THE CITY OF PHILADETPHIA.

ANNUAL MESSAGE OF MAYOR HENRY.

[Concluded from yesterday.]
The receipts of the Girard Estate for the year 1863 were, \$171,523 09, and the disoursements, \$171,501 94, of which the sum of \$83,550 09 was spent for the maintenance of the College for Orshans phans.

One hundred pupils have been added to the previous number of its immates, and the buildings of the Institution are filled to their reasonable capa-city. The greatly enuanced prices of most articles of food and clothing will materially increase the of 1.00 and ciothing will materially increase the cost of supporting each pupil, and as the generous founder of the College designed, rather to promote the liberal welfare of a limited number than to diffuse more scanty benefactions among the many, a prudent and just policy must restrain the Director fr. m any effort to extend its advantages beyond the present number of recipients.

ors fr. m any effort to extend its advantages beyond the present number of recipients.

The rich coal lands belonging to this estate, after many years' delay, promise an important income fr. m their leases. The disposal of these valuable mining right should only take place after fair and open competition, and to pre-inde all undue influence in obtaining preference for their leasing, the privilege of occupancy should be sold at auction in this city after full advertisement.

The sui brought by the heirs of Stephen Girard against the city for the recovery of a large portion of these lands, after a decision in their favor by the Common Pleas of Schuylkill County, was argued in May last, before the Supreme Court of the State, and the judgment of the inferior tribunal was reversed, thus securing this property from being diverted from the purpose for which it was devised to the City.

The maintenance of the Blockley Almshouse

being diverted from the purpose for which it was devised to the City.

The maintenance of the Blockley Almshouse with its average population of 2,490 immares has required an increase of expenditure equivalent to 21% cents for their individual support each week, or, the difference between \$1 22% for each ifimate in 1662, and \$14 during the present year. The expenses of the institution were \$24,688 75, in adoition to its revenue of \$15,203 97, derived chiefly from nay ments of fines and emigrant tax. expenses of the institution were \$24, 688 75, in adoition to its revenue of \$15,203 97, derived chiefly from pay ments of fines and emigrant tax.

The imposition of head-money upon the arrival of emigrants at this port has been the subject of much complaint by ship owners, and is, doubtless, impolitic in its tendency, yielding but trifling income to the city; (the emigrant tax for 1863 amounted to \$3,159 00, and was but \$1,316 00 in the previous year,) and probably preventing many from being landed in the city who would otherwise make it their destination. Should a line o steamstips be established between this city and European ports, the propriety of abolishing this tax would be more apparent than from its present comparative insignificance.

The average population of the Almshouse was saxty less than in 1862. The children's deparment has one hundred inmakes, and the advantages of its treatment have been marked.

The Luciatic Asylum has-had \$50 cases under its care, of whom \$34 remained uncured at the close of the year.

care, of whom 534 remained uncured at the close of the year.

The statistics furnished by the Board of Health, as compared with those of its preceding annual report, show but little change in the average rate of mortality within the city. The interments were 15,788, being 691 more than the resurns for 1592, but deducting from the registries of both years, the number of still-born, and also of persons who died out of the city limits, the difference between the two periods in the ratio of deaths to the population is hardly appreciable. The mortality in 1636 being 10 to 435 inhabitants, and 10 to 432 in the year preceding. This estimate is, is the latter instance, based upon the census of 1650, but the other computation includes the supposed population of Philadelphia during the year just closed.

The registered births were 15,293, showing an increase of 552, and the marriages that were recorded numbered 5,474, or, 512 mere than the previous annual statement.

There was no epidemic or other occasion requiring quarantine regulations during the past season other than a formal inspection, although the arrival of foreign passengers greatly exceeded the emigration in 1882, as did the number of yessels that were visited.

that were visited.

EMany or the quarantine laws now upon the
Statute Book have become obsolete, while others of
them are ill acapted to existing usages, and it is
therefore recommended that such modification of
their evactments as experience proves to be desirable, should be sought during the present session of
the Legislature.

The subject of burials within the densely peopled pornions of the city has been represent the

The subject of ourians within the densely peopled portions of the city has been repeatedly presented by me for the consideration and action of Councils, but I cannot refrain from again urging the probletion of such practice as a measure of great sanitary value, and too well attested by the results of s ientific research to admit any question as to its expediency. as to its expediency.

