The Rebels Reported Marching on Grand Ecore,

Our Forces Entrenched.

LATE NEWS FROM WASHINGTON

To-Day's Proceedings in Congress and Legislature.

LATE FROM THE RED RIVER EXPEDITION. Sr. Louis, April 29 .- The Democrat has received a special despatch from its correspondent at Vicksburg, dated the 22d instant, which says :

The steamer Lucy has arrived here with news from the Red river. No more fighting had occurred up to the

20th, but the rebels were reported to be marching on Grand Ecore, and our troops were going out to meet them.

Our total loss in the late battles foots up 4.000.

Our army is believed to be securely entrenched at Grand Ecore, on both sides of the river.

PRESENT POSITION OF LONGSTREET'S FORCES.

WASHINGTON, April 28.-Reliable information has been received here that Longstreet's army is at present located at Charlottesville, Va., as a reserve of the army under Lee.

FROM WASHINGTON.

The the People's Lire, Office No. 411 Chestnutst.] Ashington, April 29.-The action of the Senate yesterday, in rejecting all the amendments of its finance committee to the House temporary tariff resolution is unprecedented. The Senators were doubtless induced to take the House resolution to secure immediate action, and the receipt of increased custom duties.

Military men here expect to hear that Gen. Banks has advanced. His action must, however, be somewhat dependent on the stage of water in the Red River, which will regulate the concerted action of our gunboats and transports.

FROM CAIRO AND MEMPHIS. CAIRO, April 28 .- Memphis papers of the 28th contain nothing special. Cotton has advanced 1c., and there is but ittle doing, holders waiting for better prices.

A reception was given to the S1st Regiment Illinois Veterans at Carbondale yesterday, preparatory to their return to the front. It was followed by a ball and dinner. During the afternoon some soldiers of the regiment, who had an old grudge against Colonel Osborn, entered a store where the Colonel was sitting and struck

BEPORTED BAITLE AT DECATUR, ALABAMA

[From the Chicago Journal, of April 27th.] We extract the fo lowing from a letter received t this office to-day, dated Larkinsville, Alabama, uril 10.

at this office to-day, dated Larkinsville, Alabama, April 19: "The news from our front to-day is, that our forces had a fight gesterday at Decatur, thirty miles from Huntsville. Our troops all left Hunts-ville, except ore regiment. They went on the double-quick. I cannot find out any of the par-ticulars. I believe Gen. Dedge was in command of the Federals at Decatur." 10:01475. I believe Gen. Dedge was in command of the Federals at Decatur."" HUNTSVILLE, Ala, April 20.—We have excit-ing reports from Decatur. A rehel force, variously estimated at from 8,000 to 10,000, with considerable artillery, has been hovering around there for several days. The 9th Illinois infantry (mounted) first discovered the enemy some miles out from Decatur, on the 14th, while scouting. They have had several skirmishes with the rebs, who have been ascertained to be Reddy's command of mounted men. On the 17th their pickets were discovered within ten miles of town, on what is known as the Courtland road. The 9th Illinois has been constantly busy annoying and testing the enemy. That regiment and the ist Ala-bama Union Cavalry, supported by the 25th Wis-corein and 39th Ohio, have several times driven in their pickets.

their pickets. It is expected that Reddy intends to attack our position at Decatur. General Dodge, who com-mands our forces there, is prepared to repel him. We have strong fortifications. Troops have been going down from here, and if a general engage-ment is brought on, the rebels will find us more than enough for them. The position the enemy now occupies on the Courtland road, sur-rounded with timber, is considered a good one, and indications are that he designs a flank move-ment upon us

Some think that this rebel demonstration in our front is merely a *ruse* to cover some other move-ments. It may turn out to be so. You may ex-pect before many days to hear of stirring events in this denartment

pect before many days to hear of shiring events in this department. OAIRO, April 26.—Boats on Sunday night and last night from the Cumberland river report rumors in Nashville of two days fighting near Decatur and Huntsville. No particulars have hear received?

