ATTENTION, SEVENTH WARD!—At a meeting of the Precinct Collecting Committees of the Seventh Ward, held at O'Neill Hall, Lombard street, near Broad, on Friday Evening, the 26th inst., the following preamble and resolutions were unanimously adopted:

Whereas, The sum of THIRTY THOUSAND DOLLARS, or thereabouts, is requisite to exempt the citizens of the Seventh Ward from the impending military draft; and whereas, of the FIVE THOUSAND taxable inhabitants, about nime hundred have contributed seventeen thousand dollars to be yet furnished; and whereas, we are well satisfied that there are among the four thousand taxables who have as yet contributed nothing, a large number able and willing to do their share of the good work in which we are engaged; and whereas, a subscription of One Hundred Dollars each by one hundred and stry, or of Twenty-five Dollars each by five hundred and twenty persons, (about one-eighth of the non-contributors,) would suffice to meet the requirements of the case, in which all are interested, and it is not doubted that from these various classes of subscribers the needed amount can be raised; therefore,

Resolved, That all those who are willing to lend their aid in this manner be earnestly urged to make their contributions at an early day, to any of the undernamed chairmen of the different Committees, to George N. Tatham, Esq., Treasurer of the Fund, No. 1114 Spruce street, or to any authorized members of the Collecting Committees.

behalf of the poor of the city the managers of
the Union Benevolent Association are compelled
to make a second appeal for the season for funds.
It was hoped that the midness of the winter and
the activity of trade would have made a second
appeal unnecessary; but the enormously increased
cost of every article of living and especially of
fuel, has laid burdens upon the poor which
calls for greater liberality towards them; and
our treasury is empty. Notwithstanding the apparent prosperity abroad there is an under current
of suffering which is our duty to search
out and relieve. The labor of working-men is well
remunerated; but that of poor sewing women is
not, except in special cases. We know of those
who, working late and early; earn but \$2.00 per
week; who make common shirts for \$1.25, and
drawers for \$1.00 per dozen. Men control their
wages by banding together and demanding an increase of pay, but there seems to be no redress for
women, who are wholly in the power of their employers. When it is asserted, therefore, that
labor is abundant, &c., we point to this
class of sufferers, and ask for them and those dependent upon them the sympathies of the public.
The public must be reminded, however, that it is
not for those who are able to labor that our charity
is intended, but for those who are incapacitated by
reason of sickness or infirmities, and upon whom
the high prices work an immense amount of suffering. This class "we have always with us,"
matter how mild the winter or favorable the times.

An earnest appeal is now made to those citizens of the Ward who have not contributed in proportion to their means and liability. It is idle to say that you have not been called upon, &c. The gentlemen who have undertaken the office of collecting, had devoted night after night, for many weeks, to this unpalatable and thankless task. In many cases they have been unable, after repeated efforts, to see the parties called upon. Others, on being visited, have promised a consideration of the subject, and deferred contributing until some assurance of final success should be given them. When they now learn that more than twenty-five thousand dollars have been collected from a portion of their fellow-citizens, and that but two five thousand dollars have been collected from a portion of their fellow-citizens, and that but two thousand dollars is wanted, will they not esteen it a privilege to be sought after, to tender to the collectors their quota of the small remaining sum requisite to free themselves and families from further anxiety. Subscriptions can be sent to the collectors of the several precincts at their residences, to Mr. Thomas Price, Chairman of Committee, 506 Minor street, or to Mr. Thomas Potter, Treasurer, 229 Arch street. Promptitude is urgently solicited, so that the name of every contributor and the amount of his contribution shall appear in the alphabetical list to be published by the committee on the conclusion of their labors.

THE NAVY YARD AND LEAGUE . ISLAND. COURSE OF THE PHILADELPHIA DELEGA-

TION.

