FROM KNOXVILLE FROM RNOXVILLE:

KNOXNILLE, Feb. 24.—A reconnoissance in force, under the command or Gen. Stoneman, with the forces of Generals Hisscall and Hizen, was made on Monday night; toward Bull's Gap, when it was discovered that the rebel cavalry had retreated beyond French Broad river. On Saturday, the 20th, Gen. Longstreet began his retreat from Strawberry Plains towards Bull's Gap, first destroying the bridge, and reports say his camp equipage, &c. ipage, &c. jen. Schofield moved to the Plains with the Union forces, to day, assigning the command of the post and defences of Knoxville to Brig. Gen. Hascall, who will send forward the army equip-

age and stores.

Rumors of a raid by the Union forces on Longstreet's rear are current, which are supposed to account for the precipitate rebel retreat.

FROM CAIRO.

CAIRO, Feb. 25.—Professor Winchell, who came passenger on the steamer Fannie, from Vicksburg, informs me that the news of the capture of Selma, Ala., by Gen. Sherman, was brought to that place by a courier direct from Gen. Sherman. Professor Winchell get the information from Captain Finkler, department quartermaster at Vicks. burg, and entire confidence was placed in its correctness. The report is credited in military circles, [Note.—If a courier had arrived from General Sherman, the government would have received Sherman, the government would have received the intelligence and communicated it to the public.

FROM MEMPHIS AND NEW ORLEANS.

OAIRO, Feb. 25.—The steamer Perry has arrived from Memphis, with 520 bales of cotton for St. Louis. The 72a Ohio infantry, veteran recruits, Gen. Buckland's old regiment, en route home, and a detachment of cavalry from Gen. Grierson's command, had arrived at Memphis, bringing forty-five prisoners, among them a rebel captain. Much dissatisfaction existed among the Mississippi troops, who were rapidly deserting, caused by speculations in cotton by the rebel Generals Forrest, Chambers, Ferguson, Richardson, and others, which they state is being taken from rebel soldiers' wives by scouts detailed for that purpose, and who run the blockade at Memphis, and bring back greenbacks and divide the profits with the generals.

The steamer Swan, from New Orleans on the 17th, with over 100 hogsheads of sugar, for Cairo and St. Louis, has arrived. The New Orleans Times supports Michael Hahn for Governor, and says he will receive a majority of the votes cast. A mas meeting of the citizens of West Tennessee was held at Memphis on the 22d. In the evening one of the largest and most brilliant audiences ever assembled in Memphis listened to an eloquent address by Col. Bland upon emancipation. Dr. Butler, of Arkansas, was to address the meeting on the following night upon the question of the reorganization of the State. The cotton market is dull and fluctuating. The steamer St. Cloud has just passed for Cincinnati, with 8000 bales of cotton. The steamer Swan, from New Orleans on the

FROM WASHINGTON.

WASHINGTON, Peb. 25.—It is understood that telegrams have been sent from this city stating that the Secretary of the Treasury proposes to make an additional issue of five-twenty bonds, but there is authority for stating that no such intenuon has been or is entertained. The bill reported from the Committee of Ways and Means to-day is intended to authorize the issue of bonds redeemable after five years, and payable in forty years, ander which authority the Secretary will probably offer an issue of tive per cent. bonds. redeemable after ten and payable in forty years from date. The bill is also intended to authorize the issue of bonds for the excess of subscriptions to the five-twenty loan. This excess is between ten and eleven millions of dollars. In relation to the allegations circulating about discriminations on trade regulations, there is authority for saying that there are no discriminations of any kind in favor of any place or person over any other place or person.

The most material amendments to the Navy bill, before it passed the House to-day, were the increase of appropriations from \$22,600,600 to \$26,300,600 for the construction and repair of vessels, and the appropriation of \$520,700 for floating drydocks at New York and Philadelphia Navy-yards, for monitors.

Letters have been received giving an account of some of the prisoners captured by the rebels on board the gunboat Underwiter, near Newbern, N. C., on the night of reb 2d. They were taken to Goldsboro', N. C., and are now held there as prisoners of war. Several of them are wounded and in a military hospital. One man, named Edward Newlove, a seaman, has died. Twenty-five are at Goldsboro', a list of whose names has been received. The writer does not appear to know what has become of the commander of the gunboat, or of the other men on board. The attack was made on a dark night, with an overwhelming force, and many of the sailors jumped overboard and swam ashore. The following is the list:

William K. Engell, Acting Master's Mate and Executive Officer, wounded, but not dangerously. He has two wounds with pistol bills and two cutless cuts in the left arm and side.

Edward H. Sears, Acting Assistant Paymaster. John B Dick, Acting Second Assistant Engineer. Samuel B. Ellis, Acting Third Assistant-Engineer. Daniel Ward, Acting Master's Mate.

CONVENTION FOR IMPROVING THE OHIO LOUISVILLE, Feb. 25. —The convention to devi e LOUISVILLE, Feb. 25. The convention to devi e means for the improvement of the Ohio River, rassed a series of recountions, terminating with a requirement that an appropriation of \$10,000,000 be asked of the, Federal Government for the one provement of the Ohio, and that the resolutions and memorials adopted by this convention be sent to the various Boards of Tr. de, Chambers of Commerce and municipal representatives of the various cities and towns on its borders, for their action and appreval. The resolutions set forth the nicessity of the improvements asked for, and contrast the large sums expended for harbor improvements and far illuies to ocean commerce on the Atlantic coast with the small outlay by Government for the benefit of interior commerce.

benefit of interior commerce.

