ORUMP,'S HILL.; IAA. April 2, 1861.—Since my
inst letter, dated at Alexandria, your correspondent has had a long, hard and tedious march with
Gen. Ise's cavairy, division. On Wednesday
morning at ten o'clock 'Col Rednaon, commanding 3d brigade, left Cone river, with one thousand
one hundred picked men from his own and Colonel
Dudley's 4th brigade, on a reconnoitering expedition, intending to penetrate the pine wood region
on the old stage road between Alexandria and Sabine, until the strength and position of the rebels bine, until the strength and position of the reper could be ascertained. Col. Robinson marched 2

bine, until the strength and position of the feeder count be ascertained. Col. Robinson marched 28 miles with great rapidity, and felt the rear and flanks of the rebel infantry, of which it was ascertained that. Walker's division and Mouton's and Poliguac's brigades, logsther with a small body of cavairy, were in such force as to render an attack with our greatly inferior numbers imprudent, to asy the least of it.

Without unsaddling or sleeping for two nights, we started on our return to the ferry at 4 o'clock, A M, on Thursday.

The country through which we passed had not before been penetrated by our troops, and its utter desolation and destitution were now fully ascertained. On the whole route there are only three or four houses, and the occupants of these had no provisions but bacon and corn. Therefore both men and horses suffered for the want of forage and rations, being unable to depend on the country for tions, being unable to depend on the country for supplies. The first payment in United States pos-tal currency was made to some of the inhabitants of the piner wood region on this expedition, who of the piney wood region on time expedition, who had never seen that currency before. Ool. Robinson's command was within forty five miles of Texas, twenty-five miles from Fort Jessup, and twenty-eight miles from Natchitoches. Three or four rebel couriers were captured and disposed of

four rebel couriers were captured and disposed of as prisoners of war.

Keaching Cane river again on Thursday morning, after a halt of three hours, we again advanced to overtake the main body of Gen. Lee's cavalry division, which had moved the day previous, and occupied the city of Natchitoches about two o'clock Thorsday afternoon.

The advance, led by Col. Dudley, consisted of the 4th brigade of cavalry, and pushed the halting enemy with vigor, killing and wounding many, and capturing about thirty prisoners and five officers. Capt. Todd, a cousin of Mrs Abraham Lincoln, having become disgusted with the rebel service, disbanded his company and came within our ines, eager to take the outh—the iron-clad oath of

vice, disbanded his company and came within our ines, eager to take the oath—the iron-clad oath of allegiance to 'good old Uncle Sam.'.'

At about dark the enemy made a stand a mile west of the town, having posted themselves in a naturally strong position. They were finally dislodged by the Fourteenth New York cavalry, Major Bassford commanding, with a slight loss on our side, but greater loss on the part of the enemy. The wounded on our side were Lieutenant Irwin and a private of the 2d Illinois cavalry, in the arm and thigh, not severely.

nd thigh, not severely. Early this morning General Lee's cavalry division advanced from Natchitoches and the 14th New York cavalry, Major Bassford, being in the advance of Col. Lucas's brigade, skirmished with the rebels seven miles. The enemy made a stand eight times; but they could not withstand the ad-vance of the gallant 14th with drawn sabres. At Crump's Corner, or Crump's Hill, twenty-two miles from Natchitoches, where roads diverge two miles from Natchitoches, where roads diverge in two directions—to Manny and to Pleasant Hill —the main body of the 14th New York remained at the junction of the roads; but Major Bassford sent a squadron up the Manny road four miles, the rebels skirmishing while they were retreating. One company of the 16th Indiana mounted infantry accompanied this sanadron

company of the foil mainta mounted manary accompanied this squadron.

EAfter this column had been drawn in, the enemy opened from the Manny road with three guns of the Valverde Texas battery, and from the Pleasant Hill road with three guns of the same battery. Rawles's battery came up, was placed in position at the forks of the road and assailed the enemy with showers of grape and canister, silencing with showers of grape and canister, silencing their batteries and compelling De Bray's regiment of Texas cayalry to retreat in great confusion. They were immediately followed up by the remainder of Colonel Lucas's brigade and driven five miles on the Manny road, skirmishing briskly till nearly night.

till nearly night.

Colonel Dudley's brigade came up and advanced four miles on the Pleasant Hill road, maintaining a lively skirmish, and driving the enemy before him.

Six horses of the 14th New York cavalry were killed in the skirmishing up the road to this point. Major Bassfora's loss was one wounded. Joi. Dudley's loss was two slightly wounded of the 94 Hilling's cavalry.

Dudley's loss was two slightly wounded of the 2d Illinois cavalry.

The forces engaged against us were the 5th and 7th Texas cavalry regiment, the 2d and 4th Louisiana cavalry regiment, the 2d and 4th Louisiana cavalry regiments, and the Valverde Texas battery.

