Philadelphia Board of Trade.

The stated meeting for December was held on Monday evening, President Welsh in the chair.

The Committee of the Month presented a communication from Samuel C. Morton, Esq., late President of the Board, recommending, now that the former objections of the Board have been removed by the return of peace and the restoration of the national authority in the Southern States, that action should be taken in favor of a uniform system of bankruptcy. Also, calling attention to the dangers incurred to navigation by the destruction of the light on Cape Florida.

The Secretary reported the names of two hundred and fifty new applicants for membership of the association, which, on motion of Mr. Souder, were unanimously elected.

A paper was received and read, and referred to the Committee of the Month, from the Boston Board of Trade; in favor of aiding the organization of Southern labor by the assistance of Northern capital, and recommending governmental co-operation through the Freedmen's Bureau in the effort to increase the production of Southern staple. The co-operative action of this and other associations is requested.

The resolutions of Mr. Band on the currency and the financial situation next came up, and excited an animated discussion. The resolutions were adopted, as follows:

Resolved, That, in the judgment of this Board, the finances of the Government of the United States were managed during the rebellion with a skill and wisdom only equaled by the grandeur of the cause which was imperilled, the integrity of the Union.

Resolved, That with the suppression of the rebellion and the return of peace, measures for the restoration of the currency to its normal condition becomes a duty on the part of the United States and a cause of great solicitude on the part of the people lest, by injudicious measures and a rapid contraction, their interests should be needlessly sacrificed.

Resolved, That the policy pursued by Hon. H. McCulloch, Secretary of the Treasury in keeping steadily in view a specie basis as the safe and true foundation of a national currency, and aiming to reach it as early as possible by a gradual absorption of the excess of paper money now in circulation, by which policy alone the transition can be made from an irredeemable to a convertible paper currency without injury to private interests, is by this Board recognized as eminently judicious, and worthy of its strongest commendation.

The secretary then, at the request of many merchants, brought to the notice of the Board, with the solicitation of their strongest protest, the subject of the requirement of the officers of the internal revenue department, under the decision of a deputy commissioner, that their clerks and employes shall, under heavy penalty, take out licenses as "commercial brokers," whenever, as they constantly do under the present system of business, exhibit samples to solicit orders for their principals. The subject was referred to the Committee of the Month, with directions to make every exertion, through the committee now sitting for the revision of the internal revenue system, and the Commissioner of Internal Revenue, to have this action abandoned. Adjourned.

PROSPECTUS

OF THE

CARSON GOLD MINING COMPANY,

OF

NORTH CAROLINA.

The Land of this Company consists of 120 ACRES in Mecklenberg county, North Carolina 3½ miles from the town of Charlotte, on a branch of Sugar Creek, which stream furnishes gook water power for grinding the ores. This Mine was first opened in 1838 by a man named Carson, who worked it successfully for a number of years. He died in the town of Charlotte, in 1845, worth over half a million dollars.

Two shafts have been sunk on this property, one of them 80 feet, the other 60 feet, on different veins, averaging from two to three feet in thickness, which veins still continue on down increasing in width and richness. These shafts are in good order, and ore can be readily taken out at any time. Other veins have been discovered on this property, and tested and proved to be very rich in gold. The ores of this mine are known as the brown ore, and very rich, yielding readily $10 per bushel. This is believed to be one of the best and most certain mines in the State, on account of the abundance and quality of the ore, and ease in which it is obtained and reduced. This property has been worked by Major Z. A. Grier from 1840 to the breaking out of the war. This Company have purchased this property, and intend to erect machinery and put the mines in immediate operation. The many advantages of this mine over the mines of Colorado and Nevada can hardly be estimated. It is more readily reached, and has abundance of fuel, with cheap labor. It can be worked all the year, and not, as in the case of Colorado and Nevada, be compelled to lie idle for three or four months in consequence of the severity of the winter.

This mine having been worked for a long time, proved to be a rich paying one. We do not, therefore, have to incur the risk there is in an undeveloped property, but can count on large and immediate returns on the investments. Having an ore that readily yields $10 per bushel, some estimate can be made of the value of this property. With the present imperfect system of mining in this locality, and absence of proper machinery, ten tons of this ore can be taken out daily from every shaft opened. Estimating, say 15 bushels to the ton, the daily yield will be $1,500 from one shaft, allowing $300 per day for expenses. The net product will be $1,200 per day; counting 300 working days to the year, the yearly proceeds will be $360,000, which yield can be largely increased by extending the works. This is considered a very low estimate of the capacity of this mine by experienced miners of that locality. The Assayer of the United States Mint at Charlotte, in speaking of this property, says it has few equals in productiveness in that country, and with proper management and machinery the above product can be doubled.

CAPITAL STOCK, $500,000.

NUMBER OF SHARES, 50,000.

Price and Par Value of each Share.....$10

WORKING CAPITAL, $50,000.

Books for Subscription are now open at No. 407 WALNUT street, Room No. 2, first floor, where further information will be given.

OPAL DENTALLINA.

A superior article for cleaning the Teeth, destroying animalcules which infest them, giving tone to the gums, and leaving a feeling of fragrance and perfect cleanliness in the mouth. It may be used daily, and will be found to strengthen weak and bleeding gums, while the aroma and deterativeness will recommend it to every one. Being composed with the assistance of the Dentist, Physician, Chemist, Microscopist, it is confidently offered as a RELIABLE substitute for the uncertain washes formerly in vogue.

Eminent Dentists, acquainted with the constituents of the DENTALLINA, advocate its use; it contains nothing to prevent its unrestrained employment

PROPOSALS.

NOTICE TO CONTRACTORS.—Sealed proposals will be received at the Department of Highways until 1 o'clock P. M., TUESDAY, 26th, for the masonry, timber superstructure and embankment necessary for the rebuilding of Bridge at Penrose Ferry. Specifications and drawings of which may be seen at the Department of Surveys.

It will be necessary that the proposals shall specify prices for the following items:

Masonry of Piers per perch of 25 cubic feet, to include taking down old work and rebuilding, with sand, lime and cement, scaffolding, &c., the old material to be used as far as suitable.

Masonry on approach, foundations per perch of 25 cubic feet.

Piling for foundations, each to include pile, iron shoe, driving and cutting off, with any coffer damming that may be necessary.

Piling for fenders, including piles, shoe and driving.

Timbers for foundation, per foot B.M., to include workmanship and bolts.

Timber for fenders, per foot, B. M., including workmanship and bolts.

Coping—four inch and eight inch per square foot surface.

Embankment per cubic yard.

Superstructure of trestle approaches per lineal foot.

Superstructure of Howe bridge per lineal foot.

Superstructure of Howe Bridge Long span per lineal foot.

Superstructure of Howe Bridge Draw per lineal foot.

Crib for fender per lineal foot of timber round, including bolts, workmanship, ballast and sinking.

All bidders are invited to be present at the time and place of opening the said proposals.

Each proposal will be accompanied by a certificate, that a bond has been filed in the Law Department as directed by ordinance of May 25th, 1860.

If the lowest bidder shall not signify his acceptance of the contract within five days after the work is awarded, he will be deemed as declining, and will be held liable on his bond for the difference between his bid and the next higher bid.

Specifications may be had at the Department of Surveys, which will be strictly adhered to.

W. W. SMEDLEY,
d20-3t§ Chief Commissioner of Highways.