The resolution adopted, which was offered as a substitute for that which required plans. &c., to be sent to the Boards of Trade and Chambers of Commerce, provides that a committee of five, lecte i from the towns on the Chic. he constitu secret from the towns on the Ohio, be constituted on executive committee to take charge of the subject matter, with power to convene this assembly at any future day, and that said executive committee is expected to urge up in the national antihorities such plans as meritg neral concurrence, and to oppose all inadequate plans. This afternoon the Convention adjourned sine die.

AN EXTRAORDINARY STORY .- The Trumpet, published at Elizabeth town, in this county, relates the following story as a " singular phe nomenon." It is, certainly, very singular if true-whereof, we beg leave respectfully to record our gentle suspicions: "An unnatural phenomenon took place in Rapho township, three miles east of Mount Joy on Thursday last, at the residence of Martin Inly. His daughter, aged 18 years, died a quarter before 8 o'clock. After the usual ceremonies were attended to, towards morning the attention of the mother was drawn to the corpse, when she discerned something unusual on the lips of the deceased; attempting to remove it, apparently a voice seemed to say, let it remain. Astonishment caused an examination, and the fact was there appeared in the middle of the lips and teeth a complete rose bud ready to open, and on the left side of the bud a full bloomed rose (what florists call a double levy rose). On close examination it was ascertained that the bud and rose were a hard substance to the touch, and in appearance like ivory. It was perceptible that from the first

and last nights of the phenomenon it enlarged. Thoughts were entertained that the removal of the body to the burying ground (which was in a hearse and over a mile of rough road) might cause a separation, but the bud and rose still remained as when first seen, only increased perceptibly in size. The rose and bud was as white as ivory, and supposed equally as hard. Many persons were eye witnesses of the tast. rose was very natural, and those not knowing the fact, felt satisfied that it was a natural rose and bud, placed there as an ornament; and reports caused many to witness the fact. The disease of the deceased, was measles; relapse took place attended with a cold, which caused her death."-Lancaster Express.

THE SCARCITY OF LABORERS.—For the last year or two, since the country has been so thoroughly drained of men for the war, there has been a great scarcity of laborers. Farmers have not been able to get half enough to put in or harvest their crops; and in every kind of mechanical business there has been the greatest difficulty in getting operatives, and those who are obtained, even the most unskilled, will work only for the highest wages. This lack of laborers is likely to be still more serious the coming season than ever before, and it is becoming a grave question how with so many men gone and going to the war, the industry of the country is to be carried on. The supply of laborers by immigration is not sufficient to meet the increased demand and unless some systematic effort is made to get workmen, our manufacturing, and especially our agricultural interests, are likely to suffer se-

In this emergency why not look to Canada for a stock of laborers? The supply is greater there than the demand, increased by crowds of cowards who have fled there to avoid military service, and wages are low. The prospect of steady work and higher wages would induce many of the Canadians to emigrate to the States, if the facts could be put before them and some suitable effort made. The Canadians are more intelligent, better natured and more valuable workmen in every respect than the Irish, notwithstanding that the latter want a small fortune for their services, continued for any length of time. We don't want to invade Canada, but if an army of Canadian laborers would invade New England they would meet with a warm reception. The women may come too, and would find abundant employment in the factories and kitchens while their brothers were at work in the shop or on the farm.-Springfield Republican.

ACCIDENTS IN BRITISH COAL MINES .- The collected reports made by the Inspectors of Mines to the Home Secretary on the year 1862 have only just been published. They show that no less than 1,133 lives were lost by coalmine accidents in Great Britain in that year, and 105 in ironstone mines. In 1861 the lives lost by accidents in coal mines were only 913, but the year 1862 saw several accidents of unusual fatality—47 persons were killed by an explosion at Cethin Colliery, near Merthyr; 59 persons by another at Edmund's Main Colliery, near Barnsley; and, most terrible of all, 209 persons at Hartley Colliery. This last calamity will long be remembered, if only for the extraordinary sympathy excited throughout the kingdom, resulting in contributions for the families of the sufferers to an amount exceeding 80,000*l*.,—a sum which proved, in fact, far larger than the reasonable requirements of the case, so that an arrangement had to be made for varying the application of the surplus.

CHIEF OCCUPATIONS OF THE ENGLISH PEOPLE. The recent census of England shows this list of occupations followed by more than 100,-000 persons:-Agricultural laborers and farm servants (without including members of the farmer's family), 1,188,789; domestic servants, 1,106,974; engaged on the cotton and calico manufacture, 456,646 persons; on the woolen cloth manufacture, 130,034; on the iron manufacture, 125,771; on the satin and silk manufacture, 101,670; coal miners, 246,613; dressnacture, 101,070; coal miners, 2±0,013; Gress-makers and milliners, 287,101; laundry people, 167,607; shoemakers, 250,581; tailors, 136,390; carpenters and joiners, 177,969; blacksmiths, 108,165. There are 309,883 persons described generally as "faborers."

A SAD ACCIDENT occurred at Huntingdon, Indiana, on the evening of the 16th, resulting in the death of a young lady named Killander. It appears that when going into the cellar, her elothes came in contact with a coal-oil can, oversetting it and spilling the oil upon her clothes, whereupon she remarked, "If we can have oil foot the coarse of the coar burn oil from the carpet, I can burn it off my clothes," and suiting the action to the word, applied the blaze of a candle to her dress, which instantly ignited. It being impossible to extinguish the flames, she was burned to a

GOV. FREDERICK F. Low, in a recent Message on the finances of California, estimates the total debt of the State on the first of January, 1864, at \$5,365,640 71. This includes \$600,000 paid to volunteers, and \$75,000 for the completion of the building for the Deaf and Dumb Asylum.
