THE WAR IN THE SOUTHWEST.

RINGGOLD, April 1.—The cavalry force of the enemy has been augmenting within the past few days, and now amounts to about 5.000. They are encamped in a valley at the foot of a rocky-faced ridge from Tunnel Hill to Varness Station and Red Clay, which they hold. There is also a considerable force at Nickajack Gap, six miles below here. Their picket line is generally within a mile of ours, but there is no disposition shown by either party to crowd.

There is a very small rebel force of infantry north of Dalton, and no reason exists to believe that Johnston has been largely reinforced either from East Tennessee or Alabama. There are no indications that he intends to assume the offensive, notwithstanding the contradictory reports. The estimate that his army numbers 35,000 men is nearly correct.

Over 900 deserters came into Chattanooga in the month of March.

Many thousand veterans are marching overland from Nashville, the railroad being unable to accommodate them.

General Sherman having completed his tour of inspection returned to the headquarters at Nashville to-day.

FROM MEMPHIS.

MEMPHIS, March 30.—Gen. McCullough is reported en route north with 2,500 rebels to reinforce Forrest. He is reported near Jackson, Tennessee, to-day. Gen. Grierson has his cavalry force out, watching and harrassing Forrest, but his division is much reduced by his veterans returning home on furlough. Had Gen. Grierson his entire division out at Memphis Forrest would not have easily escaped.

THE RE GALANTHOMO. NEW YORK, April 2.—The frigate Niagara returned to-day from an unsuccessful search for the missing Italian frigate Re Galantuomo. The Niagara experienced very heavy gales, during one of which she shipped so much water as to put out all her fires, lost sails, and all her top gallant masts, stove ports, etc.

XXXVIIITH CONGRESS.—FIRST SESSION.

SENATE.—The Senate is not in session to day, having adjourned until Monday.
HOUSE.—Mr. Fendleton (Ghio) called up his motion to reconsider the yote by which the House disagreed to the Senate s amendment to the Mondisagreed to the Senate s amendment to the Montana Territorial bill and asking that a Committee of Conference be appointed. He said the Senate's amendment striking out the word 'white' was to give negroes the right to vote in that territory. It was an amendment different from what had heretofore been incorporated in such bills since the Republican party came into power. This party had ignored their precedents. His object was to give gentlemen an opportunity to determine whether they were prepared to say that negroes should have the same rights in the territories as white men. He therefore wanted the House to adhere to its disagreement.

Mr. Beaman (Mich.) said he would not discuss the question whether it was expedient that negroes should vote or not; but as the matter stood, this House has already refused to consent to the Senate amendment, and appointed a Committee of Conference on the subject.

ference on the subject.

He moved to lay Mr. Pendleton's motion to re-

consider on the table.

This was agreed to—yeas 63, nays 49.
The House resumed the consideration of the Raritan and Delaware Bay Railroad bill.

Mr. Sweat (Me.) spoke against the bill, beleving thad no warrant in the Constitution of the Universe. ted States or the laws of the country.

FROM EUROPE. THE WAR IN DENMARK.

NEW YORK, April 2.—The steamship City of Cork from Liverpool via Queenstown on the 21st ult., arrived at this pert this morning. The Cork Herald of the morning of the 21st,

contains the following despatches: COPENHAGEN, March 19th, 1.30 P. M .- Yesterday three Prussian men-of-war attacked the Danish blockading squadron off Griefswald, Po-

After an engagement of two hours the Prussian vessels returned to the harbor. Artillery firing was renewed to-day at Duppeln.

Berlin, March 20. - The Commander-in-Chief of the Prussian army has received a report stating that yesterday the Arcona with three gunboats, again put to sea in search of hostile shipping. The cruise had no result however, all the Danish ships having left the Prussian waters. The report concludes therefore, that there can be no question of an existing blockade of the Prussian coast.

HANOVER, March 19 .- The Danish Governhas decreed the release of the Hanoverian ships under embargo in Danish ports.

Londesburg, March 17-9 A. M.-On Thursday there was heavy cannonading and fighting all along the line of Duppeln village, and the Tougeberg position was taken by the Prussians after a heroic resistance by the Danes.

The position of Duppeln is still unchanged. The numbers of the Prussians are always four to one. Their artillery have ranged three miles.

A Danish Colonel was killed to-day, and 70

wounded were brought. The enemy's losses are severe, as well as those of the Danish army. COPENHAGEN, March 17 .- The Prussian bat-

teries opened fire yesterday morning on the Duppeln entrenchments.

