A GREAT BATTLE EXPECTED IN GEORGIA. [Special Despatch to the Bulletin.]

CHATTANOOGA, Feb. 23 .- A reconnoissance from Ringgold, Georgia, on the 22d, showed the enemy to be in force at Lafayette. There will be a fight of considerable proportions there in a few days.

FROM EAST TENNESSEE.

[Special Despatch to the Bulletin] KNOXVILLE, Feb. 22.-Political discussion is growing rife here, in view of the coming election. It is feared that Governor Johnson's test oath will cause many Union men to stay from the polls, who deny his right to impose it. Knox county and a good part of East Tennessee will be rid of the rebels by the first Saturday in March.

The railroad bridge at London is progressing at the rate of one hundred feet per day, and will probably pass trains over on the fifth of March.

General Stoneman made a reconnoissance in force to-day, fourteen miles on the Sevierville road, and returned without finding the enemy.

Hood's division, commanded by Jennings, has crossed the river at Strawberry Plains. The rebel artillery has begun to cross, and a few siege guns are already over. They have employed from 100 to 150 men daily on the railroad bridges, which it is thought, they can complete in two or three weeks.

All our men on active duty are now receiving full rations of meat and bread; others half rations of bread. Clothing has arrived, or is on the way from Nashville, sufficient to clothe the men.

Very few deserters come in now.

TEXT BOOK REJECTED .- During the consideation of the report of the Committee on Text Books, by the Board of Controllers of the Public Books, by the Board of Controllers of the Public Schools, yesterday afternoon, objection was made to Davenport's History of the United States, on the ground that the children were taught by the book the existence of a Southern Confederacy. There are a series of questions relative to the seces-sion of different States and the formation of a Con-federacy, and then follows one "Who was elected President and Vice-President of the Confederacy?" The answer given is: "On February 9, 1881, Jef-ferren Davis, of Mississippi, and Alexander Ste-phens, of Georgia, were elected temporary Presi-dent and Vice-President of the Southern Confede-racy." Wistar yesterday presented to Mayor Henry a large shell. This war missile was found buried about six feet under the entrenchments at York-town, and is supposed to have been one of those used by Loid Cornwallis during the revolutionary war. It was certainly there previous to the out-break of the rebellion, as it differs in size and shape from any shells which have been in use for years past. This interesting relic is to be placed in In-dependence Hall. There were other shells and picces of shells found at the same time, but this one was secured by Gen. Wistar, to be placed among the other relics of "the days that tred men's scouls."

THE APPROACHING DRAFT .- The time fixed THE APPROACHING DRAFT.—The time fixed by the President's proclamation for a draft for 500,00 men is rapidly approaching. The quota of the city is not yet full, and it will require renewed exertions upon the part of our citizens during the remaining short period to avoid the conscription. Recruiting is going on briskly, and although no official report of the number of men mustered into service his been made since the 6th inst., enough is known to show that the enhistments are largely on the increase. Those who desire to avail them-selves of the liberal bounties offered by the Go-vernment for volunteers should remember that all such bounties cease on the 1st proximo.

Housz.-Mr. Allen (Mass.) made a statement that within the last week the town of Gloncester, Macs., was severely injured by fire, the business portion being destroyed. The tay collector of that district had written to the Treasury Department to allow him to suspend the collection of the Internal Revenue for the pretent from the sufferers by the fire. Many families had been turned out of doors, and inconceivable suffering and dis ress erists among them. bling in Lancaster, preparatory to leaving for Camp Dennison. The conversation turned on the war, during which the loyalty and disloyalty of certain citizens were pretty freely ventilated

An old man named Zee, the keeper of a saloon, seated himself at a window where he could hear the conversation, having previously armed himself with a revolver. About 10 o'clock in the evening a soldier, by the name of Little, turned to Zee's son and remarked, "George, I understand you have become a Copperhead." The young man resented this, and turning sharply upon Little, the latter thrust him aside with his fist, whereupon Zee drew his revolver and shot Little through the heart. The soldiers] immediately collected around their fallen comrade, when old Zee again fired his revolver into the crowd, the shot taking effect in the hip of a young man named Michael, who died on Sunday afternoon.

The murderer and his son escaped. The soldiers were much exasperated at the murder of their comrade, and threatened to burn the town. Colonel Durbin. Ward. their commanding officer, although partially disabled by his wounded arm, rushed in among his infuriated men and pleaded with and commanded them to desist from their purpose. He succeeded partially in his efforts, but the soldiers demolished the saloon and scattered in search of old Zee and his son, scouring the town and vicinity.

About two o'clock on Sunday morning they found young Zee lurking in the outskirts of the town, and brought him into Market House Square, where they assaulted and beat him almost to a jelly. Colonel Ward again rushed into the crowd and rescued Zee from the soldiers and had him taken to the house of a surgeon, and stood guard over him while his wounds were being dressed.

In a speech to the soldiers, Col. Ward told them he was informed that persons of Boone county, an entirely Copperhead district, had armed themselves and were coming into Lancaster; whereupon the soldiers rushed to the armory for guns, took possession of the courthouse and barricaded it, but nothing came of the rumor.

FINANCE AND BUSINESS .--- FEB. 24, 1864. The popular current of speculation continues in Stocks with a force and vigor that astonishes the

oldest operators, and so long as the present plethora of money continues, no abatement from the present active state of affairs can be confidently looked for. It would be a waste of time and space to attempt to give the fluctuations in everything on the list, but it must be apparent to the most casual observer that a majority of the trading community are en-gaged in speculation in stocks, and that the mania for this sort of business is rapidly spreading. Government, State and City Loans were held with great confidence; The Five-Twenty Loans were field with some extent at 107. State Fives were firm at 95, and the Coupons at 100. City Loans, of the new issues, were more sought after at 107%. Pennsylvania Railroad opened at 70, and declined to 69%. Beaver Meadow Railroad advanced I. Mine Hill Railroad was firm at 63%.
