Bounty has been paid to 355 vol-unteers, at a total cost of .... \$12,683 (a) Cash on hand .................................. 2,729 &8

Great exertion was made by the Committee, in having men accredited to the Ward, without paying brokers' commissions; and they now find a number have been accredited, of whom they had no knowledge, and are yet without the proper legal evidence; but which thay are satisfied will be produced. As far as they can learn, atout 150 men are accredited to the Ward in addition to those already paid, costing \$3,750. We have an expense of printing and publishing, say \$300, which will require about \$1,300 yet to be collected. There may be more credits to our Ward, of reterans, who are now re-enlisting, which would require a rather larger amount. It has been published to the Ward, and we are in honor bound to do so. Some of the Precincis have answered the call most freely, and if the others would do as well, we would both insure our Ward from this draft and have no one to reproach us for having deceived them. That we have filled our quots at the expense of honesty, must never be said of the Ninth Ward.

MUSICAL.

M. THEODORE HABELMANN, the fine tenor of the German Opera, will have reason to remember Philadelphia gratefully. Last evening a complimentary amateur concert was given to him in the Fover of the Academy of Music, which was filled with a fashionable company. The only professional performer, besides M. Habelmann himself, was M. Wolfsohn, the pianist, and his services were given gratuitously. A lady amateur and a gentleman amateur were the vocalists. The lady possesses a fine, pure, sympathetic mezzo-soprano voice, which has been highly cultivated. Her singing in Mendelssohn's duo "I would that my Love," with M. Habelmann, and in the highly dramatic duo from La Traviata, with the gentleman amateur, was worthy of an experienced artist. In the solo from I Puritani, "Qui la voce," she distinguished herself, particularly in the chromatic runs and other ornamental passages of the last movement. The gentleman amateur, who possesses a remarkably fine barytone voice, also delighted every one, especially in the noble duet from The Sicilian Vespers, with M. Habelmann. A young gentleman, a pupil of M. Wolfsohn's, assisted in a grand due for two pianos, which was given with fine effect. Of course M. Habelmann's singing of several German songs was charming. The concert was a great success in every way, and we are glad to learn that it puts

a handsome sum into the hands of the deserving eneficiary. MR. GOTTSCHALK'S CONCERTS, on Monday and Tuesday evenings, at Concert Hall, will be the last he will give here before departing for Europe. He will be assisted by that really great vocalist, Mme. D'Angri, whose voice and method are worth going far to enjoy. Carlo Patti, Simon Hassler and Charles F. Schmitz are also engaged. The

concerts cannot fail to be very successful.

HEADQUAPTERS, DEPARTMENT OF WEST VIRGINIA, March 4.—Refugees report heavy movements of rebel troops eastward on the line of the Virginia and Tennessee Railroad.

CITY BULLETIN. 

How We Do It.—Almost simultaneously with the arrival of our escaped officers from the filth and famine of the Libby Prison at Richmond, comes a large body of rebel prisoners bound for Fort Delaware. Amone the number, was the notorious Basil Duke, the right hand man of John Morgan; a common guerilla and horse thief.

This fine gentleman, instead of being at once transferred to Fort Delaware, was todged, on his arrival, at the Continental Hotel, where he was petted and fitted by some of our "Sympathizers" as if he were some distinguished guest. All the luxuries of the season, with champagne and cipars ad libitum, were placed at his command and yesterday he went on his way to Fort Delaware, doubtless chu kling in his sleeve over his good fortune in enjoying Yankee fre-dom and hospitality on such an extensive scale. We passed him on Chestmut street on his way to the boat and could not but be struck with the cunning twinkle of the rascal's eye, beneath the shade of his broadbrimmed felt, as he sauntered along, quite unmoved by the busy scenes a ound him.

