From Washington.

[Special Despatch to the Bulletin.]
WASHINGTON, Jan. 9.—The Reconstruction Committee had a protracted session this morning. They discussed the question at length as to the course that ought to be pursued respecting the admission of the Southern States, but arrived at no conclusion. They meet again to-night.

The Ways and Means Committee had under consideration to-day Secretary Mc-Culloch's financial bill, but came to no conclusion. They have invited the Secretary to an interview, which will take place to-morrow or next day.

The Committee on Banking are reconsidering the question of removing the Currency Bureau to New York. It meets with opposition.

From Portugal. WASHINGTON, Jan. 9.—The following letter has been received at the Department of

LEGATION OF THE UNITED STATES, LIS-BON, December 8, 1865,—Sir: The enclosed copy of a translation of a law just passed by the Cortes, has considerable importance in a commercial point of view, which might not be understood at a distance without explanation:

A number of years past commerce in the article of port wine was limited to a certain geographical district in the north of Portugal, and regulated by various restrictions which rendered it a monoply in the hands of growers and speculators. The original law was doubtless intended to protect the purity of the wine, but after some experience, it was found that the official certificates which were necessary for the exportation of the wine and which were applicable only to a particular area of territory were used to cover growths outside those limits, and in fact were sold freely as mercantile commodity, consequently the aim of the restriction policy was virtually destroyed. Repeated and persistent efforts were made of late years to remove all restrictions to the free commerce in this description of wine as in others and to allow the whole productions of the Minho region, which is exceedingly fertile, to enter the markets of the world, each description dependent on its own merits for success. After a long contest, the liberating law has triumphed, and under the auspices of a minister who was among its most formidable opponents, I have reason to believe that one of the immediate effects of the new policy will be to enlarge the commerce with the United States, and for that reason I have deemed it proper to state these facts, for information-I have the honor to be, sir, your obedient

JAMES E. HARVEY. Hon. W. H. Seward, Secretary of State. TRANSLATION.

QUITE A DIFFERENCE.—The intense cold weather is gradually subsiding. The change in the atmosphere since yesterday morning is great. When the mercury in the ther mometer stood at eight degrees below zero yesterday morning, it indicated eight above that point to-day. The sharp cutting wind which prevailed during Sunday night and yesterday forenoon, died away in the afternoon. This caused a moderation in the weather and the morning commenced to be weather, and the mercury commenced to as-cend rapidly. During last night, however, the wind arose again, and the thermometers generally stood at zero, between midnight and daylight, while at Chestnut Hill and other exposed points in the suburbs of the city, several degrees below were reached. At noon to-day the thermometer, with a

northern exposure, stood at 22 degrees. The thermometer at the BULLETIN Office ot one o'clock this afternoon, indicated 25

THE GERMANTOWN MURDER.-The police of the Twenty-second Ward, and the detective officers, are working diligently to unravel the mystery surrounding the brutal murder of Miss Mary Watt, at her residence on Queen street, Germantown, on Saturday morning last. Berger, who was arrested by Sergeant Dickinson, is still in custody. Developments made yesterday go to con-firm some of the suspicions that the prisoner was implicated in the bloody affair.

It is stated that Miss Watt made a will

about eight years ago. She bequeathed all her property, stocks, money and real estate to the Rev. Mr. Mayer. She owned the house in which she resided, and had four shares of Germantown Bank stock, seven shares of stock in the Merchants' Exchange and about \$1,500 in 7-30 and 5-20 United States bonds.

THE ICE CROP.—The ice dealers have /commenced to gather in their harvest. The cutting on some of the fine ponds in the suburbs of the city began some days ago, and this morning operations were commenced on the Schuylkill. The ce this year is superior to that obtained last year and should the present cold snap continue for a week or two the most of the dealers will have their houses filled,

SCHOOL CHILDREN FROZEN. - Many points in the Fifteenth Ward are much exposed to the cold blast of the wind, and yesterday morning children suffered greatly while on their way to school. At the Primary School at Nineteenth and North streets, three children became insensible after reaching the buildings. One of the Directors who was present promptly sent for a physician, and the proper restoratives were applied. For some time it was thought that one of the children would die, but the kindly care bestowed upon all of them soon restored them to consciousness.

