The trial of O'Lemy, the contact reminated on the 6th lusts, with a verdict of "gality."
The prisoner addressed the court and denied that he was a traitor. He said that he owed no allegiance to the Queen of England, nor obedience to British laws. He denounced those as traitors to their country who assisted to enforce the allen laws.
The prisoner was then sentenced to twenty years' penal servitude.
The London Times congratulates the Irish Government on being able to secure successive convictions of leading Fenians with so little difficulty, in soite of everything that can be done for their defence. It says:
"It would appear that a fresh jury is empanneled for each case, so that every conviction represents the result of independent judgment by a distinct body of men."

GREAT BRITAIN. The London Times, in amounting an official investitigation into the affairs of Jamaica, says that it is due

It is stated in Paris that the arrival of Gen. Schofield in that city is connected with the Mexican question, and that he has been sent to demand via evacuation of the French troops from Mexico.

The Constitutionarie asserts that the French Government has received no communication on the subject of Gen. Schofield's mission, and it believes the story affoat about him is a pure invention.

Notwithstanding this the Paris papers continue to comment on the subject, and the belief was pretty general in the truth of the statement.

The Press believes that, whatever the result of Gen. Schofield's instructions may be, the evacuation of Mexico is likely to be the result.

The Paris Bourse closed flat on the 5th instant, at 80.5c.

OFFICE PENNSYLVANIA RAILEROAD COMPANY.—PHILADELPHIA, August 15th, 1885.

The Mortgage bonds of the Connecting Railway Company, between the station of the Pennsylvania Railroad Company in West Philadelphia and Frank ford, a distance of seven miles, can be obtained at this office, No. 238 South Third street.

These bonds are in sums of one thousand dollars, with interest coupons attached, payable at said office on the 15th day of March and September in each year, at the rate of six per centum per annum, and the principal payable in five equal annual amounts at the rate of \$200,000 per annum—the first series on September 15, A. D., 1900. The principal and interest are secured by a mortgage for one million of dollars upon all the railway and property of the company; and are guaranteed by the Pennsylvania Railroad Company. These bonds are made free of State saxes by the company. are guaranteed by the Pennsylvania Railroad Company. These bonds are made free of State taxes by the company.

The railway is being constructed in the most substantial manner, and will be completed during the ensuing year. This road perfects the connection between the Pennsylvania Railroad and the New York lines vis Philadelphia, and becoming, as it will, the main channel of communication between New York and the West, as well as to and from the National Capital, will always obtain large revenues and be one of the most important railways of the Union.

Under a contract with the Philadelphia and Trenton Railroad Company, that company leases the road of the Connecting Railway Company, and agrees to pay an annual rent for 399 years of six per centum upon the cost of the road, clear of taxes. These bonds are therefore recommended as a first class security.

For further information apply at the office of the Company.

The especial attention of Coal Consumers is called to a careful perusal of the following:

The Shawnese Mutual Coal Company are now placing before the public in Philadelphia a description of coal heretofore almost unknown in this market and of a quality which challenges all comparison. Those who are using it from the yards of the company testify unhesitatingly to its superiority over all other coal. This coal comes from the region of Plymouth, Luzerne caunty, is distinctive in its character and may be briefly described as combining the best qualities of both Lehigh and Schuyikill, comparatively free from the defects of either, and of remarkable purity. It is the delight of all who use it. This company is selling a limited number of the shares of stock at ten dollars pershare cash, securing for each share a ton lof coal annually and perpetually. Certificates of stock issued immediately. Or being desirous of meeting the convenience of subcaribors, and of extending the benefits of the mutual system, we have it in our power also to offer the following terms; viz:

Onthe payment on subscription. Cash payment on subscription \$500 Entitling the subscriber to one ton of coal at cost as above.

The balance of payment may be deferred until Octo-ber 1, 1886, with interest, when certificate of stock will be issued. be issued.

By this plan it will be observed that the cash payment and the cost of the coal is only about the ordinary retail price of other good coal. The present price of this coal to subscribers is \$\frac{1}{2}\$ and \$\frac{1}{2}\$ So per ton at the yards of the Company, to which will be added only the cost of delivers.

Subscriptions received at the office 237 South THIRD Street.

For Sifting Flour, Meal, Buckwheat, Sauce and all STATE AND COUNTY Rights for Sale.

It is one of the most useful inventions for demestic use ever offered to the public. The flour is sifted in one-quarter the time (and much better than by any other process) by putting the flour in the top of the Sifter, then, by turning the crank, the filour passes through the sleve with great rapidity. Clean, very fine and light. This Silter has no India rubber rollers to grind up the dirt, such as bugs, worms, files, e.c. but sits all articles and leaves the dirt remaining in the sieve; the Sifter is made of tin, is very neat and easy to keep clean. It is the obly Sifter now in use that gives hartisfaction. Be sure and ask for Spencer's Patent Tin Sifter. Patent Tin Sifter.
