INTERESTING FROM WASHING-TON.

FROM NORTH CAROLINA: NEW YORK, March 19 .- The steamer Ella S. Terry, from Newbern, N. C., on the 14th inst.,

arrived at this port this morning. There had been a slight skirmish between the enemy and the 3d New York Cavalry, but no serious collision had occurred.

Two of our prisoners were frozen to death on the trip from Richmond to Americus, Ga. Thirty-one escaped from the cars between Branchville and Augusta.

The hanging of fifty-one Union soldiers at Kinston and the reported hanging of several companies of the 2d North Carolina white regiment in Western North Carolina, who were recently captured by the rebels, have given a fresh start to the enlistment of conscript deserters, who are eager to avenge these atrocities. Free schools are about being organized in Newbern, Beaufort and other places, for the

education of poor white chileren. The Newbern Times again urges the sending of 50,000 troops to North Carolina. It says:-"Newbern is so strongly fortified that it cannot be taken by the rebels; but the time has come when the Federal army should penetrate to the interior, carrying the banner of social and political emancipation."

The Henderson (N. C.) Times states that nine-tenths of the people of that county have signed a petition to Gov. Vance asking him to call a State Convention.

FROM NEW ORLEANS. NEW YORK, March 19.—The steamer Havana has arrived with New Orleans dates of the 11th, by way of Havana to the 14th inst. She passed the Evening Star on the 12th and the Matanzas on the 15th, bound to New Orleans.

In the fight on the Ouachita river, by which Admiral Porter captured the rebel fort at Harrisonburg, one of our vessels was struck 33

Cotton was dull on the 10th, at 73 cents for Liverpool middling and 70a72 for low middlings. Sugar quiet at 101216 cts. Molasses quiet at 50a57 cts. Gold 163a164. Exchange

on New York 2al2 discount. New York, March 19 .- The steamer George Washington from New Orleans, has arrived.

FROM NEW ORLEANS VIA CAIRO. St. Louis, March 19.—The steamer Continental from New Orleans on the 10th, reached. Cairo yesterday.

The New Orleans Picayune of the 9th says: The committee appointed by General Banks to consider the questions connected with calling a State Convention for the election of delegates, report to General Banks that not more than one hundred delegates out of the one hundred and fifty recommended by the Free State General Committee can be had, even though representatives from outside of the Union lines be invited.

The receipts of cotton since March 1st at New Orleans amount to 278 bales. Public sales during the same time, 2,650. The market was dull, but little offering and the demand being limited. Ordinary was quoted at 63c.; Low Middling 66c.; Middling 67c.; Good Ordinary (good styles) 69c.; Prime to choice

FROM ARKANSAS AND TEXAS.

FORT SMITH, ARK., March 19.—The election in Arkansas closed last night, having continued for three days under the old viva voce system. All the counties north and about twenty south of the Arkansas river have voted. and it is supposed that from 10,000 to 15,000 votes were polled.

The rebel General Price has assumed command of the Department of Arkansas, and in an address tells his troops that he will soon lead them against their foes, retrieve their reverses, reoccupy their territories, and establish the perpetuity of their government.

The Union men in Texas are concentrating in anticipation of receiving speedy protection from General Herron and the column moving from this direction. It has been decided that the Army of the Frontier shall remain under General Thayer, which leaves General Blunt. without a command. All is quiet in the Indian Territory.

FROM MISSISSIPPI,

Sr. Louis, March 19th.—Advices from Natchez to the 12th inst. say that Gen. Tuttle has been assigned to the command of that post. About 600 of our prisoners are still near Shreveport, La. They comprise the crews of the gunboats captured at Sabine Pass and a portion of Gen. Denis's command captured by Morgan. About a hundred escaped during the latter part of February, twelve of whom have arrived here.

The guerillas have again appeared at Lake Providence, and are committing shocking barbarities on the negroes and Union people.

