THE GERMAN UNION CLUB. The loyal Germans who compose this club, in order to place themselves properly before the world, and to counteract the evil influences of certain political intriguers and disloyalists, in sections of the southwestern parts of the country, who seem to urge the German population there to adopt the "rule or ruin" policy, have agreed upon a platform and resolutions to which they invite general attention. The club having been called to greater E. W. Thomas, Esq. President, took the this club. i order, F. W. Thomas, Esq , President, took the Chair. The following proceedings were unanimonsly ratified : PLATFORM.

1. Suppression of the rebellion, without making any compromise; employment of all means in the power of the Government for that purpose.

2. Amerdment to the Constitution of the United States in conformity with the Declaration of Inde

pendence.

3. Adoption and realization of the principle that the right to become a citizen of the United States shall be accessible to all its inhabitants, and that the same laws shall apply to all citizens of the United States.

4. Unconditional confiscation of the property of all rebel leaders.

5. Submission of the States to the Federal Government in all national questions.

6. Apportionment of the confiscated lands in accordance with the provisions of he homestead law.

7. A national system of thorough military organization of the people, and equal liability to

ganization of the people, and equal liability to 8. A national school system; free schools in all the States. the States.

9. We recommend the following measures for the purpose of enabling the National Government to meet the demands made open it:

(a) Continuance of the protective tariff system.

(b) Imposition of an export duty on cotton.

(c) Adoption of the progressive income tax system.

(d) Furtherance and assistance of immigration to this country. this country.

10. Introduction of a national civil and criminal

10. Introduction of a national civit and criminal code.

11. Restriction of the executive right of pardoning convicted criminals by establishing a court of pardons.

12. All laws conflicting with the provisions of the Constitution should be annulled. The Constitution and the laws of the States should be in harmony with the Constitution of the United States.

13. Introduction of uniform laws in all the States for the naturalization of foreigners

14. Introduction of a uniform national currency.

15. In appointing men to public offices qualifica-15. Introduction of a uniform national currency.
15. In appointing men to public offices qualification for the office, and honesty, should be the first condition; soldiers crippled in the service of the country deserve particular consideration.
16. Raising the peusions of soldiers who have become unfit for labor in the service.
17. Establishment of a National Sanitary Department.

18. Acceleration of establishing proper means of ommunication between the Atlantic and Pacific States.

19. Unconditional maintenance of the Monroe doctrine.

Whereas, We are stil in the midst of a terrible civil war, which can only be brought to a successful termination by fatihiully adhering to the principles laid down in the Declaratio of Independence and under the leadership of the tried and acknowledged representatives of these principles; a d whereas, the rebels, having failed to accomplish their ends by force of arms, have staked their all on the hope of a victory by the Copperheads in the North at the next Presidential election; and whereas, we deem it to be of paramount necessity that the efforts and power of all loyal citizens should be united in order to defeat the schemes of our enemies; thereorder to defeat the schemes of our enemies; there Resolved, By the German Union Club of Phila-

delphia, that we will devote our influence and power to the realization of the principles expressed in the platforms adopted by us, and that we will endeavor to have these principles embodied by the National Union Convention for the next Presidential campaign.

National Union Convention for the next Presidential campaign.

Resolved, That we expect and demand of our delegates to the National Union Convention that they will nominate such men only for President and Vice President, as are willing to pledge themselves to carry out the plan of reconstruction of the Union in the sense of the above expressed principles, and whose actions in the past give a sufficient guarantee for the future.

Resolved, That we enter our solemn protest against the mischievous plot of those of our fellowcitizens who declare their determination not to submit to the decision of the Navional Union Convention at Baltimore, unless a certain candidate be vention at Baltimore, unless a certain candidate be nominated, believing that such a course can only result in the destruction of the great Union party, and lead to a victory of the opponents of progress

CONTROLLERS OF THE PUBLIC SCHOOLS. A special meeting of this Board was held yester A special meeting of this Board was field yester-day afternoon.

Mr. Shippen offered a resolution authorizing the Controllers of the Twenty-fifth Section to expel from his position the principal of the Carroll Boys' Grammar School, for intoxication, and also using profane language before members of this Board. The resolution was unanimously adopted.
The Special Committee appointed to investigate the charges against the principal and teachers of the Girls' High and Normal School made a very lengthy report. The following shows the several charges by which, it is contended, the administration of the High School is affected, and the responsibility thereof is charged to the principal of the

sibility thereof is charged to the principal of that institution.

First.—Under the general charge of inattention or mismanagement, it was alleged that no arrangement was made by which the grammar school teachers could obtain the examination papers.

We do not think that the charge, even if fully proven, is one that should affect the principal of the school, unless it is proven to be his duty to make such arrangement. Nevertheless, we think that mere courtest requires that all proper facilities should be afforded those who desire to see the questions and answers thereon at seasonable times.

