THE LATE MISS BOSE KENNEDY, OF NEW ORLEANS.

The many friends in this city of the lamented lady whose name heads this article will be gratified by reading the following tribute to her memory from the pen of Richard Storrs Willis, which appeared in Once a Month for

April: IN MEMORIAM. Of the gifted strangers who have visited New York society within the last few seasons. no one has been more lovingly remembered than Miss Rose Kennedy, of New Orleans. A society so gay—perhaps so volatile, as ours, it not easily impressed by the higher and severer æsthetic culture. Brilliancy of a more artificial and demonstrative character often meets with much speedier and wider recognition. But Miss Kennedy was an exception to this. She came to us when the national pulse was at fever heat, and the sectional feeling was vehe ment and uncompromising. She came with all the Southern conviction deep and strong upon her: but she came with music in her heart-she gave to us of that music-and from

that moment we knew nothing for her but the most heartfelt admiration. Few can forget the Matinee at that hospitable home in Twenty-first street, where this gifted lady first unlocked for us her music-treasures -by none more keenly appreciated than by him, the noble host and gentleman, who now like Miss Kennedy, has passed to that fair Music-land, where they will never know a dis sonance more! Lux perpetua eis!

The distinguishing excellence of Miss Ken-edy's talent lay in her interpretation of the music she played—the deep significance she gave it. The mere notes of almost any music are now attainable by all who will industriously avail themselves of the modern facilities for execution. But the flight above and beyond all this, is that which so few are competent to ake-it is, indeed, just here that the higher music-power reveals itself, and mere industry stops. We all recognized in Miss Kennedy this higher music-power. It was equally recognized in that classic school of Art, Leipsic Germany, to which Miss Kennedy proceeded from New York, where she received from a Conservatory founded by Bach and made famous by Mendelssohn such unwonted honors and where she passed from the music that is to that which forever shall be! We liave written these few words as a brief introduction to the following lines, which a gentle hand has sent us for publication:

DEDICATED TO THE Friends of that very amiable, gifted and much lamented Lady, MISS ROSE KENNEDY, OF NEW ORLEANS

There she grew
Where the new,
Cupped in orange flowers,
Is, in jessamine bowers,
Drunk at dawn
By the sprites of morn.

Thence she came, Heart of flame,
To the land of snow,
Where the currents flow,
Colding bound. Coldly, bound, Over trozen ground.

And while here, Where the tear, Ice-bound in the heart, Hearts melt, dead nerves thrill.

To the gardens tilled To the gardens tilled.
In the milder, orient clime,
Milder made and tempered soft with art,
We with yearning heart saw her depart,
Fondly trusting, for a time,
Her to gardeners skilled.

Under tender culture meet, Grew she till her fair companions paled: How a fragrance from her soul exhaled, ost harmonious and most sweet Midst sweet flowers most rare

But the Mighty Gardener who keepeth Eden etill, where sorrow smiles, and suffering sleepeth, Where the dearest flowers gathered in their prime, Culled from all the blooming fields of time, Cherished are by his untiring hand

In that summer land, Plucked our Rose and placed her in His breast: lies at rest\_dear rest! NEW YORK, 1864.

COMMITTEE ON BOOTS, SHOES AND LEATHER.

We, the undersigned, in making an appeal to all Boot and Shoe Manufacturers and Dealers, for contributions in material or money to the Great Central Fair, to be held early in June, feel that it is only necessary to allude to the wants of the Sanitary Commission in order to secure your generous and hearty co-operation. The sufferings of our gallant soldiers in the field will in all probability be greatly increased during the coming summer campaign, and will demand the most energetic and unceasing efforts on the part of those whose privileges it is to live under a Government so nobly sustained.

whose privilegeit is to live under a Government so nobly sustained.

Let each one, then, do his or her part right generously, and by liberal docations not only show a deep gratitude for so many past blessings in the security of life, home and property, but help to make this Department of the Fair one of the most profitable as well as useful.

Personal applications will be made as early as possible by the Committee, and it is earnestly hoped that they will meet with a cordial response. It is requiested that all contributions shall be accompanied by an invoice of the goods, in order that they may be promptly acknowledged. Goods of all kinds should be sent to Mr. A. R. LOOK AND LIVE! A WORD TO THE WISE IS SUFFICIENT!

