Return of the Fleet to Grand Ecore.

Destruction of Rebel Salt Works.

THE UNION STATE CONVENTION.

LATER FROM NEW ORLEANS. NEW YORK, April 28.—The steamer Ame-

rica from New Orleans has arrived with dates to the 19th. The Era of the 19th contains late news from

Gen. Banks' army, An expedition under Gen. Kirby Smith which with a portion of Admiral Porter's fleet went up the river previous to the three days battles, safely returned on the 13th. The greater portion of the rebel army is at

Mansfield, and on the river opposite that place At Conshatta Shute the rebel force was stationed, which had about 14 guns in a battery along the river bank. The gunboats in returning were obliged to run the gauntlet of these

In the fighting which followed their attempt to pass the rebels they were compelled to fall back from the river, giving the transports a clear passage. The boats suffered very little, some splintered wood work being all the damage they sustained.

As soon as this expedition arrived at Grand Ecore, preparations were at once made for an advance of the army.

We have good reasons for believing that Gen. Banks is again on the way to Shreveport.

A portion of our army is known to have left Grand Ecore, moving out towards the rebel position. The return of the fleet from above furnished

the army with a full supply of ammunition, the lack of which was the principal cause of its return to Grand Ecore and the delay at that point. The men had entirely recovered from the

fatigues incident to their late marches and severe fighting, and were in good condition to strike a telling blow upon the enemies of the A battery had been planted at Compti, a few

miles from Grand Ecore, in consequence of which Gen. Kirby Smith burned the town. The captain of the Edispatch boat Diligent

was killed in running the batteries of Conshatts Shute. The steamer Polar Star, with nearly 400 Confederate prisoners on board, passed this

place under a flag of truce. The boat was stopped by Capts. Fauntleroy and Ayres, belonging to the rebel Gen. Turchin's staff, but was afterwards allowed to proceed, the instructions under which the com-

manding officer were acting having been approved by Gen. Taylor previously. It being not possible to carry out the provisions of the cartel at present, the prisoners

were brought to this city.

General Mower's division is still at Alexandria and will probably be able to protect the people from the incursions of the guerilla and raiding parties.

We shall remain in daily expectation of hearing that Gen. Banks and his gallant army have again met the enemy, and that the overthrow of the rebel domination in Louisiana is entirely accomplished.

The New Orleans Era says the transport steamer Black Hawk arrived there from Grand Ecore last night.

On returning to that place, after bringing a number of wounded to this city, the boat was ordered to proceed several miles further up the Red River, and endeavor to pull out of rather an unpleasant situation the gunboat Eastport, which had been hard aground for several days on a sand-bar.

She failed to get the Eastport off the bar and started to return, but had scarcely got away from the protection of her guns, when the rebel riflemen opened on her from the bank. The rebels numbered several hundred and

their firing was very rapid; but by putting on all the steam that could be raised, the Black Hawk succeeded in escaping from the enemy's clutches.

There were a number of civilians and thet crew on board, about a dozen of whom were slightly wounded, but none seriously. We believe that there were no soldiers on board.

But for the fact that the rebels fired very high, many more casualties would in all probability have occurred, as the passengers and crew were huddled together pretty closely on the lower deck.

NEW OBLEANS, April 27 .- The cotton market yesterday was brighter, the advance since Thursday being 1 to 2 cent. Sale of 1000 bales at 78 cents for middling. Sugar higher with an active demand at 20. a 21 cts. Molasses active at 82 a 88 cts. for new.

DESTRUCTION OF NORTH CAROLINA SALT WORKS.

