THE SALE OF OIL PAINTINGS, last evening, at Messrs. Scott & Stewart's sales-rooms, No. 622 Chestnut street, was well attended, and we were glad to see the collection was well appreciated. Among the many sold were :

String of Birds..... Scene near Blue Mountain..... The balance will be closed out entirely this evening and we would advise all lovers of the fine arts to attend the sale as there are a number of the choicest to be sold, such as the Horse Fair after Rosa Bonheur. A beautiful Fruit Piece by La Croix. The Mariners Dirge by Atwood and many others worthy of note.

THE MASSACHUSETTS IN PORT .- The U. S. steamer Massachusetts, Lient. West commanding, arrived off the navy yard last evening, having made the trip from Charleston bar enty-two hours. She brings officers, discharged men, invalids and prisoners. During the cruise she visited all the points on the blockade, and continued as far outh as St. John's river. On her way south she gave chase to and captured the rebel sloop Persis, loaded with cotton, a valuable prize. The Massachusetts brings no news from Florida. THEFT OF A RING .- An adroit individual is supposed to be going around among various jewelry stores and stealing rings. Last evening he visited Eltenhead's establishment, 1322 Chestnut street, and stole a guard ring, while chaffering with the proprietor. He is de-scribed as about 5 feet 6 inches in height, dark complexion, red face, of German descent, and has the air of a sailor in citizen's dress. He has marked in India ink on the fingers of his right hand the figures 1, 3, 8, 9. Jewelers should be on the look out for him. THE GREAT SANITARY FAIR .- We understand the Ninth Section of our public schools are disposed to contribute their portion towards the great fair. Parents, teachers and pupils have resolved themselves into a committee of

made to our citizens for money and stores to j and social revolution which the introduction of relieve the destitution and suffering of these this wouderful economizer of life and labor has already wrought is without a parallel in history.

A single firm in this country, engaged in the manufacture of clothing, annually disburses two hundred thousand dollars to operators on Sewing Machines, and it is estimated that more than thirty million dollars per annum are paid out by the various houses in this business in New York and Philadelphia for Sewing Machine work, and that the aggregate of moneys thus paid out in the United States annually exceeds the enormous sum of two hundred millions. Under the growth of such statistics, Hood's doleful "Song of the Shirt," we ought to thank Heaven, is rapidly becoming obsolete, at least in its application to our own country. In reading over a carefully-prepared record of the Wheeler & Wilson Sewing Machine Company, whose immense manufactory is located at Budgeport, Connecticut, and whose business and salesrooms in this city are located office at 704 Chestnut street, we were amazed to find the almost fabulous proportions to which the business of this company has grown. It is but fifteen years since they commenced

operations, and. after steadily increasing their producing facilities from year to year, their number of machines manufactured in 1863 alone amounted to over fifty thousand. Notwithstanding this, they still find it impossible to meet the constantly increasing demand. It may safely be predicted also that the sales of the Wheeler & Wilson Machines for some years to come must increase in geometrical progression. Five thousand of these Machines, for example, are now in use in Philadelphia. Every one of them is a standing advertisement of its merits, which, together with the enterprising and judicious efforts made by the popular agent of the company in this city to let the people know that the best Machine in the world is the Wheeler & Wilson, cannot fail to stimulate the demand for it ad infinitum. Wherever it has been exhibited in comparison with other machines it has carried off the victor's palm. It has more scope than any of its rivals, being perfectly

well adapted to a greater variety of work, and, owing to the simplicity of its construction, it is less liable to get out of repair and more easily operated. Then, too, the courtesies which this firm extend to the public are not overlooked. If it be inconvenient for the purchaser to visit the salesroom, the order may be forwarded to the office, 704 Chestnut street, where it will be as faithfully filled as if the selection had been made personally. Machines are thus forwarded to all parts of the country, and full instructions sent, which enable the most inexperienced to operate them without any difficulty.

One of the great advantages of buying the "Wheeler & Wilson" is that the investment is not an experimental one, but an absolute cer-

tainty. We may also state that the Agency, 704 hand a large Chestnut street, has constantly on hand a large assortment of Ladies' and Children's Readymade Clothing; also, that family sewing is there done to order, and operators, with or without chines, furnished at short notice. In short, the Wheeler & Wilson establishment, 704 Chestwat street, known by the beautiful wax figure in the window, is one of the industrial institutions of which Philadelphia may be justly proud.

A GREAT DESIDERATON IN A SEWING MA-CHINE. —In CRIVERSING the merits of the varions Sewing Machines in the market, oze cannot but come to the conclusion that the Embroidering powers of the Grover & Baker give to that instra-ment great advantages over all rivels. We yes-terday examined several specimens of embroidery executed on this popular machine, and must con-fess that the beauty, accuracy and neatness with which they are done is positively astonadizg. And another thing to be said about the Grover & Baker is that it performs all other kinds of sewing equal to any other machine in the world. The Stitching Rooms, now in full operation at the servery of the Grover & Baker Company, No. 770 Chestant street, have become a great favorite with the ladies of our city. Grant is to take the com-mand of the Army of the Potomac, and try his hand atan "On to Richmond" movement. It is the universal opinon that U. S. The General has expressed his determina-tion to have his headquarters in the field, and he will not leave "the front" except for an occa-sional flying visit to Washington, or when hefeels disposed to take a run on to Philadelphia for the purpose of procuring a new suit at the **Brown** Stone Clothing Hall of Rockhill & Wilson, Nos-603 and 605 Chestnut street, above Sixth.

