The Proposed Conference on Danish Affairs.

had been re-called, at his own request.

The London Morning Advertiser states that not only has the Channel squadron been recalled from Lisbon, but the Admiral is under orders to proceed forthwith to the Baltic, in order to be prepared not only for possible but

probable eventualities.

The Advertiser further states that the government has resolved rather than Denmark proper shall suffer the loss of any territory to employ the logic of our naval force to any extent which circumstances may render necessary.

The Post says the language of Lord Palmerston, last night, in reference to a peace between the present belligerents, is a remote contingency, while war is a certainty. The Post thinks the prospect of assembling a Conference, pending hostilities, is one which, even if realized, can never be productive of satisfactory

relative to the proposed Conference, says: "France would gladly hope for success, but it is doubtful if Denmark and the German Confederation will accede." The City Article of the London Post says:

Private advices from Paris, upon which we believe reliance can be placed, again allude to negotiations now in progress preparatory to the recognition of the Confederate States by the French Government; although any official acknowledgment of this fact would at this moment be thought premature and undesirable." A steam ram nearly as large as the Hector, built for the Danish Government, has been

launched in the Clyde.
The Times's City Article says: "The applications at the Bank yesterday at the reduced rate were still of moderate amount, although more numerous than those of Wednesday. At present the tendency in the supply of money seems towards a further fall, but there are apparently none who are so sanguine as to expect under any circumstances that the rate can go permanently below 5 per cent., even supposing that the harvest prospects for the year should

again prove favorable." It is estimated that 900 persons were killed by the explosion of a powder magazine in Morocco.

"Respectfully and truly yours,
On the margin of the letter is written:
"He crossed the Rapidan last night, and has late
information."

The following is an editorial account from the

information."

The following is an editorial account from the Sentinel of the course of the raiders after they left the vicinity of Richmond:—

"It is difficult to trace accurately the movements of the two columns of Kitpatrick's cavalry after they retreated, discomfited, from our front. Kitpatrick, who led the fight in person. halted on Tuesday night near Atlee's Station and Mechanics ville; but Wade Hampton broke up his camp and sent him flying, with the loss of many prisoners and horses. Thence he made his way towards Williamsburg.

"A body of one hundred to one hundred and

ers and horses. Thence he made his way towards Williamsburg.

"A body of one hundred to one hundred and fifty, however, crossed the Pamunkey at Dabbey's Ferry early on Wednesday, and the Mattapony the same day at noon, at Aylett's. Two miles this side of Aylett's they met a highly promising son of Dr. Fleet, of King and Queen, and young Taliaferro, of the Signal Corps; who were out on a scout. The young men mistook the Federals for our own troops until within a few steps, when they turned to flee, and were fired on. Fleet escaped, bue was afterwards found in the woods dead. Taliaferro was conveyed to a house near by, fearfully wounded, the ball having passed through his body. After crossing at Aylett's the enemy inquired for the road to Gloucester Point, and set out in that direction. At Brainton, in King and Queen county, they were fired upon by the Home Guard, and one was killed, four wounded and one captured. I ahlgren, in making his retreat, in some way was cut off from the body of his men. At Piping Tree Ferry he is said to have obtained some small boats, in which he commenced to cross, but was broken into by Johnson and Beal's cavalry before he had finished, and seventy men were captured. Of this, however, we need confirmation. At all events, he was subsequently found in King and Queen, with a small force, which was set upon by Lieutenant Pollard, with a mixed command, and here he met his fate, as described elsewhere.

described elsewhere.

a mixed command, and here he met his fate, as described elsewhere.

"In Delaplane, on the Brook turnpike, was not robbed of his horses and mules by the enemy, as at first reported. Fortunately he had sent them into the city that morning. Most of his neighbors were less fortunate, nearly all having been victumized to a greater or less extent. Among the sufferers was Dr. Powell, who lost several horses. Mr. Stuart, who lives near our outer defences, is also a considerable sufferer.

"Now that Kilpatrick, with what is left of his raiders, has reached Williamsburg, what will he do next! We suppose he will attempt the path he took on a similar occasion. In his former raid he was driven to Williamsburg. Thence he crossed the York at Gloucester Point and took the road to Urbana, where he crossed the Rappahannock, and proceeded up the Northern Neck, stealing and plundering as he went. When a skilful for hunter, who hunts to kill, learns the path of a for, he stations men with guns at suitable points, and he soon bags his game. Let our military hunters take the hint."

