THE WAR FOR THE UNION.

OUR TROOPS AT PLYMOUTH REPORTED SAFE. NEWDERN, April 23.—Reports from Plymouth have been received that our flag still floats over our fortifications in the place, though the enemy have possession of the town and river. It is raid that Gen. Wessels retired into his fortifica-tions with fitteen days' provisions. This report appears to be believed. On the arrival of more gunboats we shall be able to reach Plymouth, and ascertain the facts. Washington and New-bern are much stronger fortified than Plymouth was.

FROM CHARLESTON.

The obsequies of Commander Flusser took place to-day. FROM CHARLESTON. The Port Royail New South publishes the fol-iowing letter, dated Morris Island, April 15: "On the 13th instant the robils fired a few shells from Fort Sumter. The 13th was the anniversary day on which the rebels captured the tort, by bombarding itfrom Cummings's Point and several. other places. Not cne of their shells did a particle of damage. Our men immediately opened from Fort Gregg, and in a very short space of time the enemy was completely silenced. "Thefact that the enemy has guns in Fort Sum-ter is not doubted, but we are confident he will never be able to make any practic-ble use of them. "The thirty-pounder Parrott gun which did such admirable execution in shelling Charleston, and which exploded on the forty-rix hundred and fifteenth round, has been replaced by a gun equally as effective. Shells are now tossed into the city at points the rebels supposed we would not be able to treach. The inhabitants, who supposed themselves comparatively safe in he middle of the city, have been compelied to take another joarney toward the northern limits. "For the past few days the lides have been un-precedentedly higb, so that the banks along the beach have been leveled for a distance of several yards inland. At Fort Wagner, near the sally, port, two torpedoes were washed out of the same by the witer. One of the torpedoes contained pow-der in a dry stue, the powder in the other was moist and unexplosive. "Several dead bodies have also been exhumed by the tide near the fort. In one place seveneen and in another eight bodies were exposed to view. They were reinterred further inland. "One charleston and vicinity. The intelli-gence they bring confirms that which we already know concerning the force and position of the ene-my's troops. Beauregard is traveling continueal jp between Charleston and vicinity. The intelli-gence they bring confirms that which we already know concerning the force and position

FROM THE SOUTH. FORTRESS MONROE, April 20.—The Petersburg Express of April 22 says instructions are given to the First Auditor of the Treasury Department to ren ove his bureau from Richmond to Montgomery, Ala., neat week.

MOBILE, April 19.-- The Red river has suddenly fallen, leaving forty transports and gunboats above the Raft, which cannot get out till the water

above the fait, which cannot get out thit the water rise. FROM NEW MEXICO. TRNVER CITY, April 24.—New Mexican papers of the joth state that Capitain Archer, la e Quar termaster of Arizona under Gen. West, recently absconded into Ud Mexico. A letter from Fort Lyon says that the Indians in the neighborhood are undoubtedly friendly. In the vi. inity of Denver small bands of Indians continue to steal stock, but there are no fears of their molecting the western emigrants. THE INDIANA BESERVES. New YORK, April 26.—Governor O. P Morton, of Indiana, who has been here for some days past, left this evening for Indianapolis. His banness is to take the field at the head of the Indiana Legion, recently tendered to the Government for special service. His immense popularity in Indiana will induce almost universal enlistment in that S-ate. FROM WASHINGTON.

cinity of Laurel, Md., about eighteen miles on the Ballimore road, under very suspicions circum-stances. The Captain arrested fining and upon being questioned he gave his name as Lieutenant George Taylor, of Mosby's guerillas. He was this morning locked up in the Old Capitol prison. Lieut. Commander De Haven has been ordered to the command of the Tallaposa. A desperate encounter occurred to-day between Hole-in-the-Day, the Chief of the Chippewas, and Lock-around, one of his young warriors. The lattic fired a pislol, the ball from which entered near the right ear of the Chief, passing around his head, and coming ont of his mouth He lies in a critical condition. Lock-around had his face in jured with a pocket knife in the hands of Hole-in-the-Day. The subscription to the ten-forty loan reported

