CITY BULLETIN.

THE CHARITABLE INSTITUTIONS IN PHILADEL-PHIA.—The report of the Select Committee of the Senate of Pennsylvania, appointed to examine and report upon the condition of the several institutions receiving aid from the Commonwealth, has been issued in pamphlet form. We make some interesting extracts relative to the institutions.

The House of Refuge-is situated at Twentyfirst and Poplar streets. The total cost of site, buildings, and furniture of the institution, including both white and colored departments, now used as a house of refuge, \$348,000. There are separate rooms in the white department for four hundred and thirty-two children three hundred and four boys, and one hundred and twenty-eight girls; in the colored depart-ment, for one hundred and ninety-eight children-one hundred and twenty-two boys, and seventy-six girls. Six hundred and thirty children in all can be comfortably accommodated.

On the 8th of December, 1828, the white department received its first inmate. The colored department was opened on the 1st of January, 1850. The appropriations received from the State amount to \$82,500; from Philadelphia county, \$45,000, and from the contributions of the citizens of Philadelphia, \$175,000. The balance of the cost of the new buildings was derived from the sale of the old buildings and lot which yielded \$102,500 In 1863 the inmates were 327 boys and 130 girls, which is larger than in any year since the opening. In 1828 there were 18 boys and 3 girls.

The Pennsylvania Institution for the Instruc-tion of the Blind is located at Twentieth and Race streets. The main building is 55 by 160 feet, and contains 69 rooms. The other buildings swell the number of rooms to 111. The total cost of the buildings and grounds was \$116,193 38. The institution went into operation in March, 1833. The State has appro-priated \$35,000 towards the erection of the buildings. In 1833 the number of inmates was 11, and in 1863, 180. The gross expenses aver-Average cost of each pupil from the organization of the institution, \$215 92 per annum, for the direct items of boarding, clothing and instruction. But the cost of the real estate in about \$40,000; the sales about \$10,000. provements from time to time, made for the necessary accommodation of pupils, forms properly a part of the charge for their maintenance. and would considerably enhance the average charge for their support. During the last twenty years, while the number of pupils in-creased from sixty-seven to one hundred and eighty, the State has not been called on to contribute for building enlargements over \$15,000. All ther buildings and improvements since that time have been borne by the institution, from funds in hand, part of the annual appropriations for pupils, and from private legacies in

Northern Home for Friendless Children.— This institution is situated at the corner of Brown and Twenty-third streets, upon a lot of ground one hundred feet front on Brown street, and two hundred and four feet in depth on Twenty-third street, and was incorporated by an act of the Legislature, approved the 26th January, 1854. The total cost of the lot and buildings is \$36,166 91. An additional piece of ground has been taken up on ground rent, and an infirmary is being erected thereon. This building, when completed, together with the furniture appropriate to it, will cost about \$12,000, making the sum total of cost of lots, buildings, furniture, &c., \$48,166 91. The Home will accommodate two hundred and fifty children, and was established in the year 1853 Up to May 1, 1863, the whole amount received from the State Treasury was \$25,000. Since the commencement of this institution, the annual State appropriation has been \$5,000 for the support of the children. The number of inmates in the Home in 1863 was 225. The whole amount expended for the fiscal year ending May 1, 1863, was \$8,953 73.

The Pennsylvania Institution for the Deaf and Dumb, is situated on a lot bounded by Broad, Pine, Fifteenth and Asylum streets. The ground and buildings cost \$108,770 68, including the cost of the lot \$16,514 24. The institution commenced operations in November 1820. The amount received from the Commonwealth, for the education and maintenance of indigent deaf mutes educated at the expense of the State in 1863, was \$23,492 04. The bnildings are capable of accommodating comfortably upwards of 200 pupils. The number in 1863 was 181, which is a decrease of one from the previous year. This number was exceeded in 1859, 1860 and 1861, in each of which years there were over 200. For the year 1862, the cost of each pupil was \$161 332. That of 1863, is estimated at \$182 32. The estimate for 1863 was made at the beginning of the year. By the amounts actually paid from January 1, to the middle of October, the average cost will

be \$190 to \$198 for each pupil.

