The Fenian Difficulties. The Philadelphia Circle of the Fenian Brotherhood met at their hall last evening, and elected Mr. Michael Caville and Mr. James Monaghan as representatives to the congress to assemble on next Tuesday, at

New York.
The following preamble and resolutions were also unanimously adolted:
Whereas, We the members of the Philadelphia Circle of the Fenian Brotherhood have witnessed with extreme regret the dis-cerdant elements which have recently divided our counsels and attempted to divert the attention of the Brotherhood from the grand object for which it was formed, viz the rescue of our native land from the thralldom of a foreign monarchy and the estab-ment of an Irish Republic, based on the grand principles of liberty as taught by the founders of the American Union;

And whereas, In view of the coming ses-

sion of the Fenian Congress, it is fitting that we should express our opinions on the question at issue, which we have arrived at after due deliberation consistent with its

importance.

Resolved, That we, in common with most of the Brothers of the Order, were of the opinion that the new constitution of the Brotherhood, adopted at the Philadelphia Congress, was modelled after the Constitution of the United States, which, in cases of impeachment of the President or Vice President, require the impeachment to be made by the House of Representatives, and the trial by the Senate; and we learn with much surprise that the Senate of the Fenian Brotherhood presume to follow the rules of despotic governments, and act as accusers as well as judges and jury. And we recom-mend to our delegates, in the congress to be assembled, to endeavor, if they find that the Senate has by any trick invested themselves with any such power, to amend the constitution so that its meaning may be more consistent with the rules of a repub-

more consistent with the rules of a republican form of government.

Resolved, That we protest against the recent action of the so-called Senate of the Fenian Brotherhood, and regard their conduct in spreading before the world, through the press, a tissue of falsehoods, unsupported by any facts whatever, as a reprehensible and traitorous attempt to injure the cream and bring the organization, into the cause and bring the organization into

disrepute. Resolved, That we cordially approve of the action of the President, Col. John O'Mahony, in calling a Congress of the Brotherhood, to meet in New York, on Jan. 2d, 1866, to inquire into and investigate the cause of the present troubles, and inflict punishment on the guilty parties; that we regard the disposition shown on the part of the so-called Senate to oppose the assem-bling of the said Congress as an evidence of their desire to evade such an investigation, and thus prevent the members of the Fenian Brotherhood from obtaining a full and fair understanding of the causes of the difficulty; and we earnestly request our brethren of all the circles throughout the United States to co-operate with us, whether they agree with us or not, in sending delegates to the said Congress, so that the said investigation may be impartial and satisfactory.

Resolved, That we heartily approve of Col. O'Mahony's course; in all respects, as

respects, as faithfully representing the true objects of our mission.

Resolved, That we repudiate any action of James Gibbons, of Philadelphia, as a so-called Senator; that we have long regarded his connection with the Brotherhood as a misfortune beligning him to have been can misfortune, believing him to have been connected with it purely for personal profit, and that his offer of a reward of \$1,000 dollars to any men who would prove that he induced him to become a member of the organiza tion was sufficient evidence of his useless ness as well as faithlessness to the cause.

SAN FRANCISCO, Dec. 27. - Hong Kong advices to October 20th, have been received. being sixty-two days later than those pre-viously received. The steamer Wautah was reported captured by pirates, while on her way from Shanghai to Foo Chow. Piracy in way from Shanghai to Foo Chow. Piracy in Chinese waters is on the increase. Foreign relations with China are quite ont of joint, owing to the mandarin worshiping policy which characterized the policy of Sir F. Bruce. The district lying southeast of Pekin has been ravaged by troops of a bandit cavalry body of one hundred and eighty mounted rancheros, who made a raid to within two hundred miles of the capital within two hundred miles of the capital.

A force was sent out after them, but they made good their escape. The last strong-hold of the rebellion in the province of the Kangsi is reported to be evacuated. The insurgents, it is added, retreated to Fukeia. The Mohammedan rebels at Fung Kaun, in Shensi, had surrendered, and were slaughtered to a man.

Intelligence from Japan respecting foreign affairs is very satisfactory. The quarrei between the Tycoon and Prince Nagato has been settled. A steamer had been announced to leave Yokohami, direct for Suez, the inducement being the conveyance of silk worm eggs. Silk seems to be plentiful in Japan, but scarce in China. From South America.

New York, Dec. 27.—The steamer North America has arrived here, with Rio Janeiro advices of December 2d, via Bahia, Pernambuco and St. Thomas, W. I. turued on the 9th of November from Rio Grande del Sud, causing great rejoicing in

this city.

The Brazilian fleet is at the mouth of the Paraguay, and the Allied army has crossed the river Corrientes, on its march to Parana, near Goza. It will be sent in vessels up that river to the point selected for its operations.

NEW YORK Dec. 27.—News from South America and St. Thomas says:—
The 2d of December was the fortieth anniversary of the birth-day of the Emperor, and was observed in Brazil with popular rejoicings. The Emperor released a number

of prisoners.
The American emigrants, chiefly Southerners, represented by Col. Wood, have selected a site for a town near Raragnora. It-lies between two small rivers, and can have railway connection with the capital.

A vast tract of eight millions of acres of moccupied Government land has also been selected. It is expected that a flow of emi-

gration from the States comprising the late Confederacy will soon set in There is no change in the position of military affairs. No battle had taken place. The Brazilian army has been suffering severely from sickness, and many of the Paraguayan prisoners drafted into the army have died. The Brazilian squadron remained at Corrientes. The Rio de Janeiro papers are filled with official reports of the army movements and battles announced here by previous arrivals.

