Interesting from Mexico. NEW ORLEANS, Jan. 16 .- A citizen of San Antonia, who arrived there on the 3d inst. ,n ten days from Monterey and Saltillo reports that the French troops had fallen

back to San Luis Potosi. The Matamoras Ranchero of the 5th contains the following: Several officers and men crossed from Clarksville, Texas, and took up their quarters apparently for the night. Shortly after midnight the guard at the ferry along the river were surprised and disarmed by this party. Such lighters as were at hand were immediately seized, and with them they crossed and entered the

town. The military force at Clarksville was 100 strong, mostly negroes. The garrison of Bagdad' of about 175 men, were completely surprised and captured. The commander of the post and captain of the post were taken prisoners while in bed. It is reported that the former was killed, but the latter

escaped. Upon taking the town, a scene of pillage and plunder was inaugurated. The warehouses were gutted and the contents taken across to the American side.

The guriboat Antonio was called upon to surrender. She answered with a broadside which scattered the filibusters. A second demand was made and answered in the same manner. The Antonio was bound up the river. An Austrian sergeant on her was killed.

The French men-of-war in the harbor, opened fire, compeling the filibusters to take refuge in the upper part of the town. At the last accounts the filibusters still

held the town. The deaths are reported to be thirty-one on each side. It is stated that the filibusters are commanded by General

Gen. Crawford had started from Brownsville for the scene of action. The last accounts say that 1,300 Imperialists left Matamoras to attack the filibusters.

NEW ORLEANS, Jan. 16 .- Four hundred filibusters under Col. Reed crossed the Rio Grande from the American side and captured Bagdad on the Mexican side, below Matamoras, taking prisoners the Imperial garrison of 150 men. Captain Mintey, of the steamer Evening

Star, from New York, broke his leg on the trip out here and died.

The Ways and Means Committee, to-day, considered the Loan Bill, but reached no conclusion. They are in doubt respecting the right to engraft the foreign loan feature in the bill and are consulting former laws in such matters.

[Correspondence of the Associated Press.] Washington, Jan, 17.—The Forty-ninth Annual Meeting of the American Colonization Society was held last night. It was not so largely attended as the meetings have been for several years past, but a number of the old and time-honored leaders of the Colonization movement were among the auditors.

The report states: "The balance in the Treasury at the commencement of the year was \$1,523 33. The receipts have been from donations \$5,588 27, and from special donations for the Barbadoe's expedition \$1,504. 76c; from legacies, \$5,736 08; from the Government of the United States, being final payments for the support of the recaptured Africans landed in Liberia in 1860, \$16,662 50; from the invested fund realized to meet the expenses of emigrants, \$11,700, and from other sources, \$13,773 26, making the total amount during the year, \$46,819 20. The disbursements for the same period were \$41,734 87 of which \$9,259 26, was for the passage and the usual support, &c., of American emigrants: and \$10,367 98 was for the Barbadoes expedition, leaving the cash on hand January 1st, 1866, \$5,083 34. Of this latter, \$4,885 37 is awaiting the order of the Liberian authorities, and the balance, \$195 97 is to the

credit of the Society. The number of emigrants to Liberia during the past twelve months was 527, exceeding the emigration of any year since 1856. One hundred and seventy-two emigrants who were sent out by the fall expedition

known as freedmen and who were from or near Lynchburg, Va., arrived safely in Li-

The prospects of the future are, that the society will soon have more than ever to do, as intelligent freedmen are continually asking questions relative to their transfer to Liberia. Though the African Republic during the last four years has been deprived of the aid annually furnished from this country, it has been making steady progress in material interests, usefulness and influ-

Serious Fraces in Kentucky. NEW YORK, Jan. 17 .- The Herald's Cincinnati despatch states that a serious fracas of a political character has occurred at Richmond, Kentucky, between two families named Parish and Kavanagh, and their partisans. The Prize Fight. NEW YORK. Jan. 17.-Kerrigan was the winner in the prize fight which came off yesterday at Port Jervis. Eighteen rounds were fought when Phelan's strength failed. Phelan having been thrown in nearly every round.

Fire in Montgomery County. At three o'clock this morning the shovel manufactory of Thomas Rowland & Sons, at Milltown, Montgomery county, about three miles from Frankford, took fire accidentally and was totally consumed. The loss is \$25,000; insurance, \$8,000. About fifty hands are thus thrown out of employment. The finishing shop, adjoining, was also burned. Several neighboring tenement houses caught fire, but the flames were extinguished with slight damage. Two fire companies from Frankford came upon the ground and were of service in extinguishing the fire among the ruins.

The Death of Mary Ann Gilroy. New York, Jan. 17 .- The Coroner's jury in the case of Mary Ann Gilroy, the frozen passenger of the ship Neptune, concluded their investigation last night. The verdict reprimands Captain Peabody, and found Doctor Herwick guilty of neglect and incompetency, and considers his case a proper one to go before the Grand Jury. He was placed in charge of the police by command of the authorities.