The enemy fired altogether five hundred shots. We replied occasionally, in all thirtyfive times. Our firing seemed to be successful, as two of

the enemy's batteries were silenced for some We had two officers killed and one wounded;

sixteen privates were killed and forty-nine wounded. 🛫

considerable damage. Advices from Stockholm to the 15th state that fresh disturbances had taken place. The police office was attacked and the windows in the

residence of the Chief of Police were smashed. The military were called out, and eleven persons were arrested. The Dagblad insists upon more energetic measures being taken by the Government.

FLENSBURG, March 18 .- The bombardment of Duppeln was resumed to-day, a terrific cannonade being heard here.

Turin, March 17 .- News from a reliable source at Rome, states that the illness of the Pope has become more alarming. The Official Gazette of Turin announces the

appointment of 23 new Senators. HAMBURG, March 17 .- According to handbills emanating from the printing office of Greve & Teideman, and distributed in this city, this morning, Prince Frederick, of Augustenburg, was found dead in his bed at Kiel. The

rumor requires confirmation.

DEATH OF HON. JOS. N. TAYLOR, OF N. J. TRENTON, April 2.—Hon. Joseph N. Taylor, of Passaic, Speaker of the House of Assembly, died this morning at ten o'clock. He asked to be excused on Tuesday on account of important business at home, and was taken sick Wednesday night with congestion of the brain. He was insensible for six hours and continued to sink. He left his duties in excellent health and spirits. Mr. Taylor was a young and active man, and extensively engaged in manu-

factures at his home in Patterson.

A VESSEL ASHORE. NEW YORK, April 2.—The ship Guardian, hence from San Francisco, is ashore on the outer middle ground, with $2\frac{1}{2}$ feet of water in her and is striking heavily. A heavy northeast wind is blowing. New York, April 2.—Arrived, ships Maid

of Orleans, from Ardrossan; Lizzie Homan, from Queenstown. MARKETS.

CITY BULLETIE.

CHARGED WITH CONSPIRACY.—Before Alderman Welding, James Carroll and James Barrey were charged with conspiracy. They are ourneymen shoemakers, and they are on a strike for an advance of wages. The accused, it is alleged, stood in front of a shop in Second and Arch streets yesterday and endeavored to prevent men from going to work. They were held in \$600 bail to answer. ENLISTMENTS DURING THE WEEK .- This

morning warrants for the payment of the city bounty to eighty men were issued. This is an increase of more than double yesterday. The warrants issued during the week ending to-day amounted to \$110,000. This shows that the enlistments of men credited to the city num-RAINY SATURDAYS .- The succession of rainy

Saturdays appears to have returned again. On last Saturday there was a heavy northeast storm and to-day a similar storm is prevailing. LIQUID GUM DROPS .- A fresh invoke just received by Bower, Sixth and Vine.

Of the Allments of the Eye and Ear.—Of the many infirmities to which the human family are subject, there is none requiring such sound professional knowledge and skill as diseases of the Eye and Ear. Professor J. Isaacs, M. D., Oculist and Aurist, No. 511 Pine street, has given his undivided attention to these ailments for the last twenty years, and is is fair to presume that such an experience has not been lost to him. His great success has been the occasion of numberless testimonials from all sections of the city and country, which may be seen by persons viciting the office.

P. A. Harding & Co.'s New Millimery House.—Thursday of the present week was "Opening Day" among millinery establishments generally, the result of which has already been chronicled in the Bulletin. The large new wholesale house of Messrs. P. A. Harding & Co., No. 412 Arch street, entered the competitive list, on this occasion, with signal success. Their magnificent store-house, which is certainly one of the best lighted and finest arranged in Philadelphia, was comfortably thronged all day—not with lookers, merely, but buyers—and the general commendation that their display received showed that their great efforts to "do a handsome thing" were not made in vain. In making our accustomed round on "opening day," we visited this establishment, and were politely shown through by a member of the firm. We were really surprised to find such an endless variety of handsome novelties as we there saw. No less than two hundred different styles of Freach and American Flowers were shown to us on the first floor alone, and over two hundred different varieties, styles and designs of Bonnets. If this fact does not demonstrate the affection of the fair sex for variety, we shall not attempt to find better proof. The exhibition of Trimmings, including a splendid assortment of the popular Shell and Straw Ornaments made by Messrs. P. A. Harding & Co., is also of the mest extensive, and in all respects creditable, character.

On to the second floor of their establishment, we had pointed out to us about three hundred different styles of Ladies', Misses', and Infants' Hats, in a variety of shapes, designs, and colors, that can only be described as endless.