From Colorado. ATCHISON, Kansas, Dec. 27.—Messrs Chaffee and Evans, United States Senators

Chaffee and Evans, United States Senators from Colorado, have arrived here, and report a uniform confidence among the people of Colorado on the prompt admission of that State into the Union, every important condition of the Enabling Act having been complied with. The Legislature passed a joint resolution requesting the President, if he did not deem himself authorized to proclaim the State in the Union, to urge its early admission upon Congress. Resolutions early admission upon Congress, Resolutions guaranteeing the ratification of the antislavery amendment to the Constitution were also passed.

Most of the employes were at dinner, there being but eight persons in the building at the time. A fireman was killed, but none others were seriously injured. The loss amounted to \$60,000, which was insured against fine for \$25,000. against fire for \$25,000.

THE UNITED STATES OF COLOMBIA. General Don Eastorgia Sal Gariras was introduced to the President by the Secretary of State, and delivered his credentials as Envoy Exttraordinary and Minister Plenipotentiary of the United States of Colombia. He made the following remarks on the oc-

casion:
"Your Excellency - The Government of Colombia, solicitous to foster and encourage the friendly stipulations that have former the matter of special treaties between the two nations, has lately conferred upon me the character of Envoy Extraordinary and Minister Plenipotentiary near the government of your Excellency. The feeling of perfect understanding and cordiality which the two countries have reached, the increase of their mutual commercial transactions and their topographical and political condition are worthy of special consideration. For this reason I heartily congratulate my self on placing in the hands of your Excel-cellency, as I do, the autograph letter of the President of Colombia according to me the mission to preserve and render advanta-geous a friendship that rests on such legitimate interests, and to present my respectful deference to your Excellency; hoping that I may continue to deserve your confidence

and benevolent consideration. To which the President replied as follows:
"General—It was with sincere regret that I recently received your letter of recall. I need not say, therefore, that it is with sincere satisfaction that I now receive the letter which accredits you again as Envoy Extra ordinary and Minister Plenipotentiary of the United States of Colombia to this Gov ernment. I renew on this occasion my former assurance of friendship and good will to your countrymen and to your coun try, and of personal esteem to yourself." POSTAL AFFAIRS .- The Post Office De

partment, has awarded contracts for service on forty routes in Virginia and West Virginia ginia. These routes, for which offers have been made since the regular biddings two months ago, will cover nearly the whole of those States not then awarded with immediate postal facilities. The mail service in North Carolina is in greatly increased demand, numerous cflers being made, and to-day upwards of thirty routes were let. All the service will go into opera-tion on New Year's day. Contracts for service in South Carolina, Georgia, and other Southern States, are also being disposed of. In the appointment office corresponding efforts are progressing for the reopening of the post offices in every Southern and Southwestern State. The number of such decisions may be set down at two hundred per week. Yesterday Virginia, Louisiana, Texas, Kentucky and Tennesse shared largely.

THE INDIANS.—Recent reports concern ing the disposition of the various Indian tribes with whom the Government has of late entered into treaty compact, represent a favorable aspect, and perfect confidence exists of a secure and lasting peace hereafter. The parties who made the attack on the Butterfield mail coach, a short time ago, had not been advised of the treaties which had been made. An excellent profile portrait of the President, designed for distribution among those of the Indian chiefs who observe strictly the character and obligation of their treaties with the Government, has been executed on silver by Mr. Paquet, and is pronounced a work of great artistic skill and merit. There has been since the forma-tion of the Government, a periodical appropriation for the above object, and it is a significant fact that there is no knowledge of any chief who has thus been favored ever having broken the treaty obligation.

THE LAST OF THE REVOLUTIONARY HEROES.—Only two warriors of all those who participated in the war of the Revolution, so far as known by the Commissioner of Pensions, remain alive, namely: William Hutchings, of Penobscot; Hancock county, Maine, aged one hundred and one years, and Samuel Cook, of Clarendon, Orleans county, New York, aged ninety-nine years. Only five widows of Revolutionary soldiers draw pensions from the Government at a yearly amount of two hundred and ninety-three dollars.

A RAILROAD IN JUDEA.—Two French engineers, pupils of the Ecole Centrale, have just started for Judea, in order to survey the line of railroad in course of construction, and part of which will soon be thrown open to the public. We shall soon hear (says an English journal) of little boys shouting on the platform of the Bethlehen Station, La Patrie, Journal du Soir, Le Moniteur, Morning Star; while at the Capernaum terminus, Guinness's stout and Yorkshire hams will invigorate travelers on their way to Jericho.

THE FRACTIONAL CURRENCY.-The new five-cent fractional currency will be issued next week. About \$50,000 worth of defaced and mutilated currency is destroyed, by burning, per day, and \$50,000 worth of it is printed; arrangements are nearly completed to make the amount of the latter equal to

the former. In compliance with orders issued by Com-modore Shubrick, President of the Light-house Board, the light-vessels belonging to the Upper and Lower Cedar Points, in the Potomac river, have been withdrawn from their stations for the winter. Due notice will be given of their replacement.

Spencer's Patent Flour Sifter. For Sifting Flour, Meal, Buckwheat, Sauce and all other articles requiring a sieve. STATE AND COUNTY

Rights for Sale. It is one of the most useful inventions for domestic use ever offered to the public. The flour is sifted in one-quarter the time (and much better than by any other process) by putting the flour in the top of the Sifter, then, by turning the crank, the flour passes through the sleve with great rapidity. Clean, very fine and light. This Sifter has no India rubber rollers to grind up the dirt. such as bugs, worms, files, &c., but sits all articles and leaves the dirt remaining in the sleve: the Sifter is made of tin, is very neat and easy to keep clean. It is the only Sifter now in use that gives \$ATISFACTION. Every Sifter is warranted to give satisfaction. Be sure and eak for Spencer's Patent Tin Sifter.