We have always advocated the kind treatment of rebel prisoners, and they always receive it at the hands of the government, but loyal men have good cause to complain at the excessive leniency displayed in such cases as the one just referred to We do not know who the officer was who had Duke in charge, but he ought to be made to know that it is an insult to a community like ours to have such exhibitions of misplaced tenderness made in a loyal city. A short residence in a Southern prison would give such officers a better dea of their duty. How WE Do Ir.-Almost simultaneously

More Rebel Prisoners.—Yesterday 358 rebel prisoners arrived in this city from Louisville, Kentucky. which place they left on Menday evening last. They were captured at Knoxyille about three months ago, and then taken to Nashville, but subsequently sent to Louisville, where they were confined. While on the way to this city two of them escaped. The prisoners were taken to Fort Delaware in the steamer Ashland.

Shortly after six o'clock, last evening, another lot of rebel prisoners, numbering five hundred, arrived at the foot of Washington street, from Alten, Illinois, where they have been confined for some time in the Military Prison. These left Alton en Monday morning, and the cars not being provided with lights, ten of them succeeded in making their escape out of the windows unknown to the guard before Illinois was passed through. A portion of these five hundred were captured at the siege of Vicksburg, and the remainder at Helena, Arkansas. This party was also taken to Fort Delaware. Upwards of two thousand rebel prisoners have been sent down to the fort within the last four days. More Rebel Prisoners.-Yesterday 358

THE CHILDREN'S HOSPITAL .- The annua THE CHILDREN'S HOSPITAL.—The annual report of the managers of this institute states that the admissions during 1863 were ninety-nine. The discharges and deaths eighty-eight—sixteen remain under treatment. The Dispensary patients number 1906, who have attended 4501 times for medical advice. In accordance with the recommendation of the Managers at their last annual meeting, no visits have been made to children outside the Hospital. The annual expenditure, notwithstanding the advanced price of provisions, and other necessaries, only exceeds that of 1862 by \$408.75, which, considering the greater amount of business done, shows the most economical outlay.

THE CONSUMPTION OF GAS.—The annual report of the Trustees of the Philadelphia Gas Works, which has been issued, shows that the works, Which has been issued, shows that the quantity of gas manufactured during the year has been 735,698,000 cubic feet; the increase over the previous year is 78,741,000 feet. This increase is largely owing to the increased activity in manufacturing of all kinds, and to the change in the public lamps from fluid to gas. The whole quantity made under the Trust from its commencement is 6,905,251,000 cubic feet. The largest consumption in twenty-four hours to this time is 3,548,000 cubic feet.

Applications for Gas.—During the past APPLICATIONS FOR GAS.—During the past year, the applications for gas, registered, were at the Seventh Street Office, 5,717; Spring Garden Office, 2,967; Twenty-first Ward Office, 133; Twenty-second Ward Office, 253; Twenty-fourth Ward Office, 95; Twenty-fourth Ward Office, 95; Deducting removals and discontinuances, amounting to 7,429, shows an increase of 2,099, which, added to former consumers, makes a total of 46,528 customers now on the books of the Trust.

OPENING OF A NEW GRANMAR SCHOOL. OPENING OF A NEW GRAMMAR SCHOOL.—
On Monday next, the Washington Grammar School, Fifth street, below Washington avenue, Second Section, will commence operations. Few schools have started under more favorable auspices. The building is a new and uncommonly line one, admirably located and newly furnished throughout, while the corps of teachers selected will, it is thought, prove entirely competent to insure its success.

THE PUBLIC LAMPS.—The whole number of THE FULIC LIAMPS.—The whole number of public lamps under the care of the Trustees of the Philadelphia Gas Works, at the close of the year, was 7, 207, of which 7, 159 are lighted with gas, and 18 with fluid; whilst 173 have been changed from fluid to gas during the year, to the manifest convenience and security of the public. The entire number of lights supplied with gas from the City Works is 557, 979, being an increase of 28, 797 during the year.

Suspection of Larceny.—This morning SUSPICION OF LARCENY.—This morning about two o'clock a man, who gave the name of William Wilson was overhauled at Marshall street wharf. He had in his possession a bag containing two sets of harness. While the officer was examining the bag Wilson slipped off and hid himself in a box. He was recaptured, however, and was subsequently committed for a further hearing by Ald. Kennedy.

