GRAY'S PATENT MOLDED COLLARS Have now been before the public for nearly a year.

They are universally pronounced the neatest and best fitting collars extant. The upper edge presents a perfect curve, free from the angles noticed in all other coulars. The cravat causes no puckers on the inside of the turn-down collar-they are AS SMOOTH IN-SIDE AS OUTSIDE-and therefore perfectly free

and easy to the neck. The Gravette Ocliar has a smooth and evenly f. ished edge on Born sings. These Collars are not simply fat places of paper cut in the form of a Collar, but are MOLDED AND BHAPED TO FIT THE NECK. They are made in "Rovelty" (or turn-down style); in every half size from 12 to 17 inches and in "Eureka", (or Garotte,) from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, coataining 100 each; also in smaller ones of 10 eachthe latter a very handy package for Travelers,

In this matter, as well as in everything else, the rebels show an entire disregard for consistency. If the negro is a human being, they have no more right to object to his employment as a soldier than they have to object to the mingling of the Latin, Celtic and Saxon races in the Union army; and they have no more right to butcher them in cold blood and to refuse to treat them as prisoners of war, than they would have the right to torture French, Germans or Irishmen who were found fighting in the Union ranks. If the negro is not a man, but a mere animal, then it is simple barbarism to murder an irresponsible creature for doing what he has no reason to restrain him from doing. The rebel, if he takes this horn of the dilemma, should be consistent, and slaughter all the horses which he captures from the Union army and murder their riders.
