ARREST OF BANK ROBBERS.

The French in Mexico. NEW YORK, Jan. 22.—A special despatch from Washington to the World says there seems to be no doubt that, by the last steamer from Europe, the State Department received positive imformation from Paris that the French troops will be withdrawn within a stated early period.

The Herald's special despatch from Washington says, the French Minister has applied to the State Department for information regarding the recent capture from the Imperialists of Bagdad on the Rio Grande, but as no official despatches with reference to the affair have been received. he cannot be gratified.

Gen. Sheridan has been instructed from Washington to investigate the affair, and punish any United States soldiers that may have been engaged in it.

Affairs on the Rio Grande.

NEW ORLEANS, Jan. 21.—Advices from Brownsville to the 15th inst., give an impartially correct statement of the Bagdad affair.

A party of 123, most of whom being colored soldiers of the 118th U.S. Regiment, under Col. Reed, crossed the river at Clarksburg and divided into three squads.

At 4 o'clock, on the morning of the 5th, the first squad proceeded to a camp, which they captured with about 400 prisoners and 4 pieces of artillery.

The second party proceeded to the ferry, at which an Imperial guard often men were stationed. The officer commanding the guard stood his post bravely, emptying his revolver, when he was shot down, whereupon the others' surrendered. One Imperialist was killed and another wounded. Three of the party proceeded to capture Colonel Rice, the Post Commander, who escaped while the party was in the house, but was afterwards captured.

A squad of ten men were then detailed to take the Antonia, and they fired on her, killing a sergeant and wounding several others. The Antonia fired a volley, killing two and wounding one. The attacking party then fired two shots from a howitzer. one of which passed through her just above the water-line.

On the morning of the 6th a French frigate lying outside shelled the place. Shots were afterwards freely exchanged between the Liberal howitzers on the beach and a howitzer boat from the French frigate, but no damage was done, excepting the creating of a panic among the citizens, who crossed to the American bank.

A detachment of two hundred men from the 118th Colored Infantry was sent over to protect the American citizens and remained until the evening of the 7th, when a detachment of the 46th Colored Infantry relieved them, with instructions, it is said, to withraw in case the Imperialists made an attack upon the town.

The French mail steamer which was lying outside the bar left immediately after the affair, probably for Vera Cruz. Bagdad is nearly deserted. The plunder

and pillage of the town was uninterruptedly kept up. A large amount of goods had been crossed over to Clarksville. All the stolen property that arrived at Brownsville is seized and returned to the proper owners. After wrangling for several days with Escabado, regarding the right of command, General Crawford left for New Orleans, where he has since arrived, looking after

reinforcements and supplies. A small force of Liberals are fortifying Bagdad with cotton bales, heavy guns, &c. Three French transports arrived off the bar

on the 13th. General Mejia had commenced building earthworks and mounting guns, two of which are 64-pounders, between Matamoras and the river, but in a position to command

Brownsville. General Mejia had notified General Weitzel that if he is attacked from the American side he will open fire, and it is most likely

some of the shots will lodge in Brownsville. General Giles A. Smith was immediately sent over to ascertain General Mejla's intentions. The result of the meeting had not transpired, but it was believed that a belligerent communication had been received. and General Weitzel had ordered the rebuilding of old Fort Brown, which is being mounted with thirty pounder Parrott guns.

A large pontoon train was being rapidly put in good order. General Mejia, apprehending another Liberal attack, is trying to make another forced loan, which causes much uneasiness. Several of their own contra-guerillas, in

attempting to desert, by crossing the river, were drowned.

ing at Matamoras are looked upon distrustfully. Officers and men are not allowed to

cross the river. On the 14th General Weitzel reviewed his troops in Brownsville. All were in good

[Special Despatch to the Bulletin.] WASHINGTON, Jan. 22.—The Reconstruction Committee is still engaged in taking evidence. The witnesses examined thus far represent an unfavorable condition of affairs at the South. The other side of the question is yet to be brought out.

Secretary McCulloch's financial bill still hangs fire in the Ways and Means committee. It will probably be reported tomorrow. Delegations of leading Democrats from New York, Pennsylvania and New England, are here in conference with the President. They give him positive assurances that they will stand by his reconstruction policy.

WASHINGTON, Jan. 22.-The Reconstruction Committee have just decided to report to-day an amendment to the Constitution to the effect that whenever the elective shall be denied or abridged in any State, on account of race or color, all persons of such race or color shall be excluded from the basis of representation. The report is signed by all the members except one.

[Correspondence of the Associated Press.] WASHINGTON, Jan. 22,-Colonel Whittlesey, Assistant Commissioner of the Bureau of Refugees. Freedmen and abandoned lands in North Carolina, reports that so generally have the freedmen sought employment and obtained it that the demand for laborers cannot be easily supplied. He says "the expectation that lands would be granted to them by the government, a hope first kindled by the rebel politicians in their effort to fire the Southern heart and afterwards increased by the confiscation act, has now passed away. All the officers of this bureau discountenanced such hopes by public addresses and circulars widely scattered; but so fixed had they become before the war closed that it was not easy to eradicate them. When, however, Christmas actually passed and the year ended without any gifts of the kind, it was admitted that we had told them the truth and they had been deceived by the talk of their former masters. So also, on the other hand, have the idle, conscience-begotten fears of insurrection passed away. All admit that a more quiet and orderly Christmas has never been enjoyed in this region. The history of the world may be challenged for another instance of such good conduct in

similar circumstances as the freedmen have thus far maintained."

