FROM NEW ORLEANS AND MEXICO.

NEW YORK, April 14 .- The steamer Creole has arrived from New Orleans, with dates to the 6th inst. Her advices have been mainly anticipated via Cairo.

Admiral Farragut was at New Orleans. The Era states that the Liberals under Cortinas had defeated Vidaarri at Monterey, Mexico.

French war vessels were taking soundings at the mouth of the Rio Grande. Cortinas had returned to Matamoras, and expressed the determination to defend it to the last extremity. A force had been sent to Bagdad, at the month of the Rio Grande, to oppose the French and to throw up defensive works.

Ten thousand bales of cotton had been ferried over the Rio Grande at Eagle Pass, from Texas, within a month, and were being hauled down to Matamoras for shipment.

At New Orleans, cotton had advanced 2 cts. Middlings were scarce at 71 cents. Sugar and molasses higher.

The bark Cephas Starrett was ashore on the bar at the month of the Mississippi. The prize schooner Mary C. Benton had

arrived at New Orleans from off Galveston. Seven negroes had been tried for the murder of the family of Mr. Neff, near Port Hudson, in January, and three of them sentenced to be hanged.

BEBEL VESSELS BUILDING IN FRANCE. NEW YORK, April 14 .- The French papers of this city publish this morning an article taken from the Opinion Nationale of Paris, which includes official documents and proves that the French Government is quietly conniving at the efforts of the Confederate agents to have iron-clad war vessels built in France for the Confederate service.

From the revelations of the Opinion it

bringing soldiers here to keep Old Abraham, King of America, from being encroached upon by Jefferson Davis, of the Sonthern Confederacy. This is no longer a conitry of republicanism but a monarchy and a despotism. I go, he said, for a dissolution of the Union in preference to a war of extermination. This fratricidal and ruinous war should terminate. 5 He wanted the Union which gave us prosperity and peace. He wanted the Union with slavery if necessary or the Union without slavery. Mr. Colfax rose to demand the previous ques-tion. Mr. Pendleton (Ohio) said three or four gentle-Mr. Pendleton (Ohio) said three or four gentle-men on the opposition side desired to speak. The previous question should not be brought to bear to curtail free speech. He therefore appealed to Mr. Colfax not to make that motion until others had been heard. Mr. Colfax replied his neart was disposed to accesse to the request, but public duty demanded he should make the motion.

EMANCIPATION IN TENNESSEE. KROXVILLE, April 13.-The Greeneville Convention of 1861, reassembled yesterday, at the Court House. About a hundred and sixty delegates reported in person, representing twentytwo counties. The President, Mr. A. R. Nelson, on opening the Convention, made an explanatory speech and resigned the chair. Mr. William Hesskill was then chosen as the presiding officer. Some exciting debates arose on a motion to

appoint a Committee on Credentials with power to determine the loyalty of the dele-gates. The whole matter was finally tabled and a business committee of one from each county appointed, which, up to noon to-day, has not been able to agree and report resolutions. The disturbing question is whether the President's terms shall be adopted as a basis for re-admilting Tennessee as a free State. Gov. Andrew Johnson yesterday made a

strong emancipation speech, and a flag-staff was erected on the spot where the rebels destroyed the old liberty pole in 1861.

LOSS OF ITHE SHIP ELVIRA-ONLY THREE OF THE CREW SAVED. BOSTON, April 14.—The ship Elvira, Captain Andrews, from Calcutta for Boston, with a valuable cargo, foundered in the Bay of Bengal on the 20th of January during a hurricane. The captain and first mate went down in the ship. The remainder of the crew took refuge on the ship's house, which became detached from the vessel. Before the night of the first day five of them were washed off the house and drowned. On the fourth day two others died, and on the fifth day one more died. The survivors remained on the wreck until January 27th, when they were taken off by the French bark Clair and subsequently landed a Point de Galls, Ceylon. Of the crew (twenty-nine all told) only three were saved. The vessel and cargo are largely insured in this city.

