The City Commissionership. The answer of John Given to the complaint of David P. or said division.

That a majority of the voters at the election held for judge and inspectors of elections to conduct the election in the Sixth election division of the Fourth Ward fraudelection division of the Fourth Ward fraudulently divided their vote for inspectors of elections, so as to elect two of their own number, representing their own political views, with the intent to deprive the minority of the right to have an inspector at said election, with the view and purpose to prevent a fair and due election, by the means and practices resorted to and acted upon and practices resorted to and acted upon by the said inspectors at said so-called election, held in said division; that in pursuance of said intent and purpose, the said inspectors did fraudulently receive at said election the votes of a large number of persons who voted for David P. That with the said intent and purpose, and with the desire of holding an undue election, and making a false return of votes cast for the office of City Commissioner at said election the said election officers did wilfully and fraudently neglect and refuse to per their most important duties, which the law directs them to perform, in order to detect

and prevent the perpetration of fraud. The same averment is made as the Fourth election division of the Twenty-fifth ward. That the election officers of an election held on said 10th of October last on board of steamship Princeton, one of the vessels in the naval service of the United States, received, counted and returned the votes of derived, counted and returned the counter of the persons alleged to be in the naval service of the United States for said David P. Respondent claims that the said seven (7) votes shall be added to the enumeration of votes for him for said office in ac-

cordance therewith. Whereby your respondent avers that he was not only elected to the said office of City Commissioner, but that the true vote for him for the said office is greater than the vote of the said David P. SAD ACCIDENT ON WHITE RIVER .- We are under the painful necessity of announce ing a most dreadful loss of life by the sink ing of a flatboat above Batesville, in which were two or three families, by striking a snag and sinking immediately. It seems that the persons in the flatboat were moving away from Arkansas, and while descend ing the river, unconscious of all danger, the boat struck a snag and sunk in less than five minutes, in a very rapid current. Out of eleven persons only two, a man and a woman, escaped a watery grave. Theother were mostly women and children. No warning was given the poor unfortunates to prepare themselves for so sudden a departure to that bourne from whence no ister to France.

departure to that bourne from whence no traveler returns. The accident occurred in broad daylight, on or about the 21st ult. Several of the bodies were picked up floating in the river by the steamer Catawaba a day or two after the catastrophe—Jackson port (Ark.) Herald. 8th.

Another Muller Chase Across the Atlantic [From the London Globe Jan. 1.]

A race of rather an exciting character is going on at the present moment, the course being the broad Atlantic and the goal New York, and the circumstances are somewhat similar to those that occurred in the case of the notorious culprit Muller, when he made his flight from this country after the murder of Mr. Briggs. The culprit on this occasion held a responsible position in the establishment of a city merchant, and the crime of which he is accused is the forgery of a check for £800 upon the City Bank, Threadneedle street. It would appear that about a fortnight back a check for the above amount was pre sented at the bank, purporting to be drawn by the firm to which the absconded clerk belonged, and the signature seemed to have been so well fabricated and the signature seemed to have been so well fabricated and the signature seemed to have been so well fabricated and the signature seemed to see the signature seemed t ricated, and the check was presented under such circumstances, that no suspicion was entertained and the money was paid. The culprits plans seem to have been well laid, for he sailed in the Saxonia, one of the swiftest of New York mail packets, on the very day after he got possession of his booty, and before the forgery was discovered he was far on his way across the Atlantic. His absence from his duty of course created suspicion and this led to inquiry and to the discovery of the forgery. Inquiries were at once set on foot, and the matter was placed in the hands of Hayden, the experienced city detective, and he succeeded in tracing the fugitive. He ascertained beyond a doubt that the criminal had taken his passage on board the above named vessel for New York in an assumed name, and that he was accompanied by a lady. Within four days of the discovery being made the officer had started in pursuit, and the two vessels are now making the best of their way to their destination. It will be remembered that in Muller's case that criminal took his departure in a sailing vessel, and that his progress was consequently comparatively slow, and the result was that although Inspector Tanner did not go after him until several days had elapsed, the steamer in which he took passage outstripped the other vessel, and arrived at New York a long time before her, and the vessel containing the culprit was boarded by the inspector upon her arrival a short distance from New York. In the present case, however, there is no chance of the Saxonia being outstripped by her follower, and she will in all probability arrive at New York several days before the one in which the officer has taken his passage; and, if he should make his way from New York into the interior, the chase may possibly prove a very lengthened one. It is anticipated, how ever, that he will make a short stay a New York after his voyage, and in thicase the officer will be quickly on his track; and, as there is a treaty for the extradition of criminals between this country and the United States, there will be no difficulty in the culprit being delivered up and brought back to this country. It is believed that the culpri

> English Railway Movements in China [From the Singapore Stratts Times, Nov. 22]
> From the North of China we have thing to record of the slightest importance. From Pekin there is absolutely no news. Sir Rutherford Alcock is on his way to Taku in her Majesty's steamship Barrosa, and will, we doubt not, push on at once for the 'capital, we hope, unopposed. No signs of any intention on the part of the Chinese government to keep him at a distance from the seat of government have as yet been manifested. On his way through Hong Kong and Shanghae his Excellency attention was called to some very important questions, which will no doubt afford him an opportunity immediately on his arrival of trying the temper of the Imperial Cabinet. During two days of hissojourn in this city a deputation from the local committee of the China Railway Company waited on him to lay before his Excellency a statement of what they had already done towards the at-tainment of the immediate object in view, the obtaining of the sanction of the Chinese authorities for the coustruction of a line of railway from Canton to Fatshan, and of the necessary powers as to purchase of land, &c. Repulsed in these attempts to influence the Viceroy of the Kwang Tung and Kwangsi provinces in their favor, and, instructed by Mr. Robertson that nothing could be done without the immediate authority of the Emperor, they placed themselve in his Excellency's hands, and besought him, in the interest of commerce and of civilization, to lend them the aid of his undoubted influence, personal and official, with the Cabinet of Pekin. Sir Rutherford promised, but held out very slender hopes of any early success. He deprecated the selection that had been made of an experimental line, and suggested one somewhat nearer to the capi

A Noble Donation to the College of Cali [From the San Francisco Alta Californian, Dec. 15.] The following communication from the Pacific Mail Steamship Company, in answer to an appeal for funds for the purchase of scientific apparatus and a library for the College of the Pacific, is one of the handsomest things we have seen in many a day, and needs no explanation:

AN EXTRAORDINARY TRANCE.-The Memphis (Tenn.) Bulletin says: Last the 11th, a woman named Thursday, Betty Withers, a negress, living on South street, who had been suffering for only a short time from an illness consequent upon overwork, suddenly breathed her last. Only about a week previous to this she had become engaged to a steady young man who owned a dray himself, and was getting along successfully. He was present in the room at the time, with the rest of the family, and his grief was heart-rending. The body was prepared for the grave, and amid the profound grief of many assembled friends it laid until the next morning, when her betrothed came to visit and take a last look at her face. While doing so, her eyes opened, fell upon him, he jumped back aghast, she raised her head and was relieved of the trance in which she had lain; but with one horrid, unearthly yell, her betrothed rushed past the door, disappeared, and has not yet returned. Betty immediately recovered. Yesterday was to have been her marriage day, but she was the only one there; and as two parties are indispensable on these occasions, the

ceremony is postponed until some more courageous Adonis appear. WATCHES AND JEWELRY. RIGGS & BROTHER, CHRONOMETER, CLOCK,