THE DELAWARE.—The ice which choked up the Delaware yesterday so as to almost obstruct navigation, commenced to move obstruct navigation, commenced to move slowly this morning. The Camden ferry-boats, with some difficulty, manage to make regular trips, and some of the larger class of steam tugs get along below Market street. The city ice-boat is at work to keep the channel open below the city. From present indications, those who had made up their minds to walk across to Camden will be greatly diseapointed. greatly disappointed.

THE FIRE PLUGS .- Severest conflagrations generally occur in the coldest weather and are, in most instances, caused through the carelessness of persons in not looking properly after their stoves. There are some apprehensions that the fire plugs have not been attended to and may be frozen. This is not the case however, under the direc-tion of Chief Engineer Birkenbine, a thorough inspection of the plugs has been made, and measures have been taken to prevent any of them from freezing.

FIRE.-A fire occurred about six o'clock last evening at the residence of Colonel C. McDougall, at No. 1935 Vine street. The fiames originated from the heater in the cellar, and before they were extinguished burned a hole through the floor into the parlor, The furniture was much injured by fire and water.

CHARGED WITH ROBBERY. - Samuel Mills was before Alderman Allen this morning upon the charge of larceny. He has a room on Market street, above Forty-second, and vesterday invited an old man in out of the cold. After the latter had got into the apartment, it is alleged he was robbed of 75. Mills was committed to answer.

THE SCHUYLKILL.—The river Schuylkill has been tight for several days, but the cold weather of Sunday and yesterday has made the ice very solid. A large number of persons were upon the ice this morning enjoying themselves in various ways.

DEATH OF A TELEGRAPH OPERATOR .-Mr. Robert A. Hirst, an operator on the Police and Fire Alarm Telegraph, through the administrations of Mayors Vaux and Henry, died this morning. He has more recently been stationed in the Fifth Ward. THE SERGEANTS OF POLICE,-This morning the Sergeants of Police in the city were

A MOVEMENT has been inaugurated in Gloucester, Massachusetts, for the erection of a "Memorial Hall," in honor of the soldiers from that town who have fallen during the late war. It is proposed to erect, at a cost of about \$20,000, a building having in it a hall suitable for the requirements of the town, to be let for public uses, the net proceeds to be devoted to the relief of the widows and orphans of deceased soldiers, and to the aid of returned soldiers in desti-tute circumstances. The building will be of a style of architecture appropriate to its character, and will have inscribed upon its walls the names of all who have died in the country's service from the town; and beneath the corner stone will be deposited a list of the names of all who have served in the army and navy from the town at any time the companies raised by the town, a list of contributors to the memorial, and such other records as are suitable to be preserved

in like manner. CONVICTED OF GAROTING AND ROBBERY. J. J. Gillespie, charged with garoting and robbing a soldier named John Dugan, was tried last week by Judge McEntee, of the Provost Court, in Richmond, found guilty and sentenced to ten years' confinement, at hard labor, in the Virginia penitentiary.

Judge McEntee expressed his regret that it was not in his power to extend the time to twenty-five years, as he desired to make an example of the desperate rascals who are going about garoting and stealing in the boldest manner.

A SMART LAD .- A boy from the country was recently taken into a gentleman's family. One evening, after having been called up into the drawing-room, he came into the kitchen laughing immode-"What's the matter?" cried the rately. "What's the matter?" cried the cook. "Why," said he, "there are twelve on em up there who could not snuff the candle, and they had to ring for I to do it.