Second, Under the same general charge, it is alleged that the teachers of the High School or the graduates, or both, at the examinations indulged in talking, laughing, eating, sewing or knitting, to such an extent as to interfere with and distract the attention of the candidates from their duties. In support of this charge, very many principals testify sibility thereof is charged to the principal of that institution.

attention of the candidates from their duties. In support of this charge, very many principals testify that it is a common and usual complaint with pupils of their respective schools, and a large number of pupils give similar evidence. One of them states that she got part of the conversation amixed up with her written answer. On the contrary, however, the lady teachers of the High School, and a number of graduates state that, in their judgment, there was no such talking, laughing, &c., which would so interfere, and doubtless they honestly believe so; and yet it must be remembered that even triftes will distract attention, especially with children. The introduction of a box of sardines, for instance, though a small matter of itself, would, without question, attract attention and disturb a child's train of thoughts, and such was proven to have been done on one and such was proven to have been done on one Third—It is charged that the examinations are

advertised to commence at nine o'clock, and that they are not commenced until ten o'clock on the first day. This fact is proven, but the delay is sufficiently accounted for. No blame can be attacked to the school of this second. tached to the school on this score.

Fourth-Graduates of the High School were in attendance at the examination who were in actendance with the different schools. This is as stated but little watch in the control of the con

acquainted with the different schools. This is as stated, but little weight is to be attached to the charge, because it was shown that it was a matter of importance to have the assistance of the graduates at the examinations, and besides, the number in attendance was considerably reduced at the last examination, &c., &c.

Fifth—"Coards of candidates have been changed." This has been accounted for to the satisfaction of the committee.

Sixth—Questions have been read differently in different rooms. This is proven.

Seventh—The word "appellate" was given in one room and "appellant" in another. This is proven.

Proven.

Eighth—In one room the interrogation mark was given, in another the mark of exclamation, materially affecting the parsing. This was proven.

Ninth—The word "area" in one room and "altitude" in another. This was proven.

Tenth—The word "banquet" was given in one room, and the word "boquet" in another. This was proven.

rroom, and the word 'boquet' in another. This was proven.

Elesenth. The word 'calendar' was given in one room with definition to distinguish it from 'calender,' and in another no such definition was given. This is denied by the leacher who gave out the word. The evidence is conflicting. These last six charges, except the eleventh, are proven, and show carelessness. They may seem to one unacquainted with the rules for conducting examinations trifling, and would be so, but for the fact that they, in many instances, materially affect the question to be answered, and to a corresponding degree affect the relative standing of pupils, or at least the amount of thought and work to be performed. It is certainly not fair to give verbal ex-

degree affect the relative standing of pupils, or at least the amount of thought and work to be performed. It is certainly not fair to give verbal explanation to one, and fail to give it to another. Still, the committee has no reason to suppose the omission was anything but accidental. It is charged that there is scarcely a High School examination at which some objectionable questions are not given, such as the following:

Twe?ih—"Define a plane angle."

This is objected to because the term "plane angle" is not found in text-books in use.

On the other hard, it is stated, that the term is found in "plane rectilineal angle."

It is charged, likewise that the Principal of the High School admitted that he did not know what answer was required, implying that he did not know what the answer was.

He explains, however, that he merely admitted that he did not know what answer would be taken by the teacher who should mark the paper.

We think the objection to "plane angle" is sustained, as it shows that proper care was not taken in preparing the question. In the judgment of the committee! exacutude should mark all questions given. The term "plane angle" is not given in the text hooks. While 'subage ractitues!

given. The term "plane angle" is not given the text-books, while "plane rectilineal angle" given, &c.

The next objectionable question charged is found in the first set of mensuration:

'How do you find the diagonal of a rectangle

when you have the proportion of its sides, and the area of a square having the same perimeter?"

It seems that the principal of the High School admitted that he had given verbal explanations of the question. The ladies of the grammar school contend that if verbal explanations were given, it at fact is evidence of ambiguity; and besides it is proven by nearly all the principals that the pupils were in coubt as to the meaning of the question. One of them, however, says it was not ambiguous to her pupils. It follows, as a matter of the simplest justice, that a very great regard should be paid to the forming of questions so to be given. One of the male principals states that the question is complicated, yet fair, and all of them declare that their large boys would not do any of the questions.

questions.