FROM THE WEST AND SOUTH. CINCINNATI, March 19 .- Despatches from Columbus say that all the veteran regiments in Ohio belonging to the Department of the South have been ordered to the Army of the Poto-

Under the last call for troops Ohio is short 28,000 men. The Commercial's Chattanooga despatch says the rebels are in large force in front, but make

no demonstrations. Thirty-five Federal prisoners escaped from the Columbus, S.C., prison on Wednesday. A despatch from Meridian, Miss., says that Gen Sherman has gone down the Mississippi

river with his troops, evidently destined for the Red River. General Hindman has resigned and General Hood commands his rebel brigade.

Considerable excitement prevailed in Georgia on account of Governor Brown's message. The rebel papers are discussing it with much violence.

The Union prisoners at Columbia very nearly made their escape a few days ago by tunneling their way out. John Morgan's command left-Decatur a week

Gen. Price issued an order, dated Longwood, Ark., March 3d, resuming command of the

rebel Department of Arkansas. FROM WASHINGTON. [Special Despatch to the Bulletin.] WASHINGTON, March 19 .- We learn that the

military prisoners at the Provost Marshal's office in Baltimore, have made an attempt to escape. But one of them got away, and he was arrested afterwards. There is no truth whatever in the story of a

rebel raid into Maryland. There is nothing

that indicates such a thing. It is thought now that General Lewis Wallace will not assume command of the Middle Department before Monday.

General Neal Dow, who has just been released from a rebel prison, had an interview with the President this morning. He speaks to the Union League here to-night.

The President spoke at the Sanitary Fair last night, and among other things uttered the folowing: "This war falls heavily upon all classes of the people, but the most so upon the soldiers. 'All that a man hath will he give for his life,' and though all have contributed of their substance, yet the soldier perils and often yields up his life for his country's cause." The exchanged prisoners who were here yes-

terday left this morning. The House Naval Committee has nearly 900 manuscript pages of evidence in its Navy Department investigation. Not a particle has yet been found to reflect upon the Department. Quintard, of the Morgan Iron Works, testifies that the Company is a loser of \$100,000 by

its contracts with the Government. [Correspondence of the Associated Press.] ASHINGTON, March 19th .- The supply steamer Admiral will leave the New York Navy Yard on March 26th for Key West, Pensacola and the stations of the Western Gulf Blockading Squadron, carrying letters and parcels for naval officers on blockading

duty. There is a good prospect of Admiral Dahl gren recovering the body of his son.

LATER NEWS FROM EUROPE. ARRIVAL OF THE STEAMER CITY OF BAL-

NEW YORK, March 19 .- The steamer City of Baltimore from Liverpool, with dates to the 5th, and Queenstown to the 7th, arrived this morning. She took the place of the City of

The Cork papers of the 7th contain little ad-

ditional news.

The new paddle steamer Washington, built on the Clyde, for the French Company, to run between New York and Havre, has made a successful trial trip.
The steamer North American, from Portland,

passed Crookhaven on the afternoon of the 6th, and proceeded to Queenstown. All well.

The Morgenbladt, published at Christiana, says the people of Norway will be grateful to the king for abstaining from war. The Legis-

lature will doubtless approve of this view.

A Copenhagen despatch, dated the night of the 5th, says the Austrians had arrived before Düppel, and an attack on that place was shortly expected. Also that those districts of Schleswig not occupied by the Austro-Prussian troops had elected members of the Danish Rigsrad. In Copenhagen all the candidates favorable to the energetic prosecution of the war were elected.

WARSAW, March 6 .- A Imperial manifesto advancing the emancipation of the peasants was solemnly proclaimed to-day. Paris, March 3 .- Three Prussian war ships at Brest have, received orders to proceed South.

WASHINGTON, March 19. SENATE.—The Senate is not in session tolay.

House.—To-day is set apart for speech-

making in the House.

Mr. Arnold (Ill.) spoke of the reconstruction of the Union, and designated liberty as the corner stone and Lincoln as the architect. ELECTION IN READING.
READING, Pa., March 19.—The city election
yesterday resulted in the success of the Democrats, though by a smaller majority than they had last year. The turn-out of voters was small, no important officers having to be elected, as the Mayor and City Treasurer hold over for another year. Besides, three-fourths of the soldiers who have gone hence to the

war are Republicans. The vote for City Au-

ditor wes as follows:

FROM HAVANA.

