"Please, sir, give me something to buy a loaf of bread?" falls plaintively on my ears. Boy about ten years old, barefooted, limbs naked to the knees, skin here and there ex-posed through the holes in his little coat and pants; face pale, body slender, shivering in every limb. "What's your name?" "Willie J." "Is your father living?" "No; he was killed in the army." "Your mother's living, isn't she?" "Mother died last Saturday night (this was Monday morning), and she's not buried yet—have no way to bury her. Old brother 'listed a month ago; is out at camp; don't know how mother will get buried. buried. Please, sir, let me have something to buy a loaf of bread. I'm hungry. I've had no breakfast." Poor little soldier's had no breakfast." FOOT little soldier's orphan! What sad, sad tales come from your little heart! I gave him something, and told him to go home and get a warm breakfast for himself. We had separated a short distance, when it occurred to my mind to follow up that case, and find out its truthfulness or deception, I shouted to the boy and overtook him. "He shall not go empty-handed," I thought. I rang some bells by the way, and stated the case to some we met on the street, so that by the time we reached Willie's house we had gathered bread and money sufficient for several days. On, on, up that street, where princely mansions tower, and cold and hunger and nakedness never enter; across that square, where the piercing, chilling blast almost freezes the life-blood of the poor orphan boy; up that narrow street where poverty, pinching poverty, gnawing cares, and social and moral degradation mingle in one wretched reeking mass; through that dingy entrance, and up those rickety stairs, Willie trance, and up those rickety stairs, still leading up, up to the lonely garret—"In here, sir." I enter a door to the left; step breathlessly across the room to a dark corner; pointing to a bed, he looked up in my neer, pointing to a see, net state and a libert naked, shivering soidier's orphan—and with a look that went to my heart, and a tone sad, but triumphant, says, "There, sir, there's my mother!" How emphatically the look and tone said, "You see, I told you the truth!" Yes, it was all true. On something like a bed lay Willie's dead mother, apparently in the tattered garments in which, thirty-six hours before, she had breathed her last breath. Imagination will not be much taxed to fill up the painting of which the above is the

CITY PASTOR, BUSINESS EDUCATION.-Young men who desire to get a thorough education for bu-siness should attend Bryant, Stratton and Kimberly's Business College, Assembly Buildings, southwest corner of Chestnut and Tenth streets. • The unprecedented success which this institution has enjoyed since its foundation, and the high standing which its graduates have taken in the business community, recommend it as the most thorough and practical college in the country. No parent could make a better investment for his child than by purchasing for him a scholarship at the above inceptivation. stitution. This scholarship entitles the holder to a life membership in this and fifty different colleges located in the United States and Canadas. We would advise all who propose getting a business education to call and examine the course.

WELL DESERVED PROMOTION .- A gallant young Philadelphian, Mr. George E. Ford, enlisted as a private in the Fourth Iowa Regiment, at the outbreak of the war. Through all the exciting campaigns of the West, Private Ford fought his way up through successive grades until he had risen to a captaincy in his regiment, when it formed the storming party at the first attack on Vicksburg. Captain Ford after-wards served on Gen. Macpherson's staff until that officer's death. Since that time this brave young officer has received three brevets, as Major, Lieutenant-Colonel and Colonel, for gallant and meritoriousservices. Colonel Ford is now in this city, having just crossed the plains from Colorado, where he is attached to General Dodge's staff.

DR. JANSEN'S SKATING PARK.-We call attention to the advertisement of the Cenattention to the advertisement of the Central Skating Park, Fifteenth and Wallace streets. ROBBERY AND ASSAULT.-Robert Mc-Cormick, alias Geo. Bowers, was before Ald. Beitler yesterday afternoon, upon the charges of larceny and assault and battery. It seems that the defendant and others were observed by James Mahan to remove sev-eral articles of clothing from the front of a store at Seventh and Market streets. Mahan attempted to arrest one of the party, and a fight ensued. Mahan was getting rather the worst of the bargain, when Detective Henderson came along and arrested Mc-Cormick. The accused was held in \$2,000 bail for a further hearing.

A TELEGRAPHIC FEAT.-Last evening one of the most difficult feats known to telegraph operators was performed at the Washington office of the American Telegraph Company, by Mr. Findlay. He re-ceived the Associated Press dispatch from time without breaking—listening to the sound of two instruments and writing out the messages, one with his left and the other with his right hand. To those convergent with this city over two different wires at the same versant with telegraphing the difficulty of this performance is well known.

STEALING FROM THE CONTINENTAL Ald. Beitler had before him yesterday afternoon, Thomas Williams, a young colored man, charged with larceny. Williams had man, charged with larceny. born and lowly, comes the Universal Voice of praise for HALL'S VEGETABLE

It is a perfect and miraculous article. Cures baidness. Makes hair grow. A better dressing than any "oil" or "pomatum." Softens brash, dry and wiry hair into Beautiful Silken Tresses, But, above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.