All diseased conditions, both scute and chronic, where there is vitality enough left to react, are permanently cured, by warrantee, at 1220 Walnut street, Philadelphia, and in case of a failura in most obstinate maladies, no charge is made. Electrical Institution, established about five years age by Professor Bolles. Read the following:

These diseases are very imperfectly understood. Their external manifestations or symptoms are nervous de oi'nty relaxation, and great exhaustion, marasmus, or wasting and consumption of the tissues of the whole body, shortness of breathing, or too hurried breathing on ascending a hill or dight of stairs, palpitation of the heart, asthma, bronchitis, and a dry, sore throat, trembling and shating of the arms and lower limbs, aversion to society, business, and to study: sometimes drunees of the eyesight, loss of memory, dizznees of the head, neuralgia, pain in various parts of the body, pains in the back and lower limbs, lumbago, dyspepsia, fconstipation of the bowels, debody, pains in the back and lower limbs, lumbago, dyspepsia, consupation of the bowels, deranged secretions of the kidneys, and many other glards of the body, producing virulent diseases in both males and females, likewise epilepsy, hysteria, and different forms of, nervous spasms. Now, then, nunety-nine cases out of every hundred of all the above named diseases, and a host of others not named, as consumption of the lungs or of the spinal nerves, have their origin in the pelvic viscera, hence the want of success by any of the old medical systems of practice.

All the above named maladies are treated and cured by Professor Bolles, at 1229 Walnut street.

DISEASES OF FEMALES.

Prolapsus Uterl, Leucorrhea, Amenorrhoa, Dysmenorrhoa. All the above diseases and other Ulerine complaints have their origin in a loss of the vital power of the body, brought on by injuries, excesses, sedentary habits, personal abuses, abortions, and the use of powerful medicines. Some of the peculiar symptoms are dragging pains

tions, and the use of powerful medicines. Some of the peculiar symptoms are dragging panns through the hips and back, weakness of the fimbs, and extreme languor and debility throughout the entire system. The effects produced from these troublesceme maladies are almost multitudinous. Consumption, Dyspepaia, Neuralgia, Paralysis, Deatness, Blindness, Fits, Insanity and even Idiocy are not uncommon.

No effectual or reliable remedy has ever been found for these alarming complaints till our late discovery in the use of Electricity in strict accordance with the positive and negative polar action of the Uterine Organs. We never failed in curing all of the above diseases, except in case of organic derangements, or severe injuries of the parts. ganic deraugements, or severe injuries of the parts.

UNITED STATES CHRISTIAN COMMISSION.—SUMMARY TO JANUARY

Work now in Progress in the Army at Rest— LASCA.

Work now in Progress in the Army at Rest—Christian Commission Stations largely increased in Number—The Work Abundantly Prospered—Many more Stations needed to meet the wants of the Army—Unprecedented Call for Delegates and Supplies—Preparations for the Coming Campaign, with its Movements and Britles.

The Christian Commission depends mainly upon direct contributions, and must not be forgotted by Loyal Christian People.

seized the present golden opportunity of rest for the Army to extend its work for the good of the Soldiers

STATIONS have been multiplied, each with its chapel and store tents, free writing tables, and clothing, comforts and reading matter for gratuitous distribution.

VOLUNTARY DELIEGATES, in numbers greater than ever before, have been sent to preach the Gospel at the stations and in regiments, butteries and camps without Ohaplains, distribute reading matter and stores, and labor for the good of the Soldiers.

A PERMANENT FIELD AGENCY has been sufficiently extended to establish stations and superintend the work.

THE BLESSING OF GOD rests signally on all parts of the work. Many thousands have been cheered, benefited and saved. Still a large part of the Army remains unreached, and double the number, both of stations and delegates, are needed to meet the urgent demand for them.

The Ohristian Commission offers to the people a perfectly reliable and wonderfully economical channel to reach the entire army in all its various fields. The money given goes in full measure, in benefits for body and soul, directly to the Soldiers; and stores also, immediately from the hands of delegates from home, who add words and deeds of kindness to the gifts when bestowed.

Let the people give the Money and Stores, and the work will be done.

The large corps of Delegates now in the field will serve as a grand corps of relief when the armies shall move and battles be fought, and the greater their number the more prompt and effective will be the relief they shall render.

Let not the present work languish. Wait not for the cry of the wounded and dying before providing relief.

HILTON'S CEMENT.—The Insoluble Coment of the Messrs Hilton Brothers is certainly the best article of the kind ever invented. It should be kept in every manufactory, workshop and house, everywhere. By its use many dollars can be saved in the run of a year. This Coment cannot decompose or become corrupt, as its combination is on scientific principles, and under no circumstances or change of temperature will it emit any offensive smell. The various uses to which it can be successfully applied renders it invaluable to all classes. For particulars see advertisement.
