the Governor: MESSAGE OF THE GOVERNOR. Gentlemen-The toil and anxiety of the last four years, have from time to time brought on me severe attacks of disease. From the most severe of these I am slowly struggling towards recovery. I find that to give my constituion an opportunity to continue the struggle, it is absolutely necessary that I should, without delay, make a short sea voyage and sojeurn in a milder climate.

Under the pressure of this necessity I go to the Island of Cuba. It is my hope and intention to return in good season to wel-come you on your arrival at the seat of Government; but if it should be found indispensable that my visit to Cuba should be prolonged to the latter part of February, this message will serve to lay before you the cause of my absence at the commence-

ment of your session.
In this case I feel sure that you will adopt such course as shall consist with your wis-dom and with the affectionate consideration

which I have always received at your hands. It would, however, not become me to forget that the issues of life are in the hands of the One above all, and that many have found death waiting for them on the foreign shore to which they have been sent in search of

Should such be my fate, I should draw my last breath with a sense of the deepest gratitude to the people of this Commonwealth, and their Representatives for the control of the people of this Commonwealth, and their Representatives for the control of the people with the people of th weath, and their Representatives for the cheerful, manly, unfailing support which they have given during the last of our years to the general cause of the Right, and to me in my efforts to maintain it; and, with a prayer of thankfulness to Almighty God that he strengthened till the end of the cruel rebellion and thought me worthy to be permitted to continue that time as chief magistrate of the people of Pennsylvania. To have my name connected in that relation with such a people, during such a time, ought to be enough to fill the highest neasure of any man's ambition

ANDREW G. CURTIN. Executive Chamber, Harrisburg, Nov.

Address of General Palmer to the Ne LOUISVILLE, Jan. 2.—General Palmer addressed 4,000 colored persons in the open air yesterday. He congratulated the audience that slavery was ended forever in the United States, and that colored people, having ceased to be slaves, had no longer interests which separated them from the mass of the American people; that to this continent had been reserved the glory of a second example of the deliverance of a whole people from slavery; that now, for the first time, ours is the and of the free, and hereafter the Government is to be maintained by giving full effect to its own.principles; that hereafter, before the law, there would be no difference between the colored race and others than that of color; that, in the nature of things, for years to come, the colored people of this county must be laborers, but their interests and the in-terests of white labor will be identical; that efforts to degrade the blacks, to degrade their labor, do in effect degrade the labor of all others; that he that compels the black man to work for half price compels the white man to do the same, and is just as much the enemy of the white as of the black laborer. Your interests are therefore the interest of fore the legislation of the country has been very much for wealth and its owners, fo slaves and their masters. Hereafter, sla very being out of the way, it must be for the laborer of whatever color to protect himself from the despotism of capital. The slave owner will no longer be able to control the prejudices of the sons of toil and drive them to support systems which robbed them of half their earnings, which deprived them of free schools for their children, and free homes for themselves. He expressed his gratification at the general kindness exhibited by the people of Kentucky for their late slaves, which he said was true notwithstanding the which he said was true, notwithstanding the cases of brutality and outrage, the work o abandoned persons, in different parts of the

He spoke of the right of colored persons to testify in the Courts, and predicted tha within a few years the question to be asked would be not who is the whitest, but, who is the most honest, intelligent and industrious. He urged industry and thrift, the cultivation of land, and good feeling towards all, as the true solution of all questions be-tween the races. The speech will be republished entire. It was enthusiastical lished entire. It was enthusiastically re-ceived. The utmost good order and kind feeling prevailed during its delivery.

New Jersey Matters. FUGITIVE FROM JUSTICE.—Yesterday afternoon Theodore McGurk, who was arrested on Tuesday morning at the fire on Chestnut stree, as a fugitive from justice, was brought to Camden and lodged in juli to await trial. He is charged here with robbery and arson. His trial will come off at the next session of the courts, which will commence on Tuesday next.

TEMPERANCE.—A meeting of the friends of the temperance cause was held at the Odd Fellows' Hell, in Camden, yesterday afternoon, in order to make arrangements for the permanent organization of an auxiliary society for Camden city. The cause is said to meet with great favor.

APPOINTED .- The Camden and Philadelphia Steamboat Ferry Company have appointed Wes-ley P. Murray, Esq., Captain of their new night boat. SUDDEN DEATH .- On Sunday evening last a young woman named Holl, died very suddenly at her residence on Fifth street, Camden, of congestive chills. She had been married only one week, having been led to the bridal altar on Christmas eve. Thus in one brief week she was a girl. a wife and a corpse. In some of the morning papers it was erroneously announced that it was Mr. Holl, instead of his wife, who had died thus suddenly.

Facts and Fancies.

Jubal Early writes from Havana that he is "a voluntary exile from his country because he is not willing to submit to the foreign yoke imposed upon it." The Suffocation Cases in New York.

[From To-day's Times.]

The Coroner's inquest on the bodies of Rosa and Francis Gughay, who came to their deaths by suffocation caused by the fumes of coal gas from a stove, on Saturday night was concluded westerday. Saturday night, was concluded yesterday. It appears from the evidence offered at the inquest, that the premises No. 597 Grand street, were being improved, and the apartments occupied by the Gughay family were required to complete such improvements. Edwin B. Hunter, the agent, wished the family to move, but they declined doing so. Finding persuasion of no avail, he ordered a mason to stop up their flue with a stone, at the same time warning them of the fact. at the same time warning them of the fact. The smoke and gas from the stove being unable to pass up the chimney, accumulated in the room occupied by the deceased, causing their deaths. The jury brought in a verdict holding Hunter responsible for the deaths of these two persons, and he will be held to await the action of the Grand Jury.

DEATH OF AN EMINENT ENGINEER.— Thomas B, Stillman died at his residence in Plainfield, N. J., on Tuesday morning, in the 59th year of his age. Mr. Stillman was an eminent engineer and mechanic. He was the founder of the Novelty Iron Works, and was engaged in the construc-tion of the engines of some of the finest American steamships afloat. During the war he was United States Inspector of steam vessels for this district, and Superintendent of construction of revenue cutters. His last work was to put twelve armed steam cutters afloat in place of the sailing vessels beretofore used. He was also President of the Metropolitan Savings Bank. Trustee for nearly twenty years of the New York Hospital, and associated in many other of our public charities. His life was one of ceaseless activity and usefulness, and his services in behalf of the Government during the war and since have been so arduous that his life has been as much a sacrifice for his country as if he had fallen on the field of hattle. He was esteemed by all who knew him as a Christian gentleman; and in his death the Societies of Engineers and Me-chanics have lost one of their most eminent members, and the community a valued and patriotic citizen.—N.
