenty new coaches have just been completed by the Pullman Palace Car Company. There are now seven hundred of these coaches running on one hundred and fifty-two roads. Every car costs from seventeen to twenty thousand dollars, and one of them on the New York & Erie broad gauge cost more than \$50,000. Twelve million dollars have just been invested in the organization.

You can use a postage stamp twice. The first time it will cost 3 cents; the second time \$50.

The city of St. Louis has decided to issue \$3,000,000 of city scrip, to tide it over present troubles.

A sufferer suggests an improvement in the orthography of the word panics. He thinks it would be better to spell it pay-nix.

The Union Pacific railroad is building a snow-plow to be driven by fire locomotives. They expect to go through drifts twenty feet deep.

Chicago has sent \$700 to the Soreport

TOO HOT TO HOLD HIM.—Our Jack is what the late Artemus Ward would call a "humorous case." He was stopping at a little village in the interior of the State, one Sunday last summer, and having nothing to occupy his time, he came to the sensible conclusion that he had better go to church in the evening. It was a very warm evening, and Jack thought as he was a stranger, he would go up into the gallery. There were only a few people up there, so he seated himself in a front seat, and prepared to listen. The minister was preaching one of those "red hot" sermons country ministers delight in, and was happy. Jack was not. The gallery was getting warmer every minute. The people down in the body of the house looked comfortable, and our hero concluded it was cooler, and decided to try it. Just as he started the minister was in the midst of a terrible warning to young men, and the noise he made attracted the Dominie's attention. Thinking Jack was about to leave church, the clergyman stopped in his sermon and said: "Young man you may not be aware of it, but you are going straight to hell." Jack stopped, looked back, and seeing he was the person addressed, replied: "Is that so? Well, I'm glad you mentioned it. I was going down where you are, but if that's the case I will stay where I am, for its warm enough up here." Jack then sat down and the minister gave out the next hymn immediately.

During the run on the Union Trust Company at New York Friday, an excited individual offered a boy fifty dollars for his place in the line and afterwards increased his bid to one hundred dollars. The boy, loyal to his employers, would not sell his place for the tempting offer. A man ahead of him, however, responded and said he would sell his place for two hundred. The money was paid him immediately, and the place was given up. As he walked away he said to a friend, "Let us take a drink; I had only one hundred in that concern, and I think I have come out a little ahead!"

Church-singers are said to live by luck and chance.

A dispatch from Erie says: The State Fair, which is now being held in this city, opens with greater promise of success than any previous year. The entries greatly exceed in number and excellence. The managers are jubilant. There is present a large and enthusiastic gathering. Will send letter to-morrow. Duubar's Lady Hill won the first prize.

It takes one barrel of oil in the river district to pay for pipage of two. This is rather hard on small producers. Executives keep the sheriff busy in Butler county

Sir Samuel Baker and wife have sailed from Alexandria, Egypt, for England.

The French government has commenced a gigantic plan for fortifying the whole country. This they can do, not being engaged in the business of pointing with pride to our immense financial system.

John Bright has been formally installed as an officer of the British Cabinet. Conundrum—Can he contemplate with much pride the magnificent financial policy of the country?

The hearing in the bankruptcy case of Bowles Bros., in London, has been postponed until December 23. This was undoubtedly done to allow those gentlemen to point with pride, &c.

Squirrels are reported to be quite plenty in several sections of the county

Miller Farm Items.

Refining is the principal business here.

The social hop at the Franklin House will take place Friday night, October 3d.

The refineries here have all enlarged and otherwise repaired, and are now in full blast, doing a good business.

The mission held at the hall, for the benefit of the Catholics of this place and vicinity, was well attended. It was conducted by Rev. Fathers Donabue and Koop, and closed on Saturday night.

The people here are making many improvements on their residences.

Large freight trains pass through here daily.

The scenery of the surrounding hills is very beautiful, now that the leaves are turning.

Miller Farm is still quite a place, and its hotels are doing a good business notwithstanding local option.

October.

A dead lock--- the false hair

GIRL WANTED. To do general housework. Enquire of I. G. Howe, at Howe & Cook's, Main Street.

Girl Wante... To do general housework. Inquire at Gordon's Hardware store.

TO THE CITIZENS OF PENNSYLVANIA.—Your attention is specially invited to the fact that the National Banks are now prepared to receive subscriptions to the Capital Stock of the Centennial Board of Finance. The funds realized from this source are to be employed in the erection of the building for the International Exhibition, and the expenses connected with the same. It is confidently believed that the Keystone State will be represented by the name of every citizen alive to patriotic commemoration of the one hundredth birthday of the nation. The shares of stock are offered for \$10 each, and subscribers will receive a handsome steel engraved Certificate of Stock, suitable for framing and preservation as a national memento.

Interest at the rate of six per cent per annum will be paid on all payments of Centennial Stock from date of payment to January 1, 1876.

Subscribers who are not near a National Bank can remit a check or post-office order to the undersigned.

FREDK. FRALEY, Treasurer, 901 Walnut St., Philadelphia

ANOTHER ARTICLE OF COMMON HOUSEHOLD USE SUPERSEDED.

Associated with the earlier recollection of a great many men and women is the memory of the Bath brick and emery stone wherewith the knives and forks, and pans and kettles, and other kitchen articles were, at stated times "scoured up." That primitive mode prevails to-day in thousands of families who have never used Sapollo. But once let Sapollo be used for this purpose and that housewife never wants Bath brick or emery Stone any more. Sapollo not only scours off all rust and tarnish, it brightens, bestows a polish as brilliant as new, and does it in one tenth the time required by any other substance. Sold everywhere.—Housekeepers try it. 1w
