ABRIVAL OF THE HIBERNIAN.

PORTLAND, February 25 .--- The steamship Hibernian has arrived from Liverpool, with dates to the 11th inst., and advices via Londonderry to the 12th.

The Damascus, from Portland, arrived at Londonderry on the 12th.

The ship Adelaide, from Liverpool for New York, had put back.

There is nothing important from Schleswig. The Post says that England has proposed an

armistice preparatory to a Conference. It is supported by France, Russia and Sweden. In Parliament the Earl of Derby attacked the

Governmental policy in regard to the Alabama and Laird rams, and insinuated that the latter was seized under American menaces. He moved for the production of the papers relative thereto. Earl Russell defended the Government and

declined to produce the papers pending the legal inquiries.

SCHLESWIG, Feb. 11.-It is stated that the Danes have evacuated their works at Duppeln, and embarked their stores and war material to Alsen.

LONDON, Feb. 12 .- The Post states that the basis of England's proposition for an armistice is the evacuation of Schleswig, except the Island of Alsen, by the Danes.

The Richmond correspondent of the London Times asserts that where one slave is now fighting for Lincoln, ten slaves will be found fighting for the Sonth.

The reply of Napoleon to the letter from the Queen of Spain, announcing the marriage of the daughter of the Duc de Montpensier to the Count de Paris, is said to be couched in very affectionate terms.

The January mails from the West Coast of Africa have been received. Trade was geneally dull. The news is unimportant.

The London Times City Article says-"Whether the rate of discount by the Bank of England will be more permanent than the last

similar reduction on the 24th of December, which it was found necessary to retract in three or four weeks, must be a doubtful ques-tion. The probability is that if the war symptons thicken, the contrac-tion that will cocur, especially in the German trade, coupled with the withdrawal of credits and the exercise of general prudence, may cause a further diminution of the pressure to be witnessed. Some letters from Germany to-day state that an increased sense of internal complications and external dangers, to which the country may be driven by the present course, is beginning in several quarters to be-

come manifest." The London Times regrets the heavy loss sustained by the British force in the New Zealand battle, but says the results were most im-portant. So much so that the leading man among the natives, William Thompson, wished to offer his submission to the General mmedi

inities pointrough taking subscriptions. Col. P.-S. White also made an effective speech. Another meeting will be held at the same place to night. Speeches are expected from Theo. Cuyler. Esq., Col. Wm. B. Mann, E. Spencer Miller, Esq., and others, and if the citizens will bring up their 55 s and \$10's, the First Ward quota will be made up by Saturday evening and the Ward escape the Liraft.

Six hundred and seventy soven were required from the Ward, and the sum of \$16,925 five dollars to each man. This exhibits great effi-clency and enterprise upon the part of the officers of the Exemption A: sociation of the Ward. Col. Ward. Association, and Thomas R. Davis, Secre-tary. The subject prions are yet inpaid to a con-siderable extent, and there are many in the Ward who have not contributed at all. By emisting in regiments of other States iney deprive their families at home of that generous and dibertal aid which our law has provided for them as a right, and not as a charity, they will not en-joy the right of suffrage which an approaching amendment of the Constitution will give to our ab-sent volunteers; they cut themselves toose from the ties which bind them to their homes, and which binds Pennsylvania to give them constant care and assistance in the field, an obligation which our State has never neglected. If wounded or sick, they will no longer be fostered by our agents, and re-ceived with applause and consideration as men who have done honor to Pennsylvania; they bring the history of their regiments to an abrupt close: their names will no longer be entered on our rolls; all the glorious recollections of their valor and snifer-ings will be weakened by the tact that they have abandoned their native State; deserted to