Use it a few times, and PRESTO, CHANGE:
the whitest and worst looking hair resumes its youthful beauty. It does not dye the hair; but strikes at the root and fills it with new life and coloring matter.

It will not take a long disagreeable trial to prove the truth of this matter. The first application will do good; you will see the NATURAL COLOR returning every day, and BEFORE YOU KNOW IT, the old, gray, discolored appearance of the hair will be gone, giving place to instrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer: no other article is at all like it in effect. You will find it

THE COLD SNAP .- There appears to be no "let up" in the cold weather, and the skaters and ice dealers are rejoiced thereat. The freeze is good for various classes of business, and particularly for the coal trade as represented by W. W. Alter, No. 857 N. Ninth street. His stock is very large and unusually good and cheap.

FASHIONABLE CONFECTIONS.—The more pure and elegantly manufactured articles are, the more certain are they of securing the regard of the community. While inferior articles soon disgust the public, and cease to be salable, really fine manufactures become tashionable, and all others are discarded. It is has proved to be the case with the splendid confections of every kind manufactured by Mr. Stephen F. Whitman, No. 1210 Market street, Philadelphia. In every part of the country they are known, and are now to be seen at all the fashionable parties in the great cities.

great cities.

MINING COMPANIES. PROSPECTUS

OF THE

CARSON GOLD MINING COMPANY

NORTH CAROLINA.

The Land of this Company consists of 120 ACRES in Mecklenberg county, North Carolina, 3½ miles from the town of Charlotte, on a branch of Sogar Creek, which stream furnishes gook water power for grinding the orea. This Misses gook water power for grinding the ores. This Mine was first opened in 1838 by a mar named Carson, who worked it successfully for a num-ber of years. He died in the town of Charlotte, in 1846, worth over half a million dollars.

Two shafts have been sunk on this property, one of them 80 feet, the other 60 feet, on different veins sveraging from two to three feet in thickness, which eins still continue on down increasing in width and richness. These shafts are in good order, and ore can be readily taken out at any time. Other veins have been liscovered on this property, and tested and proved to se very rich in gold. The ores of this mine are know as the brown ore, and very rich, yielding readily \$10 per bushel. This is believed to be one of the best and most certain mines in the State, on account of the most certain mines in the bore, and ease in which it is obtained and reduced. This property has been worked by Major Z. A. Grier from 1840 to the breaking worked by major Z. A. Grier from 1840 to the breaking out of the war. This Company have purchased this property, and intend to erect machinery and put the mines in immediate operation. The many advantages of this mine over the mines of Colorido and Nevada can hardly be estimated. It is more readily reached, and has abundance of fuel, with cheap labor. It can be worked all the year, and not, as in the case of Colo rado and Nevada, be compelled to lie idle for three or our months in consequence of the severity of the

This mine having been worked for a long time proved to be a rich paying one. We do not, therefore have to incur the risk there is in an undeveloped pro-perty, but can count on large and immediate returns on the investments. Having an ore that readily yield on the invalid name estimate can be made of the value of this property. With the present imperfect system of mining in this locality, and absence of pro per machinery, ten tons of this one can be taken out fishly from every shaft opened. Estimating, say 15 bushels to the ton, the daily yield will be \$1,500 from one shaft, allowing \$300 perday for expenses. The ne days to the year, the yearly proceeds will be \$360,0 which yield can be largely increased by extending the works. This is considered a very low estimate of the capacity of this mine by experienced miners of that locality. The Assayer of the United States Mint at Charlotte, in speaking of this property, says it has few equals in productiveness in that country, and with roper management and machinery the above pro-

L'AFRICAINE was first produced in America at the New York Academy at a positive extra expense of over TWELVE THOURAND DOLLLARS. By a contract made in April last, this Director obtained for this season the RN-11RE COMPANY, OHORUS, COSTUMES and MISE EN SCENE of the New York Academy. The extra and additional expenses at tendant upon its production here consist in part of A large extra Orchestra, of the first instrumentalista engaged and transported here from the Academy Orchestra, New York and from the celebrated Ma-ine Band Orchestra, of Washington, together with others of equal taken engaged from this city.

A large extra Ballet and Supernumerary force, mainly from the New York Academy.

The transporting of the immense and extensive SHIP SCENE from New York to this Academy.

I he making and painting of several new scenes, including the UPAS TREE.

It is positively not within the knowledge of the Director (although he believes he has enjoyed the greatest average op-ratic patronage) that at the usual prices this Academy has ever receipted in any night the CAPACTAL COST OF EACH REPRESENTATION OF L'AFRICAINE.

The rates of admission and Secured Seats are, therefore, ne essarily advanced, although the price is nominal when compa ed with the rates of even he least Opera nouses of Continental Europe, attendant upon the nights of the first of the same as each tepresentation of the Opera in New York during this season.
