CHARTER 1 BANNVART'S BRONCHIAL TROCHES, for the cure of Hoarseness, Throat Discars, &c., are specially recommended to public speakers, as the most efficient remedy extant for the above discases. We present but one of the many testimonials in our possession. AWRENCE'S METALLIC BROWN PAINT

-88 PER CENT METALLIC BASE.

The Metallic base of this Paint is composed of the Protoxide and Peroxide of Iron. Its properties are such as to give it superiority over all others in the market for the purpose for which it is recommended. LYON'S PERIODICAL DROPS FRANKLIN NEVER FAIL TO OURE THE SUFFERING in our possession:

HARRISBURG, Feb. 8th, 1864. FIRE INSURANCE COMPANY C. A. BANNVART—Dear Sir: I have used Brown's Bronchial Troches, Wistar's Lozenges, and other preparations for hoarseness and throat troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and singers. in cases of hoarseness, coughs and colds. I have found them serving in time of need, most efectually. commended.

It has been proved by thorough exposure, and by comparison with other paints, to be the only reliable Paint to resist the action of salt water and PHILADE PHIA. liable Praint to resist the action of salt water and salt atmosphere.

It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.

It is especially adapted for

METAL ROOFS.

It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.

It mixes and blends readily with other paints, and by comparison to the amount of surface a given weight will cover, costs about one-half as much as other Metallic Paints.

Wherever this Paint has been used, it has given than can be said of any other paint in the market.

INSOLUBLE CEMENT Is of more general practical utility upon any invention now before the public. It has been thoroughly tested during the last two years by practical men, and pronounced by all to SUPERIOR TO ANY Ane thing, Hilton's Insoluble Cement is a new thing, and the result of years of study; its combination is on SCIENTIFIC PRINCIPLES, Combins and under no circumstances or change of temperature, will it be-come corrupt or emit any offensive BOOT AND SHOE Root and Shoe Manufacturers using Machines will find it the bestarticle known for Comenting the Channel, as it works without delay, is not affected by any change of temperature. JEWELERS
Will find it enficiently adhesive for
their use, as has been proved.
It is Especially Adapted to Jewelers. It is Especially Adapted to
Leather,
And we claim as an especial merit,
that it sticks Patches and Linings to
Boots and Shoes sufficiently strong
without stitching.
IT IS THE ONLY
ITIS THE ONLY
That is a sure thing for mending