Mouton's rebel brigade of infantry, with one battery, was encamped about four miles from here last night, and Walker's division of rebel infantry, with twenty pieces of artillery, was encamped at the same place the night before.

the same place the night before.

The rebels are concentrating at Pleasant Hill, about twelve miles from here, where it is expected they will make a vigorous stand, and that there will be a heavy battle.

There has been probably about seventy-five millions of dollars worth of cotton burned between this point and Alexandria. It is alleged that the order for burning it was given after the seizure and confiscation of cotton by the gunbat first, and that none would have been burned had it not been for that seizure. as it was understood that General Ranks openion.

The largest lot burned was four hundred bales.

Fourteen hundred barrels of corn were burned in one fot, one thousand in another, and other large lots, to prevent its falling into our hands. Natchitoches has about two thousand inhabitants. General Lee established a strong pairol, and there were no 4 predations on property there. The number of prisoners captured by our force o day was sixty, besides which three wounded rebels have been brought in. rebels have been brought in

The gunboats arrived at a point of the Red river four miles from Natchitoches this morning, and it is probable that Gen. Banks has arrived there by this time on a transport. Gen. Franklin commands the land forces until the arrival of General Banks.

ALEXANDRIA, I.A., April 3, 1864.—This town and neighborhood have been very quiet since the arrival of Gen. Banks. The enemy has retreated wherever we have nedvanced, and it is doubtful if he will show fight at all.

We had an election yesterday for delegates to represent Rapides parish. Over three hundred votes were cast. Union meetings have already been held in the town, and refugees are coming into our fines daily for the purpose of renewing their connection with the old government. Three prominent was

THE COMMITTEE ON FINE ART-SOFTHE COMMITTEE ON FINE ART-SOFTHE GREAT CENTRAL FAIRfor the Saultary Commission, respectfully and earnestly request all our citizens, and patriotic persons elsewhere, having fine works of art in their possession, to forward, without delay, a memorandum of their inended contribuions, to John Sartsin, Esq., the Secretary of the Committee, 728 Sansom street. The works of art thus solicited comprise oil paintings, water-color drawings, marbles, brönzes and original models in clay or plaster, or other material. In the collection of water-color drawings alone it is the hope of the Committee to present a very fall and brilliant exhibition, as we are known to have in our city a very large number of such drawings, which it is hoped will be generously placed at the disposal of the committee by the owners.

A Gallery will be erected on Logan Square of

A Gallery will be erected on Logan Square of such material as will ensure the safety of the pictures placed in it. In order to make proper arrangements for the reception and disposition of the various works of art contributed, the Oomrittee must have early knowledge of their approx-

the various works of art contributed, the Committee must have early knowledge of their approximate number and character.

It is the desure of the Committee to make the Gallery of the Fine Arts one of the most marked features of the great Central Fair, and the public is, therefore, earnestly appealed to to fill, by their generous contributions of pictures and other works of art, a Gallery of larger dimensions, it is believed, than any ever erected in this country. The Committee hope to make our exhibitions in every respect one of great attraction and interest.

Although circulars have been largely sent to persons known to possess works of art, and many responses have been received, this method of attracting public attention is used as a reminder to all, and particularly to those who may not have received circulars, of the needs, hopes and desires of the Committee, and of the short time remaining in which to collect and properly arrange the contributions.

THE GREAT CENTRAL FAIR.—
COMMITTEE ON BOOTS, SHOES AND
LEATHER.
We, the understreed COMMITTEE ON BOOTS, SHOES AND LEATHER.

We, the undersigned, in making an appeal to all Boot and Shoe Manufacturers and Dealers, for contributions in material or money to the Great Central Fair, to be held early in June, feel that it is only necessary to allude to the wants of the Sanitary Commission in order to secure your generous and hearty co-operation. The sufferings of our gallant soldiers in the field will in all probability be greatly increased during the coming summer campaign, and will demand the most energetic and unceasing efforts on the part of those whose privilegeit is to live under a Government so nobly sustained.

Let each one, then, do his or her part right generously, and by liberal douations not only show a deep gratitude for so many past blessings in the security of life, home and property, but help to make this Department of the Fair one of the most profitable as well as useful.

Personal applications will be made as early as possible by the Committee, and it is earnestly hoped that they will meet with a cordial response. It is requested that all contributions shall be accompanied by an invoice of the goods, in order that they may be promptly acknowledged. Goods of all kinds should be sent to Mr. A. R. A class of maladies prevails to a fearful extent in communities, dooming 100,000 youths, of both sexes annually to an early grave. These diseases are very imperfectly understood. Now, then, nunety-nine cases out of every hundred of all the above named diseases, and a host of others not named, as consumption of the lungs of of the spinal nerves, have their origin in the petvic viscera, hence the want of success by any of the old medical systems of practice.