U.S. INTERNAL REVENUE-SECOND DISTRICT. We call attention to the official announcement of Mr. John H. Diehl, Collector of Internal Revenue for the Second District, in to-day's paper. It is particularly interesting to residents of the First, Seventh, Eighth, Ninth and Tenth Wards of the city.

MILITARY FUNERAL.—The funeral of Major Henry C. Whelan, of the 6th Pennsylvania Cavalry, will take place on Monday morning, at nine o'clock, from his late residence, No. 1506 Vine street; and will be attended by the Washington Greys, accompanied by Birgfeld's Band. The funeral will proceed to St. Mary's Church.

FIRE PROOF SAFE BLOWN OPEN .- The varnish and paint store of George F. Kissam, North Third street, was entered by burglars a night or two since. They blew open an iron safe and car-ried off some papers. After ransacking the build-ing thoroughly, they decamped, having only se-cured about five dollars in money.

Union Refugees at Cairo .- Rev. E. Folsom, chaplain of the Post Hospital at Cairo, is still in our city, soliciting aid in money and cloth-ing for these sufferers. The numbers are increas-ing, and large amounts in money and clothing re-quired. Contributions may be sent, as heretofore, to H. N. Thissell, Eaq., 929 Chestnut street.

NINTH WARD.-We call attention to the official statement of the Ninth Ward Bounty Com-mittee. More money is needed to save the credit and honor of the Ward, as will be seen by the ad-vertisement among the special notices in to-day's

COMMUNICATION.—GALLAUDET'S HAIR RESTORER, for the past year or two has earned for itself a reputation among many of the most respectable persons in this city. The proprietor thinks it is row time that the community generally should know something more of its merits as a Hair Restorer. It is not offered as a dye, but an article that will restore the hair to its natural color. Persons who are already grey, will find that two or three weeks' application of it daily, will satisfy them of its value. Those who have reached an age when they expect naturally to become grey, by using it as a dressing, will find the hair to retain its natural color. No other dressing need be used. It is not proposed to make agencies in the city, but druggists and persons engaged in other business, who may wish to sell it, will have a discount allowed them as liberal as is usual on such preparations. CLAIMS OF THE SEWING MACHINE.—The most emineut medical authorities in the land have declared that the habitual use of a Wheeler & Wilson Sewing Machine in a family would accomplish more for its health and happiness than the most potent medicines have power to bestow. The 'Wheeler & Wilson' machine has been singled out for this high encomium, doubtless, from the well-known fact that sewing upon it is performed with less draught upon the strength of the operator than on any other sewing machine ever invented. Resides this, it makes the best work, is more durable, and performs a greater variety of work well, than all its rivals combined. We wish it was in compower to introduce one of these invaluable labor, life and money-saving instruments in every household in the land.

If it be inconvenient for the purchaser to visit the salesroom, the order may be forwarded to the office, and it will be as faithfully filled as if the selection had been made personally. Machines are forwarded to any part of the country, and full instructions sent, which will enable the most inexpenienced to operate them without any touble or difficulty.

PREPARING FOR SPRING .- In looking around PREPARING FOR SPRING.—In looking around among the various business establishments of this city, in the different branches of trade, we have found none more thoroughly prepared to meet the wants of the season on a more magnificent scale than the popular old clothing house of Messrs. C. Somers & Son, No. 625 Chestnut street, under Jayne's Hall. Their importations of fine cloths, cassimeres, and other choice fabrics for spring, are at once large and in admirable taste, and their styles of ready-made garments are unsurpassed by any others in the world.

