OHESS COLUMN PHILADELPHIA EVENING BULLETIN. SATURDAY, March 12, 1864.

PHILADELPHIA CHESS CLUB-Northeast corner of Thirteenth and Chestnut streets, second floor. Rooms open daily at 10 o' clock. CHESS PLAYERS' MAGAZINE. - We have received

the February number of the Chess Players' Magasine, which is the first we have seen of this new publication. It appears to be edited with ability, is handsomely printed, and gives a very good variety of interesting Chess matter. Unfortunately for its success in this country, it appears to be edited in the English slave interest, which will, of course, prevent its obtaining credit or currency with us. As a specimen of its animus in this particular, we give the following extract, which holds a prominent place in the number before us:

place in the number before us:

"Three of the most rising players in New York, (says' Mr. George Walker, the brilliant writer on Chess, and editor of the weekly Chess column in Belt's Life,) members of its Club, when it had a Club, have all been killed in the Aceldama, pressed into the Northern ranks to trample on men who would and will be free. The war seems to us to be mainly kept up by the North to fatten contractors and slaveholders, who gorge themselves in the blood of their Southern victims in as dignified a manner as bluebottles on the market shambles." CHESS TOURNAMENT.

The Philadelphia Chess Tournament has made some progress, as will be seen below. The drawing for the Second Section has also taken place.

PROPOSALS. DROPOSALS FOR BITUMINOUS COALS. PROPOSALS FOR BITUMINOUS UOALS.—
Sealed Proposals will be received at the Office of the Philadelphie Gas Works, No. 20 South SEVEN I H. Street, until noon of FRIDAY, 22d of April, 1864, for supplying the whole or any part of Eighty Thousand Tons of Bituminaus Conts, sultable for the manufacture of illuminating Gas, to be delivered on the Railroad tracks of the Gas Works at the First Ward and the Ninth Ward Sations, in the following monthly quantities; eight thousand tons in each of the months of September, October, November, December, and six thousand tons in each of the months of June, July. August, 1864, and January, February, March, April and May 1865.

The coals must be delivered forch dress.

November, December, and six thousand tons in each of the months of June, July, August, 1841, and January, February, March, April and May 1865.

The coals must be delivered fresh, dry, and of a quality approved by the Engineer of the Gas Works, as equal to the sample on which the contract is based.

The proposals must describe the particular variety of coals intended to be supplied and the location and name of the mine or pit from which they are to be raised. If they are of a kind not now or recently used at these Works, samples for trial of not less than fifty tons, must be delivered at the Works, on or before the 7th of April next; The gross ion of 240 pounds will be considered as the weight intended in the proposals, unless the contrary be expressly stated.

The Trustees receive the right to accept any proposals in whole or in part, or to reject all, as they may deem best for the interests of the Trust, and in the event of failure on the pat of any contractor to deliver the coals according to his a reement, both in quantity and quality, the Trustees reserve the right to buy elsewhere, whatever quantity may be required to meet the deficiency, and charge to the contractor any loss or damage arising from each failure.

Payments will be made monthly, in two equal instalments at four and six months after the specified periods of delivery, the 15th of each month being taken as the average of the monthly deliveres, or at the option of the Trustees, will be made at earlier dates with legal interest off.

Should contractors prefer to make deliveries earlier than required, they may be received so far as they can be conveniently stored, but payments will be made to date from the time specified to the contractor.

Security for the fulfilment of centract will be required, and each proposed

contractor.

Security for the fulfilment of contract will be required, and each proposal must name the amount and character of security that will be fered.

JOHN O. ORESSON, re20tap220 Engineer in Chief

MEDICAL.

BANNVART'S BRONCHIAL TROCHES, for the cure of Hosrseness, Throat Diseases, &c., are specially recommended to public speakers, as the most efficient remedy extant for the above dis-seases. We present but one of the many testimonials in our possession:

HARRISBURG, Feb. 8th, 1864. HARRISBURG, Feb. 8th, 1864.

C. A. BANNVART—Dear Sir: I have used Brown's Bronchial Troches, Wistar's Lozenges, and other preparations for hoarseness and throat troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and singers, in cases of hoarseness, coughs and colds. I have found them serving in time of need, most effectually.

Yours truly, T. H. ROBINSON,
Pastor of N. S. Presbyterian Church.

OPAL DENTALLINA.

A superior article for cleaning the Teeth, destroying animalculæ which infest them, giving tone to the gums, and leaving a feeling of fragrance and perfect cleanliness in the mouth. I may be used daily, and will be found to strengther weak and bleeding gums, while the aroma and discriveness will recommend it to every one. Being composed with the assistance of the Dentist, Physician, and Microscopist, it is confidently offered as a RELIABLE substitute for the uncertain Washes formerly in vogne.

Eminent lentists, acquainted with the constitution of the DENTALLINA, advocate its uses; it contains nothing to prevent its unrestrained employment. Made only by

JAMIES T. SHINN, Apothecary.

AWRINGE'S METALLIC BROWN PAINT

-68 PEB CENT METALLIC BROWN PAINT

The Metallic base of this Paint is composed of the Protoxide and Peroxide of Iron. Its proper ties are such as to give it superiority over all others in the market for the purpose for which it is recommended.

It has been proved by thorough exposure, and by compari on with other paints, to be the only reliable Paint to resist the action of salt water and salt atmosphere.

liable Paint to resist the action of salt water and salt atmosphere.

It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.

It is especially adapted for

METAL ROOFS.

It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.

It mixes and blends readily with other paints, and by comparison to the amount of surface a given weight will cover, costs about one-half as much as other Metallic Paints.

Wherever this Paint has been used, it has given ENTIRE SATISFACTION, which is, we believe, more than can be said of any other paint in the market.