The Speaker reminded the gentleman that his remarks were not in order. Mr. Stevens (Pa.) said Mr. Blair had been al-lowed to go on in hs own way, and Mr. McClarg should have the same privilege. The Speaker replied—That was by the consent of the House.

On motion of Mr. Stevens, Mr. McOlnrg had permission to proceed. He denied that he had made a direct charge against the military member, of a liquor speculation. The latter could not con-trol his vindicitive character and had said that Powers was a treasury agent, which was not the fact; nor was Mr. Barner a treasury agent until some weeks after the liquor transaction. He (Mr. McOlurg) was a great admirer of Secre-tary Uhase, whom he compared to an iron-clad, plated with siz-inch iron; and the individual pur-suing him was a Major-General firing paper wads from a pop-gun and the sentinel not aroused from his slumbers.

DESPREATE ENCOUNTER WITH A BURGLAE. About & o'clock, yesterday morning, Mr. Wm. S. Bishop, bacon dealer in the Delaware market, living at No. 370 East Monument street, was sud-denly swakened by a noise in his bedroom, and was rather surprised at seeing a man endeavoring to open a trunk that was under the bed. He jumped out of bed and seized the intruder by the neck, and a scuffle ensued, during which the robber fired at Mr. Bishop from a revolver, the ball passing so near his left shoulder as to burn his shirt. He suc-ceeded, however, in getting the pistol away from Mr. Bishop from a revolver, the ball passing so near his left shoulder as to burn his shirt. He suc-ceeded, however, in getting the pistol away from him. In the encounter he was much bitten on the hands and arms, and much scratched about the legs, baving nothing on but his shirt. Mrs. Bishop, who was in the adjoining reom, nursing a sick 'child, ran to the front door and gave the alarm. She then got her husband's pistol, and was about to give it to him for the purpose of sheoling the robber, when he snatched the weapon from her and tried again to shoot Mr Bishop, who, however, got the best of the scuffle, and obtained the second pistol. Policeman Carback and one of the neigh-bors soon appeared, and after a fight, in which the robber was beaten over the head severely, secured him and conveyed him to the central police station. He gave the name of James Smith, (supposed to be a fictitious name;) he is a powerful built man, and in his struggle with Bishop, who is also a very stout man, evidenced his desperate character. At one time Mrs. Bishop attempted to shoot him, but not being conversant with the handling of a pistol, her object failed.—Baltimore Sun, April 27.

A RELIC FROM PUTNAM'S WOLF DEN. —In the possession of Major Horace Good win, of this city, is the identical historical torch that Israel Putnam used in his descent to the wolf's den in Pomfret. It was presented to Major G., with other relics of the old hero, on the occasion of the visit to Brock-lyn, Willism county, in June, 1860, of the "Put-nam Phalanz." of which he was the commander. The person who presented it was an old gentleman of between 60 and 70, who assured Major G. that he himself found it, some fifty years before, at a spot to which he had crawled in the cave beyond any point (as he believed) ever visited by anybody else except "Old Put" himself. The torch is of birch bark, closely rolled in a cylindrical form, and is parily burit at one end. Its charred condi-tion still shows the point at which, sccording to the bistorical account, the bold farmer's "light was extinguished" when he dropped in the cave, in the immediate neighborhood of the glaring wolf. —Hartford Courant. WORKING GUNS BY STEAM. — The St. Louis Union describes some interesting experiments with a new invention in that city, devised for the purpose of working heavy guns by steam power. The plan was tested last week on board the moni-tor Winnebago. The Union says: "As we are prohibiled, by general instructions issued by the Navy Department, from giving a description in detail of this wonderful machine, we can only state that two eleven-inch Dahlgren guns are so completely under control of one man in it, and handled with as much ease by him, and with almost as much celerity, as a pair of dueiling pistols could be. Every movement of the guns is made by steam. They are run out of their ports by it, and their recoil is checked by it; they are lowered into the hold by steam for load-ing, and raised again to be fired; and all these movements are made in as little time as it has taken to relate it.