A VISIT TO THE GROVER & BAKER SEWING MACHINE ROOMS.—We yesterday dropped in at the beautifully-arranged rooms of the Grover & Baker Sewing Machine Company in this city, No. 730 Chestnut street, and were amazed to find the activity pervading its several departments. In the receiving, delivering, setting-up, and packing rooms clerks were as busily engaged as if the fact of threethousand Grover & Baker machineshaving been sold before the holidays had not transpired. The large salesroom was alive with customers, waited upon by polite and intelligent attendants, and in the Stitching Rooms (which now constitute a great feature in this well-known establishment), the gentle movement of scores of machines, operated by skillful young ladies, constituted a rare industrial picture. It will be borne in mind that the Grover & Baker Company manufacture machines making the Shuttle or Lock Stitch, as well as the celebrated Grover & Baker or Elastic Stitch; also, that their machines are the only ones in existence that Embroider, which they do in the most A VISIT TO THE GROVER & BAKER SEWING

"THE EAR, ITS DISEASES, AND THEIR TREAT-MENT."—Martin & Randall, Publishers, No. 29 South Sixth street, announce that this great popular medical work, by Dr. Von Moschzisker, of this city, one of the most eminent living Aurists, is now ready for sale. The medical and general press, in its very high praise of this most ably written work, universally acknowledge the author to be an Aurist of superior skill, and the most evidently extensive experience in the treatment of deafness. The work far surpasses any ever before published, taking the highest rank as a popular medical work of the utmost utility and instruction in all that concerns the ergan of hearing. The following appreciative notice is from the able editor of the Exeming Telegraph. "THE EAR, ITS DISEASES, AND THEIR TREAT-

"Its author has been unwilling to live on the dead level of mediocrity, and has at a single bound planted himself among the brightest intel-lects of his profession. He has established two lects of his profession. He has established two things that hitherto may have been in doubt: First, that he is thoroughly familiar with every form and condition of aural disease, and that he comprehends every variety of curative remedy and agency; Secondly, that he can write a book which can teach the medical profession matters of vital importance of which they were before in ig-norance, and in a style easily comprehended by the most untaught and unlettered laymen."

A Down-East Wedding.—There was a "Down-east" wedding celebrated lately, wherein the bride and groom were attired in the mode which prevailed a century or so ago. The groom was in a white powdered wig with a queue, a richly-embroidered blue velvet cutaway cost, with yellow knee breeches, white stockings and buckled shoes. The bride's hair was also powdered, and her dress consisted of a richly-figured white satin, with puff sleeves. The "make-up" of the parties was quaint; but the groom did not present that neat and tasteful appearance peculiar to grooms of A. D. 1861, who wear the elegant garments made at the Brown Stone Olothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth. A Down-East Wedding .- There was a

GENERAL BUTLER'S DEPARTMENT.

NORFOLK, Va., March 3, 1564.—In addition to supplying the city with gas, regulating the streets and controlling the city banks, General Butler has taken in hand the reorganization of the fire department. A preliminary and fundamental step has been the bringing on a new and first-class steam engine from Philadelphia, where it was built expressly for use here. The name of the new engine is Benjamin F. Butler. Chief Engineer Decker and Assist. Engineer Baulch came on with the engine to put her in proper running trim. This morning she was fired up and gave a good account of herself and promise of future usefulness in extinguishing fires. All the old hand engines are undergoing repairs, and we shall have a fire department, if not metropolitan in magnitude, at least capable of preventing a recurrence of any of the large and destructive fires happening here from lack of the means and appliances to combat them. GENERAL BUTLER'S DEPARTMENT.

COURTS.

Nist Prius—Chief Justice Woodward.—The Lehigh Coal and Navigation Company vs. The Beaver Meadow Railroad and Coal Company. This morning Chief Justice Woodward delivered a long opinion. The Lehigh Coal and Navigation Company had filed their bill in equity, claiming, among other things, the legal authority to construct a railroad along the Upper Lehigh from the head of their navigation at or near Mauch Chunk to the Susquehanna and Lehigh Railroad at structa ratironal along the Upper Lebigh from the head of their navigation at or near Mauch Chunk to the Susquehanna and Lebigh Railroad, at White Haven, and they allege that in April last they entered upon the premises and staked out a railroad between these points, and were preparing and intending to construct the same without necessary delay, but they complain that the Beaver Meadow Railroad and Coal Company, "in order to defeat the said intentions of your orators, have recently entered upon and taked possession of the ground on which your orators had located their said road, and now occupy the same with large bodies of workmen, who are engaged thereon under the directions of the said Beaver Meadow Railroad and Coal Company, in grading the same for the purposes of laying down a third track of railroad from Maach Chunk to Pean Haven, without antherity of law, and in violation of the rights of your orators."