On Thursday last, in the House of Representatives it Washington, the naval appropriation bill was considered in Committee of the Whole, the quesion being on an appropriation of \$90,000 to purchase additional land for the Philadelphia Navy Yard. Mr. Brandeges, of Connecticut, moved to ceeded to discuss the League Islandproject, quotng a letter from the late Commodore Pentlergrasi in opposition to it. Holman, of Indiana, said, If the appropria-

tions of this sum of money will, as seems to be the argument of the gentleman from Connecticut, disargument of the gentleman from Connecticut, dispense with the necessity of expending yast syms
of money at New London, Connecticut, or League
Island, I think this expenditure would be wisely
made. But if the gentleman means that this sum
of money should be appropriated for the
benefit of the Philadelphia Navy-yard
for the mere purpose of an argument
against the purchase of League Island,
I should protest against such motives in legislation. The gentleman seems to apprehend that
unless the Philadelphia navy-yard is enlarged
"League Island swindle";—I indulge in mere
quotation—may be consummated, and if "the
League Island swindle" is not consummated, then
that the New London project, will be adopted. ductation—may be consummated, and if "including league Island swindle" is not consummated, then that the New London project will be adopted. That may or may not be considered the fair and legitimate inference from the gentleman's argument. I therefore freely yield to the gentleman from Connecticut to estate whether he considers that this appropriation of \$90,000 for the purpose of nearly acubiling, as is said by the gentleman from Pennsylvania, (Mr. Stevens,) the capacity of the Philadelphia yard will be able to dispense with the necessity of laying out a vast sum of money in the future in establishing a Navy Yard either at New London or at League Island. So far as I am concerned, representing a western constituency, among whom no money for such purposes is expended, and where the subject of economy has more weight than any local consideration, if the gentleman says that the enlargement of the Philadelphia Navy Yard will dispense with the necessity of founding-a Navy Yard to be completed, as the gentleman from Pennsylvania says, years hence, at New London, or League Island, I think the appropriation of this \$50,000 will be well made.

Mr. Brandegee withdrew his amendment.

else.
Mr. Rice withdrew his amendment.
Mr. O'Neill, of Pennsylvania.—I move to amend
the amendment by striking out the last word. I
do not know, Mr. Chairman, that it was necessary for the gentleman from Connecticut (Mr.
Brandegee), to rise in his place and undertake

do not think this committee is a 'ow wilking to be drawn into the discussion as to w. bere a great iron naval station should be located.

I do not know where the big swind. 'e is of which the gentleman spoke. It may be in New London. I do not think it is in Philadelphia. I think we have presented to the Naval Committee a location for an iron naval station which is the best the country affords, and I am glad to be able to express my belief that that question will be considered fairly by the Naval Committee. When that committee shall report we will then have before us all the facts, on which we can act with intelligence and anthority. The members from Pennsylvania are willing, on this very small matter of an appropriation of \$30,000, to leave it to be decided by the committee which has had all the facts before it.

I think the committee has given us views on the subject which show that this appropriation should be made and this strip of land bought. The chairman of the Committee of Ways and Means has informed us that it is a mere strip of one hundred feet water front, to be added to the Philadelphia navy yard. He tells us that it is necessary. Admiral Smith, Chief of the Bureau of Yards and Docks approves of it! Certainly he dots! He may have told the gratleman from Connecticut that now was his opportunity to strike a blow at League Island by asserting that the chief of the Bureau of Yards and Docks was willing that Philadelphia should have an extension of one hundred feet to her navy yard, provided the gentleman from Connecticut and those opposing League Island would satisfy the Honse that Philadelphia and Pennsylvania were getting a great boon from the Government. I am not surprised at the letter which the gentleman from Connecticut as read from the commandant of the Navy Yard. That commandant is neither a Philadelphian nor a Pennsylvanian in sentiment. It

Connecticut as read from the commandant of the Navy Yard. That commandant is neither a Philadelphian nor a Pennsylvanian in sentiment. It would suit me if the Secretary of the Navy would have some one presiding over that yard as commandant more in unison with the feelings of Philadelphia and Pennsylvania on the subject of League Island. May I ask the gentleman whether that letter was not written by Commodore Stribling?