The Penn Asylum for Indigent Widows and Single Women.—The building contains twelve rooms, ten of which are sleeping apartments. The inmates number forty-two; price of ground and house, \$7,100, the house having been used as a massion by the West family, and probably built in 1810; consequently in a dilapidated state, and has cost over \$1,000 in repairs. The property is now, however, clear of all incumbrance. The institution was established in 1852. In the years of 1859 and 1860 there was appropriated by the Legislature \$5,000 for purchase and improvement; in 1862 and 1863, \$1,000. The receipts have increased from \$1,000 to about \$1,800 including proceeds of fairs, &c., held by the managers.

The Wills Hospital was never incorporated, but went into operation in 1834. No appropriation has as yet been received from the State. There has been bequeathed to the insti-

mates in 1834 were 49 and in 1862, 268. had passed the city. The cheers were heartily returned by crowds who had gathered along the wharves. the greater number of the patients are from th interior of the State rather than residents of the city of Philadelphia. Under the will, the city of Philadelphia. Under the will, "the income is exclusively applied to the comfort and accommodation of the indigent blind and lame." When that is exhausted, patients are received at from three or five dollars per week, according to their ability or that of their friends. Amount expended during the last year, \$5,439 22; amount realized from all ources, \$5,787 16.

Eastern Penitentiary.—The total cost of buildings and grounds was \$673,620 86. The amount appropriated by the State for buildings and other improvements was \$724,543 86. St. Joseph's Hospital is on Girard avenue, between Sixteenth and Seventeenth streets. The new main building, erected in 1862, is sixty feet front on Girard avenue, and about fifty feet deep; cost complete, with steam heating and cooking apparatus, rising \$17,000. It is connected with another building forty feet square, which is contiguous to another of same cases of accidental injuries could be admitted dimensions. Both of these latter were on the premises, when purchased for the sum of \$30,-000. The lot extends from Sixteenth to Seventeenth streets, an entire square, and is two hundred feet deep. The institution commenced operations June 18th, 1849, and is under the harge of the Sisters of Charity. The annual expenditure is about \$6,000. During the greater art of 1863, the hospital was mainly occupied by United States troops, and the expenses paid by the Government. The appropriation of \$5,000 made by the Legislature, was devoted to the payment of a mortgage on the premises.

Philadelphia School of Design for Women. This institution owns no lands, but rents buildings for its purposes. It was incorparated in 1853, having existed for some time before without incorporation.

At least thirty thousand dollars have been contributed at various times to the support of the school by private parties. At the session of 1862, and also at the session of 1863, the Legislature appropriated two thousand dollars be paid out of the school fund appropriated to the city of Philadelphia.

A building has been purchased for \$11,000.

Within the last ten years, some three thousand dollars have been paid at the school for designs, and for wood engraving—about three-fourths of which was paid to those who did the work, the object of the school being more to teach and train artists, and thus make their powers available in their own hands after they leave the school, than to find employment for its pupils while they are students.

The Jewish Foster Home Society occupies a three-story brick building at No. 1427 North Fifteenth street, which cost \$6,500; was incorporated in 1855, and has had but one appropriation of \$1,000 from the State. The average number of immates is thirty, and they cost about \$50 each, including boarding, clothing, educatin, &c. There are none but orphans or children of indigent parents in the institution.

PENNSYLVANIA SEAHEN'S FRIEND SOCIETY. --This Association held its Twentieth annual meeting last evening at the Bible House, corner of Seventh and Walnut streets.

The annual report was read, showing that a great amount of good had been done to the sailors through the instrumentality of the Society. One of the provisions of the Society is a Sailors' Home, in which they are cared for while on shore, and protected from rascally boarding-house keepers; 1276 sailors, of whom 30 were shipwrecked, were accommodated there during the past year.