The benefits of vaccination have been afforded to

The benefits of vaccination have been afforded to 4,028 persons in accordance with the ordinance making provision for it by public expense.

The Commissioners charged with the erection and management of a Municipal Hospital, have selected for its site premises on Hart Lane, in the Twenty-first Ward, belonging to the city, and have effected such exchange of property with the owners of adjacent land as will secure to the Institution an entire square of ground. A contract has been made for putting up the necessary accomodations for patients with contagious diseases, and the buildings will be completed during the present year. Appropriations amounting to \$50,000 have been made to the commission, of which \$523 62 were expended for incidental purposes.

The payments from the treasury towards the expenses of the Fire Department, have amounted to \$53,009 19, which were mostly disbursed in the maintenance of 36 steam fire engines, 38 hand engines, 117 hose carriages, and 10 hook and ladder tracks.

to \$28,029 19, which were mostly disbursed in the maintenance of 36 steam fire engines, 33 hand engines, 117 hose carriages, and 10 hook and ladder trucks. The ambulances, 33 in number, belonging to several companies, have continued to render valuable and humane assistance in carrying sick and wounded soldiers upon their destination. The ability and promptness of the Department in extinguishing fires and preventing wide-spread conflegrations have been made repeatedly apparent, and have sustained its reputation for efficiency. The force of the Department has been increased by 9 steam fire-engines, adding, according to the present rate of appropriation, eighteen thousand dollars to its yearly expense. The opinion expressed in former messages, that the steam engines in service far exceed those required for the public security, is still entertained, and the long continuance of the present system will in a great me sture depend upon the exclusion of other companies applying to be located with steam apparatus, and thus adding to the already onerous cost of the Department.

The commitments to the County Prison were 17,219, being 2,563 more numerous than those in the preceding year, of which increase the proportion of female prisoners largely preponderated. The cost of the institution was \$52,048 81, 81,800 wing

tion of female prisoners largely preponderated. The cost of the justitution was \$52,048 S4, showing he economy which continues to rule its present

The cost of the institution was \$52,048 \$4, showing the economy which continues to rule its present management. The revenue amounted to \$16,322 37, from the proceeds of labor, and from the ker prof prisoners held under federal authority. The amount expended for the Police Department, was \$433,226 20, being \$1,983 62 less than its cost for the preceding year No addition has been made to the corps, although the steady extension of population and improvement, particularly in the First, Fitheenth, Twenty-first, Twenty-second and Twenty-fifth Wards, demands a police supervision that is wholly impracticable to afford, unless by withdrawing the patroi from their usual duties in the older portions of the city. Since the reduction of the force in 1836, more than 17,25) new buildings have, been put up within the manicipal bounds, but only twenty-one additional policemen have been authorized, and that specially for new service in the harbor or in the parks. The drill and discipline of the force have made it competent and reliable in any emergency where its co-operative power shall be needed, but its numbers must be increased to enable its officers in their patrol capacity to offer reasonable protection to persons and property in the districts lately built up, and I, therefore, recommend that authority be given to appoint, at least one hundred additional policemen, believing such measure to be demanded by every prudent and really economical considers. olicemen, believing such measure to be demanded

by every prudent and really economical considetion of the public welfare. The construction of a new station in the Seventh Police District was postponed in consequence of the insufficiency of the appropriation to meat the increased expense of building, but it is believed that more favorable arrangements will be made to secondish that purpose

that more favorable arrangements will be made to accomplish that purpose.

The arrests reported by the several Lieutenants numbered 34,050, which with 596 made by the officers charged with the repression of vagrancy, and 551 by the Detectives, give the aggregate of 35,197, or 7,062 more than were made in the preceding year:

ceding year:
The classification of these arrests and their comparison with similar returns for 1862 afford the following results: 1963. Breach of Peace and disorderly Assautand Battery 1, 615
Larceny and Suspicions the eof 1, 567
Vagrancy 1, 202
Magdemeanors 485
Passing Counterfeit Money 184
Disorderly Houses, 169
Lorner Lounging 152
Interference with Officers 102 Disorderly Houses,
Corner Lounging
Interference with Officers..... Beating Wife,
Riot, or inciting thereto.
Picking Poc_ets.
Purplary Burglary Arson Other crimes, or Breaches of ordi-

The first three items of the foregoing statistics exhibit a deplorable increase during the past year, in the number of persons charged with latoxication, or, with its usual consequences, amounting on almost six-sevenths of the excess in the arrests over those of the previous annual report.

