GENTLEMEN'S HATS.—All the newest and best styles for Spring Wear. in Felt, Silk and Cassimere, will be found at WARBURTON'S, No. 430 Chestnut street, next door to the Post Office A NEW LEASE OF LIFE A NEW LEASE OF LIFE.

A NEW LEASE OF LIFE A NEW LEASE OF LIFE. Dr. Radway's Pills have granted me a new lease of life. For fifteen years I have suffered with Dyspepsia, Costiveness, Indigestov. I have taken a cart.load of pills of different makes, hut the re-lief afforded by their operation was at the cost of severe suffering from Piles. If I stopped taking these pills one week, the old difficulty would trouble me. I at last struck a vein of gold, in Rad-way's Pills—the first dose acted so differently from all other pills, that I hoped for a cure—six boxes made a new man, of me; I am completely cured. No straining, no piles, no weakness followed their nee. I gained strength with their use. I have not taken any physic for over a year, and am as rugged, strong and hearty as a bear. JAMES W. FOSDICK, Clinton Town, Clinton county, N. Y. Dr. Radway's Medicines are sold by Druggists everywhere. RADWAY & OO., ST Maiden Lane, New York.

EVENING BULLETIN TUESDAY, APRIL 26, 1864.

THE BLACK FLAG. The authentic details of the massacre at Fort Pillow, which are now reaching us, and the few words by telegraph from Plymouth, North Carolina, which indicate that the

the gate of his intended exit locked, and goes chasing round the square, with great loss of time and temper, to get out. This is not an occasional, but a continual trouble, and the gates are managed so capriciously that few persons will now enter Rittenhouse Square except those who go for that express purpose.

There is no reason whatever that all the squares should not be kept open all winter, as Independence Square is, or at least from

the first of March till the first of December. The superintendents are well paid, and can afford to give their whole time to the squares, instead of making a sinecure of their positions for four or five months in the year. We trust this matter will be looked to.

HIGH PRICES.

The enormous increase in the price of articles and commodities of every description, from the needless and costly luxuries to the indispensable necessaries of life, is naturally attracting the attention of our people. The former can and should be dispensed with, but those which are required for the daily consumption must be procured, unfortunately, regardless of the rates demanded. The inconvenience and suffering which now pervade almost every home, and which threaten to make gaunt spectres of the inmates, have been brought about by many causes, the principal of which have been gold speculations, Copperhead influence and the extravagance of the people. If the wholesale or retail merchant is asked why his commodities advance so inordinately, he refers you to the price of gold, although in many instances the rate of coin or bullion has actually had no effect whatever upon the article. Still there is no denying the fact that the prices of all commodities are influenced more or less by the gold quotations, and so long as selfish and unprincipled gamblers adopt it as a means by which they may increase the contents of them

purses, just so long may we anticipate a continuance of the present difficultics, in securing a sufficient amount of comestibles to keep hunger from the mortal frame. The efforts of the Administration, the proceedings of Congress, and the threats of State Legislatures have thus far failed to thwart the infamous plans and projects of the speculators, and we can only look forward with anxiety to the hour to arrive, when our gallant armies, North, South and West, shall march forward in battle array, to victories more brilliant than any which have

yet been recorded upon the pages of American history, with the hope that those successes may have their influence upon the public currency.

In the same category with these gamblers may be placed the Copperhead fraternity, residents of the North who disgrace themselves-if that is possible-and their fellowcountrymen, by their acts and words, giving encouragement to the traitors at the South, to prosecute their designs against the Government. The leading Southern journals but express the hopes and expectations of the rulers and people of rebeldom, when they assert, almost daily, that in the inva-

an excess have an absolute right to have that excess credited to them on the new call. This is a right which no action of Government, especially of a municipal Government, can deprive them; certainly not without their own consent. Any money paid by the city as proposed, towards effecting this transfer, will be thrown away, and is our treasury in a condition to afford to throw money away? Let those who have to pay taxes and furnish it, answer.

THE MILITIA REFORM.

A bill is now before the Legislature entirely remodelling our State militia system, which is now as bad as it can be. It should receive the earnest attention of our citizens, that any defects which it may contain may be removed. It is greatly to be regretted that this matter was not brought forward at an earlier stage of the session, for a proper law ought to have been already passed and in operation at the present time. The subject is one whose importance cannot be exaggerated, and should receive the attention of the Legislature in preference to everything else, until the enactment is put into the best possible shape, and passed.

"LA DAME BLANCHE,"-This charming opera will be performed this evening at the Chestnut Street Theatre. Of course all who heard it last season will want to hear it again; for there is nothing that the German Company has played that has afforded more pleasure. Mr. Habelmann is particularly good in this opera. The season closes this evening, and to-morrow the dramatic company will re-appear.