WASHINGTON, April 28.—The Navy Department has received a communication from Rear Admiral Lee, in which he says: "The statements of refugees received on board the Niphon on the 7th inst. indicating that the extensive and valuable State salt works in that vicinity, were weakly defended and might be destroyed, I directed Capt. Sands to organize a boat expedition, under the command of Acting Vol unteer Lieut. Breck, to effect this importan

"I am happy to inform the Department of the complete success of the expedition, which resulted in the destruction of one large steam pump with boilers and engine attached, seven large boilers, about 200 salt pans, the large vats, reservoirs and out buildings of the establishment. A large windmill, fifty or sixty Government furnaces and boilers were blown to

fragments with 30-pounder shell. "One hundred and sixty conscripts were captured, of whom but fifty could be brought off in boats. Complete order and discipline was observed, much to the credit of the officers and men engaged. The work was well and quickly. done and the vigilance of the military force close by completely eluded.

THE UNION STATE CONVENTION.

[Special Despatch to the Bulletin.]
HARRISBURG, April 28th.—The Union State Convention, called for the purpose of placing in nomination an Electoral Ticket, selecting Delegates at large to the Baltimore National Convention, and to take such action as it may deem proper in reference to the approaching Presidential campaign, meets here to-day. There is a full attendance of Delegates, and during the morning the Senate and House were filled with representatives from their

Wm. Simpson, and W. J. P. White. The convention was called to order at 12 M. by Mr. Wayne McVeagh, chairman of the State Central Committee.

The House of Representatives was crowded with the delegates. Mr. Serrill of Delaware county nominated John P. Penney for temporary chairman. Mr. Penney declined on account of physical disability.

Mr. Bergner nominated Senator Henry Johnson. The nomination was followed by his election, the vote being unanimous.

Mr. Johnson returned thanks for the honor. Samuel Alleman, of Dauphin; John H. Stuart. of Allegheny; David L. Barnes, of Favette: George H. Moore, of Philadelphia, and Conrad Schindle, of Schuylkill, were elected temporary Secretaries. The credentials of the delegates were then presented.

It was moved and agreed to, that the four contested seats be referred to a committee of

Mr. Bergner moved that one person from each congressional district be appointed to prepare an address and resolutions, and to report the names of two electors at large, and one from each district, and four delegates at large, to the Baltimore convention, and that the delegates be and they are instructed to vote as a unit for Abraham Lincoln, and to adhere to him as long as his name is before the convention. Applause.

Some discussion ensued as to the propriety of adopting the resolution before a permanent organization was effected, and the resolution was finally postponed.

Mr. Lincoln will be the almost unanimous

choice.

The Chairman announced Messrs. Frazier, Fry, Bergner, Olmstead, Bound, Serrill and Householder as a Committee on Credentials. The Convention then adjourned till 3 o'clock

SHARP FIGHT NEAR CHATTANOOGA. CHATTANOO\$A, April 26.—On the morning of the 23d of April the rebels made an attack upon our pickets on Nickajack Trace, near

Leet's farm, with both infantry and cavalry.
The infantry came over Taylor's Ridge. The cavalry came from South Valley, and attacked simultaneously seven points picketted by the 52d Illinois. Our men attempted to fall back and failed. The infantry barred the way.

They then tried to cut their way out, but of sixty-four men, thirty-four, fighting bravely, escaped. Not a man came back to camp but on orders, however.

Five of our men were killed, four mortally wounded, three severely, and nineteen missing. Lieutenant Scoulles was wounded and taken prisoner. The rebel loss is as severe as ours, if not greater.

Several of our men were killed by the enemy after surrendering. Some of the wounded were butchered as they lay on the field. The rebels in the whole affair were guilty of shocking barbarity.

FROM WASHINGTON.

By the People's Lire, Office No. 411 Chestnut st. 1 Washington, April 28.—The Secretary of the Treasury having urged the Naval Committee not to delay their report in favor of the establishment of a navy yard for iron-clads, they will probably report immediately in favor of the project.

The House will not wait to have their amendments to the tax bill printed, but will pass the bill to-day.

The personal debate yesterday, between Senators Sumner and Fessenden, caused a marked sensation, showing, as it did, much ill feeling between the parties.

