

lars in their successful struggle with the New York roads in 1859, and the geographical advantage of Philadelphia over New York was thus secured and has since been conceded. But whether the Pennsylvania Railroad could maintain this advantage for Philadelphia if the "great through route to New York" be built by the British capital of our new friends, we must leave for our readers to think about and discuss. In their Cata-000 on twelve months credit. Another wissa lease they say the distance of the sale of 2,000 acres containing about half "great through route to New York" will be one hundred miles shorter than its present route via Salamanca and the New York and Erie Railroad, and as •a matter of course, in any struggle in the future to preserve the natural advantages of Philadelphia, New York, by the assistance of our new friends, will have gained just so much.

4

years.

de18 5t w tf

Whether the stockholders of the Pennsylvania Railroad would be willing to enter into another contest with their all been paid. former advantage in distance thus reduced, we know not. Thus far in the history of this road their spirit, enterprise and attachment to Peonsylvania mines to the North Branch canal, at and Philadelphia interests are proved by | Towanda. The other companies will the sacrifice to secure the trade, and in | transport their coal over this road, which is about fifteen miles long. It is works of extension and improvement to estimated that about \$200,000 will be increase and accommodate it. While Sir Morton Peto promises to our new required to develop the latter property fully, and bring their coal into use. friends a division of all the Adjoining the Barclay Mountain, the earnings of the Atlantic and Great Fall Creek Company, of New York, Western's great through route to New York, in dividends, every dollar of own some land, which they are developthe earnings of the Penn-ylvania Railing. The coal in this region is bituminous, and of excellent quality. Only road, beyond a moderate dividend, has fifteen years ago, all the above property been expended in promoting the incould have been purchased for \$20terests of the commonwealth and the 000, or about one dollar per acre. city of Philadelphia, and every other city, village and hamlet on its line.

THE SLUSH DEPARTMENT,

We are going through our annual dispensation of slush, brine and mud at the hands of our friends, the railway companies. Since the careful scientific investigation given to this interesting subject a few years ago by these public benefactors, the merits of this excellent Empire State presents. Even at the though somewhat nasty compound have present period, our coal trade is over been fully recognized. We hear rumors seventeen millions of tons, which, at seven of a new branch of the City Government dollars per ton, amounts toone HUNDRED to be established which will be called AND NINETEEN MILLIONS of dollars, as the Slush Department. It is to consist the value of the product of 1865. Such of a Chief Commissioner of Slush, with facts show the vast importance of the several assistants, nominated by the hidden treasure of the Keystone State, Board of Railway Presidents, and to refrom her geographical position. tain their offices during bad behaviour. Their salaries are to be liberal, and no questions asked. The duties of the Deopens with a tolerably fair statement conpartment will be to extend the benefits cerning "English Opinion on the American of Slush to the pedestrians of the city. It has been ascertained to the satisfaction of our savants that Slush is a blessing. It preserves leather. It improves ell and Charles Reade are continued. There the health. It bleaches the stockings is also a clever sketch called "A Landscape and skirts of the ladies. It beautifies | Painter," by Henry James, Jr. The second the person generally. It is an advantage | part of Mr. Hawthorne's Note-Book consists to the streets themselves. And it is a of a delightful diary of a sojourn in Maine