DANGEROUS SPEED UPON PASSENGER RAIL-WAYS .- The cars of both the Green and Coates and Germantown Passenger Railway Companies are run at a dangerous rate of speed on Eighth street, for several squares below Walnut street. The evident object of this fast driving is to get ahead of any car of any opposition line which may be on Walnut street. No attention whatever is paid to crossings, and the lives of pedestrians are thereby endangered. Some days since a man was knocked down, ruh over and killed at Eighth and Fitzwater streets, and the Coroner's jury which investigated the case, censured both railway companies for the reckless manner in which their cars are driven. After passing Walnut street, the horses are walked until they reach Arch or Race streets, and a stop of several minutes is almost invariably made at Chestnut street. So accustomed have the conductors become to this stoppage at Chestnut street. that it makes but little difference to them whether there is sufficient room inside of the cars to accommodate more passen gers. Such is the manner in which the Eighth street lines are conducted. In both instances which we have mentioned, ordinances of the city are violated; first, by fast driving, and se-

cond, by stopping the cars to solicit passengers. If the companies do not take measures to remedy the evils complained of, it is to be hoped that the city authorities will take the matter in hand.

PROFESSOR SAUNDERS'S ARGUMENT IN BEHALF OF AIDING THE SOUTHERN PORTION OF THE CITY IN RESPECT TO WARD BOUNTY .- Professor Saunders regards Mr. Riley's resolution, passed unanimously by the delegates of the Wards, recommending the Southern portion of the .city, embracing the First, Second, Third, and Fourth Wards, to the favorable regards of certain parties residing elsewhere, as founded in justice as well as prompted by benevolence, from two important facts : First—In all parts of this extensive district

there reside an unusual number of poor people, very many of whom are employed as operatives in establishments beyond the limits of these wards, and, whilst it is true they receive a full and just reward for their services, their labor, nevertheless, increases the wealth of employers

residing in other wards. Second—Very many of the citizens of these four wards have enlisted to the credit of richer wards, in order to obtain bounties which their own localities could not furnish them, and have thus materially aided the wards of their adoption to fill up their quotas.

It is known, by repeated visits to these wards, that their finance committees are among the most zealous and persevering to be found anywhere, in prosecuting their self-denying appeals, and are, therefore, worthy of the most favorable regards of all patriotic citizens.

RETURNED UNION PRISONERS AT ANNAPOLIS. -The Agent of the Christian Commission at Annapolis, Md., states that a large number of

our men are arriving at that point from Richmond. About a week ago seven hundred and fifty arrived ; on the 16th inst., four hundred men and fifty officers, and a large number more are daily expected. These men come destitute of clothing, hungry and sick. The Christian Commission is the only agency at Annapolis to supply their wants. They have already sent forward several shipments of clothing and stores, but the demands are greater than they EVERY NIGHT. have funds to supply. An appeal is therefore

the whole, and have gone to work with zeal and energy. Among other things, the young ladies of that patriotic institution, the Zane Street Grammar School, intend giving a Concert. at the Academy of Music, on the 27th of April, that will far exceed anything of the kind that has ever before taken place.

CAARGED WITH ROBBERY .- Three colored women, named Hettie Lewis, Margaret Burton and Mary C. Wellbank, were before Alderman White yesterday, charged with the larceny of \$200 from Mrs. Alphonso Jones. The husband of Mrs. Jones had enlisted in a negro regiment, and received \$250 city bounty, \$200 of which he gave to his wife. The accused lived with Mrs. Jones. They were held to answer.

HOSPITAL CHANGE.-Assistant Surgeon Samuel A. Storrow, U. S. A., has been ordered to relieve Dr. Knickerbocker, as Surgeon in charge of the Convalescent Hospital, Sixteenth and Filbert streets. Dr. Storrow was for some years a practising physician in Washington city, and was appointed to the army in August, 1861, since which time he has been mainly employed in the field.

A GOOD APPOINTMENT .--- Mr. John J. Franklin has received the appointment of Assistant United States Assessor in the First Collection District in Philadelphia. Mr. Franklin has been connected with the Weigher's Department in the Custom House, and he won for himself the reputation of a faithful and competent officer.

DEATHS IN THE ARMY HOSPITALS .--- The following deaths were reported at the Medical Director's office yesterday : York Hospital, Thos. Cullin, Co. I, 20th Reg't Invalid Corps; Sum-mit House Hospital, Eli Fowler and Dallas Stevenson, Co. B, 32d Reg't U.S. Colored Troops; Convalescent Hospital, Robert Ervin, Co. D,2d Pa. Artillery.

PALM SUNDAY .--- To-morrow will be Palm Sunday. The day is observed in commemoration of the triumphal entry of the Saviour into Jerusalem. Palm branches were waved by people on that occasion and they were strewed in his path. Hence the name and observance. of the festival.

PERSONAL.-Colonel A. H. Tippin, of the 68th Regiment P. V., was among the prisoners from Richmond who have recently arrived at Annapolis.

TO THE DEAF .- From childhood I was not To THE DEAF.—From childhood I was not only totally deaf in my right ear, but subject to co-pious and offensive discharges from that ear. Two years ago I began to experience ringing sounds in my left ear, and considerable difficulty of hearing, which gradually increased. Six monits ago I ap-plied to Dr. Von MOSCHZISKER, Aurist, 1027 Wal-nut street. I am most happy to testify to his skill and the benefit I have derived from his treatment. The discharge from my right ear has not only ceased, but, to my great delight, the hearing of both ears is restored to me. I owe Dr. Von MOSCHZISKER a lasting debt of gradude, and, therefore, feel no hesitation in making this public statement of my case.