grast?
Mr. Brandegee.—Yes, sir.
Mr. O'Neili (Pa.)—Commodore Pendergrast is dead and gone. I think he died while commandant of the Philadelphia Navy-Yard many months ago. He has been succeeded by another commandant equally hostile to the League Island project. I am not aware that either of them knew or knows anything about League Island. I am sure the knowledge of these officers as to the value of this island for the purposes of a great naval station knows anything about League Island. I am sure the knowledge of these officers as to the value of this island for the purposes of a great naval station for iron vessels and armature, with their known prejudices against the location, is not to be relied on, as is the experience of those who have lived upon and nest it and know its every foot of land. I merely rose, Mr. Chairman, to say that the Pennsylvania delegation did not desire this project to be discussed upon a mere collateral appropriation, which, in the good judgment of the Naval Committee, has been recommended as suitable for purposes of the Navy.

Air Brandegee renewed his remarks in the same strain as before, after which the amendment, by unanimous consent, was withdrawn.

Mr. Randall (Pa).—I renew the amendment: and I do so, Mr. Chairman, for the purpose of advocating the original proposition of the Committee of Ways and Means. My action will not be controlled by the reasons which seem to govern the gentleman from Connecticut [Mr. Brandegee], whose hestility to the establishment of an ironclad navy-yard at League Island, in the Delaware river, and which grows out of the fear he has for

the gentleman from Connecticut [Mr. Brandegee], whose hestility to the establishment of an ironciad navy-yard at League Island, in the Delaware river, and which grows out of the fear he has for his own pet project at New London, has been thrust forward in this debate without the least pretext for it. I deem, sir, that the proposed enlargement of the Philadelphia navy-yard is called for by the best interests of the Government. If at any future period a navy yard should be constructed at League Island, as I trust that it soon will be, and it shall become necressary to sell this land, the Government will lose nothing, but, on the control, will be able to dispose of it at an enhanced price. The appropriation is a necessary one, and is, we are told by the Department, as sconomical as it could be made with a view to answer the demands of the Navy. The reasons advanced by the Cammittee of Wavs and Means for the appropriation are plain and practical; it is founded upon the estimates and recommendations of the Department; it is needed and judicious, and I trust that it will secure the approval of the House.

Mr. Strouse—Mr. Chairman, there need be no nervousness on the part of the member from Connecticut (Mr. Brandegee) in reference to the delegation upon this floor from Pennsylvania. We are not now considering the claim of Connecticut for a new navy-yard, nor whether an iron-clad navy-yard shall be established at League Island. The gentleman has prepounded the question why we do not take more interest in this matter. Sir, I beg leave to say to the House—and I will be sustained by the representatives from Pennsylvania on both sides of the House—that we take a more enlarged view of our duties. We are not confined to the narrow limits of a State; we are here as the representatives from the merits or demerits of the measures presented for our consideration. Gentlemen will find that we do not advocate it because it is located in Pennsylvania or near Philadelphia. I come myself from the interior of the State, and I do not ad come myself from the interior of the State, and I do not advocate it because it is upon the border of Pennsylvania. We take a more enlarged view of the question; and when it comes fairly before us we will decide that which is best for the American Nary. I do notsee why there is this extraordinary clamor and this nervousness because perchance the establishment of a Navy Yard at League Island may be advocated here by gentlemen from Pennsylvania.

Island anay be advocated here by gentlemen from Pennsylvania.

Mr. Chairman, permit me to say to the House, that if League Island has not advantages to recommend it to the favorable consideration of the House, elt some other place be selected: but until it is demonstrated before the House, and we are entirely convinced that League Island has not superior claims, let us pass on to the public business that demands our attention.

Mr. Griswold, of N. Y.—Mr. Chairman, as a member of the Naval Committee, I must enter my protest against a discussion relative to the merits of League Island or New London, or any other location, in connection with this simple question of the purchase of additional land for the enlargement of the Philadelphia navy-yard.