New York, March 19.—The advices from Havana are uninteresting. The Hamburg consulate at Trinidad is suppressed. There is nothing late from Mexico;

Large reinforcements of Spanish troops have reached St. Domingo, and further adhesions to the Spanish rule in St. Domingo are reported. On the 6th the Spaniards surprised a native camp at Hato Mayor and captured some rebels and put others to flight.

ARRIVAL OF CONVALESCENT SOLDIERS: New York, March 19.—The steamer E. L. Clark has arrived from New Orleans with one hundred convalescent troops.

CITY BULLETIN.

LAUNCH AT THE NAVY YARD.—The new gunboat Yantic, was launched from the lower ship house at the Navy Yard, this morning. She has been ready for launching for some time, but has been delayed in consequence of her machinery not having been finished. Quite a large number of persons were in the ship house this morning to witness the launch, and the neighboring wharves were also well filled with people. Everything was in readiness at twelve minutes before eleven o'clock, and at that time the new boat glided gracefully into the river, amidst the loud cheers of the spectators. As her bow struck the water she was christened by Miss Mary E. Knowles, a daughter of the master of the gun carriage shop. The launch was very successful. The vessel was hauled into the wharf south of the ship house, and those who

were on board landed. The Yantic is a gunboat built upon exactly the same plan as the Kansas, which was launched several months ago. Her dimensions are as follows: Length, between perpendiculars, 180 feet; do., extreme, 193; beam, moulded, 29 feet 4 inches; do., extreme, 30 feet; depth of hold, 12 feet 3½ inches; tons measurement, 593.

RECEUTING .- Business about the recruiting stations this week has been unusually good. The first day or two there was a falling off in the number of enlistments, but after the withdrawal of the ordinance for an increase of bounty by the Select Council there was an unusual increase. It is impossible to give an exact statement of the number of men who have been mustered into service, but during the week ending to-day the Commissioners of the Bounty Fund have drawn warrants for 5285,000. This would indicate that 1.140 men have been credited to the city during the period mentioned.

PICKING POCKETS .- Charles Howard, hailing from New York, was arrested at two o'clock this morning, at a saloon at Ninth and Market streets, upon the charge of having picked the pocket of a soldier of a watch and \$15 in money. The watch and money were found upon the person of Howard when he was arrested. The accused was committed by Alderman Devlin.

A FOUNDLING .- An infant about two weeks old was found this morning between 12 and 1 o'clock in an outhouse of a dwelling at Julia and Coates streets, Eleventh Ward. The little outcast was properly cared for.

THE CASUALTY AT SPRINGFIELD, MASS.—At the accident in C. D. Lect & Co.'s cartridge factory at Springfield, Mass., on Wednesday, some sixteen persons were killed and badly wounded. There were two explosions—the second, which followed two or three minutes after the first, being caused by fire from the girls' dresses communicating to a keg of powder in the entry-way and destroying the three flights of stairs by which those who were able were endeavoring to get out of the burning building. The explosion caused a sad lose of life and limbs. Three of the poor girls who worked in the shop died soon after the accident. Jesse Button, a contractor, had two cartridge bullets shot through his hat by the force of the explosion, and several other persons in the neighborhood had narrow escapes from flying bullets. By the prompt use of ladders the people outside rescued several girls who were insensible. Fourteen jumped, shricking, out of the third-story window on to the roof of an adjoining paint shop. Bits of burnt flesh and blackened fingers were picked up by the crowd. The cause of the explosion was carelessness and want of the proper regulations which are so necessary in such a shop. NOVEL APPLICATION OF PHOTOGRAPHY .- We have news from Paris of a remarkable extension of the uses of photography. Strange as it may appear, one may now enter a photographic studio, constructed with reference to the new process, be therein photographed in a few seconds, and on calling the next day or day after, instead of the usual photographic print of one's face or figure, an exact fac simile in the shape

of a statuette in modeling clay is produced by the operator. The invention is French, and it has been patented in England and in all the Continental States. The process appears to be simple, a mechanical application supplementing the chemical results in the first instance. The sitter is placed in the centre of a circular chamber, lit from above; around the walls of this chamber are placed, at equal distances, twenty-four lenses, by means of which he is photographed in every possible view. By a mechanical contrivance of extreme ingenuity three images of the sitter are traced and moulded upon the clay. A short sitting is required, and, under the hands of an experienced sculptor, a most faithful likeness is ensured, and, it is added, an agreeable work of art. The statuettes already produced are about a foot in length, but it is asserted that life-size statues can be produced with the same facility. Any number of copies of a particular statuette may