These arrests were distributed as follows, exclusive of the returns of the detectives and of the officers detailed to prevent begging:

White Males, 21,233

Colored Males. 6,769

Colored Males, 2,079

Females,....

"Scotland, 166
"France, 65
"France, 65
"The temporary accommodations of the Station Houses were sought for a night's lodging by 30,603
persons, being a decrease of 3,749 from thos- who received their shelter in 1862, and numbering 33,334 less than the lodgers in 1861, within the same stations. These were reported as
White Males 16,636
"Females 11,445
Colored Males 1,774
"Females 1,840
Born in the United States 9,446
"Females 1,840
Born in the United States 9,446
"Females 1,242
The arrests by Detective Officers numbered 100 more than those reported for 1862, and the amount of stolen property recovered was \$72,288 26, being a corresponding increase.

The Beggar Detectives arrested 274 adults and 522 children: from the latter of whom sixty-two

The Beggar Detectives arrested 274 adults and 522 children: from the latter of whom sixty-two boys and forty-one girls were placed in the House of Refuge. There were also forty-seven children sent to the Northern Home, sixty to the Union School, seven to the Industrial Home, twenty-three to St. Vincent's Home, seven to the House of the Good Shepherd, and thirty-eight to St. John's Orphan Asylum, besides several to other public institutions.

The report of the Fire Marshal shows a decrease of fity two in the number of fires, there having occurred but 332 within the city limits at all worthy of note, and of these, many were attended with but triffing loss. The total estimated destruction of value by fire amounts ty \$100,000, of which about \$240,000 was coveied by insarance.

During the year 1863, it is known that one hundred and twenty-three persons out of he population of this city were fatally or seriously burned by accidents from the careless use of burning fluid, matches. &c., besides many cases that have never been publicly reported

The necessity is daily becoming greater the een publicly reported

been publicly reported

The necessity is daily becoming grater for the passage o an Act by the General Assembly of the Sale, to protect properly in this city from the dangers attendant upon the storage and transportation of petroleum. The desire of inalidual gain should not be suffered to jeapardize so eminently the inversits of the community, and the restrictions which have been placed upon the housing and sale of gunpowder, might with few alterations be advantageously and properly extended to this new commodity of almost equal risk in its possession.

ossession.

The Police and Fire Alarm Telegraph passed

tions be advantageously and properly extended to this new commodity of almost equal risk in its postession.

The Police and Fire Alarm Telegraph passed 46,302 messages over its wires, assisting among other valuable results, to restore 3, 155 lost children to their homes, and 1,256 missing adults; to give 433 descriptions of counterfeit notes to store-keepers, and to recover 1,141 stray animals, and 428 lost vehicles. An extension of the Fire Alarm to the engine houses yet unprovided therewith, will subserve the public interests and the convenience of members of those companies whose apparatus is kept there, and should be accomplished as soon as a wise economy will permit.

The Committing Magistrate authorized by the Mayor to sit at the Central Station, has heard 2, 630 charges, and in 21 other cases the proceedings were hid before the Mayor.

The projected establishment of a House of Correction has from various causes been postponed from season to stason, until its actual construction appears hopeless, and yet its urgent necessity is greater to-day than it ever has been. The great evil of the present time, that of intemperance only excepted, so far as relates to the police administration of a large commutity, is a want of parental restraint over the children who fill the streets and lanes, and who receive their first lessens in lawlessness and contempt for all authority from their own homes. The experience of the last three years, warrants the assertion that more than one-half of the services of the police force have been required to prote, the community from the petty depredations and mischievous propensities or practices of boys under fifteen years of age. For this class of young offenders, the discipline of a House of Correction would present wholesome terrors, while for that older and larger class who would eat the bread of idleness, although efficient performance of the minemance, such an institution would make of them producers instead of mere consumers

The depor ment and service of the police force are

diate interests of the city, were permitted to volunteer their services, and whilst absent, they reflected credit upon their organization, by their discipline and conduct.