So far as I know, sir, the members of that committee have taken up this question upon its merits alone. They have not been influenced in their recommendation upon a simple point of this kind by the feelings or interests either of League Island or New London, of Pennsylvania or Connecticut. We have taken it up as a business matter, considering the importance of the enlargement of the navy-yard upon the grounds so well stated not only by members of the Committee of Ways and Means, but by members of the Committee of Ways and Means, but by members of the Committee of Ways and the conclusion that the purchase of this little tract of land will be of great benefit to the country, inasmuch as it will nearly double the facilities of the navy-yard at Philadelphia.

I rose simply to prefest as a member of the Naval Committee against this matter being involved in any degree in the consideration of the question of a

I rose simply to prefest as a member of the Naval Committee against this matter being involved in any degree in the consideration of the question of a fature Navy Yard and its location.

Mr. Kelley—I concur, Mr. Chairman, in the propriety of the remark of the gentlemen from New York, [Mr. Griswold, I that we should exclude from the discussion now pending all consideration with reference to the question of a new Navy Yard for iron vessels. That will be before us at an early day, when I shall be prepared to show, and think I shall be sustained by the facts of the case, where that Yard should be located. But that question has no connection with the one now before the committee, and should be excluded from the discussion.

Sly, wharfage and dockage are the great wants of our Navy at this time, and I affirm without fear of contradiction that to-day, at this very hour, there are more Government vessels lying in hired docks and at hired wharves in the city of New York alone than there were in the American Navy on the day on which the rebellion broke out.

Within two weeks past a majority of the members of the Naval Committee have seen that the docks and wharves for a considerable distance south of the Philadelphia yard are rented by the government, and that our vessels in large numbers are lying at them, so too to the north of the yard several docks and some of the finest wharves are engaged by the government and occupied by transversand other vessels.

to defend the interests of the State of Pennsylvania. I do not know that this is the time for members from. Pennsylvania to be drawn into a discussion of the Pennsylvania to be drawn into a discussion of the merits of League Island or the merits of New La moon as a naval station. It may do very well for the gentleman from Connecticut to endeavor to pre udice the Committee of the Whole in regard to La ague Island, but I do not think he has succeeded in the remarks he has made. Sir, I waited for the laland, but I do not think he has succeeded in the remarks he has made. Sir, I waited for the Pennsylvania to be appropriated here. We have heard now from the chairman of the Naval earth from other members of that committee. I do not think this committee is a low willing to be ordawn into the discussion as to where a great iron naval station should be located.

I do not know that this is the time for the burchase on I did i now proposed to make an appropriation. Ted, because I then thought a job was attemptions may be a price beyond what it was worth was asked for the land; but the provise in this bill limits the purchase money to \$50,000, and my ludgment is that it will be a bargain at a price within that sum. It has a valuable though not extensive wharf fromt, and it cuts off the southern boundary of the yard from the line of a street land down on the plan of Philadelphia, and which will be opened to travel; so that should that yard be exposed for sale for commercial or general purposes, its market' value will be enhanced far more than \$90,000 by the Government owning the street front along its southern and longest boundary.

I hone, sir, that by the forture legislation of this

street front along its southern and longest boundary.
I hope, sir, that by the future legislation of this session a necessity will be created for the early sale of that yard, and thus the \$30,000 to be appropriated by this bill be converted into a much larger sum for the Treasury at an early day. This purchase will meet a present and pressing want of the Navy. Having opposed this purchase during the last Congress. I feel it is but justice to myself and those who remember my vote on that occasion to say that, on the terms proposed by the present bill, I think we could not do a more judicious thing than to provide for the purchase. I think we could not do'n more judicious thing than to provide for the puzzides.

Mr. Holman.—Is not the amount now proposed the same that was proposed in the last Congress!

Mr. Kelley.—No, sir; the sum was then one hundred and twenty thousand dollars odd, if I remember, and that is a very insterial difference. I am not sure that it was not \$150,000.

Mr. Holman's amendment was rejected.

