General Sherman was not on the spot, but had received his information in the way the other statements came.

The Senate then proceeded to the consideration of the bill prohibiting speculative transactions in gold and toreign exchange, the pending question being the motion of Mr. Collamer to strike out "foreign exchange" from its provisions. Mr. Collamer said if we undertook to change the value of gold by such ficitions measures as these, we take ourselves from the market of the world. The gold gamblers did not deal in gold because thev cansed it to fluctuate, but because it fluc-tuated in price. If these gamblers have when the mational successes and owing to other causes. The fluctuation was in the currency; gold was just as any other article of trade. Every article of commerce fluctuates with the currency. He did commerce fluctuates with the currency. He did not think that Congress should say that inasmuch as a man agreed to pay money at a future day for gold it was his interest and intention to depreciate the currency before the time arrived when his con-tract was to be performed. He had been ridicaled for proposing that bill, and only last evening had received a paper con-taining a most brutal assault. He thought the committee was guilty of a want of contresy to him in not reporting his bill. This bill would now put it beyond the power of the gamblers in that hell of New York to control the gold market. Mr Fessenden (Mc. explained the action of the Finance Committee, and said they certainly never dreamed of discourtesy to the Senator from Kansas. Mr. Henderson (Mo.) thought the Secretary of the Treasury was very much mistaken if he thought the bill would accomplish the end de-signed. He regretted the legislation. He moved to strike out the words "bona fide owners." The best way to keep up the currency was by in-creased taxation. It seemed to him that we were here preventing a man from buying a foreign bill of exchange with anything but legal tender notes, thus intertering with commercial poursuits.