In their Facking Department bustling activity and profound method semend to be striving for the mastery. Suffice it to say that the life and commotion there evinced furnish the best evidence that buyers are properly appreciating the advantages of patronizing a house of this extent and c

FROM THE DEPARTMENT OF THE GULF. [Correspondence of the N. Y Herald.]

NEW ORLEANS, La., March 24.—The army on the Teche is rapidly joining that at Alexandria, the advance of Gen. Lee's cavalry having already arrived there. The last heard of the infantry they were at Opelousas, and still "marching on."

Considerable excitement was caused in the city on Saturday and Sunday last by the arrival of parties from Brashear City, bringing the intelligence that the enemy were in our rear in force, and that they entered Franklin after a short skirmish with the pickets, and

captured the regiment of negroes guarding that town. The actual facts are as follows: A few guerillas, thinking to surprise our pickets, were surprised themselves by being fired upon by said pickets. The rebels returned the fire and traveled as if they were in a hurry. No one was hurt. This simple affair caused the whole of what I have stated, besides hurrying off thirty or forty from Brashear to this city with the intelligence that all means of communication with the army were cut off by the enemy, who had appeared in large force in our rear and attacked Franklin.

Additional particulars of the capture of Fort De Russey have been received. Over three hundred prisoners have arrived in this city. The fighting was literally terrible on both sides. The Unionists twice advanced and twice were they repulsed. The third assault carried the works, and the garrison was compelled to surrender. The fight commenced with artillery but as the Union troops approached a musketry fire was opened by both parties, and this was kept up almost incessantly for over two hours. The loss is not stated.

Governor Hahn has received the following from prisoners in Camp Morton, Indianapolis, signed by over two hundred and fifty names:
"Hon. Michael Hahn, Governor of the State of Louisiana:—Sir—The undersigned have hailed with acclamations your election as Governor of the noble State to which we belong. The school of misfortune has taught us experience, and like you, we see that the only course worthy of our noble State is to resume her place in the proud and glorious sisterhood to which she once belonged, and to throw of forever the curse attached to our institutions. We believe slavery to be no more, and pledge ourselves to assist you in your endeavors to eradicate that evil. We beg of you to help our return to our native State, and to demand our release from the authorities at Washington. All citizens of Louisiana, we wish to return to her and assist you in the glorious work of her resurrection. The old States, with its institution of slavery, is now dead; let now the new and free State of Louisiana arise from the ashes of her mother, and, guided by your able hands, assume in our Union the place to which she is entitled. Hoping, sir, that you will listen to our prayer, and consider this our humble position, we re-

of somebody to this deponent unknown. The troops under General Fitz Henry War-ten marched overland, crossing the bayou in rear of Indianola and fording the one below, for there are four in all. The two last are crossed by means of rope ferries. Toward evening, as a detachment of the 69th Indiana, 60 men, were crossing McHenry's bayou from Bayucos to Matagorda Island, the heavy sea swamped the pontoon boats used as a ferry, drowning 22 men and 2 officers of the 69th Indiana Volunteers, Lieut.-Col. Perry commanding; two men belonging to the 7th Michigan Battery, and eight of the 2d Engineers, Corps d'Afrique, in all 34 persons and two horses of those that

were on board at the time. A number of small boats and a schooner were ying at the dock on the south side of the bayou, and attempts were made by officers less cool to shove them off, without men or oars, when they saw the ferry-boat sinking. Had the schooner gone adrift, the current was so strong and she so high out of the water that many of those who succeeded in paddling ashore must have been carried into Esperita Santa Bay. Col. Perry stopped the schooner, manned the boats, and with the assistance of those on shore, picked up many who would otherwise have been drowned, as all the men had on their knapsacks and accoutrements. This accident has cast a gloom over the whole army-nothing else is talked of.

EXTRACT SARSAPARILLA. It cleanses and renovates the blood, instills the It cleanses and renovates the blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body and expels the disorders that grow and rankle in the blood. Such a remedy, that could be relied on, has long been sought for and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effect, but the trial of a single bottle will shew to the sich that it has virtues surpassing anything they have ever taken.

that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilatia added to a pint of water, is equal to the Libson Diet Drint, and one bottle is fully equal to a gallon of the Syrup of Sarsaparilla, or the Decoction as usually made.

THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and are also in very general use in all the ARMY, and are also in very general use in all the STATE HOSPITALS and PUBLIC SANITARY INSTITUTIONS throughout the land, as well as in private practices and are considered as invaluable remedies.