There are forty-three charges made, all of which are approved of disapproved. The above charges go to show their nature, and how the committee acted upon them. The remaining ones are somewhat similar, and develop facts to prove the inability or carelessness of those who conduct the High School examinations. The report concludes so follows: s follows:

as follows:

In truth, gentlemen of the Board, a decided, prompt, and efficient remedy is demanded. You cannot close your eyes to charges made, and allow them to pass by unheeded, any longer, unless, indeed, it is your desire to allow the institution to go to decay for want of support. You must be fully aware that sections have decided not to send more pupils to the school, and others are ready for similar action, unless a charge is made in the administraion, unless a change is made in the administra action, and this brings us to the most painful part of the duty you have assigned to this committee, namely, the recommendation of the committee. In the performance of this public duty we are compelled to look only to the public good; we must not allow mere sympathy for individuals to sway our 'judgment. We feel compelled to say that there has not been exercised that full, ample and increasing vigilance over the Girls' High and Normal School, in some of its departments which you have a right to expect, and the public a right to demand, at the hands of the administration of the same, and we are well satisfied that the true interests of the school require a change in its chief officer, the Principal. We have not arrived at this conclusion without a careful consideration of the evidence. We know of no other remedy: we believe there is none. The committee therefore offers the following resolution for your consideration. tion, and this brings us to the most painful part of Resolved. That the position of principal of the

Resolved, That the position of principal of the Girs High and Normal School be declared vacant from the firstday of May next, and until a new principal shall be duly elected; and further, that the Secretary be directed to furnish the present principal of said school with a duly attested copy of this resolution.

of this resolution.

All of which is respectfully submitted.
EDr SHIPPEN, Chairman.
CHARLES WELSH,
JAMES FREEBORN,
W. O. KLINE.

Mr. R. W. Cushman, who was one of this committee, refused to sign the report. He agreed in part with the report, but was not in favor of declaring the present principal's position vacant. claring the present principal's position vacant He thought be should have another trial. A motion was then made to postpone the consideration of the report, and have it printed, which was agreed to by a vote of 13 yeas to 10 nays.

PROPOSALS FOR BITUMINOUS COALS.—
P Sealed Proposals will be received at the Office of the Philadelphis Gas Works, No. 20 South SEVEN! H Street, until noon of FRIDAY, 22d of April, 1864, for supplying the whole or any part of Eighty Thousand Tons of Bituminous Coals, suitable for the manufacture of filuminating Gas, to be delivered on the Railroad tracks of the Gas Works at the First Ward at d the Ninth Ward Sations, in the following monthly quantities: eight thousand at the First Ward and the Ninth Ward S. alions, in the following monthly quantities; eight thousand tons in each of the months of September, October, November, December, and six thousand tons in each of the months of June, July. August, 1854, and January, February, March, April and May,

and January, February, March, April and May, 1865.

The coals must be delivered fresh, dry, and of a quality approved by the Engineer of the Gas Works, as equal to the sample on which the contract is based.

The proposals must describe the particular variety of coals intended to be supplied and the location and name of the mine of pit from which they are to be raised. If they are of a kind not now or recently used at these Works, samples for trial of not less than fifty tons, must be delivered at the Works, on or before the 7th of April next.

The gross ton of 2240 pounds will be considered as the weight intended in the proposals, unless the contrary be expressly stated.

contrary be expressly stated.

The Trustees reserve the right to accept any proposals in whole or in part or to reject all, as they may deem best for the interests of the Trust, and in the event of failure on the part of any contractor to deliver the coals according to his agreement, both in quantity and quality, the Trustees reserve the right to buy elsewhere. whatever quantity may be required to meet the deficiency, and charge to the contractor any loss or damage arising from to the contractor any loss or damage arising from each failure.

Payments will be made monthly, in two equal instalments at four and six months after the specified periods of delivery, the 15th of each month being taken as the average of the monthly deliveries, or at the option of the Trustees, will be made at earlier dates with legal interest off.

Should contractors prefer to make deliveries

Should contractors prefer to make deliveries earlier than required, they may be received so far as they can be conveniently stored, but payments will be made to date from the time specified to the Security for the fulfilment of contract will be required, and each proposal must name the amount and character of security that will be fiered.

JOHN C. ORESSON, Engineer in Chief.

DRUGS. LAWRINCE'S METALLIC BROWN PAINT
—85 PER CENT METALLIC BASE.
The Metallic base of this Paint is composed of the Protoxide and Peroxide of Iron. Its properties are such as to give it superiority over all others in the market for the purpose for which it is recommended. commended. It has been proved by thorough exposure, and by comparison with other paints, to be the only re-liable Paint to resist the action of salt water and

salt atmosphere.
It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.

railroad and other bridges, it is not excelled.

It is especially adapted for

METAL ROOFS.

It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.

It mixes and blends readily with other paints, and by comparison to the amount of surface a given weight will cover, costs about one-half as much as other Metallic Paints.

Wherever this Paint has been used, it has given entire satisfaction, which is, we believe, more than can be said of any other paint in the market.