The Commission discipline and conduct.

The Commission instituted in the month of April, 1861, to superintend the distribution of pecuniary aid to the families of volunteers from this city, has during the last year disbursed \$611,923 92 for such purpose, including \$3,442 39 for the expenses incident to their trust, and have made 210,894 payments to families entitled to the relief provided. The total amount distributed by the Commission from its creation in 1861 to the end of 1863, has been \$1,625.756 40 requiring on the part of those who have shared in its labors, a watchfulness, patience and zeal, that cannot be too highly estimate?.

watchfulness, patience and zeal, that cannot be too highly estimated.

In July last Councils appropriated balf a million of dollars to provice for the immediate defence of this city. Of that sum, \$50,3025 was expended by the Mayor under the requisitions of the several Generals who were su cessively detailed by the Federal Government to supernive mt the erection of necessary fortifications and earthworks. The disbursements were chiefly for the pay of laborer, and for the materials required in the construction of the defences, a part of the appropriation being used to defray the cost of a careful topographical survey of the city and its yieldity. used to defray the cost of a careful topographical survey of the city and its vicinity. The expenditures for this object should be re imbursed to the City by the General Government, and it is believed that when presented with the proper vouchers such rayment will, in due time, be made. The claims of the owners of property taken possession of for the sites of defensive works, have not yet been settled, but have been deferred in the expectation that the United States will assume the whole cost incurred.

The prompt offer by Prof. A. D. Bache, Supermeden of the United States Coast Survey, upon the first alarm of danger to our City, of his own services and those of the corps under his charge, and the zealous and untiring interest which he displayed at great personal inconvenience without

strices and those of the corps bluder his charge, and the zealous and untiring interest which he displayed at great personal inconvenience without remuneration, entitle him to the grat-ful remain of the Councils and people of Philadelphia.

From the last named appropriation the sum of \$96,000 was also paid in bounties, of \$25 each, to volunteers from this city for the defence of the State, who did not receive an equivalent from any other fund. Since the commencement of this year claims for \$3,450 for this bounty have been proven and paid. In December an ordinance was passed, appropriating \$1,250,000, to encourage the ealistment of tecrnits under the then recent call of the President, by payments of \$250 to each volunteer who should be duly credited to the quota of Philadelphia. A commission of five gentlemen was formed for the proper distribution of this fund. The payments made prior to the close of the year amouned only to \$59,000, but under supplementary apprepriations the disbursements which have been made to the present date, increase that amount to \$3,252,245 33.

The report of the Brigader-General commanding

tary appropriations the disbursemants which have been made to the present date, increase that amount to \$3,252,246 33.

The report of the Brigadier-General commanding the 'Home Guard'' gives an extended statement of the incidents connected with the rebel invasion of Pennsylvania, and their threatenet approach to this city in June last, and also of the numbers, equipments, and condition of the military force under his charge.

Within the last three years, repeated efforts have been made to induce the citizens of Philadelphia to organize for the protection of their City and State, against the possible incursions of a desperate and vindictive foe. These efforts have been attended with but partial and spasmodic results; and, after two occasions of alarm, within successive years, this whole community has relapsed into the paralyzing aparby of fancied security, perhaps to be again aroused by dangers yet more startling than any which have heretofore occurred.

The tender to the Federal Government of Leagus Island as the site for a proposed Navy Yard hae not yet been accepted; but the manifest superiority of this locality over all rival places, induces the belief that the United States will avail themselves of such offer.

The larger portion of the code of municipal ordi-

The larger portion of the code of municipal ordinances prepared with great research and dispretion, by the Commissioners appointed in 1859 for such duly, yet remains unadopted. The importance of its enactment can best be appreciated by those who are daily called to enforce tae laws of the city, and are obliged to vary their decision in cases of similar infractions, according to the particular leculity in which the offences have been committed.

committed.

