A few remarks. A number of petitions were presented. An act incorporating the Newcastle and Frank-lin railroad was passed finally. Adjourned.

LOCOMOTIVES FOR THE GOVERNMENT. We are informed that there is no truth in the despatch from Paterson, N. J., published in the newspapers yesterday, to the effect that Col. McCallum, had notified the locomotive builders of that place, that unless they would furnish immediately a large number of locomo tives to the Government, he would seize their shops and run them until the requisite number of engines was completed. The facts of the case are simply these: "The re-opening of roads in the West and Southwest makes it necessary that about one hundred and twenty locomotives shall be ready for transportation thither at the earliest practicable moment, and Col. McCallum has visited the shops alluded to in Patterson, as also Norris's and Baldwin's in Phila-

delphia, and similar works elsewhere, for the purpose of securing such engines as are near completion. The builders promptly acquiesced in the request of the agent of the Government, and the Western roads will be supplied; although necessarily to the inconvenience of the corporations for whose use they were originally ordered."

INCREASE IN JUDICIAL SALARIES. HARRISBURG, March 17.—The Committee of Ways and Means of the House of Representatives , have agreed to increase the salaries of the Judges of the Courts of this Commonwealth, and will so report in the Appropriation Bill. The Committee will also recommend an increase in the pay of members of the Legislature to \$1,000 per session. Both measures will undoubtedly pass.
