THE LATE COLONEL ULBIC DAHLGREN.

Admiral Dahlgren has, in reference to the resolutions of the members of the Dahlgren Howitzer Battery in response to the late Col. Dahlgren, addressed a letter to Mr. Charles Willing Hare, dated Washington, March 27th. We regret that our space will not permit the publication of the entire letter, but we make room for the subjoined extract in reference to

the lamented young hero:
Many battle-fields will bear testimony to his self-sacrificing devotion for the country. Har-per's Ferry, Fredericksburg, Chancellorsville, Beverly Ford, Getty sburg and the unbroken succession of battles for ten days from Cedar Mountain to Fairfax, when the Union army was forced back under Pope, are his wit-

There were other conflicts besides, to which his adventurous spirit constantly exposed him, while skirting the roads and mountain passes of Northern Virginia. Conspicuous among which is the ride into Fredericksburg with a handful of cavalry, dispersing superior numbers and cap-turing from the rebels at least half as many as his own force. Your comrade, therefore, has not fallen short

of what you would have had of him. The name which you selected to designate your Company was a graceful and most valued compliment to myself, now it has a more exalted impress, for it is consecrated by the life and death of your comrade, the ever dutiful son, the devoted patriot, the young, the gentle, the fearless soldier, who without faltering gave a life of promise for a noble causs.

May the memory of that unblemished life and its end, be nearest your hearts when you go forth to do battle for a righteous cause against the perjured traitors who have brought desolution on this fair land, consigned to untimely graves myriads of our youth and made a dungeon and a Golgotha of their seat of power, where so many gallant sons of the North have been captives and victims.

The accidents and necessities of my own unsettled life cast the birth of my gallant boy. Ulric, at a rural home in Pennsylvania, not far from Philadelphia. But his parents were born and educated in your city; his grand-parents and those before them, even so far back as the Colonial period of the State, were born and lived in Philadelphia, and their remains, with those of his mother, brothers and sister, repose there. His own career in life was opening among you (in the study of the law). under the eye of his kind and excellent uncle Mr. James W. Paul, when the first cannon shot at our glorious flag roused the young and old of the land.

The hope which you express that Philadelphia will give a monument to her son, who has given to her cause all he had to give, limb and then life—who before completing the first year of his manhood, had been honored with the high rank of a Colonel, for service and sacrifice on so many Battle-fields,—and who fell in a desperate effort to rescue his comrades from a cartivity worse than death, though himself just recovering from wounds that had maimed his fair proportions,-strikes every chord in my heart, and most gladly will I contribute to the purpose from my own scanty

Will your comrades be pleased to accept my ever grateful thanks for their feeling remembrance of my son and their associate. With my best wishes for the honor and suc-

cess of your company, I am most truly theirs. JNO. A. DAHLGREN, Rear Admiral Commanding South
Atlantic Blockading Squadron.

ap2-tf SAMUEL C. DAWSON, Secretary. HILTON'S CEMENT.—The Insoluble Cement of the Messrs Hilton Brothers is certainly the best article of the kind ever invented, it should be kept in every manufactory, workshop and house, everywhere. By its use many dollars can be saved in the run of a year. This Cement cannot decompose or become corrupt, as its combination is on scientific principles, and under no circumstances or charge of temperature, will it continuous. cumstances or change of temperature will it emit any offensive smell. The various uses to which it can be successfully applied renders it invaluable to all classes. For particulars see advertisement To all classes. Work now in Progress in the Army at Rest-Christian Commission Stations largely increased in Number—The Work Abundantly Prospered—Many more Stations needed to meet the wants of the Army—Unprecedented Call for Delegates and Supplies—Preparations for the Coming Campaign, with its Movements and Battles.

The Christian Commission depends mainly upon direct contributions, and must not be forgotten by Loyal Christian People.

THE BLESSING OF GOD rests signally on all parts of the work. Many thousands have been cheered, benefited and saved. Still a large part of the Army remains unreached, and doubte the number, both of stations and delegates, are needed to meet the urgent demand for them.

The Christian Commission offers to the people a perfectly reliable and wonderfully economical channel to reach the entire army in all its various fields. The money given goes in full measure, in benefits for body and soul, directly to the Soldiers; and stores also, immediately from the hands of delegates from home, who add words and deeds of kir dness to the gifts when bestowed.

Let the people give the Money and Stores, and the work will be done.

The large corps of Delegates now in the field will serve as a grand corps of relief when the armies shall move and battles be fought, and the greater their number the more prompt and effective will be the relief they shall render.

Let not the present work languish. Wait not for the cry of the wounded and dying before providing relief.

DRUGS. AWRENCE'S METALLIC BROWN PAINT
—88 PER CENT METALLIC BASE.
The Metallic base of this Paint is composed of
the Protoxide and Peroxide of Iron. Its properties are such as to give it superiority over all others
in the market for the purpose for which it is recommended. It has been proved by thorough exposure, and by comparison with other paints, to be the only re-liable Paint to resist the action of salt water and

salt atmosphere.

It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.

It is especially adapted for METAL ROOFS.

It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.

It mixes and blends readily with other paints, and by comparison to the amount of surface a given weight will cover, costs about one-half as much as other Metallic Paints.
