XXXVIIITH CONGRESS-FIRST SESSION.

CLOSE OF YESTERLAY'S PROCEEDINGS.

SEWATE. Mr. Lane (Ind.), from the Militar Committee, reported tavorably on the bill to in crease the rank, pay and emoluments of the Pro-vost Marshal General. It proposes to give the officer the rank and emoluments of a Brigadier-

General. Mr. Morgan presented a memorial of the pr-mr. Morgan presented a memorial of the pr-prietors of the New York Sun. asking remission prietors of the New York Sun. asking remission prietors of the New 1018 team aring remission their tax on the 29th of March, in order that the entire receipts of that day may go to the Sanitar

The first set of that day may go to the samitry Fair. The bill to prevent military interference in elec-tions came up as unfinished business. Mr. Howard concluden his speech commenced yesterday. He represent a great length the ques-tion of neutrality in Kentucky at the commence-ment of the present struggle, and argued that but for the proper interference of the military tho State would, in all probability, have been this day in rebellion. He defended the orders of General Burnside, in reference to elections, as being simt-lar to those issued by General McClellan in Mar-ions, and claimed that every act of theirs was per-formed for the protection of loyal volers and the preservation of the State to the Union. He con-tended that those who opposed a vigorous prosecu-

formed for the protection of loyal voters and the preservation of the State to the Union. He con-iended that those who opposed a vigorous prosecu-tion of the war here or elsewhere snoutd or place on the same footing with twitters in arms. Mr. Howard said that Governor Bratford (Md. was elected under the ord-n of General Mathetin for the protection of the ballot easy. Altitust, elec-chosen State Senator. The loyal people of the State, and the country generality, were situated a thattime of the necessity of just such multicary in-terference as was used to prevent traitors from voting. Even now, in Maryland, there was no roting. Even now, in Maryland, there was no law to prevent, traitors from voting, and it wa-proper that the military power should preserv-the purity and freedom of the hallot-bax to loyal men. Mr. Howard proceeds to show that the s-had been but few abuses of military power, either in Maryland or belawate, and there we could chalbeen perpetrated the grievances were promptly redressed. Mr. Saulsbary (Del.) congrountered his friend from Kentucky (Mr. Powell) upon the partial suc-cess of his efforts to institute implifies mousone o the enormities practised upon the rights of the States. The Sen to from Mreargan den ed has ne-cessity of such a bill as the new, for the reason-that it has never been found to be necessary in in-past history of the country. Mr. Saulsbury then properied to comment on the plea arged in favor of these arbitrary military maddened hour are gone, he would the Senator and those alike deluded with hum the time would come in the providence of God when the sons of the United States of America will rise up and yin. dicate the ancient birthright of liberty bequeathed them by their fathers, and spuru and scorn these modern ideas of liberty. modern ideas of interity. Without constituting, Mr Saulsbury gave way. Mr. Doolittle presented a joint resolution of the State of Wisconsin, in relation to railroads running from Sioux Chty to Hudson, on St. Creix Lake, and asking Congressional and therefor. Referred to the Committee on Pacific Railroad. The Senate then adjourned. UNITE OF REPRESENTATIVES.

The Schart the adjoint at HOUSE OF REPRESENTATIVES. The Honse then resumed the consideration of the bill declaring the Delaware Bay and Ruritan Rail-

The House then resulted the construction of the foll declaring the Delaware Bay and Ruritan Rail-road to be a military and post road. Mr. Broomall (Pa.) said that if this road was re-quired for military purposes it could, under the act of 1862, be so taken by the President, and if for postal purposes it could be so approprinted, by the act of 1838. Without further lexislation, Congress has no right and power to make two lines of a tri-angle taken together shorter than the third, nor to make a straight line take Cape May in its course Nor have Congress the right to make itself more ridiculous than heretofore. It was beneath the dignity of Congress to interfere in the squabbles of two railroad companies. If we are to have an ur-line road for our own particular uses, let us have it amenable to our own laws, and not mix our-selves up with New Jersey jurisdiction. When he looked at that beautiful State he was sorry she was so near out of the Union, but be would not take part in a petry quarrel merely because she take part in a petty quarrel merely because she does not yore right.