The Society distributed among the seamen 3450 religious books; 28,108 pages of religious tracts, and 3694 bibles last year. The Treasurer reports the receipt of \$3,-321 75; and expenditures, \$2,480 58; leaving balance of \$841 17 on hand. The Sailors' Home is being renovated and

enlarged, so as to accommodate a greater number of seamen. The number of these Homes in the United States is 15, at which 10,254 seamen have been taken care of during the year 1863. There are

S6 regular Chaplains, not including those of the navy, and 49 Bethels, at which there is an average attendance of 4,780 every Sunday. Among the Medical Celebrities of Philadelphia, few names stand higher than that of Dr. You Moschzisker. The reputation he enjoys as one of the best Oculists and Aurists of the country has been justly and deservingly awarded him. His services are sought by the deaf and blind from every State, and his operations and successes are spoken of with due appreciation of his eminent talents. Dr. von Moschzisker has not only particularly shown what can be done for the deaf and blind by a really scientific Oculist and Aurist, but, as a writer, has rendered the greatest service to the profession as is shown by the high praise of he medical and general press, of his able work on the Ear. Dr. Buchanan, in his Medical

Journal, in speaking of the book, says "it is a production which exhibits the result of immense abor and thorough knowledge of the subject.' THE WASHINGTON GUARDS .- An adjourned meeting of the 1st regiment Washington Guards was held on the 14th inst., to complete arrangements for placing the regiment on a footing with other local military organizations, and be ready to respond to any call which may be made on the militia during the coming spring campaign. Col. Wm. F. Small presided, and Capt. Wm. P. Smith acted as Secretary. The reports received showed the rapidity with which this regiment is filling up; over six hundred names having been enrolled during the past week. Resolutions were passed to the effect that the organization be made permanent during the present war, and the regiment be placed in a condition to be among the first to take the field. The Colonel announced the appointment of Lieut. Alex. Russell as acting Adjutant.

FILL UP THE PONDS .- In the southwestern part of our city there exist a large number of ponds, which become filled at every rain, and before the water is dried up it becomes stag-nant, thus tending to breed disease among a large population. It is also true that entire families have been attacked with chills and fever, resulting from the same cause. The owners of the property should be compelled to fill them up. There are thousands of loads of dirt that could be dumped into them at a small expense. Owners of the built-up property will do well to abate the evil.

DEPARTURE OF COLORED TROOPS.—The remaining five companies of the 25th regiment U. S. Colored Troops, Lieut. Col. Hitchcock commanding, arrived in the city from Camp Wm. Penn yesterday, and immediately marched to the foot of Hauover street, Eighteenth Ward, where they embarked on a transport steamer for New Orleans. The pier was crowded with the relatives and friends of the soldiers who had assembled there to witness their departure. As the steamer went down State. There has been becaesahed to the insti-tution at sundry times \$17,110 78. The in-the upper yards and cheered justily until they

Commission is making exertions to have some of the most prominent among the clergy spend Already quite a number, both in this city and New York, have gone and returned. Rev. Messrs. Durgen and Booth, of New York, passed through this week; Rev. Dr. Adams and Rev. Dr. Prentiss, of New York, leave for the Army of the Potomac on Menday, with the intention of spending come time and delicators of tention of spending some time as delegates of the Commission. Geo. H. Stuart, Esq., in company with Rev. Dr. Kirk, and a delegation of prominent merchants from Boston, have returned from an extended visit to the Army of the Potomac. They express themselves highly pleased with their visit, and report a gratifying

religious interest among the soldiers. A NEW HOSPITAL.—The Board ol Managers of the Homocopathic Infirmary, at a recent and receive surgical treatment, and where discharged soldiers, disabled in their country's cause, who prefer the Homœopathic method of cure, could likewise be admitted and cared for. The building at the southeast corner of Eleventh and Coates streets, has been leased preparatory to opening wards for the sick and wounded. Funds and hospital stores are needed to furnish and prepare them. Donations will be tnankfully received at the office of the institution.