All the above-named maladies are treated and cured by Professor Bolles, at 1220 Walnut street.

Dysmenorrhom. All the above diseases and other Uterine complaints have their origin in a loss of the vital power of the body, brought on by injuries, excesses, sedentary habits, apersonal abuses, abortions, and the use of powerful medicines. Some of the peculiar symptoms are dragging pains through the hips and back, weakness of the limbs, and extreme langnor and debility throughout the entire system. The effects produced from these troublesome maladies are almost multitudinous. Consumption, Dyspepsia, Neuralgia, Paralysis, Deafness, Blindness, Fits, Insanity and even Iddicy are not uncommon.

No effectual or reliable remedy has ever been found for these alarming complaints till our late discovery in the use of Electricity in strict accordance with the positive and negative polar action of the Uterine Organs. We never failed in curing all of the above diseases, except in case of organic derangements, or severe injuries of the parts.

UNITED STATES CHRISTIAN COM-MISSION.—SUMMARY TO JANUARY

Soldiers.

STATIONS have been multiplied, each with its chapel and store tents, free writing tables, and clothing, comforts and reading matter for gratifung distribution.

A PERMANENT FIELD AGENCY has been sufficiently extended to establish stations and superintend the work.

THE BLESSING OF GOD rests signally on all parts of the work. Many thousands have been cheered, benefited and saved. Still a large part of the Army remains unreached, and double the number, both of stations and delegates, are needed to meet the urgent demand for them.

The Christian Commission offers to the people a perfectly reliable and wonderfully economical channel to reach the entire army in all its various fields. The money given goes in full measure, in benefits for body and soul, directly to the Soldiers; and stores also, immediately from the hands of kir dness to the gifts when bestowed.

Let the people give the Money and Stores, and the work will be done.

The large corps of Delegates now in the field will serve as a grand corps of relief when the armies shall move and battles be fought, and the greater their number the more prompt and effective will be the relief they shall render.

Let not the present work languish. Wait not for the cry of the wounded and dying before providing relief.

Send now and send abundantly both money and stores, and the soldiers' blessing shall be upon you.

Scores, and the soldiers blessing with the you.

HILTON'S CEMENT.— The Insoluble Cement of the Messrs Hilton Brothers is certainly the best article of the kind ever invented. It should be kept in every manufactory, workshop and house, everywhere. By its use many dollars can be saved in the run of a year. This Cement cannot decompose or become corrupt, as its combination is on scientific principles, and under no circumstances or change of temperature will it emit any offensive smell. The various uses to which it can be successfully applied renders it invaluable to all classes. For narticulars see advertisement

PROPOSALS. DROPOSALS FOR BITUMINOUS COALS .-PROPOSALS FOR BITUMINOUS COALS.—
I Sealed Proposals will be received at the Office of the Philadelphis Gas Works, No. 20 South SEVEN IH Street, until noon of FRIDAY, 22d of April, 1861, for supplying the whole or any part of Eighty Thousand Tons of Bituminaut Coals, suitable for the manufacture of illuminating Gas, to be delivered on the Railroad tracks of the Gas Works at the First Ward and the Ninth Ward Stations, in the following monthly quantities; eight thousand tons in each of the months of September, Outober, November, December, and six thousand tons in each of the months of June, July, August, 1864, and January, February, March, April and May, 1865.

1865.
The coals must be delivered fresh, dry, and of a quality approved by the Engineer of the Gas Works, as equal to the sample on which the conquality approved by the Engineer of the Gas Works, as equal to the sample on which the contract is based.

The proposals must describe the particular variety of coals intended to be supplied and the location and name of the mine or pit from which they are to be raised. It they are of a kind not now or recently used at these Works, samples for trial of not less than fifty tons, must be delivered at the Works, on or before the 7th of April next.

The gross con of 2240 pounds will be considered as the weight intended in the proposals, unless the contrary be expressly stated.

The Trustees reserve the right to accept any proposals in whole or in part, or to reject all; as they may deem best for the interests of the Trust, and in the event of failure on the part of any contractor to deliver the coals according to his agreement, both in quantity and quality, the Trustees reserve the right to buy elsewhere, whatever quantity may be required to meet the deficiency, and charge to the contractor any loss or damage arising from each failure.

Payments will be made monthly, in two equal instalments at four and six months after the specified periods of delivery, the 15th of each month being taken as the average of the monthly deliveries, or at the option of the Trustees, will be made at earlier dates with legal interest off.

Should contractors prefer to make deliveries earlier than required, they may be received so far as they can be conveniently stored, but payments will be made to date from the time specified to the contractor.

contractor.

Security for the fulfilment of centract will be required, and each proposal must name the amount and character of security that will be affered.
