RETREAT OF THE DANES TO FLENSBURG.

NEW YORK, Feb. 24.-The steamer Hecla has arrived from Liverpool with dates to the 10th inst. The reported retreat of the Danes to Flensburg s confirmed. They are also reported to have retreated from there to Duppel, after a severe engagement.

There is great discontent at Copenhagen. The Danish Commander-in-chief has been recalled. An unreliable report prevails of a revolution at

An unternative report prevants of a revolution at Copenhagen. The British Court of Exchequer in Chambers has dismissed the appeal in the Alexandra case for lack of jurisdiction. LIVERPOOL, Menday, Feb. 9.—The sales of cot-ton to-day have been 7,000 bales. The market has an upward tendency, but prices are unchanged. The sales to speculators and exporters were 2,500 hales.

The sales to spectructure and bales. There is no report of the Manchester markets. Breadstoffs are quiet and steady. Provisions quiet and steady. LONDON, Feb. 9.—CONSOIS for money 90%.

[SECOND EESP ATCH.] The Judges of the Exchequer in the Chambers, by a majority of one out of seven, decided to dis-miss the appeal in the Alexandra case, on the ground of a want of jurisdiction. The case will therefore be carried to the House of Lords. The Parliamentary proceedings are unimpor-tant.

The Parliamentary proceedings are analysi-tant. Lord Palmerston said the Government had re-monstrated with Austria and Prussia on the pro-clamation of the Duke of Augustenburg, and their action placing schleswig-Holstein under their pro-tection Prussia had admitted the disapproval of

page. Prussia had also positively declared that its sup-page. Prussia had also positively declared that it would respect Denmark. The report that the Daues had retreated from Schleswig is fully confirmed. They evacuated the Danerwerke aud blew up the works at Mis-sunde. The Germans followed them to Flensburg, whence they also retreated towards Duppel. There had been several severe engagements with considerable losses on both sides. The Germans secured great booty and a large number of guns and prisoners. According to some authorities the Danish possession of Schles-wig is probably ended, and the army will retreat to Juliand. Others assert that a formidable stand will be made at Juppel where the Danes, sup-ported by their fleet, may assume a strong posi-tion. There is great excitement at Copenhagen under these retreats. General De Meza, the Commander-in-Chief, and his chief of staff, have been recalled. At an extraordinary meeting of the Rigsrad, the President of the Council said that the King was not instrumental in the retreat. The proceedings of the Commander were inexplicable. Jt was reported in Paris that a revolution had troken out in Coperhagen and that the King of Sueten

broken out in Coperhagen and that the King had embarked for England and the King of Sweden was proclaimed. The statements are unreliable and unconfirmed. Active naval preparations are going on at Copenhagen

and uncontinued. Active naval preparations are going on at Copenhagen. The English journals continue very anti-Ger-man in tone. The conservatives held Earl Rus-sell responsible for the Danish reverges. Duke Frederick has been proclaimed at various places in Schlerwir