the pair in a perty quarter interry because she does not vote right. Mr. Garfield (Ohio) said the imputation of mo tives for the advocacy of this measure was un-worthy of this body and ot wise legislators. It was a fact that means of communication between the commercial and political metropoins were ex-tremely deficient. If government has a right to feed itself and its armies, it has a right to use the means to accomplish that purpose. Small talk about New Jersey and Pennsylvania politics, or about ar lines or crossed lines, will not meet the gigantic fact that we must feed our armies and use the means for increased (acilities between this me-tropolis and the outside worl 1 The morning hour expired be; ore Mr. Garfield concluded his -peech. Mr. Fenton (N. Y.) from the committee of con-ference on the disagreeing amendments to the Militäry Academy bil, made a report thereon. He explained the Senate proposition authorizing the President to Appoint cadets from districs not now represented in Congress. This the House strack out and substituted for it a provision that for one year from the first day of July n×xt an ad-ditional cadet shall be appointed for each district as now provided by law. There were now about two hundred and ninety cadets in the Military Academy, and if that amendment should prevail, instead of the propositi of the Senate, it would authorize an addition of about one hundred and ninety, making the whole number nearly five hundred; but as there are not accommodations for more than three hundred and ninety or four hun-drd cadels, the House amendment was readered inadmissible, so it was agreed by the committee of conference to strike out the amendment of the two Houses and leave the law as it now stood, without any additional cadets. The report of the committee was concurred in. The House resolved itself into Committee of the Whole on the State ot the Union on the bill amen-datory of the National Bank law. Mr. Brooks (N. Y.) said Mr. Hooper had here-tofore written a book on finance oifferent alto-gether from the light which he had endeavored to shed upon the subject in his speech of yesterday. The gentleman said the State banks had outlived their neefulness, and therefore they mustgive way to banks created by authority of the General (Go-

The gentleman said the State banks had outlived their usefulness, and therefore they must give way to banks created by authority of the General Go-vernment The militia have already been trans-ferred from the States to the General Government, and State institutions of all kinds, if not abolished, are being abolished. He (Mr. Brooks) expected to see discussed here the question of street railroads in Chicago, or Lexington, or Milwaukie, and up and down Broadway, with an inferesting lobby crowding these halls to press the passage of such measures. He repeated, if the State power has not gone, it is going. In objecting to certain fea-tures of the bill, he said it contemplated over-throwing the sub-Treasury system, and was lead-ing to corruption.

throwing the sub-Treasury system, and was lead-ing to corruption. Mr. Kernan (N. Y.) said this bill gives to the Federal Government a power far greater than has ever been wielded by any party or set of men in this country. While it professed to put all men on an equality as to banking, there was a clause which really gave the Controller of the Currency power to withhold such privileges. He indicated other objections which he desired should be re-medied.

other objections which he desired should be re-medied. Mr. Pruyn (N. Y.) felt that this system was the great still blow yet inflicted on the States, and was a freat still to wards despotic power. Instead of there being a Currency Bureau of the Treasury, there should be a separat, administrative depart-ment of the Government, located in New York, the commercial centre of the country, and not in Washington. It should be removed as far as pos-sible from political influences, the Controller to be appointed for four years, at an annual salary of \$3,000. He offered a proposition to accomplish that object, but it was disagreed to, not more than if teen or twenty voting in its tavor. The commit-tee then rose and the House adjourned.

superintend the work. THE BLESSING OF GOD rests signally on all parts of the work. Many thousands have been cheered, benefited and saved. Still a large part of the Army remains unreached, and double the number, both of stations and delegates, are needed to meet the urgent demand for them. The Christian Commission offers to the people a perfectly reliable and wonderfully economical channel to reach the enture army in all its various fields. The money given goes in full measure, in benefits for body and soul, directly to the Soldiers; and stores also, immediately from the hands of delegates from home, who add, words and deeds of kit dness to the gifts when bestowed. Let the peorle give the Money and Stores, and the work will be done. The large corps of Delegates now in the field will zerve as a grand corps of relief when the armies shall move and battles be fought, and the greater their number the more prompt and effec-tive will be the relief they shall render. Let not the present work languish. Wait not for the cry of the wounded and dying before pro-viding relief.