After referring to the various acts of Assembly controlling both Companies, the Judge heid that, under the act of 1903, the Lebigh Company had made their election to construct a railroad upon the site of their old works; but the Beaver Meadow Railroad was not to be interfered with, but the saidings of this Company are to be built in sub-ordination to the rights of the Lebigh Company. His conclusions are thus set forth: After much teffection upon all that has been exhibited to me, I ordination to the rights of the Lenigh Company. His conclusions are thus set forth: After much reflection upon all that has been exhibited to me, I have come to the conclusion that I shall best primote the public interests, as well as the interests mote the public interests, as well as the interests of these respective Companies by ordering that all the new sidings of the Beaver Meadow Company above the Turn hole be placed upon the west side of their main track; that for this purpose they have leave to transfer their main track eastward at points where such transfer will facilitate the introduction of a siding on the west side, provided they do not bring their main track at such points within eight feet of either track of the Lebigh Company the walls and embankmrnts they have already constructed for purposes of sidings on the east side of their track, so far as the same are within the lines of the railroad located by the Lebigh Company, at a valuation to be agreed on between the parties or by two men mutually chosen by them with power to chose an umpire, and that the Lebigh Company expend an amount equal to that valuation in grading the track for the siding on the west side of main track of Beaver Meadow Company.

The effect of all these religions in the west side of main track of Beaver Meadow Company.

ompany.
The effect of all these rulings is: The effect of all these rulings is:

1. To establish plaintiffs right to build the railroad they have located or begun.

2. To establish the right of defendents to build
all necessary sidings and that the projected sidings ue necessary.

3. That siding No. 1 is well built where it is but is not to be extended to the old bridge.

4. That the old bridge and the track leading on to it from the north are to be left as they are, subject to such repairs as defendants may chose to place upon them. to such repairs as defendants may chose to place upon them.

5. That all new sidings above the turn-hole be built on the west side of the tracks of the Beaver Meadow Company.

6. That the plaintiffs be uninterrupted in building a bridge at the turn-hole and their road as located, but that they compensate defendants in the manner prescribed, for the labor and material of defendants which they appropriate.

I do not suppose that these conclusions are as well for the parties as they would have done for themselves if they had accepted the suggestion to consolidate their capital and their energies; but they are the best I have been able to reach after a candid and patient heafing and consideration of the whole case. Counsel will prepare a decree for special injunction to issue in accordance with this opinion upon plaintiffs giving bond with surety, to be approved by the Prothonotary in \$20,000, and

to be approved by the Prothonotary in \$20,000, and each party will pay their own costs. The Governor of New Jersey has nominated Mercer Bessley, Esq., of Trenton, as Chief Justice of the Supreme Court, to fill the unexpired term of the late Chief Justice Whelpley. The Senate held an Executive session, and confirmed the nomination.

Sir L. H. Lafontaine, Chief Justice of the Court of Queen's Bench, Canada, died very suddenly on Friday last. While in the act of putting his signature to a writ of habeas corpus, he was suddenly seized with a fit and expired in a few minutes. When lirst attacked he had written two letters of his name. He settled back in his seat, but upon being urged to complete his signature as the writ was a very important one, he rallied and did so, and in a few minutes breathed his last. This eminent jurist who has presided over the judicial tribunal of Canada for many years, was a "rebel" in the Canadian rebellion of 1837-5, and a reward was offered for his head. He was subsequently pardoned and appointed to the highest judicial office in the Province.