ENLISTING MINORS.—Before Recorder Eneu ENLISTING MINORS.—Before Recorder Eneu yesterday afternoon William H. Martin had a hearing upon the charge of enlisting minors and forging certificates purporting to come from the parents of the boys. It seems the accused had enlisted five boys, named George Mohler, Samuel Dessy, William H. Campbell, William Barber, and George Bromall, whose ages range from fourteen to seventeen years. At the hearing yesterday the parents of the lads were present, and testified that they had not given consent for their sons to enlist, and that their signatures had been forged. District Atterney Mann was present and prose cuted the case. The defendant was held in \$1,000 bail to answer.

THE MAYOR'S MESSAGE.-Mayor Henry is now engaged in preparing his Annual Message to be presented to City Councils. GERMANTOWN WOOL VS. GERMAN ZEPHYR. GERMANTOWN WOOL VS. GERMAN ZEPHYR.—
The immense quantities of German zephyrs that are now annually consumed in this country, in various kinds of crochet work and other purposes, has at last stimulated American ingeneity to produce an acceptable substitute. For the introduction of this new article ("Germantown Wool") this community is largely indebted to the enterprise of Mr. John M. Finn, proprietor of the popular old stand, S. E. corner of Seventh and Arch streets. Mr. Finn is selling a large amount of the Germantown Wool, and there are two reasons why we feel an interest in securing for it a still wider recognition at the hands of the ladies: It is an American article, and it averages one dollar per yound kissin price than the imported Zephyr, while the colors of it are quite as rich and equally desirable in every particular, and the fibre will bear almost as high a compliment. every particular, and the fibre will bear almost as high a compliment.

In order to attract more general attention to the Germantown Wool, how it appears wrought, &c., Mr. Finn now exposes in his window a large shawl with a white centre and rich Roman border in colors, made from it, by which visitors are enabled to see at a glance the high standard attained by American manufactures in this important department. We advise the ladies of Philadelphia to visit Seventh and Arch, and examine the Germantown Wool. If they do, they will substitute it for the German Zephyr forever hereafter.

GROVER & BAKER'S GREAT "MANUFACTUR ING" SEWING MACHINE.—Under the fuvore and pressure of the celebrated family sewing machine, made by the Grover & Baker Company, and sold at their warerooms in this city, No. 730 Chestnut street we had almost lost sight of their great machine for manufacturing purposes, known as their "Shuttle, No. 9." This admirable labor-saver is now in successful operation in probably more first-class manufacturing establishments than any other sewing machine in use, for the reasons, first, that it is equally well adapted for either the lightest or heaviest sewing; and, secondly, because the price of it is remarkably low. As a speedy, beautiful and perfect sewer in every respect, this machine deserves, and, we are glad to say, is receiving the largest attention of our manufacturers.

SUDDEN EMIGRATION TO IDAHO .- A recent St. Louis letter says: "A strong Idaho gold fever has raged in this city and State for some time past, and preparations are making to load about ten small light draught steamers for Fort Benton this spring, with freight for the inhospitable region of Idaho. The prevalence of this immigration fever has struck many persons in the West as a little curious, considering the high wages paid for all kinds of skilled labor in all the cities and towns of the West. Gov. Stone, of Iowa, finally issued a proclamation, forbidding Iowans from leaving the State, un-less they are exempt from the draft; and lately Gen. Rosecrans has issued a general order to the same effect. These prohibitory orders have created consternation among the steamboat men and others interested in the Idaho business, but especially among the copperheads and conservatives, who were about to immigrate to that territory, to avoid being called npon to serve their country."

U. S. STEAMER GALENA.-The U. S. steamer Galena arrived at Baltimore on Monday from Hampton Roads, for repairs, which could not be done at the Navy Yard at Portsmonth, which port she first made after the discovery of a leak of twelve or fourteen inches per hour, caused by having been cut through by the ice in Delaware bay and river on the passage out from the Philadelphia Navy Yard. She will be put on the screw-dock, where the repairs can be speedily made.