FROM SAN FRANCISCO.

FROM SAN FRANCISCO. SAN FRANCISCO, April 13.—Sailed—ship Success, for Callao; also, steamer Golden City, for Panama, carrying 350 passengers and \$789,000 in treasure for England, and \$272,000 for New York. She also takes 270 chests of tea and 120 bales

of wool for New York.

Among her passengers was Greathouse, the privateer of the schooner Chapman, who goes to Washington, in irons, for trial, having forfeited his parole.

THE AMERICAN DOCK COMPANY. TELNTON, N. J., April 14.-The American Dock and Improvement Company bill having passed both houses of the Legislature, and having been signed by the Governor, the friends of the measure had a large entertainment last night, at which speeches were made by the Speaker of the House, Mr. English, of Bergen; G paral Wright, of Hudson; Senators Buckley, Helsman and Scudder. Mr. A. K. Browne, of Jersey City, represented the company and made some remarks.

lieu of so much of the loan authorized by the Act of March 3d, 1863, to which this is supplementary, the Secretary of the Treasary is authorized to borrow from time to time, on the credit of the United States, not exceeding TWO HUNDRED MIL. LION DOLLARS during the current fiscal year, and to prepare and issue therefor Coupon and Resistered Bonds of the United States; and all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any State or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period . not less than ten nor more than forty years from their date, and until their redemption FIVE PER

CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually, and on all other Bonds semi-annually. The interest is payable on the first days of March

and September in each year. The semi-annual Coupons are payable at those dates, and the annual Coupons on the 50 and 100 dollar Bonds are payable on the first of March.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered. Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial TRES.

Registered Bonds will be issued of the denominations of Fifty Dollars (\$50), One Hundred Dollars (\$100), Five Hundred Dollars (\$500), One Thousand Dollars (\$1,000), Five Thousand Dollars (\$5,000), and Ten Thousand Dollars (\$10,000); and Coupon Bonds to the denominations of Fifty Dollars (\$50), One Hundred Dollars (\$100), Five Hundred Dollars (\$500), and One Thousand Dollars (\$1,000).

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premaium,) receive them drawing interest from the date of subscription and deposit.

As these Bonds are exempt from manicipal or State taxation, their value is increased from one to three per cent. per annum, according to the rate of tax levied in various parts of the country.

At the present rate of premium on gold they pay over eight per cent. interest in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great in. ducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United. States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from 550 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist They can be converted into money at any mement, and the holder will have the benefit of the interest.

The fact that all duties on imports are payable in specie furnishes a fund for like payment of inon all Government Bonds largely in exce of the wants of the treasury for this purpose. Upon the receipt of subscriptions a certificate of deposit therefor, in duplicate, will be issued, the original of which will be forwarded by the subscriber to the Secretary of the Treasury, at Washington, with a letter stating the kind (registered or coupon) and the denominations of bonds required. Upon the receipt of the original certificates at the Treasury Department, the bonds subscribed for will be transmitted to the subscribers respectively. Subscriptions will be received by the Treasurer of the United States at Washington, and the Assistant Treasurers at Philadelphia, New York, Boston, and by the First National Bank of Philadelphia, Pa. appears that parties at Nantes and Bordeaux have been for months at work building war vessels ostensibly for China but really for the rebels.

Mr. Dayton, last fall, laid before the French Government proof of the real destination of the vessels, and after much delay, the work was stopped by Government orders. But during the last two months, as the Opinion declares, the work has been resumed, and two of the vessels are now ready to be passed over to the Confederate agents.

Lieut. Maury and Capt. Bullock have been prominent in these negotiations. These vessels are iron-clad, and the rebel authorities have ordered an entire fleet, which the Government of Napoleon III. seems willing to have built at French ports, in spite of its reiterated statements of a desire to maintain a strict neutrality.
