MOLDED COLLARS Have now been tefore the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other coulars. The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH IN-SIDE AS OUTSIDE—and therefore perfectly free

and easy to the neck.

The Garotte Cellar has a smooth and evenly fl. ished edge on Both SIDES. These Collars are not simply flat pieces of paper cut in the form of a Collar, but are MOLDED AND CHAPED TO PAT THE NECK. They are made in "Movelty" (or turn-down

style); in every half size from 12 to 17 inches and in . Eureka', (or Garotte,) from 13 to 17 inches; and packed in "solid sizes" in neatblue cartons, containing 100 each; also in smaller ones of 10 eachthe laster a very hardy package for Travelers, Aimy and Navy Officers ASTEVERY COLLAR is stamped 'Gray's Patent Molded Collar."
