CAIRO, April 6 .- New Orleans advices of the 29th ult. received here, state that the rebel ram Tennessee was struck by a squall while lying near Grant's Pass, near Mobile, causing her to keel over and sink.

Nothing but about two feet of her smoke stack remained visible. Her armament will prove a heavy loss to the rebels. It consisted of six 100-pounders rifled Parrotts, and nearly as many smaller pieces.

All was well with our fleet, though they have had some very bad weather.

MILITARY ACTIVITY IN THE WEST. [Special Despatch to the Bulletin.] CINCINNATI, April 7.

Adjutant General Cowan, of Ohio, has issued

an order to the veterans now at home to prepare to join their respective brigades on the expiration of their furloughs, without delay. Commanders of regiments are made responsible for any tardiness in the movement of regiments and are not allowed to remain at home on any condition, a day beyond the expiration of the time of their furloughs.

The movement of troops to the front is on an unexampled scale, and there is the greatest activity in hurrying them forward. Nearly all the re-enlisted regiments go back with from three to five hundred recruits.

We have no military news of importance. Forrest's rebel command is plundering Western Kentucky and Tennessee with little hindrance. They are carrying off an immense deal of plunder.

A SUSPICIOUS STEAMER OFF THE COAST OF MEXICO. [Correspondence of the N. Y. Herald.] Aspinwall, March 27.—The steamer Orizaba, at Panama from San Francisco, brings as the highly important and startling intelligence that a suspicions steamer, answering the description of the Alabama, had been seen off Acapuloz. It ap-pears that she tollowed a coal sh p close into the outer enchorage at Acapulco, so close, indeed, that she was distincitly seen from the decas of the French blockading ships of-war. As soon as the miral, the United States steamer Lan-caster immediately got under weigh and stood at reasy steam going not more than five or six knots. The French Admiral disclaims all knowledge of the versel. The English have no such craft in their class on the Pacific station is now at Oallao. Hence, who can the stranger be! The United States steamer Lancaster, it was understood, would go to the northward, in order to convoy the mail steamer Constitution clear of dauger, asd will also warn the Golden Age to be on the lookout.
