OF THE AGE IN PIANOS.

MEYER'S Improved Overstrung Pianos, acmowledged by the leading artists, and endorsed by the Musical public, to be the finest Pianos in America.

The attention of the Musical public is called to these recent great improvements in Piano Fortes. By a new method of construction, the greatest possible volume of tone has been obtained, without any of the sweetness and brilliancy for which these Pianos are so celebrated, being lost, and which, with an Improved Touch and Action renter them Unequaled.

These Instruments received the Price Medal at the World's Fair, held in London, as well as the Highest Awards over all competitors, from the area Fairs and Institutes in this Country. Ware-rooms, 722 Arch street below Eighth, Philada.

${f E}{f V}{f E}{f N}{f I}{f N}{f G}$ BULLETIN

FRIDAY, APRIL 1, 1864.

THE ILLINOIS TROUBLE. At the hour at which we write there is no later news of the Copperhead rebellion in Illinois than the despatch published this morning, from Mattoon, stating that everything seems quiet, and that the rebels are believed to have dispersed. We hope the measures adopted by the military authorities are such as will forever put an end to such outbreaks in the interest of Jefferson Davis, and that the "Egyptian Copperheads, bounty jumpers and other rascals's who formed the mass of the murderous rioters, together with their leader, "Gus. Davidson, a noted Tennessee guerilla," will receive such punishment as their fiendish acts deserve. The Government and the loyal people cannot afford to have their gigantic operations against the Southern rebels impeded by such outbreaks, and instantaneous vigor should show all such traitors that the day of imbecile trifling with

open public crime has gone by, never to return Of course the Copperhead journals all over the land are now engaged in falsifying the facts in this Illinois rebellion, just as they palliated the fiendish acts of the assassins in New York during the draft riots of July, 1863; but every honest man knows the animus of such vindications of treason, and no loyalist will expect from such journals anything but a blind adherence to those instincts which always impel them to advocate everything which cripples the Government and helps the aristocratic Southern slave-lords who now defy all law.

A NATIONAL SCHOOL SYSTEM.

We have at various times advocated the adoption of a school system which should be National, instead of depending upon the State governments, and we see with satisfaction the idea is spreading. At a meeting of the German Union Club, of this city, a few days since, a resolution in favor of this measure was unanimously adopted. The tendency of the present struggle must be in every way to nationalize ns, and to cause us to attach less and less importance to State organizations, and constantly more to that vast Union which must henceforth be our national pride.

The diffusion of education amongst the lower classes of the South is a matter of absolute necessity. Ignorant populations are always dan_ gerous, and nothing but the dense ignorance of the lower classes of the South made it possible for the slaveholding oligarchy to array them in a death-struggle in which they sacrifice everything to fight against their own best interests. For the slaveholders, the preservation of slavery Government Securities, Specie and Uncurrent modey bought and sold.

whites: the institution was a curse. There is, in fact, but a single alternative with respect to the poor whites, to educate them, or to exter-

minate them. It seems hopeless to expect that

they are, (notwithstanding the absence of every

foundation for such a sentiment,) will ever adopt

a system for general gratuitous instruction. It is, therefore, the province of the National

Government to administer the education of its

people, and to give to the nation a national system of instruction. It would probably be

found advisable to have either a Department of Instruction, with a Secretary at its head, or

else-and this would undoubtedly have advan-

tages-a Board of Instruction, constituted by

appointment, like the Supreme Court, each

member to have a certain circuit, in which it

should be his duty to visit every school once a

year. The position of teachers and professors would rise in importance, education would be

detached from questions of local politics and

as soon think of returning to it, as of estab-

SUPPLIES FOR THE GREAT FAIR.

The work of organizing for the great Sanitary

Fair is progressing with a vigor, which is no

less astonishing than gratifying. The commu-

nity is thoroughly aroused, and we feel assured

a word of caution to persons who are indiscriminately asking for contributions for the fair;

from merchants and others, regardless of the

branch of trade with which they are connected. Since writing the article it has been endorsed

in many quarters, and we have also received

from a merchant of the highest standing, a note

from which we extract the following:

"I was so forcibly struck with the justness of your remarks in Saturday's paper, on the subject of contributions to the Sanitary Fair, that as one of a committee I beg the favor of a tew words in your valuable journal. I can well understand how trying it is for persons in business to be importuned by their customers for donations to the fair and for this reason: Business men, as a class, are expected to contribute liberally; and, for this end, from each branch of trade a committee, was appointed to attend to its interest; so that every profession and trade shall make their donations through their respective committees. To this intent they should husband all their resources, which will be impossible if they are expected to give also to as many of their customers as may feel at liberty to ask them."

The suggestion in the foregoing extract is

from one who is doing his whole duty in regard

to the fair, and if universal heed is paid to his

words it cannot but induce harmonious work-

ing among all the committees, and the result

will be much larger contributions for the great

object than can possibly be obtained by indis-

criminate solicitations without regard to the

THE UNION RAILBOAD SWINDLE. The State Senate has now joined hands with

the House of Representatives in the great rail-

road iniquity, and the "ring" is apparently

strong enough to carry the bill triumphantly

over even the Governor's veto. In the House

the vote was 71 to 22; in the Senate the vote

stood 23 to 3. A more shamelessly corrupt

act has seldom been passed by this or any other

State legislature, and never was the public

sentiment of a great city more openly deried

and defied. But we do not despair of that

reckoning which must inevitably follow the

commission of such a wrong. The people

will mark those of their representatives who

have betraved their trust, even if it be out of

their power-to stop the successful accomplish-