From Harrisburg. HARRISBURG, Jan. 22, 1866.—Governor Curtin made his appearance at the Executive Chamber to-day, where he received a large number of visitors, who called for the transaction of official business, or to congratulate his Excellency on his safe return

to the State Capitol. It is supposed in official circles that the Governor's message will not be ready for delivery to the Legislature before Monday next. As soon as the rush of visitors are over to-day the Governor proposes to commence the preparation of his message.

Fenianism in Canada.

NEW YORK, Jan. 22.—The Toronto (C. W. correspondent of the Herald states that the resson for the postponement of the meeting of Parliament till May next is the fear of a Fenian invasion during the winter.

The Provincial Fenians, though in favor of O'Mahony, are not opposed to an invasion by Gen. Sweenv. During one night last week word was

sent over by the discharged volunteers at Ogdensburg that the Fenians were coming. The garrison at Fort Wellington turned out to receive them, when the volunteers fired several shots, and the garrison, it is said behaved very badly. The volunteers then returned, satisfied with their sport. XXXIXTH CONGRESS-FIRST SESSION.

Frightful Explosion in Indiana—Five
Men Killed and Three Wounded.

[From the kvansville (Ind) Courier.]

Yesterday we received the startling intelligence of the explosion of a portable steam saw mill on Blue Grass creek, near Millersburg, about fourteen miles from this city, on last Saturday, in which almost an entire family lost their lives, or were horribly mangled. They were busily engaged sawing a pile of wood, anxious to finish the job before the day ended, and forgetting to try the water gauge, they were unaware that the supply of water had become ex-hausted. Suddenly the boiler exploded with a terrific noise, spreading death and destruction around,

Those killed outright were an old man named Jake Steinmetz, Mike Steinmetz, his son, who was found about fifty yards off, lying against a tree, with a large piece of iron near him, having been carried that distance by the force of the explosion; Henry Dennis; a man whose name we could not learn, but who was long and favorably known in the neighborhood as a quiet, in-

dustrious and hard working man.
The wounded were Mr. Klei, a piece of the wreck having struck him and lodged in his heart, the wound is mortal; Geo. Steinmetz, slightly in the arm; Geo. Steinmetz's grandfather, slightly in the head (we were unable to learn his name.) The funeral of the unfortunate men took place Sunday and was attended by a crowd of sorrowing friends. All five men were buried in one

EMIGRATION TO MISSOURI.—A letter from St. Louis says: "It is somewhat singular that in spite of the cold weather, many emigrants are constantly arriving in Missouri. Most of them are of the poorer sort, in search of employment. Though there is not much offering in the city or State there is a steady demand from the South, through various persons here. In the spring the provision for the comfort of emigrants passing through the city will be ample. The Mullanphy Emigrant Fund (a legacy eft by a public spirited citizen, to be ap plied to helping emigrants), is now in a condition to become useful to the emigrant. The Commissioners have rented a commodious building, which they are fitting up as a depot; and under certain restrictions, destitute emigrants are entitled to receive small sums of money to help them while seeking work. The State Board of Emigration is preparing to scatter printed information in relation to the advantages of Missuri, broadcast through the old country as well as in the East."

Harris J steelman, the mate, and Geo W Toleson, a resident of Hatteras Island, lived until the 12th inst, when they were rescued by the pilots. The feet of both were badly frozen, but is thought they will eventually recover. They were on the wreck almost five days, and during the last twenty-four hours previous to their rescue, fed from the dead body of the negro cook. The captain was one-third owner of the cargo, the balance owned by a firm in Philadelphia. Very little of the cargo has been saved, though the vessel had not gone to pleeze on the 18th. The body of the captain had been removed, and that of the cook would be taken off the next day. The P M was 65 tons register, built at Elizabeth city, NJ, in 1857, where she was owned.

WASHINGTON, Jan. 22. SENATE.—Mr. Sumner (Mass.) presented the memorial of the Boston Board of Trade, asking for the passage of a law to exempt Northern creditors from the operations of the Southern statutes of limitation. Re-

ferred to the Committee on the Judiciary.

Mr. Clark (N. H.) called up the bill in relation to the qualifications for jurors, providing that no person shall be disqualified from acting on a grand or petit jury by reason of his having formed or expressed an opinion upon the matter to be submitted to such jury, founded upon public rumor, newspaper statements, etc. It was the special order for Thursday next. The bill for the enlargement of the Freed-

A TERRIBLE AFFRAY occurred Saturday on a train of cars on the Memphis and Nashville Railroad. The train was near Collierville, thirty miles west of Memphis. Two colored soldiers, probably intoxicated, were on board. One of them charged a white man with stealing his canteen. The white man thereupon assailed the negro, when the latter drew a pistol and shot him dead. Miscellaneous shooting then com-menced between blacks and whites, in which one white man was severe'y and several slightly injured. The negro who killed the white man jumped off the train, but his comrade was riddled with bullets, and had his throat cut from ear to ear.