The West Virginia Legislature: WHEELING, WEST VA., Jan. 17 .- The Legislature of West Virginia was organized yesterday by the re-election of the former officers. The Governor's message is a clear, forcible document, and the result of the financial exhibit of the Auditor General's and Treasurer's report, is very flattering. The Adjutant General's report shows that West Virginia furnished to the Union army over 31,000 men. The Governor commends the free schools to the fostering care of the Legislature, and recommends liberal legislation to facilitate the completion of the James River and Kanawha Canal, and the

THE FREEDMEN IN TEXAS. - The Houston Telegraph, of late date, gives encouraging news concerning the disposition of the freedmen to enter into contracts for 1866. No doubt most of this is due to Genera

Gregory's zealous and indefatigable efforts in traveling among the freedmen for the last six weeks, and addressing them in plain terms on their duties as well as their rights. More than half the freedom on the plantations in the lower part of the State had engaged their homes by the 25th ult., and would be ready to go to work after the holidays. The Telegraph says the contracts are various. Some are for a specific monthly pay, also clothing, food. doctor's bills, an acre of land, and Saturday afternoons; others for specified monthly wages without anything but board; others for a share of the crop, and others still on wages now, and so much a hundred for cotton picking. Some pay monthly, others quarterly, others the first quarter's wages at the end of six months, and balance at the end of the year. Some furnish clothing and medical attendance, and charge it against wages. No fixed rule was made, and the matter was left as much as possible to the law of sup-ply and demand. Those who are under-

taking the plantations are mostly their owners, though large farms are being rented both by Northern and Southern men. ATTEMPTED CHURCH BURNING .- On Sunday evening an attempt was made to burn Dr. Hall's church, in Providence, R. I. After the evening service, and the congrega-tion had withdrawn, the two or three persons remaining discovered, just as they were closing the building, that it was on One of them thought of the belfry stairs, where once before an incendiary fire was kindled, and to that point they proceeded, when up under a door leading to the bell-deck, which was locked, they found a compact bundle of rags, held snugly together by careful stitching, and with two long trains attached, all saturated with camphene or kerosene, and the trains burning slowly up toward the bundle. The intense smoke emitted by the burning trains had penetrated to the lower part of the house sconer than the incendiary expected, and the wicked scheme to burn one of the most beautiful church edifices in the State was

happily frustrated. A LITERARY MONOMANIAC.—One of the most remarkable of literary lunatics was John Stewart, commonly known as "Walking Stewart," who died in London in 1822, Attacked early in life by the mania of traveling, he soon traversed on foot a great portion of the globe. He then began to write books, of which he printed upwards of twenty at his own expense, which he distributed cautiously among his friends, so that they now have become rare. They were chiefly devoted to what he calls "The Polarization of Moral Truth." He was baunted with the notion that the Kings of the earth would one day combine to destroy his writings, and so he begged those who received the precious deposits to envelop hem carefully, and bury them six or eight feet under ground, being careful to disclose only upon their deathbed, under a pledge of secrecy, the spot where they were en-

THE LAKE TUNNEL at Chicago is rapidly progressing. Immense fields of ice, during the late severe weather, dashed against the "crib," which is situated out in the lake about two miles, and created no little alarm among the workmen, but as yet the "crib" has not been moved. The boring toward the shore has reached a distance of fifteen feet. The clay at this point is much easier worked than that at the shore end.

WALNUT STREET, PRICES OF STOCKS IN NEW YORK.

Finance and Rusiness-Jan. 17, 1866. There was but little spirit at the Stock Board this morning, and prices, particularly for Railroad shares, rule irregularly. The litigation in reference to our Western connection cannot fall to have a material effect upon the value of Railroad securities, and the decisions of the Court are looked for with the deepest anxiety. That the proposed connection with the Atlantic and Great Western Railroad will be a severe blow to the interests of Philadelphia, none will deny, Pennsylvania Railroad declined &, and closed at 54. COURTS.

Nist Prits—Justice Read.—The Pennsylvania Railroad Company et all. Yesterday Mr. Charles Gibbons commenced his argument in behalf of the complainants. He referred in his opening to the immense array of talent on the other side, and suggested that any great criminal could always secure the services of eminent connsel in order by the personal and professional aid to influence by their sympathies a great portion of the community. The magnitude of the interest involved is this controversy, would excuse the wide range which the discussion had taken. After referring to the struggle for the commence of the West. Mr. Gibbons adverted to the listory of the effort in Pennsylvania, commenced as early as 1731, when the State purchased from the Federal Government the Lake Shore coast, and thus secured possession of the harbor of Erie. Then commenced the work of the State, for the purpose of opening communication between Erie and the Atlantic ports, especially Philadelphia Turnpikes and Plank Roads, were first suggested, and it was remarkable that when the State depended upon their alone for her internal commence, theships for the port of Philadelphia traded with every port in the world. In 1837 the Sunbury and Erie Rilroad Company was incorporated, but notwithstanding the legislation designed to benefit the Company, it falled to construct the read, and finally, under the provisions of the act of 1850, the contract was made with the Pennsylvania R. R. Company, which corporation agreed to do that which the clitzens of Philadelphia had failed to do This morthing, before Mr. Gibbons resumed his argument, Mr. Cuyler read a large number of affidavits to show that the policy of the Pennsylvania Rallroad Company had always been to discriminate in favor of Philadelphia, and, in doing this, had been engaged in contests with rival roads, whereby she suffered great loss until she succeeded in obtaining from the New York companies a recognition of the right of Philadelphia to have a reduction in the rate of folls.

Mr. Gibbons Raintoal Company does work a very serious injury to
the Philadelphia and Erie Railroad Company. It
transfers to an avowed enemy what was
granted to a friend with the understanding
that it would not be used to our detriment: in the conridence that it would be used for the mutual beceft of
both the contracting partles; in the confidence that it
would not be disposed of to any corporation then in
existence, and which might hereafter be created
through these speculators of the Ro al Exchange.
Mr. Gibbons next discussed the question whether the
Court had jurisdiction in this case. He urged that it
was a clear case for the interposition of the Chancellor,
It was not an application for the enforcement of any
iorfeiture. All that was asked was that this contract
shall be surrendered to be canceled.
At 12 o'clock Justice Read announced that he had to
join his brethren in the Supreme Court in consultation,
and the argument was postponed until to-morrow.