Subsequently the appropriation was passed in Committee of the Whole.

THE THIRTEENTH WARD AND THE DRAFT .-The Thirteenth Ward and the Draft.—
By extracrdinary exertions the citizens of the Thirteenth Warl have succeeded in filling their entife quota, and in saving the Ward from a draft abundant funds have been subscribed to meet all the expenses of securing the requisite number of recruits; but some of the subscribers have not yet handed over the amounts promised by them. They should pay up promptly, and enable the committee to settle up the good and patriotic work in which they have been engaged.

POLITECHNIC COLLEGE EXAMINATION .- The POLITECHNIC COLLEGE EXAMINATION.—The regular examination of the students of the Polytechnic College on the studies of the winer assion, has been progressing during the week, units it is expected will close to-day. The session has been the most successful experienced by the Institution since its foundation ten years ago, the reputation which the graduates enjoy for thorough training, having attracted students even from remote distances north and east, as well as west and south of Pennsylvania.

Joseph E. Devitt & Co. invite the attention of all who have claims arising not only from the present war, but any past war, and who may have unsuccessfully attempted, through the want of care or experience on the part of their Attorneys, to receive from the Government, to call or of care or experience on the part of hear Attorneys, to receive from the Government, to call or correspond with them.

Joseph E. Devitt & Co. especially invite a call or correspondence from the friends of those whose deaths are uncertain, and who are marked 'missing!' Several hundreds of such have, during the past few months, received the arrears of Pay, Bonnties and Pensions due them; through the instrumentality of the Military and Naval Agency. In cases where difficulties, apparently insurmountable, have occurred, Joseph E. Devitt & Company have been remarkably successful—owing to their vast experience, thorough knowledge of the profession, the great care and skill in the preparation of their claims, and their fidelity to the trust reposed in them by the well deserved confidence of their patrons.

Machinery Oil.—There is no one subject which has more perplezed the remnifacturing public than the want of suitable and uniform oil. It is well known that an off which works well for one purpose will not sait for all uses, and the great difficulty is to adapt oils to the proper use. Messrs. Hulburt & Co., 250 Arch street; have undertaken the task, and have succeeded to a remarkable degree. We hear their oils spoken of in the highest terms, and hope the manufacturers will show them every encouragement, as they are the first in our city who have attempted to supply this great deficiency. Their fine Engine and Machinery Oil is said to surpase the best sperm. They have oils adapted for all uses. Their oils for wool greasing is a remarkable improvement.

A GREAT SEWING MACHINE.—We desire to call special attention to the advertisement of the Grover & Baker Sewing Machine, which appears on the first page of the Press to dey. The triumphant position which it has attained is no marvel when we consider the numerous advantages which this excellent instrument possesses over other Machines in use. It will scarp, hem, fells tuck, cord, bind, braid and embroder, all in absolute perfection, thus accomplishing a greater variety of work than any or all its rivals combined, and, withal, is so simple in its construction that it never gets out of order. One fact we desire to have particularly noticed, to wit:

This company has now more work than it can possibly de, at its stitching room, No. 730 Chestaut street, and that, too, principally from perform who have other Machines. This fact does, indeed, speak volumes in favor of the Grover & Haker Machines, and should be borne in mind by those who are about purchasing. A GREAT SEWING MACHINE. We desire to

Somers & Son, No. 625 Chestnut street, under Jayne's Hall, are now selling off their magnificent stock of Winter Clothing at greatly reduced prices, in anticipation of the spring season, for which they are now making the most princely preparations. Indeed, such an opportunity for securing real bargains in Clothing has seldom been presented, and our readers should avail themselves of it.

THE NEW PHOTO-MINIATURE, -Messrs, Wenderoth & Taylor, 912, 913, and 916 Chestnutstreet, are now executing the new style of picture (which we think destined to unusual popularity) entitled the "Paoto-Miniature." For artistic merit this picture excels anything that Photography has hitherto produced. The specimens at their galleries are much admired by the best judges of art.
