Common Conneil. An adjourned meeting of Common Council was held last evening for the purpose of considering the appropriation bills for 1866. Before proceeding to the special business, Mr. Marcer submitted a communication from John Given, enclosing his surefies as City Commissioner. Referred.

Among the appropriation bills reported from the Committee on Finance, was one making an appropriation to the Prison Inspectors. A majority report contains items with the salaries of officials increased, while the minority report protests against any further increase of the city's liabilities. Both reports were ordered to be printed.

The Chamber resumed the densideration

The Chamber resumed the consideration of the ordinance making an appropriation to the Guardians of the Poor. The item of codfish, butter, rice, corn, hominy, barley, salt and pepper, reported at \$15,500, was reduced to \$15,000; the item of \$26,500 for coal, was reduced to \$20,000. Other items were reduced, and the ordinance finally passed, the total amount appropriated being \$433,-250, or \$19,600 less than asked for by the Guardians. The Chamber resumed the consideration

The ordinance making an appropriation to the Department for supplying the city with water, for 1866, was next considered. The amount asked for was \$349,375, and amendments reducing the sum to \$287,625 were agreed to. The ordinance as amended was agreed to. Adjourned.

#### EVERY FAMILY SHOULD HAVE

Spencer's Patent Flour Sifter. For Sifting Flour, Meal, Buckwheat, Sauce and all other articles requiring a sieve.

STATE AND COUNTY Rights for Sale.

It is one of the most useful inventions for demestic use ever offered to the public. The flour is sifted in one-quarter the time (and much better than by any other process) by putting the flour in the top of the Sifter, then, by turning the crank, the filour passes through the sieve with great rapidity. Clean, very fine and light. This Sifter has no India rabber rollens to grind up the dirt, such as bugs, worms, these, dec., but sits all articles and leaves the dirt remaining in the sieve; the Sifter is made of tin, is very nest and easy to keep clean. It is the only Sifter now in use that gives hatisfaction. Be sure and easy to keep clean. that gives SATISFACTION. Every Sifter is warranted to give satisfaction. Be sure and ask for Spencer's Patent Tin Sifter.

HOTELS. BANCROFT HOUSE CORNER OF BRUADWAY

BAND TWENTIETH STREETS, N.B.W.YORK.

The undersigned begs leave to call the attention of his old patterns white connected with the EBBITT HOUSE, Washington, D. C., and of the public generally, to the fact that he has leased the above commodius and admirably located house for a term of years; that he has thoroughly renovated the entire establishment, and now solicits a trial of his accommodations, with the perfect confidence of giving satisfaction to all. By a glance at the city map, it will be perceived that the central locality secures ready communication by railroad and stage with all of the most desirable parts of the city—from the Battey to the Central Park—from the Hudson to the Rast Rivers.

To those who shall honor him with their patronage, he pledges himself to apper no efforts in making their stay pleasant at dagreeable.