The duty and necessity of abstaining from all new enterprises or improvements which are not immediately essential to the city cannot be too strongly in pressed upon the attention of the Councils. The expresses that have already been occusioned by the existing war have added more than eight and a quarter millions of dollars to the Oity Debt, which previously had outgrown the limits of a prindent policy; and larger appropriations may yet be asked to meet the pre-eminent claims of other efforts to promote a vigorous prosecution of the overthrow of the rebellion.

Besides, the large permanent debt previously existing or thus incurred, the deficit of the past year and the now unavoidable embarrassment of the current finances will probably result in the further increase of four millions of dollars to the funded liabilities.

The yearly taxation that will be required to pro-

vide for the interest upon this accumulated debt and for its ultimate redemption, will nearly equi-that which has heretofore sufficed for all the an

and for its ultimate r-demption, will nearly equ i that which has heretofore sufficed for all the an unal municipal expenditures.

The growing tendency of representative bodies to authorise a profuse expenditure of public money, which is to be mainly attributed to their nusacustomed dealing with sums of wealth that surpass the m st extravagant conceptions of former times, but have become the familiar contemplation of to-day—should be sternly resuked and checked and the utmost thrift that may comport with the welfare of the community should shape every legislative. Thirty years hence, the generation that is to follow, must be called upon for the principal of the municipal debt which is now created. The burden that shall be thus devolved upon them for the sake of a just war, will be their proper contribution to ward the cost of National prosperity and honor. But, letnot the implovidence of those now charged with the municipal go vernment head an indebtedless upon posterity that should be honestly defrayed by those who had whatever benefits it has afforded.

The record of Philadelphia, from the beginning of the war, that has for almost three years scourged this land, may instir call forth the week of its

benefits it has afforded.

The record of Philadelphia, from the beginning of the war, that has for almost three years scourged this land, may justiy call forth the pride of its people. From the first summons for aid to sustain the national honor, no other community has responded with more alacrity to every appeal for the services of its volunteers, or for the contributions of its treasure. In no other place has the cheer of hospitality been more generously given to all who mirch under the flag of the Union, and nowhere has there been more kindly care for the sick or wounded defenders of our country's cause.

The excitement of popular commotion has never subverted the good order of the City, or aimed to despoil its wealth, and the hand of disloyalty has not been raised within its bounds for impotent resistance to the sovereignty of Federal power.

The unfaltering patriotism and zeal which hitherto have distinguished this city, give assurance that its strength and wealth will be treely contributed to our country's need, until all resistance to constitutional authority shall be overcome, and the honor of the nation be completely vindicated in its confessed supremacy throughout the land.

ALEXANDER HENRY.

Office of the Mayor of the City of Philadelphia, March 24, 1864.

DANNVART'S BRONCHIAL TROUHES, for the cure of Hoarseness, Throat Diseases, &c., are specially recommended to public speakers, as the most efficient remedy extant for the above diseases. We present but one of the many testimonials in our possession:

Harrisburg, Feb. 8th, 1864.

C. A. Bannvart—Dear Sir: I have used Brown's Bronchial Troches, Wistar's Lozenges, and other preparations for hoatseness and throat troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and singers, in cases of hoatseness, coughs, and colds. I have found them serving in time of need, most effectually.

Yours truly, T. H. ROBINSON,
Pastor of N. S. Presbyterian Church.

LYON'S PERIODICAL DROPS receive the encomiums of all who are them. Ho lady should be without them. We have letters at most every day from ladies of the highest respec tability, telling us they would not be without the French Periodical Drops for anything. Could we publish the letters we have received, they would convince the most incredulous. We have now in mind an instance of a lady who had been irregular until her constitution was nearly broken down Her physicians told her she had the Consumption. and must die. She saw our advertisement, and came to see us. We, too, thought she was too far gone to be cured, but commenced at the cause with the Drops. They acted like a charm; and to-day she is well and healthy, a living witness of the efficacy of the French Periodical Dreps, and a resident of East Hartford, Connecticut. If you are suffering any of the ills caused by irregularity, we ark you to give them a trial, and recommend them to your afflicted friends. One trial will convince the most sceptical, and never after will you be irduced to be without it.