A CURIOUS EPITAPH .- The following curious epitaph may now be seen in Denmore churchyard, Ireland: "Here lie the remains of John Hall, grocer. The world is not worth a fig, and I have good raisins in saying so."

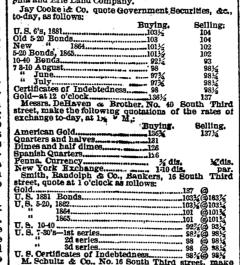

COMMERCIAL.

SALES OF STOCKS.

Finance and Business-Jan. 9, 1866. The Money Market continues easy, and there is nothing in the financial horizon that would seem to indicate a change for some time to come. There is nowever, a marked absence of any extensive specula tive operations in either stocks or merchandise, and the supply of capital afloat on the street is considerably in excess of the demand. Government Leans noved sluggishly to-day, but without much change from yesterday's quotations. The Coupon Sixes, '81, closed at 104@104½; the old Five-Twentles at 103¼@104; he new do. at 101%@102; the Seven-Thirties at 98%@ 98%, and the Ten-Forties at 93%@93%. Schuylkill Navigation Preferred was offered at 29, and Lehigh Navigation at 55. Oil stocks were very heavy. Coal stocks were not so strong. Mahanoy sold at 7%@8; St. Nicholas closed at 9. In Passenger Railway shares the only sale was

of Spruce and Pine Streets at 35. We were in error yesterday in saying the Philadel phia and Eric Railroad Company had decl per cent dividend. It should have been the Philadel hia and Erie Land Company. Jay Cooke & Co. quote Government Securities, &c. coday, as follows:

MARINE MISCELLANY.

Steamship Minnetonka, of Philadelphia, which was subk in the Mississippl River recently, by collision with the sunken steamer Mississippl, below N Orleans, has a valuable cargo and is fully insured. Steaming Norman left Philadelphia on Saturday with hose capable of discharcing wow gallons of water per minute, and other apparatus for raising the ship.

Ship Escort, Capt Filtner, which arrived at N York on Saturday from Liverpool, remained at anchor in the North River until yesterday morning, when the drift ice came down with the ebb tide with such force as to cut her through forward, making it necessary to run her ashore on the fiats near Bedloe's Island. Sufficient cargo will have to be taken out of her to get at the break in her bow, when she will be easily got off.

A letter from Capt Nickerson, of ship Jennie Hight, to one of the owners, says that the ship went on to Carysfort Reef (as before stated) is a dark and stormy night, and that they had gone to Key West for assistance, with the hope of either getting the ship off or of saving a part or the whole of the cargo. The owners, however, have but very little hope of saving anything. The vessel was lying easy when left, but another storm has is ken place sub-equently. All the passengers and crew had arrived safely at Key West, after being out two days and two nights in open boats. The fitmales were taken off by one of the sponse collecting boats on the reef. The ship was worth from \$20,000 to \$0,000,00 melicity, with lumber, potatoes, &c,the cargo being about fully insured.

The steamship Ibis, belonging to Cork, had been wrecked near that place and about twenty lives were lost.

At Cork, on December 21st, Charles Underwood O'Connell was found guilty of treason-felony and was sentenced to ten years' penal servitude. He made an eloquent speech, and after being sentenced, expressed the earnest hopethat there could be an exchange of prisoners before his sentence expired.

[Horse-Continued from Second Edition.]
Mr. Washburne (Ill.) brought to the attention of the House a Washington letter, written by Mr. Baldwin (Mass.), to the atter's paper, the Worcester Spy, saying that the purpose of proposing the bill to facilitate commerce between the States was to release the Illinois Central Railroad from

its obligations to carry the mails, &c., free of charge in consideration of land grants. Explanations followed from several gentlemen. Mr. Baldwin (Mass.) maintained that such was the legal construction of the hill, while Mr. Washburne disclaimed any

such intentions.

Finally the Senate was requested to return the bill, as it was prepared under a misapprehension.