THE DAY'S RECEIPTS .- The receipts of the Fifth and Sixth Street Railroad, on Tuesday last, the day devoted to the Sanitary Fund, amounted to \$905 20. They would have been still larger but for the necessity of the Company withdrawing some of their cars from the general travel to carry a body of soldiers on their way to the Army of the Potomac.

Lost His Money.—An individual who got among the denizens of Pine alley, last night, was relieved of \$50. Three women were arrested upon the charge of having committed the robbery, but as there was no witness to appear against them, this morning, they were

An Innense Gun .- On Washington avenue near the river may be seen a large fifteen-inch gun, weighing 42,230 pounds, which is intended for the two-turreted monitor Tonawanda, now on the sectional dock at the Navy-Yard. The gun throws a ball weighing 380 pounds. A SPUNKY WOMAN .- A woman residing in

the First Ward, was arraigned before Alderman Dallas this morning, upon the charge of having whipped her husband. She was sent below. TROOPS EXPECTED. - About one thousand troops from the East, on their way to the army, expected at the Refreshment Saloons during

this afternoon and to-night. REV. JOHN LORD, D. D.—This distinguished historian and lecturer will preach on to-morrow (Sabbath) evening, in the Clinton Street Church, Tenth, below Spruce.

UPHOLSTERY .- Patten makes a specialty of promptness in this particular line. Persons who have here; of ore waited until their upholsterer was ready to commence their work, will find it very agreeable to have workmen despatched at once as soon as the order is given at Patten's West End Store, 1466 Chestnut street.

order, in the best manner and most fashionable styles. The subscriber is able to offer to the public the strongest inducements to purchase clothing of him, and will guarantee to all his customers entire satisfaction. —WILLIAM S. JONES,

Successor to Robert Adams,
S. E. corner Seventh and Market Sts.

"BUTTER IL RIZ."—This is the doleful cry of "Butter il Riz."—This is the doleful cry of half the old ladies in town when they meet each other in market and lament over the mutability of human marketing generally, and the "upward tendency" of butter in particular. Indignant housekeepers, alarmed at the way the article is ascending in the scale of prices, are forming Butter Leagues, and vowing to have none but Lenten entertainments until butter comes down. In the meantime Rockhill & Wilson, the proprietors of the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Ohestnut street above Sixth, keep on the even tenor of their way, and afford entire satisfaction to their customers by giving them the last possible goods for the least possible money

CLAIMS OF THE SEWING MACHINE. The CLERGYMEN FOR THE ARMY.—The Christian

BULLETIN BUILDING 112 SOUTHETHIRD ST.

CLAIMS OF THE SEWING MACHINE.—The most eminent medical authorities in the land have declared that the habitual use of a Wheeler & Wilson Sewing Machine in a family would accomplish more for its health and happiness than the most potent medicines have the power to bestow. The Wheeler & Wilson machine has been singled out for this high ecomium, doubtless, from the well-known fact that sewing upon it is performed with less draft upon the strength of the operator than on any other sewing machine ever invented. Besides this, it makes the best work, is more durable, and performs a greater variety of work well, than all its rivals combined. We wish it was in our power to introduce one of these invaluable labor, life, and money-saying instruments into every household in the land.

The Wheeler & Wilson Sewing Machine is the best, the simplest and the cheapest.

More of the Wheeler & Wilson are sold than all other Sewing Machines combined.

All good dressmakers, seamstresses, and shirtmakers use the Wheeler & Wilson in preference to all other Sewing Machines.

Go and examine. No charge for instruction, whether you wish to purchase or not. Instruction given at the residence of purchasers, if decired. Salesroom, No. 704 Chestnut street, above Seventh, wax figures in the window.

E. G. WHITMAN & Co.'s Confections.—The-E. G. WHITMAN & Co.'s CONFECTIONS.—The individual would be a fit subject for the attention of Barnum who could look unmoved upon the array of delicious dainties displayed at the great popular confectionery of E. G. Whitman & Co., No. 318 Chestnut street, below Fourth. Their coffee, orangé, apricot and other flavored caramels; their delicious bon bons; their chocolate preparations; their roasted Jordan almonds; their fruit creams, and their many other exquisitely good things too numerous to mention, at once commend themselves to the palate, and are approved by the understanding because they are no less pure and wholesome than they are delicious.