INITED STATES EASTERN DISTRICT OF

UNITED STATES, EASTERN DISTRICT OP PENNSYLVANIA, SCT.
THE PRESIDENT OF THE UNITED STATES, TO THE MARSHAL OF THE EASTERN DISTRICT OF PENNSYLVANIA, GREETING.

TRICT OF PENNSYLVANIA,
GREETING:
WHEREAS, The District Court of the United
States in and for the Eastern District of Pennsylvania, rightly and duly proceeding on a Libel, filed
in the name of the United States of America, hath
decreed all persons in general who have, or pretend to have, any right, title, or interest in the
following named vessels and cargoes, to wit: The
sloop BUFFALO, whereof Lewis Wriggins
is master, her tackle, apparel, and furniture, and the cargo laden on board thereof, captured by the bark Brazilera, under the command
of Acting Master W. T. Gillespie; the schooner
MARY, whereof — is master, her tackle,
apparel and furniture, and the cargo laden on
board thereof, captured by the United States bark
Brazilera, under command of Acting Master W.
T. Gillespie; the sloop PERSIS, whereof —
is master, her tackle, apparel and furniture, and

Brazilera, under command of Acting Master W. T. Gillespie; the sloop PERSIS, whereof—
is master, her tackle, apparel and furniture, and the cargo laden on board thereof, captured by the United States steamer Massachusetts, under command of Acting Volunteer Lieutenant West; the schooner SYLVANUS, whereof——Higgins is master, her tackle, apparel and furniture, and the cargo laden on board thereof, captured by the steamer Huron, under the command of Lieut, Jas. H. Eaker, to be monished, cited, and called to judgment, at the time and place underwritten, and to the effect hereafter expressed (justice so requiring) You are, therefore, charged and strictly enjoined and commanded, that you omit not, but that by publishing these presents in at least two of the daily newspapers printed and published in the city of Philadelphia, and in the Legal Intelligencer, you do monish and cite, or cause to be monished and cited, peremptorily all persons in general who have, or pretend to have, any right, title, or interest in the said vessels, and their cargoes laden on hoard thereof, their tackle, apparel and furniture, to appear before the Hon. JOHN CADWALADER, the Judge of the said Court, at the District Court room in the City of Philadelphia, on the twentieth day after publication of these presents, if it be a court day, or else on the next court day following, between the usual hours of hearing causes, then and there to show, or allege, in due form of law, a reasonable and lawful excuse, if any they have, why the said vessels, their tackle, apparel and there to show, or allege, in due form of law, a reasonable and lawful excuse, if any they have, why the said vessels, their tackle, apparel and furniture, and their cargoes laden on board thereof, should not be pronounced to belong, at the time of the capture of the same, to the enemies of the United States, and as goods of their enemies or otherwise, liable and subject to condemnation, to be adjudged and condemned as good and lawful prizes; and further to do and receive in this behalf as to justice shall appertain. And that you duly intimate, or cause to be intimated, unto all persons aforesaid, generally (to whom by the tenor of these presents it is also intimated), that if they shall not appear and shall not show a reasonable and lawful cause to the contrary, then said District Court doth intend and will proceed to adjudication on the said capture, and may pronounce that the said capture, and may pronounce that the said capture, and their tackle, apparel and furniture, and their tackle, apparel and furniture, and their the enemies of the United States of America, and as goods of their enemies, or otherwise, liable and subject to confiscation and condemnation, to be adjudged and condemned, as lawful prize, the absence, or rather contumacy, of the persons cited and intimated in anywise notwithstanding, and that you duly certify to the said District Court what you shall do in the premises, together with these presents.

Witness the Honorable JOHN CADWALADER, Judge of the said Court, at Philadelphis, this twenty-first day of MAROH, A. D. 1861, and in the eighty-eighth year of the Independence of the said United States.

commended.

It has been proved by thorough exposure, and by compari on with other paints, to be the only reliable Paint to resist the action of salt water and salt atmosphere.

It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.

railroad and other bridges, it is not excelled.

It is especially adapted for

in ETAL ROOFS.

It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.

It mixes and blends readily with other paints, and by comparison to the amount of surface a given weight will cover, costs about one-half as much as other Metallic Paints.

Wherever this Paint has been used, it has given ENTIRE SATISFACTION, which is, we believe, more than can be said of any other paint in the market.
