nared 10 LYON'S PERIODICAL DROPS when taken regularly always, prevent sickness. and is not prevention better than cure? LYON'S PERIODICAL DROPS have stood the test of 25 years' experience. LYON'S PERIODICAL DROPS receive the encomiums of all who use them. No lady should be without them. We have letters almost every day from ladies of the highest respectability, telling us they would not be without the French Periodical Drops for anything. Could we publish the letters we have received, they would convince the most incredulens. We have now ir mind an instance of a lady who had been irregular antil her constitution was nearly broken down Her physicians told her she had the Consumption. and must die. She saw our advertisement, and came to see us. We, too, thought she was too far gone to be cured, but commenced at the cause with the Drops. They acted like a charm; and to-day she is well and healthy, a living witness of the sficacy of the French Periodical Dreps, and a reaident of East Hartford, Connecticut. If you are suffering any of the ills caused by irregularity, we esk you to give them a trial, and recommend them to your afflicted friends. One trial will convince the most sceptical, and never after will you be it duced to be without it. ç LYON'S PERIODICAL DROPS 14810,

AWRENCE'S METALLIC BROWN PAINT -& PEB CENT METALLIC BASE. The Metallic base of this Paint is composed of the Protoxide and Peroxide of Iron. Its proper-ties are such as to give it superiority over all others in the market for the purpose for which it is re-commended.

It has been proved by thorough exposure, and by comparison with other paints, to be the only re-liable Paint to resist the action of salt water and

Itable Paint to resist the action of salt water and salt atmosphere.
It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.
It is especially adapted for METAL ROOFS.
It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.
It mixes and blends readily with other paints, and other Metallic Paints.
Wherever this Paint has been used, it has given which is paints.