On Friday night last, about half-past ten o' clock, Detective 'Reece'set out on borseback for Essex county, fell in with a member of the Maryland Line, who volunteered for 'a little scout,'' and took him along the Tappahafabock. Here they encownered on the following morning the identical Ur. Lugo, on his way to the ferry, and although the officer had never seen him before in his life, he relied on his 'rpoints'' and took him prisoner. Lugo attempted to get away and played very in-digmant, but the cool assurance on the part of Reece and his friend, that he would get shot cer-tain if he didn't submit, soon settled him, and he accompanied them back to Sandy's Hotel, the Exchange of Tappahanock. He was then taken to a private rcom, where he was quietly informed that it was "the fate of war"'t ta the should be stripped, and stripped he was, in spite of profests and the most magnificent indignation. In his pockets were found various papers, in which he is represented as a Prassian, though it seems he is an Italian; a small card bearing the name of a member of Covgress, who had innocently, vonched for him to gam a passport in the days of his glory ;then there was a small bundle of papers, about six inches long and two and a half in breadth, containing drawings of different rivers showing where certain torpedoes were placed; a paper containing the names and descriptions of all the different batteries and points of Carlieston Harbor, and then an elaborate drawing of some other work or works, the meaning of which he did not explain, and the officers could not make out. There were also two or three passes. The search beisg over and the Doctor's toilet re-arraiged, he was taken to King Willam Court House, where he was furnished with confortable lodeings, sudon Sunday was brought to Richmond. He is now in Castle Thunder, awaiting examina-

The is now in Cascle Financer, awaiting examina-tion. Lugo is apparently about twenty-four years of age, is stender, but well built, and of free and prepossessing deportment. The FRENCH TOUACCO. The French trbacco stored in this city, and which will soon be shapped to Europe, consists of between seven and eight thousand hogsheads, all of which be of fine condity, and worth several of which is of fine quality; and worth several millions of dollars. To transport it away at once, will require seven or eight ships and it is said that the sequisite number will be at City Point in a day or two

SIEGE OF CHARLESTON. Two HUNDRED AND EIGHTY-THIRD DAY. -The enemy kept up a brisk fire upon the city Thurs-day, nring between forty and fity shells About one o'clock a Parrott shell entered the roof of Alexander Duncan's work-shop, at the fost of Hasell street, struck on the anvil and bur-ted. Hasell street, struck on the anvil and bursted. Two young men and a negro boy were standing by he anvil at the time of the explosion. The two white men escaped uninjured. The perro boy, named Aaron, belonging to Mrs. Heath, was struck on the aboutder and the 'eft arm broken. He also received several several bruises on the head. It is believed that amputation of the arm will be necessary. Between thirty and forty shells have been fired at Fort Sumiter since our fast, most of which struck, but did no damage The enemy were again busy at the "Swamp Angel" on Thursday. There was no change in the fleet - *Korcury*.

INTERESTING FROM THE SOUTH. From the Richmond *Enquirer*, of the 29th inst., we take the following items:

GENERAL BURNSIDE'S EXPEDITION.

we take the following items: GENERAL BULKSIDE'S EXPEDITION. A gentleman who leit Maryland about ten days ago, brings us some interesting information from that quarter. He recently visited the camp of General Burnside at Annapolis, where ne connted four thousard two hundred tents, and learned that the forces amounted to about thirty thousand men, mearly half of whom were negroes. The trans-ports to convey them to their proposed destination had not arrived, but were expected every day. Meanwhile the organization of the expedition was progressing with great industry. The opinion prevailing in Annapolis, Baltimore and Washung-tions for this formidable diversion. Burnside is to land a short distance below Drew-ry's Bluft, which he is to take by assault, whilst Meade advances on Petersburg. Troops have been proming, through Baltimore for the past two months. The regiments are spoken of as full, though of indifferent material. The Yankees, so far as our informant had opportunities of acquaint-ing himself with their private views, universally agreed that the present was the last campaign in pring himself with conduction for the past two not have the present was the last campaign in pring himself of Contederate victory than they have ever been before, and confidently expect on to see the glitter of Southern bayonets over the border. TER TANS-MISSIPPI DEPARTMENT.