GRAY'S PATENT MOLDED COLLARS

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant. The upper edge presents a perfect curve, free from the angles noticed in all other collars. The cravat causes to puckers on the inside of

the turn-down collar-they are AS SMOOTH IN-SIDE AS OUTSIDE-and therefore perfectly free and easy to the neck. The Garotte Collar has a smooth and evenly

Arished edge on BOTH SIDES. These Collars are not simply flat pieces of paper cut in the form of a Collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down style); in every half size from 12 to 17 inches and in (:Eureka', (or Garotte,) from 12 to 1/ inches; and packed in (solid sizes') in neatblue cirtons, containing 100 each; also in smaller ones of 10 eachhe latter a very handy package for Travefers, Army and Navy Officers. AF-EVERY COLLAR is stamped

VORYTYPES -B. F. REIMER'S are charac-terized by merit of high order, evinced ia sim-pitity of style and exquisite coloring, unsur-passed in the city. Gallery, 621 ARCH street.

banks of Albemarle Sound have been made the scene of similar atrocities, are absolutely sickening. In both cases a small force of Union soldiers made a gallant resistance until they were completely overcome by superior numbers, and when at last they threw down their arms and surrendered, the prisoners, particularly those who had dark skins, were murdered in cold blood. It was not the act of infuriated men in the moment of a hotly contested victory, but a deliberate deed of butchery which was the work of hours, and which took time in its deliberate horrible cruelty to form its victims into lines. strip them of their money and valuables, and then massacre them in pure savagery. This is not war, it is simply murder, and the pirate who compels his prisoner to "walk the plank" is just as much a naval hero as such fiends incarnate are soldiers.

If such horrid brutalities are to pass unpunished, we might as well give up the contest, and acknowledge that the fierce enemy has subdued us as the wolf subdues his victim. The North rendered itself almost an object of contempt before the war, by the manner in which it suffered the Southerner to bring the manners of the plantation into the councils of the nation, and into the arena of political strife, and unless it sternly meets the bloody brigandage of the slaveowner, who beats down all opposition, whether political or warlike, without regard either to the rights of man or the usages of civilized warfare, the cause of the Union and liberty will be disgraced and ruined.

The President promised in his Baltimore speech that when a clearly authenticated case of the murder of prisoners was brought to the notice of the Government, "retribution" should follow. Such evidence has been furnished, and the retribution should be stern and swift; but were full retribution to be dealt now as a punishment of all the acts of the slave-power for the last thirty years, the States in rebellion would share the fate of the Cities of the Plain, and the armed outlaws be swept from the earth as were the Egyptian and his host. Let the Government deal such retribution as the laws of human warfare justify, and leave the rest to a just God.

THE PUBLIC SQUARES.

We have been requested to call attention to the manner in which the public squares, and especially Rittenhouse Square, are mismanaged. During all this fine weather of the early Spring the square is kept hermetically sealed, to avoid any trifling inconsurely attends to the work of putting things into order which never ought to be allowed to get out of order.

But when all this is done the matter is little better. Some of the gates will be opened and others kept locked, so that a this whole scheme of transfer unjust and hood and thinks he would like to get a little

sion which they expect to make into the loyal States, they are to be assisted and reinforced by the Copperheads and Peace men of the Commonwcalths through which they march. Many of these vile traitors are included among the gold speculators, while others of their number, who are too timid to engage in such schemes, give material aid by their carpings and strictures of the Administration, and by ventilating their onesided ideas as to the prospects of success and defeat.

Our extravagance we have said is another cause of our suffering. The principal thoroughfares of our cities and towns never wore a more brilliant aspect than they do at the present time, and have done almost ever since the rebellion first began to assume its great and hideous proportions. The sidewalks are swept with the silken trains of passing beauty, which less than three years ago was adorned only with a low-priced calico ; dwellings, which until a recent date contained only the articles of household furniture absolutely necessary for use, now excite the envy of the beholder by the beauty and luxury of the display; and storekeepers who formerly induced the purchasers to enter their places of business, by the cheapness of the articles tastefully arranged in the windows and cases, now accommodate their offerings to the extravagance of the times. In fact, whichever way we turn, we see some evidence of the undue expendituré of money. With all due deference to the ladics of the North, we must say they have' had much to, do with the existing trouble, but they can effect much in accomplishing a change. The good work has in fact already begun, and we congratulate the fair sex upon their adoption of cheaper fabrics and diminished garments, whether the latter be in the form of a contracted skirt or an abbreviated jacket. Let "Shoddy" investits suddenly acquired gains in costly foreign silks, satins and jewels; but patriotic mistresses and maids should emulate the humility of their ancestors until the war has terminated, when they can again, if they select, adorn their persons with useless but attractive decorations.

THE CITY'S QUOTA.

It appears that some of the districts into which the city is divided have furnished over their quota, and some under, and in order to relieve these last, it is proposed to transfer the excess of men in the former to them. And as those districts that raised venience to the superintendent as he lei- it is proposed that this money be repaid to them, not by those districts which are to be relieved, but by the city at large. That is, the districts are to contribute towards repaying themselves.