THE SPRING TRADE—FIRST QUALITY DRY GOODS.—All the readers of the BULLETIN have been familiar, for years, with the advertisements of Meesrs. Eyre & Landell, corner of Fourth and Arch streets. For the last quarter of a century this firm has been established at that locality. and with each year they have endeavored, and, if we may judge, succeeded, in making their establish-ment more attractive than the last. They have now the following departments well stocked for the spring of 1864: Slik Department, Moursing Department, Cloth Department, Hosiery and Glove Department, Cloth Department, House Fur-nishing Department. Their wholessle rooms are in the second story, and buyers will find it con-ducted as handsomely as the retail departments. Among their stock will always be found, among other goods, plain goods suitable for Friends' wear, of the very best qualities. It is scarcely necessary to state these facts to those who have been familiar with the city trade, but those who have been familiar mently well-ordered and enterprising establish-ment. Visitors to the corner of Fourth and Arch streets will always find that the goods offered are of the best fabrics and perfectly sound. Such haits as damaged or inferior articles are never offered here, nor will any customer ever receive less than full value for the money expended. Dealing thas, THE SPRING TRADE-FIRST QUALITY DRY here, nor will any customer ever receive less than full value for the money expended. Dealing thus, Messrs. Eyre & Landell have never failed to command the very best trade, and it is their study ever to maintain the high character they have so ac-

General Isaac J. Wistar, relative to the shell found at Yorktown, a statement of which appeared in the BULLETIN of yesterday: *Headquarters U. S. Forces, Yorkhown, Va., Feb.* 16th, 1864.—Hon. ALEXANDER HUNREY, Mayor of the City of Philadelphia.—Dear Sir: I have the honor to request the acceptance by the corporate authorities of the city of Philadelphia, of one thirteen (13) inch mortar shell just exhumed from the terre-plein of the old Fort Yorktown, by a fatigue party working on the present fortifications. From its position in relation with the lines of attack and defence during the sized by the allied army in October, 1781, it was undonbtedly fired from the right or American batteries of General Washington's second parallel at that time, and imbedded itself inside of Lord Cornwallis's works without explosion. All vestige of the fuse has disappeared but the charge remains. It has been well drowned and is believed to be inexplosive. If it belongs to any one it must be the old Conti-nental Congress, which it is believed has no further use for it. I have therefore taken the liberty of sending it to the city of Philadelphia, where their last session was held, and respectfully suggest that it be placed in Independence Hall with the other relics there collected of colonial and revolutionary days. I have the hon to be, sir, with great respect.

Thave the bonor to be, sir, with great respect, your obedient servant, ISAAO J. WISTAR.

Prof. Ssunders made a thrilling speech or rather a series of speeches, for he roused such an excitement about subscribing that he mounted the stand no less than five times. INTERESTING FROM THE RIO GRANDE.

INTERESTING FROM THE RIO GRANDE. [Correspondence of the Missouri Democrat.] Van BUREN, Ark., Feb. 21.—A scout from the Rio Grande-country has made his way through Texas and Arkansas, and arrived here to day. Since the arrival of our forces on the Rio Grande, the State of Tamaulipas, near Brownsville, has had five different governors. Governor Serro has past been compelled to vacatein favor of a governor named Ruis, of the Juarez party, and Cortinas is now trying to force Ruis out. Juarez, the Presi-dent of the Republic, was at Salillo a few days ago, on his way to Monterey. From there he will probably go to Matamoras, and will endeavor to reach Brownswile and claim protection of the United States forces. Our troops are gradually extending their lines at the forces of Governor Ruis, State of Tamanli-pas, and of Cortinas, had a lively fight on the 12th alt. Governor Ruis notified Geu. Herron, com-manding the Federal forces on the Rio Graade, that be could not protect the United States Con-sulate, and Pierce, the Consul, begged Gen. Her-ron to send a force to take care of him. Gen. Herron took the responsibility, and went into Matamoras while the fight was going on, with four companies of troops, and moved the Consul's family to Brownsville, bringing out at the same time \$1,000.000 in specie, that was deposited with the consulate. Our forces did not interfere with the troops of either party, nor did they inter-fere with us. This movement may creats some hubbub, but it is conceded that General Herron acted very properly, and that the anvasion for the parpose named did not conflict with the neutrality laws. In the civil strife that is now going on in the different States of Mexico, too much prudence cannot be exercised, but General Herron hit the anio on the head when he is reported to havessid that he did not see anything wrosg in stepping in and helping our corsul out.