DRAFT MEETING IN THE FIFTEEATH WARD.— A large ard spirited meeting was held last evening in the Haptist Chapel, corner of Eighteenth and Spring Garden streets, A. J. Lechler, Esq., Vice President, in the chair. Satisfactory progress was reported by the collectors engaged in raising the meeting to wait upon the proprietors of foundries and that the proprietors and workmen lead con-tributed liberally, with the single exception of the establishment of Messre, Richard Noriis & Sons; who not only refused to contribute themselves, but also denied the gentleman engaged in the labor the privilege of passing through the workshops to collected by Friday evening, by the gentleman who had aiready succeeded in raising S20,000. It is believed that this sum will procure all the men yet required of the Ward, and that the collectors will traperince no great difficulty in raising this smoont. At least, after doing so well, it would the balance. Able and eloquent addresse were made by John O. Byrne, Esq., of the Twenty-fourth Ward, and by Frederick Van Cleve, Esq. of the Fourteenth Ward. THE FIRST TROOP, PHILADELFHIA CITY CA-VALRY.—This ancient volunteer company, in which Philadelphians have always taken so much pride, celebrated it e 22d of February, by inaugu-rating their new barracks, at the corner of 1 wenty-first and Ash streets. This is one of the finest es-tablishmenus of the kind in the country. The lot is 66 by 185 teet; the building measures 66 by 131, and the riding ring 66 by 115. The height of the ring, from the ground to the roof, is 35 feet. It is brillsantly lighted with three chandeliers, each having 34-burners. The meeting room of the troop, the quartermaster's rooms, storerooms, &c, are on the second floor in the front part of the build-ing. A flag staff 100 feet high is to be planted in front. The contractor for the building was Mr. Wm. L. Sands, who has recently been appointed Second Engineer on the Reading Railroad. The inauguration of this admirable armory was a very intersting event to the members of the troop and their friends. It was brilliantly lighted and deco-rated in the evening, and a very large company of ladies and gentlemen were present by invitation. With a hearty laugh the soldier replied: "I lost that hand under such funny circumstances, that I can't help laughing every time I think of it;" and the man laughed so heartily that his mirth commu-nicated itself to our reporter, and the passers by, who laughed to see the soldier so happy. With the pertinacity of his profession, our rewith the pertinacity of his profession, our re-porter pressed the question—"Well, now, tell me. How did it occur?" Suppressing his risible emotions, the soldier replied: "Why, you see, one day, down on the Rappahannock." our color sergeant wanted shaving, and as I sometimes barberized for our fellows, I agreed to do it for him. So we brought out the shaving tools and hot water. The sergeant sat down on some knapsacks, and very soon I had him nicely lathered. I had finished each sid of his face, and caught hold of his nose to cu the beard off beneath it, when just as I was prepared to use the razor, which just as I was prepared to use the razor, which hang i away went the hand and head. Where they went I never knew. I didn't set eyes on either of them afterwards; but every time I think about it, I can's help laughing." About six weeks after, I got my discharge, and am now on my way to Orleans county.-New York Sun. A Southern Loyalist .-- We have mentioned

the death of Hon. John E. Bouligny, a Union member of Congress from Louisian -one of the few Southern men who adhered to the cause of the Union from the very beginning, at the sacrifice of all his property and great numbers of his oldest and most devoted friends. He was a man of ability and of high char-acter; and his action in this contest involved sacrifices and losses on his part which few of our Northern people can fully understand. He leaves his family unprovided for. His last efforts were to secure for them, at the hands of the Committee on Private Land Claims in Congress, compensation for property taken by the Government for public uses. At the last Congress the class was favorably con-sidered by the same committee, and there would seem to be special reasons of decided force why it should receive prompt attention from the present Congress. We feel confident that the peculiar circumstances of the case will lead the committee to take as early action as possible upon it .- N. Y. Times.

THE VENANGO OIL TRADE.-The Oil City Register, in its review of the oil trade for last

week, says: "The market has been active for the past week, and a considerable amount has

changed hands at prices slightly higher. The

advance we consider mainly legitimate, and

consequent upon the favorable news from Europe, and enhanced quotations in New York. The daily production of oil at present we esti-

mate at scarcely 4,000 barrels. There have

been no new wells of consequence struck

lately. The shipments from the wells to the railroad have been considerable, during the

past ten days, thus lessening the amount held in tanks along Oil Creek, which we estimated

last week at from 35,000 to 40,000 barrels. We

give as the ruling quotations, \$4a4 50 at the wells, and \$5a5 25 per barrel, at this point.

We heard of one sale on Tuesday, on the Ham.

was above the market price. The market closes firm with a decided upward tendency

From the statement of a passenger who came up in boat No. 5. I learn that he was standing on the deck at the time of the accident. The steamer passed the bwoy, and the passengers thought it was the pilot boat. Immediately after the steamer struck, the boats were got out safely with the exception of No. 2, which swamped. No. 5 took aboard all she could hold, including several who jumped into the water to them. Being unable to find a landing place, she was rowed up the harbor. She contained mostly cabin passengers, and some steerage passengers whose names I do not learn, with the exception of a Mr. Brown. The mails safed were from Glasgow to New York, frem Glasgow to California, and one bag of papers for Boston. The pass desputches were not saved.

LECTURE BY THE HUMORIST, CORDOVA.—The citizens of Philadelphia will have the opportunity of enjoying a nch treat, on Thursday evening, the 25th inst., at Concert Hall, when the celebrated witand humorist, De Cordova, of New York, will deliver the first of his great series, the subject of which will be "Courtship and Marriage." The immense audiences which these lectures attra.ted in New York recently, and the compliments lavished upon them by the New York press, are a sufficient guarantee of their popular reception in this city. We learn that a large number of tickets to gain admittance to the hall tickets will neces-sarily have to be procured in advance. THE ARMY HOSPITALS.—During the past