have ever been before, and condidently expect soon to see the glitter of Southern bayonets over THE TRANS-MISBIPH DEPARTMENT. We had the pleasure yesterday of an interview with Captain John W. Hinsdale, of Gen. Holmes' Staff, who had just arrived from Shreveport, La., and irom whom we obtain some late and in-teresting Trans-Missispipi intelligence. Uaptain Hinsdale left Shreveport on the 22d uit, at which time the place was garrisoned by a sufficient force to hold it against the expected attack. The fortiff-cations are complete and very extensive, the natural advantages of the place, which are con-siderable. having been improved on by much en-gineering, skill and labor. The river at Shreve-port is about three hundred yards wide. The op posite banks are low and the soil so boggy as to prevent an advance from that side. Our batteries are sufficiently elevated to secure plunging shot against the iron-clads, and the guns are of heavy calibre and well mounted. In addi-tion to these defenses the river is obstructed to auch an extent that theil eet cannot a twance on the town without much difficulty and delay, as well as dan-ger. The garrison is provisioned for a siege of six months ; the troops are in the best of spirits and repose milimited confidence in Gen Smith. The Trans-Mississipi army was never in better con-dition. Many desertions have taken place within the past year, it is true, but the practice has ceased, and the army now thoroughly weeded, tested and harmonious, and, under a favorite lea-der, is prepared for victory. Gen. Holmes has been relieved from duty in the Arkansas District, at his own request, and re with his staff, at the Soutswood Hotel. General ment vacated by General Holmes. He has a fine The forces of Banks, in the expedition, are esti boats, according to the statements of the energin-are twenty in number. Actoriepondent under date of April 17, writes The heaith of the men in General Johnston's marked at twenty-two thousand end April 17, writes

A correspondent under date of April 17, Writes as follows: The heatth of the men in General Johnston's army was never so good. Indeed, the hospitals here and in the towns in the Southwest are nearly digmitate, and if stationery were not so scarce, might have the lessure to prepare valuable these campaigns. Gen. Johnston's liberal laborious granting farlongh's has worked admirably. The furloughed men are rapidly returning, greatly improved in vigor, in health and spirits, and many of them bring recruits. The young men who are reaching the military age are rapidly joining their brothers and comrades in the army. There will be little difficulty in feeding Johnston's and Polk's army in this country, and of sending a surplus to your Virginia army, if the govern-ment will infuse a little more vigor and activity into the transportation department. pork. But you in Virginia must see to the for warding it. ARBEST OF AN ALL2GED SPY. A dashing young fellow, calling himself Dr. L. Ingo, who has recently cut quite a fine figure in fashionable and official circles in this city, was ar-rested on Saturday morning last, in Tappahan-nock, Essex county, while on the way for the North, with lots of plans and drawings of bright particular spots in the Confederacy, and doubless a memory well stuffed with the latest semi-offi-ciab? Information relating to the Tovem-ruts of Confederate troops. The arreit was made by De-ieditive John Recee, who, with others of the ton-iederate, Police Department, had for some time past been in close and anxiods purshi of him. He had successfully evaded the maccuavice and con-

ing the same period about 40,000 billes have been distributed. Reference was made to an annual do-nation from Robert Barclay, of this city, amount-ing to \$50, during the nine years preceding his death, and to a legacy of £100 at the time of his de-cease. eare.

FROM CALIFORNIA.

FROM CALIFORNIA. FAN FRANCISCO, April 25.—There have been no arrivals or departures of moment. It is rumored that James P. Otis, now on his way east, has been appointed collector of this port, vice Mr. James, removed. Fears are entertained that the grain crop this fall will be short one-half, the late rains not having been sufficient. There have been twenty arrests for violation of the law against gunning.

FROM CINCINNATI.

OINCINNATI. April 26. The strike among the mployees of the various raitroad depats in this ily is about at an end, new men having been em-

ployed. The muster of the militia resterday was well at-tended. The four Cincinnati regiments will re-port with well filled ranks.