Dr. Wm. P. Ray, the well-known traveler and literateur, died of malignant small-pox at the hospital at Portsmouth, Va., on the night of the list inst. Dr. Ray was a native of Massachusetts, and a pupil of General Ben. Butter, when the latter was a schoolmaster. He entered and was graduated at Harvard College, and subsequently studied at the University of Heidelberg, in Germany, frem which he received the degree of

Boctor of Philosophy. After completing his studies, he Began to travel over the various countries of Europe on foot. He at one time wrote a series of interesting sketches of travel and life, under the title of "Fourteen Thousand Miles Afcot." He returned to his native country, and stidled for the mainstry of the Episcopal Church, upon the duties of which he entered at Indianapolis. Before many years he left the ranks of the clergy, and joined those of literature. He came to New York, and for several years before the breaking out of the war was employed mainly in writing for the weekly press. After the capture of Norfolk, he went down there, and engaged in various journalistic enterprises. Latterly he has been the special correspondent of the New York Times, writing for that print under the signature of "Tewksbury."

Col. Swearingen, a citizen of Chillicothe and a pioneer of the Scioto Valley, Ohio, died a tew days since. The Cincinnail Gazettee says: James Strode Swearingen was born February 3d, 1782, in Berkeley, now Jefferson county, Virginia. He was one of a large number, including the most prominent citizens of Scioto county, who came from the Valley of Virginia, and were among the first settlers of Ohio. In 1802, when a mere youth, he was appointed by Mr. Jefferson, ensign in an artillery regiment. In 1802 he conducted a company from Detroit to Chicago, where he remained for some time preparing the defences of that port. At the time of Burr's expedition he was stationed at Fort Pickaway, near the site of the present Memphis on the Mississippi. In 1811-12 he was stationed at Fort Pickaway, near the site of the present Memphis on the Mississippi. In 1811-12 he was stationed at Fort Pickaway, near the site of the present Memphis on the Mississippi. In 1811-12 he was appointed Quartermaster General with the rank of Colonel. His headquarters vere at Chiii-cothe, where he remained until the close of the war, when he left the army.

AMUSEMENTS.

The Arch.—Mrs. John Drew ought to feel proud of her benefit last evening. Never have we seen a more brilliant house, and never have those piquant comedies, "A Bold Stroke for a Husband" and "Married Life" been pleyed with greater dash, elegance and finish. Mrs. Drew herself, Mr. Hill, Mr. Griffiths, Mr. Robson, Mr. Marlowe, Mr. Aiken, Mr. Wallis, Miss J. Henry, Miss Price, Miss Carr, Miss Gardiner, Miss Reed and Miss Morse, all acted with a spirit which made the evening a perfectly delightful one to all who were fortunate enough to secure seats. This evening "The Magic Marriage" will be repeated, and "The Willow Copse" will also be given, Mrs. Drew appearing in both pleces.

The Walnut.—Three pieces will be played at THE WALNUT.—Three pieces will be played at the Walnut to-night, Miss Henderson appearing in six characters. The plays are "Kathleen Mavourneen," "Stratagems of an Actress," and "The Ocean Child." There will, of course, be one of the usual great Saturday night houses at the Walnut.

THE CHESTNUT .- At the matinee this afternoon and at the regular performance this evening. "The Colleen Bawn" will be repeated, with the cast, the music and the recentry which have made its production at the Chestnut an era in our city's dramatic pictors.

County.—A company of negro soldiers on their way to Baltimore, some ten days ago, were obliged to stop here in consequence of the ice, and encamped at the old barracks back of St. John's College. About twenty, a few days afterwards, paraded through our streets, and the military spirit among the colored gentry became quite lively. A large number of the slave and free in and around our city flocked to the camp and enlisted. On Fri-A large number of the slave and free in and around our city flocked to the camp and enlisted. On Friday last 120 recruits left for Baltimore. About twenty of these returned here on Monday, being declared disqualified for soldiers, owing topphysical disability. We also learn that between two and three hundred in the county have left their homes and masters, determined to enter the service, and perhaps there will not be a slave owner in the country that will not find that more or less of his slaves have concluded to enter the army.—Aznopolis Gazette.
