Never, in all the history of the Christian Commission, has there been such encouragement for the unwearied prosecution of the work. From the army, from hospital and camp, alike come in tous accounts of the influence of God's spiritin the conviction and conversion of many souls. The interest thus manifested in some neighborhoods should be extended to the whole. If Christians all over the length and breadth of our land knew what the Spirit of God is doing, and what the Spirit of God can do, they would feel compelled be every consideration of faith in and love to God to put forth every effort to aid the carrying on of the glorious work of Grace in the army., Delegates com

home wondering at the openness and greatness of the field, and imploring us to extend the limits of our fields. To meet their calls and the deminds for the Gospel of thousands of soldiers throughout the army, the Christian Commission is tarned to the utmost limits. But just while every place is asking the treasury of the Commission is rapidly emptying. Our agents are looking to us for support-support which we have promised them. But in place of catending, we have to curtait our work.

We appeal to day to the Christian public for assistance. God's work must not be neglected.

Into Annapolis the returning Union prisoners are pouring, destitute and in want Evyry sort of help we can send to them, we need to send. Our agent there is dispensing all that is furnished him. Will not our friends throughout the country, without waiting to hear from us, hold their meetings and send us the means of going forward. We cannet go backward. Every step taken in that direction must be a wrong done to the soldier and to God.

OFFICE OF THE GREAT CENTRAL FAIR FOR THE SANITARY COMMISSION. PHILADELPHIA. 1307 Characteristics. SION. PHILADELPHIA, 1307 Chestnut street, March, 1864.

March, 1864.

The Committee on Finance and Bonations of the Great Central Fair, appeal for contributions in money, to those of their fellow-citizens who do not propose sending to the Fair the products of their shill and industry. By fair the larger portion of the money received on the occasion of the Fairs held for the benefit of the Sanitary Commission in Cincinnati, Boston, and Brooklyn, was derived from direct donations in cash and not from the proceeds of the sale of srticles exposed. Weat the Sanitary Commission needs to afford relief to the sick and wounded soldiers is money. In large amounts and from all sources. We call, then, upon all bankers, corporations, capitalists, persons living upon incomes, professional or otherwise; in short, upon all who will not be represented in the Fair by their productions, to imitate the example of those who will, and to contribute liberally in MONEY for this great object. In New York, although their Fair is not to be held for two weeks, contributions of more than \$200,000 in cash have been already received, a single department of trade, that of dr, goods, having made up more than half that sum. Brooklyn and Cincinnati have each contributed as much in money, and certainly the wealth, liberality and patrotism of Philadelphia The Committee on Finance and Donations of the contributed as much in money, and certainly the wealth, liberality and patriotism of Philadelphia can hardly be considered as less conspicuous than that of these communities. Contributions will be

hankfully received by any of the memo he Committee.