be made by the ordinary process of casting.-

LUCIFER MATCHES .- At a lecture recently delivered before the York (England) Institute, the lecturer gave the following useful information about lucifer matches: Messrs. Dixon, Newton and Heath have a stock of timber of the value generally of from £8,000 to £10,000.— They produce yearly 2,160,000,000 matches. Reckening the length of each match at 21-2 inches, they would exceed the circumference of the globe. It is estimated that 12,000 to 15,000 gross of boxes of matches are produced weekiy in London alone. The yearly consumption of phesphorus in this country for the manufacture of matches is estimated at six tors, which, at 2s. 6d. per lb., persents £1680. Our daily consumption of matches is considered to be 250,000,000, or more that eight n atches a day for every individual in the Kingdom. But the great seat of match-making is in Austria. For example, M. Polak, at Vienna, and M. Furth, at Bohemia, consume together 20 tons of phosphorus, annually, and employ 6,000 persons. This quantity of phosphorus is sufficient to produce the amazing number of 44,800,000,000 matches. The cost at which boxes and matches are made is equally startling. M. Furth sells his cheapest boxes at 1d. per dozen, each box containing eighty matches. Harrop, a Prussian, sells his plain boxes at 2d. per 100, and 1,400 splints for 1.4d.; and De Majo, of Moravia, sells a case of fifty boxes, each containing 100 lucifers,

PRICES OF STOCKS IN NEW YORK.

FINANCE AND BUSINESS MARCH 19, 1864 The Stock Market opened very dull this morning, and prices were weak, but a firmer feeling prevailed as the day advanced. Government, State and City Loans were without essential change, and all the better class of Railroad Bonds were held firmly. Camden and Amboy Railroad was steady at 177 Pennsylvania Railroad at 75%@76; and Beaver Meadow Railroad at 82. Little Shuyikill Railroad sold at 50%—an advance of %. Reading Railroad opened at 71%, and declined to 71. The new certificate of stocks of this company will be issued in a ew weeks, which will obviate the necessity of having more than one transfer office. North Pennsylvania Railroad was steady at 36%. Canal stocks were quiet. Schuylkill Navigation Preferred closed at 46, and the Common stock at 37; Susquehanna Canal at 29%; Delaware Division at 46; and Union Canal Bonds at 30. New Creek was dull at 2%. Butler Coal Company sold at 41%-an advance of 114, but closed weak. There is considerable movement in the Oil Companies, but the sales do not appear on the Board books, and it is impossible to folow the fluctuations. Maple Shades sold at 20@21, and Pennsylvania Petroleum at 6. Passenger Railway securities continue to have an upward tendency. Green and Coates Streets advanced to 45@ Arch Street sold 39, and Ridge Avenue at

21 1/ @22. We call attention to the circular to loanholders of the Lehigh Coal and Navigation Company. Holders of the present loan can exchange their certificates for certificates for certificates of the new loan, on or before April

The interest upon them is paid regularly—the taxation for it being without opposition, and, indeed, entirely unfelt by the community. They are free from taxation by a special enactment. There is a large and rapidly increasing sinking fund provided, and now being applied for their redemption. These all constitute claims which should elevate them at once to the first rank in public estimation. It can only be that the character of these securities is not sufficiently known that depresses them, and as soon as capitalists become familiar with their value, they will, no doubt, immediately assume their true position at the head of the list of five per cent. securities. of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all discoveries that have been made to purge it out, none can equal in effect HELMBOLD'S

COMPOUND EXTRACT SARSAPARILLA.

It cleanses and renovates the blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body and expels the discorders that grow and rankle in the blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effect, but the trial of a single bottle will shew to the sick that it has virtues surpassing anything they have ever taken. that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparila added to a pint of water, is equal to the Libson Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparilla, or the Decoction and a sarsaparilla, or the Decoction

as usually made.