Progress of the Tax Bill.

Mr. Ten Eyck (N. J.) called up the Senate bill to change and define the eastern and western boundaries of the Judicial districts of Virginia and for other purposes. It was passed.

Mr. Fessenden (Me.) reported from the Finance Committee, the House joint resolution increasing temporarily the duties on foreign imports fifty per cent., with an amendment substituting 33% instead of 50 per cent., and also exempting goods in bond and transit.

and transit.

HOUSE.—The House went into Committee of the Whole on the State of the Union, to consider the Internal Revenue bill.

Mr. Kasson (Iowa) offered a substitute for the 15ist section, which was adopted provided. Mir. Kasson (lowa) onered a substitute for the 151st section, which was adopted, providing that it shall not be lawful to record any instrument, document or paper, unless the proper stamp shall be affixed, and the record on which the proper stamp is not fixed, shall be utterly void, and shall not be used as avidance. not be used as evidence.
[The section stricken out proposed a penalty of \$50 for the failure to affix the stamp ]

[The section stricken out proposed a penalty of \$50 for the failure to affix the stamp ]

Mr. Farnsworth (II.) offered a proposition that every person, banking institution and association, issuing notes, bills, or other obligations as money, unless authorized by act of Congress, shall pay one-fourth of one per cent each month on the notes and obligations so issued.

He said his object was to compel the State Banks to withdraw their circulation, and to impose the tax not only on the money issued during each month, but the notes still out.

The West do not want the shinplasters and rotten issues of New England and New York bunks. Six months was too long a time to allow the withdrawal of such notes, and he should like to see this done in one month.

Mr. Kernan (N. Y.) remarked that the gentleman had at the outset declared his intention to at ppress the State banks. The people of the States, through their Legislatures; have a right to create such banks, and there is no power here to suppress them.

create such banks, and there is no power here to suppress them.

The gentleman knew that the people of the West can have banks or not as they see fit. Their legislatures are the proper bodies to carry out the will of the people. They had no right to come here through their representatives and suppress the banks of other States where the people are well satisfied with them. New York has good banks. The proposition would do much mischief and certainly would not strengthen the credit of the country. certainly would not strengthen the credit of the country.

Mr. Morrill (Vt.) regretted the gentleman (Mr. Farnsworth) should have appealed to the West for votes. We are here, he said, as the representatives of the United States of America and not the representatives of the West alone.

We are sent here to act for all the people and not for any particular part. It was stated in a Western paper that he (Mr. Morrill) was Morrill, of Vermont, and the President of a Wild Cat Bank at Chelsea, in that State.

Now he never was the president of a bank. The bill, without the amendmente, proposed to tax all

Now he never was the president of a bank. The bill, without the amendments, proposed to tax all hanks in a legitima.e way. This was not a question of the suppression of State banks.

If this amendment be adopted it would retard the progress of he bill not only here but in the other branch of Congress.

Mr. Ganson (N.Y.) was sorry the amendmen had been offered and that the gentleman had spoken of the banking institutions of New York as rotten, when it was enough to say, at one time, no institutions were sounder or more satisfactory, and there was no better system than that of New York. The general government has had to copy from them to give character to its own scheme.

He opposed the amendment because Congress has no power to destroy these State institutions. It had been decided by the Supreme Court of the United States that they are fawrill institutions. It had been decided by the Supreme Court of the United States that they are lawful institutions, and Congress has no power to forbid their creation. This amendment, if carried, may defeat the bill.

and Congress has no power to forbid their creation. This amendment, if carried, may defeat the bill.

Mr. Price (Iowa) expressed his astonishment that this amendment had been introduced. It would, if adopted, raise a storm of excitement which the House would be unable to meet. The object of taxation was that the hurdens should fall (qual on all.

All the amendments to the Tax bill were acted on by the Committee of the Whole, and reported to the House.

The Committee having risen, the House then proceeded to the consideration of the Tax bill.