Grover & Baker's Great "Manufactur-

GROVER & BAKER'S GREAT "MANUFACTURING" SEWING MACHINE.—Under the furore and
pressure of the celebrated family sewing machine,
made by the Grover & Baker Company, and sold
at their warerooms in this city, No. 730 Chestnut
street, we had almost lost sight of their great machine for Manufacturing purposer, known as their
"Shuttle, No. 9." This admirable labor-saver
is now in successful operation in probably more
first-class manufacturing establishments than any
other sewing machine in use, for the reasons, firstthat it is equally well adapted for either the lightest
or heaviest sewing; and, secondly, because the
price of it is remarkably low. As a speedy, beauitual and perfect sewer in every respect, this
machine deserves, and, we are glad to say is
receiving, the largest attention of our manufactures. GROVER & BAKER'S GREAT "MANUFACTUR-

BEAUTIFUL AND EXCELLENT CONFECTIONS. There never was at this season of the year, a finer display of rare and beautiful Confections than is now exhibited at the store of the fashionable Confectioner, Mr. Stephen F. Whitman, No. 1210 Market street. The demand for these choice Confutions for presents is very extensive this season, which shows a high appreciation on the part of our citizens for really beautiful and excellent preparations in fine Confections.

To the Intelligent and Discriminating Public — The improved Elliptic Lock Stitch Sewing Machine, No. 701 Cheet nut street, N. W. corner of Seventh. Printers' ink, judiciously used, is certainly of great benefit to the business man and the public at large. Fortunes have been made and kingdoms overthrown; although every day the intelligence of our community is offended by the paid newspaper braggadocia of certain adventurers trying to impose upon them all kinds of bogus wares, machines, &c., of extremely doubtful utility. Again, there appears a most wonderful challenge for comparison, to give some plausibility to said claim. Such bravado is deemed as closely bordering upon desperation, to bolster up and to induce sales at any sacrifice of conscience and honor. We, in calling the attention of the intelligent and discriminating public to the Improved Elliptic Lock Stitch Sewing Machine, prefer to rely upon the thoroughly established character of the Elliptic to recommend it as the most perfect instrument for sewing fine fabrics, claiming for it— Eight years' use and testing upon all kinds of materials.

By the dressmaker, and upon children's and Is-To the Intelligent and Discriminating

By the dressmaker, and upon children's and Iadies' clothing.
For hemming, felling, tucking, braiding, gath-

ering, quilting, stitching, &c., &c.
Using all kinds of cotton and linen thread.
Making a beautiful, even and tight stitch that
cannot be raveled or drawn out.
Motion rotary, thereby gaining great durability,
speed and strength speed and strength.

Great ease of motion by reason of no friction of reversible movements, shuttle or shuttle race.

Its entire simplicity perfectly discernible.

It is no new fancy experimental machine.

But has gained its pre-eminence by its many speed and strength.

Every machine fully warranted, and of exquis-Office, No. 701 Chestnut street, N. W. corner of Seventh.

PREPARING FOR SPRING. - In looking around PREPARING FOR SPRING.—In looking around among the various business establishments of this city we have found none more thoroughly prepared to meet the wants of the season on a most mrgnificent scale than the popular old clothing hcuse of Messrs. C. Somers & Son, No. 625 Chestnut street, under Jayne's Hall. Their importations of fine cloths, cassimeres, and other choice fabrics for spring, are at once large and in adminable taste, and their styles of ready-made garment are unsurpassed by any others in the world. Among other choice novelties now offered in this stock we noticed yesterday the most elegant piece of genuine old English Cassimere that we have seen in this country for twenty years. It is, in fact, a perfect counterpart of the skin, in color and texture. Go see it.
