INTERESTING FROM DIXIE. HOW THE UNION PRISONERS ESCAPED FROM LIBBY PRISON.

FROM LIBBY PRISON.

[From the Richmond Enquirer, Feb. 12.]

The escape of the Yankee officers from the Libby continued to be the liveliest topic of yesterday, and conjectures were rife as to the means of the escape other than those described in the published accounts, The sentinels, as usual, were enriched with laurels that their native modesty, if nothing else, would cause them to decline. After all, however, this great delivery does not exceed in glory or secrecy the escape of John Morgan from the Ohio Penitentiary, and yet neither the connivance nor carelessness of sentinels or others have received any credit from Morgan or his historians, Yankee or Southern. It is most procable, in fact, that this distinguished General is, more than anybody else, responsible for the success with which Streight and his chums made their exit from the Libby. The experience and example of the one was an admirable lesson to the other.

It appears that the tunnel under Twantieth

example of the one was an auminable tesson to the other.

It appears that the tunnel under Twentieth street was dug entirely with an old hinge, and the loosened earth—a brittle, marly sand—removed with an old sugar scoop stolen from the hospital quarters. As the tunnel progressed, the miner took with him, besides his tools, an old-tashioned knapsack made upon a wooden frame, to which a cord was attached. When he filled this with earth, it was drawn out by an accomplice who remained in the cellar, the contents deposited safely out of the way, and it was then shoved back to the digger with a pole.

The basement itself, in which this work was carried on, was kept constantly locked, never carried on, was kept constantly locked, never used, and the windows being tightly nailed, it was as dark as pitch. The principal in the tunneling operation was Captain J. N. Jehnson, of the 6th Kentncky Cayalry, who is among the escaped. His accomplices were different, as occasion or private arrangement demanded.

His accomplices were different, as occasion or private arrangement demanded.

On several occasions it had been observed that this Johnson was absent from roll-call, and now and then two or three others, a circumstance not very gratifying to the clerk having the roll to call, who, o course, would have it to go over again. A short time after he would appear and make his presence known, and would give as at excuse that it was only a little fun— 'quast deviling the clerk.' On one occasion, when the thing had occurred once too often, he was called up for punishment, when he plead very earnestly, with a broad, goodnatured grin, that he was 'only joking, and was rolled up in his blanket when his name was called.' He was excused this time with a warning. He took good care to keep better hours in quarters, while the work continued below to its completion.

quarters, while the work continued below to its completion.

Immediately after the escape was discovered and the first to go in pursuit, Mr. John Ligou, Assistant Olerk, with Orderly Hatches, Warden R. R. Turner and two policemen went off in the direction of the Peninsula, and up to yesterday evening had signalized their promptness and energy by the recapture of eight of the fugitives, who they picked up on the roads. Fourteen others were brought in during Wednesday night and yesterday, by pickets on

energy by the recapture of eight of the fugitives, who they picked up on the roads. Fourteen others were brought in during Wednesday night and yesterday, by pickets on the Ohickahominy. Several were captured at Bottom's Bridge, some in Hanover, but the larger number only a few miles from the city. Intelligence was obtained that a number of them were trying to get through in the direction of Fredericksburg. Another batch, recaptured in that direction, is looked for to-day. We give below the list of those who had, up to six o'clock last eyening, been returned to their old quarters at the Libby. The energy and solicitude of Major Turner are subjects of deserved commendation.

One of the captures of Wednesday was made by 'an American citizen of African descent.' The dusky captor was engaged in a matutinal 'dig' in his potato patch, when he observed the fugitive officer streaking it across the field. Seeing that he wore suspiciously blue garments, the darkey hailed him, and asked him where he was 'gwine?' Something to the effect of 'nowhere,' being the reply, the darkey, with courage and patroitsm worthy of immortality, brought his hoe to a 'charge,' and responded, 'Yes'you is, dough—you done broke out o' one o' dem prisons—come along—you got to go wid me.' He marched him to the house, handed him over to his master, and returned to his potato patch, covered with glory. The Yankee arrived, under due guard, yesterday morning. Captured on Wednesday.—G. Starr, Captain, 3d Ohio; C. H. Morgan, 1st Lieutenant, 2lst Wisconsin, F. Moran, 1st Lieutenant, 73d New York; W. B. Pierce, 1st Lieutenant, 11th Kentucky Gavalry; H. [From the Richmond Examiner, Feb. 16.]
No more recaptured Yankee officers were gathered in at the Libby yesterday. The number sticks at forty-eight. Possibly two or three more may be picked up skipping about over the country; butthe number recaptured already, and yet to be taken, will not exceed the half of the one hundred and nine who got off. Halfa loafis better than ne loaf. As for Streight, the Confederacy got more than ten times his value when it received Morgan back, and can afford to let him run. Bon voyage, whiskey Streight!

THE NATURE, CAUSES AND TREATMENT OF NERVOUS DEAFNESS. Translated from the French of "Duchenne," with additions. By Laurence Turnbull, M. D., of Philadelphia. Published and for saie by Lindsay & Blakiston, No. 25 South Sixth street.

'This neat and unpretending little volume before us is devoted to the consideration of a group of diseases of the ear, for the relief of which most of us do very little that is rational, or indeed. generally, of any real avail. Forming an appendix to this translation from Duchenne is a paper by Dr. Turnbull—on Nervous Deafness. It gives his views and experiences on this obscure and importent subject, embracing remarks on the character, etiology, physiology, etc., etc. The little voluma is very interesting and worth reading."—Cincinnat Lancet and Observer, October, 1863.

'Ur. Turnbull's 'additions' present a very good account of the existing state of knawledge with regard to nervous deafness."—Boston Medical and Surgical Journal, Sept. 10, 1863.

'We have now reached the conclusion of the little volume, which is presented to us in a very near form. Considered as a whole, it is quite creditable to the translator; and to those specially interesting in Aural Surgical Reporter, Aug. 22, 1863.

The disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases, be cured by this medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease or the disease the symptoms. We can only enumerate them here I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude and Dimness of Vision.

DANVILLE, Pa., June 2, 1863.

Dr. Wm. H. Gregg—Dear Sir: In February, 1861, I was afflicted with sngar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July. 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured; soon after regaining my usual good health.

Yours truly,

Wm. H. Gregg & Co. — Gents—I freely give you liberly to make use of the following Certificate of the value of Constitution Water, which I can recommend in the highest manner:

My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Palpitation of the back, and in her limbs, with Palpitation of the heart and Irritation of the Bladder. I called a physician, who attended her three months, when he left her worse than he had found her. I then employed one of the best physicians I could find, who attended her ior about nine months, and while she was andernic care she did not suffer quite as much pain. He finally gave her up and said, her case was inevable. "For," said he: "the has such a combination of complaints, that medicine given for one operates against some e her of her difficulties." About this time she commenced the use of the Constitution Water, and to our utter asionishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanenters.

with the system of the skill of a number of physicians with only the skill of a number of physicians with only temporary relief. I was induced to try our advertisement of "Constitution Water," recommended for inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief. I was induced to try our medicine. I procured one bottle from your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used haif of it, to my surprise I found a great change in my health. I have used two bottles of it, and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommend it to be. My the blessing of God ever attend you in your lab its of love. Yours, truly, of love. Yours, truly, LEONARD S. BIGELOW.

THESE ARE FACTS ENOUGH.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patients and physicians.
